

To: JOHNSTONE AND THE VILLAGES LOCAL AREA COMMITTEE

On: 21 MAY 2015

Report by: DIRECTOR OF COMMUNITY RESOURCES

**Heading: COMMUNITY SAFETY & PUBLIC PROTECTION,
 PROGRESS UPDATE**

1. Summary

1.1 This report provides a progress update on some of the activities the Safer & Stronger Renfrewshire Partnership have carried out in the Johnstone and the Villages area in quarter 4 (1 January – 31 March 2015). Statistical information has been provided by a number of partners including: Police Scotland; Scottish Fire & Rescue Service: and, Renfrewshire Community Safety Partnership. The report includes information on:

- Johnstone and the Villages community safety statistics;
- environmental enforcement and improvement activities;
- protecting vulnerable residents;
- building safer communities;
- diversionary activities; and
- the work of the Alcohol and Drug Partnership.

1.2 Overall, during quarter 4 recorded crime remained at a similar level within the Johnstone and the Villages area when compared with the same period in the last year.

1.3 The extension of weekend working hours allowed the Renfrewshire Wardens Service to respond to an increased number of reported incidents of antisocial behaviour.

- 1.4 There has been a decrease in the number of fires reported, which the Scottish Fire and Rescue Service believe is linked to the success of partnership working to educate, warn and intervene within hotspot areas.
- 1.5 Street Stuff continues to deliver with total attendance within the LAC area of 519 participants but unfortunately, there was an increase in reported incidents of vandalism and youth disorder within Ward 7 compared with the same quarter last year.
-

2. Recommendations

- 2.1 That the Local Area Committee note the content of this progress update report.
-

3. Focus on Johnstone and the Villages

- 3.1 During this quarter, the Safer and Stronger Renfrewshire Partnership has continued to target resources into hotspot areas where the highest number of crime and antisocial behaviour (ASB) incidents were reported:
- The highest tariff area within Ward 7 was identified as Corseford, with nearly one in five calls relating to Ettrick Terrace, Teviot Terrace, and Forth Place. The majority of these calls were youth-related. Overall, incidents increased very slightly, by 1% in comparison to the corresponding period last year.
 - Within Ward 8, public nuisance and disturbance calls accounted for around 58% of all anti social behaviour complaints. The highest tariff streets were High Street and MacDowall Street, where peak days and times were identified as Fridays and Saturdays between 5pm and 11pm. Overall, incidents increased very slightly, by 1% in comparison to the corresponding period last year.
- 3.2 During this quarter, increases were noted within Ward 7 across all crime types including anti social behaviour/disorder. An increase in Drug Crime is generally consistent with both the wider Renfrewshire Council area and also the national picture, reflecting both local and national policing priorities. Whilst the recorded increase in both drugs crime and serious violent crime was very small (an increase of three and one incident respectively). Minor

assaults peaked on a Saturday between 10pm and 1am, whilst reported incidents of vandalism peaked on a Saturday between 6pm and midnight.

- 3.3 Similarly within Ward 8, the main increase was noted within drug crimes, with minor assaults also recording a very slight increase. Drug crime more than doubled from 21 incidents to 56, and whilst this reflects the local and national policing priorities, this is a significant increase. Peak days were identified as Wednesday to Saturday, with peak times between 6pm and midnight.

Crime Type	Q4 2013/14		Q4 2014/15		Change	
	Ward 7	Ward 8	Ward 7	Ward 8	Ward 7	Ward 8
Serious Violent crime	3	5	4	4	↑	↓
Minor Assault	18	19	26	25	↑	↑
Drug Crime	21	21	24	56	↑	↑
Disorder and anti social behaviour	190	170	192	172	↑	↑
Vandalism	24	21	32	20	↑	↓

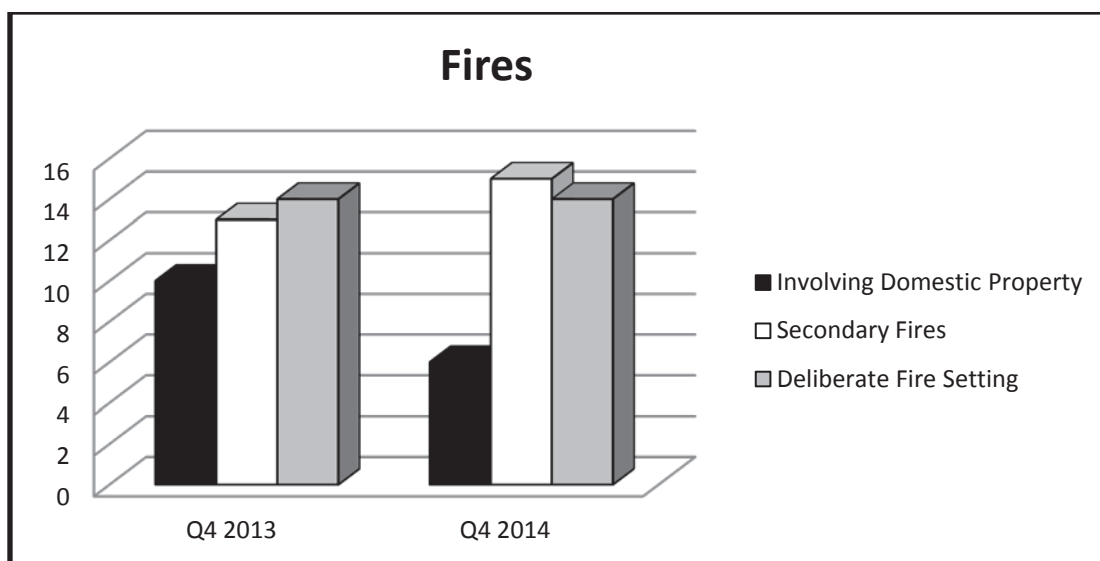

- 3.4 During January to March 2015, the number of calls to the Renfrewshire Community Safety Partnership increased in both Ward 7 and Ward 8. In December, the Wardens Service extended their working hours on Fridays and Saturdays to midnight to allow them to tackle anti social behaviour at peak times. This has proven effective with an increase in anti social behaviour calls shown during this quarter. Previously Police Scotland would have dealt with these extra calls as the Wardens Service closed at 10pm at weekends.

- 3.5 In the same quarter, 24% of all complaints to Renfrewshire Community Safety Partnership (Community Resources) were related to Dog Fouling which continued to be the most common complaint. 1,209 community safety patrols were undertaken with a number of targeted interventions:

Dog Issues dealt with by actions	Ward 7	Ward 8
Dog Warden Visit	13	8
Dog fouling sign erected	11	8
Dog returned to owners	4	0
Dog taken to SSPCA	1	1
Visit re out of control dog	4	3
Warning letter issued	4	7
Monitoring visit (DCN)	11	10
Dog Fouling Leaflet Delivered	5	2

- 3.6 The Scottish Fire & Rescue Service recorded a decrease in the number of fires in this LAC area, during the period from January to March 2015. There was a decrease of 40% for domestic property fires from the corresponding quarter in 2014. The Cooksafe initiative helped with this reduction. Cooksafe is a joint initiative between Scottish Fire and Rescue Service and Sparcs Charity, to educate Renfrewshire residents on safe cooking practices. 50% of the house fires in Renfrewshire last year were caused by cooking.

- 3.7 Another important intervention is the Fire Reach programme which is delivered through a partnership including the Scottish Fire and Rescue Service and the Renfrewshire Community Safety Partnership Youth Team. The course targets young people who have come to the attention of the Renfrewshire Community Safety Partnership Hub through their involvement in fire related offences. This intensive one week course focuses on raising the awareness of participants about the impact of deliberate fire raising and antisocial behaviour and promotes team building. The last course took place during February 2015. Overall, as a result of programmes of this type, the number of fires attended by the Scottish Fire and Rescue Service across Renfrewshire continues to reduce.

- 3.8 The Safer & Stronger Renfrewshire Partnership's main diversionary project is Street Stuff. This project has now been operating for the last 6 years and continues to contribute significantly towards reductions in youth disorder and antisocial behaviour across Renfrewshire. The table below shows Street Stuff activity and attendance in the Johnstone and the Villages LAC area from January to March 2015:

Venue	Sessions	Attendance	
		Football	Box
McMaster	21	105	157
Thorn PS	14	156	
WJ Campus	8	101	
Total	43	362	157
Total Attendance		519	

- 3.9 The table below shows the calls to Police Scotland relating to vandalism & youth disorder.

Vandalism & Youth Disorder			
Ward	Q4 2013/14	Q4 2014/15	% Change
7	53	79	49%↑
8	37	37	No change

- 3.10 Vandalism and Youth Disorder incidents within Ward 7 increased by around one-half, whilst in Ward 8 the overall total remained static. This is disappointing and does not reflect the picture across Renfrewshire as a whole. Within Ward 7, one notable issue identified related to quad bikes in the Spateston area, with peak days/times occurring on weekdays between 3pm and 7pm. Police plans are being progressed to tackle this specific issue. As identified within anti social behaviour / disorder above, the majority of the issues within Corseford are specifically youth-related. Once these perpetrators are identified, they will also be referred to the Renfrewshire Community Safety Partnership Youth Team to be monitored until there are no recorded incidents related to those perpetrators for a period of 3 months.
- 3.11 The Q4 reporting period (Jan to Mar) has consistently seen the lowest levels of recorded Vandalism and Youth Disorder during the past 5 years, however it is of note that April has also seen the greatest monthly increase during the same period. It is therefore possible that there will be a further increase in reported Vandalism and youth disorder incidents during the forthcoming quarterly reporting period (i.e. Q1 of 2015/16).

- 3.12 The Street Stuff timetable attached as Appendix 1 shows the locations and dates of activities being delivered until the end of April 2015 across Renfrewshire

4 Environmental Enforcement and Improvements

Emissions Testing

- 4.1 In March, Renfrewshire Wardens undertook a 2 day Vehicle Emissions patrol in Paisley town centre in partnership with Police Scotland. Police Officers were responsible for pulling over the vehicles from traffic. The wardens checked whether vehicle emissions were within the legal requirements. Of the 229 vehicles tested, only 8 failed and were issued with £60 fixed-penalty notices. The Council's licensing section also inspected 34 taxis / private-hire vehicles, with 3 notices issued for various defects, all related to vehicles licensed outwith Renfrewshire. All drivers tested were given a Greener Renfrewshire Vehicle 'Don't Be An Idler' information leaflet and an explanatory letter. The police reported 1 driver for an overweight load, issuing also a £100 fine and 3 points for a tyre below minimum tread.

Fly-tipping Initiatives

- 4.2 Significant progress has been made on 2 sites within Renfrewshire to combat fly tipping. The first, a secluded site off Auchenlodment Road, Johnstone has been a frequent fly-tipping area for several years. Enforcement patrols and CCTV cameras have had short term impact but ineffective in sustaining longer term improvements. Identifying perpetrators has been challenging and over time the scale of fly tipping has increased significantly. In March, a multi agency initiative led by the Wardens Service was set up to resolve the problem. Working with the landowner, the Forestry Commission, and the Community Service team, the site was cleared of over 5 tonnes of material, including asbestos roofing, bathroom suites, kitchen cupboards & worktops, over 160 tyres and assorted garden & building waste. A fence and sign to secure the site has also been erected in order to deter future fly tipping. The other site, West Ferry Car Park in Langbank, was also a fly-tipping area. Again a multi agency project was set up. The Community Service Unit cleared the site convincing the landowner, Transport Scotland, to fill in all the potholes. Currently Langbank Community Council is in discussions with the landowner on the future use of the land.

Clean Up Scotland

- 4.3 Keep Scotland Beautiful run a "mass-engagement" campaign called Clean Up Scotland. Its aim is to make Scotland the cleanest country in Europe. Renfrewshire Council is committed to supporting this campaign. 'Do Your Bit' events are run on a regular basis encouraging the public to look after their own communities, with activities including litter picking and community clean

ups. In the near future, Community Resources will be contacting all schools, nurseries, other council services, community councils, office complexes, town centre businesses, housing associations and community groups inviting them to coordinate a community clean up. The service will support any participating groups by supplying litterpicking equipment and arranging uplift of the rubbish collected.

Noise Action Week

- 4.4 Noise Action Week 2015 is 18-23 May. Here local authorities, housing providers and mediation services work to raise awareness of noise. Noise Action Week is co-ordinated by Environmental Protection UK who work year round supporting the work of professionals in noise management. It is supported by the Chartered Institute of Environmental Health and Environmental Protection Scotland. The Community Safety Partnership will support the initiative by delivering a 'roadshow' focused on domestic and commercial noise. This roadshow will travel to a different LAC area each day during the Noise Action Week. Noise Enforcement Officers will be available to give advice to the public on noise issues.

5. Protecting the Vulnerable

I Am Me/Keep Safe

- 5.1 During March, I Am Me launched a new training pack and DVD film which are available as a free resource to schools and groups. At the official launch at the Showcase Cinema, Paisley, the film was premiered with over 300 guests attending including the Provost, Lord Advocate and Deputy Chief Constable as the main speakers. The I Am Me project / Keep Safe has won several awards including, most recently the Wider Partnership Award and the People's Choice Award from the Scottish Community Safety Network. It is now being rolled out across Scotland.
- 5.2 I Am Me is a community project which works in partnership with Renfrewshire Council, Police Scotland and PACE Theatre Company, to raise awareness of disability hate crime. Linked to this project Police Scotland has also been developing a 'Keep Safe' initiative which works with local business owners to create safe areas for people who may feel vulnerable when in the community. Central to the project is a bespoke drama produced by PACE. Since 2013, this hard hitting performance has been delivered to around 7000 people, including High Schools, disability groups, staff groups, the police training college and the Scottish Parliament. A softer version, designed for primary school children has been delivered to around 4000 children.

Safe Kids

- 5.3 The 'Safe Kids' programme was delivered throughout the month of March at St Mirren Park. All P6 pupils in Renfrewshire (almost 2000 young people) attended workshops where they received important personal safety lessons and crime prevention advice. Issues covered included personal safety in the home, antisocial behaviour, internet safety, environmental crime, fire safety, drugs and alcohol awareness and the use of CCTV. This annual community safety educational event has now been run successfully for over 10 years. Overall, as a result of programmes of this type, incidents of youth related antisocial behaviour continue to decline year on year, with more than a 75% reduction over the past 6 years. This reduction and interactive approach has significantly helped us achieve our community plan outcomes under the key themes of 'A Safer and Stronger Renfrewshire' and 'Children and Young People'.

6. Building Safer Communities

Choices for Life

- 6.1 A 'Choices for Life' Open Day was held at the Tannahill Centre, Ferguslie Park on 24 March 2015. Around 150 children from schools in the Paisley area were entertained by various theatre and community groups and got the opportunity to take part in active workshops and diversionary opportunities. Young people can often find themselves under intense peer pressure to take drugs, drink alcohol or become involved in antisocial behaviour. This event provided young people with information and knowledge about such issues so that they can make informed decisions with the end result helping them make positive lifestyle choices. Led by Police Scotland, and the Community Safety Partnership a number of other partners contributed to ensure the event was successful, including Street Stuff, Ferguslie Park Housing Association, Ferguslie League of Action Group, Kibble Works, Ferguslie Community Group, Shape Up Educational Charity and the Princes Trust. A further, similar event is being planned to take place in Johnstone.

Stalled Spaces

- 6.2 The Stalled Spaces project has now been launched with information about how it will be run agreed at the last meeting of the Greener Renfrewshire Thematic Board. The scheme is being promoted on social media and in the press and Engage Renfrewshire is already working with a number of community groups to support them as they develop applications for suitable projects. In order to provide additional information about the project, a number of events are being arranged by Engage Renfrewshire to be held in May 2015 and these will include support and input from Architecture and Design Scotland who are administering the scheme at a national level. The first applications will be considered at the Greener Renfrewshire Thematic

Board in June 2015 if groups are ready to present their proposals at this time. Applications are open to community groups for grants of between £250 and £5,000, but it is anticipated that the majority of awards will be for less than £2,000. The aim is to fund around 7-10 projects across several communities using vacant and derelict spaces in town centres on a temporary basis to support community growth and improvement. Projects can be funded for any temporary use of the space for growing, artistic expression or other creative uses (ie garden, growing grounds, Play Park, arts project, events, etc).

7. Diversionary Activities

Street Stuff

- 7.1 Street Stuff launched a new dance class at St Peter's Primary School in Glenburn to improve girls' attendance at the award-winning activity programme. Some girls had been attending the indoor football but said they were also interested in dancing. Street Stuff listened to the girls' ideas and introduced a pilot dance class. The new dance sessions are attracting more than 40 extra young people a night, this is in addition to the regular high turnout for indoor football. The dance classes are now so popular that, on some evenings, there are more girls than boys participating at Street Stuff in St Peter's Primary School.
- 7.2 Street Stuff is bringing back the Youth Bus due to popular demand. The bus, kitted out with gaming equipment similar to 'the box', will provide more flexibility in terms of reaching wider areas of Renfrewshire as well as supporting the council's 'Do Your Bit' campaign. The new bus will be on the street in time for the summer programme of activities.
- 7.3 Street Stuff contributed as part of the Integrated Inspection of Services for Children and Young People in Renfrewshire. The visit was led by the Care Inspectorate with support from Her Majesty's Inspectorate of Constabulary for Scotland. The inspectors visited Street Stuff in February, where they saw the programme in action, engaging/interacting with young people. The inspectors attended the official launch of the Midnight Leagues at St Mirren Park, visited the Gallowhill box and St Peter's Primary School for indoor football and dance sessions.

Brighter Renfrewshire Alcohol Awareness Week (BRAW)

- 7.4 Renfrewshire Alcohol and Drug Partnership and Renfrewshire Community Planning Partnership will host an alcohol awareness week, known as BRAW (Brighter Renfrewshire Alcohol Awareness Week). BRAW aims to promote and highlight sensible drinking messages to support and encourage people to make positive choices about alcohol use. Renfrewshire's first BRAW Week

will take place on 15 – 19 June 2015. Constituted community groups, services and schools in Renfrewshire will be invited to apply for funding (maximum £500) to host an event or activity within their organisation during BRAW week. To support this event we are currently exploring employing the safe bus at Barshaw Park Gala Day. The safe bus was previously utilised at New Street over the 2014 Festive period.

- 7.5 Street Stuff will also be supporting BRAW in June 2015 by delivering key safety messages to young people at their venues and participating in the Showcase Street event being organised for 19 June in Paisley Town Centre.

8. Integrated Control Room & CCTV System

- 8.1 Construction works for the new integrated control room at the former District Court building in Mill Street, Paisley have commenced, with a formal photo call and press launch taking place during March. In addition to the replacement of all of the existing public space cameras on the network, which has now been completed, a further 10 cameras are due for installation across Renfrewshire and discussions are at an advanced stage with the contractor to progress the delivery of this part of the CCTV project in line with the agreed timetable. Improved mobile camera functionality will be provided through the replacement of the mobile CCTV vans used within the wardens service and these should be up and running by the end of the month. Upgraded software and functionality is already available to the control room operators through the improved system, which is producing images of a much higher quality than was previously possible. The CCTV system will continue to operate from Mill Street Police station until completion of the new integrated control room.

9. Public Protection Spotlight – Renfrewshire Alcohol and Drug Partnership

- 9.1 The Renfrewshire Alcohol and Drug Partnership (ADP) is a multiagency group which has strategic responsibility to review, develop and deliver local services related to the challenges associated with alcohol and drug misuse. It was established in 2009 and comprises of representatives from Renfrewshire Health & Social Care Partnership, Engage Renfrewshire, Police Scotland, Scottish Fire & Rescue Services, Scottish Prison Service and Job Centre Plus. There is also a structure in place to ensure the views of service users are represented. The Renfrewshire Alcohol and Drug Partnership vision is:
- To ensure that individuals will achieve and sustain recovery from their problem alcohol and drug use and become contributing members of society.

9.2 Alcohol and Drug Partnerships have been established across Scotland as part of the Community Planning Partnerships. There are a number of key outcomes that all Alcohol and Drug Partnerships are required to work towards:

- People are healthier and experience fewer risks as a result of alcohol and drug use;
- Fewer adults and children are drinking or using drugs at levels or patterns that are damaging to themselves or others;
- Individuals are improving their health, well-being and life-chances by recovering from problematic drug and alcohol use;
- Children and family members of people misusing alcohol and drugs are safe, well supported and have improved life-chances;
- Communities and individuals are safe from alcohol and drug related offending and antisocial behaviour;
- People live in positive, health-promoting local environments where alcohol and drugs are less readily available;
- Alcohol and drugs prevention, treatment and support services are high quality, continually improving, efficient, evidence based and responsive, ensuring people move through treatment into sustained recovery.

9.3 The Renfrewshire Alcohol and Drug Partnership is responsible for reporting on these outcomes in an Annual Report (latest 2013/14) which also includes core and local indicators, many of which demonstrate a worrying trend locally:

Indicators (per 100,000 population)	Renfrewshire ADP			National Average	
	2009	2012	Target	2009	2012
Alcohol Related Hospital Discharges	910.3	956.1	892.1	771.4	693.3
Alcohol Related Deaths	25.7	30.2	25.2	25.7	21.2
Drug Related Hospital Discharges	111.0	123.0	108.8	107.5	107.2
Drug Related Deaths	15.0	15.3	13.9	10.3	11.0

9.4 As seen in the tables above the numbers of alcohol and drug related hospital discharges and deaths in Renfrewshire has increased since 2009 baseline figures were established. Over the same period the national average has seen a continued reduction. In 2012, the Renfrewshire rates of alcohol related hospital discharges and deaths were 38% and 42% above the Scottish

average respectively. Renfrewshire drug related hospital discharges and deaths were also above the national average by 15% and 39% respectively.

Population Prevalence of Problem Drug Use			
Year	Renfrewshire ADP	National Average	Target
2009/10	1.9%	1.7%	1.86
2012/13	2.4%	1.7%	1.86

In 2012/13, the prevalence of problem drug use in Renfrewshire was estimated to be 2.4% of the population, which, again, is higher than the Scottish average of 1.7%.

- 9.5 One of the key reasons for the increasing trend within Renfrewshire is deprivation. The Scottish Index of Multiple Deprivation 2012 (SIMD) showed that serious deprivation has increased in Renfrewshire and is becoming more widespread. The proportion of Renfrewshire's population living within the 15% most deprived datazones in Scotland has increased by 10.2% between 2009 and 2012. Severe deprivation in Renfrewshire has both spread in area and deepened in severity compared to other areas in Scotland. Among all council areas in Scotland, Renfrewshire has the seventh largest proportion of datazones ranked in the most deprived 15%.
- 9.6 Against this picture there is evidence that the work of the Alcohol and Drugs Partnership is beginning to deliver improvements.

Alcohol and Drug Treatment Waiting Times - % seen within 3 weeks				
	Oct - Dec 13	Jan - Mar 14	Apr - Jun 14	Jul - Sep 14
Renfrewshire ADP	97.6%	97.8%	98.9%	98.0%

In the last year, 98% of individuals in Renfrewshire waited no more than 3 weeks for treatment, which is better than the Scotland wide figure of 96.1%. Renfrewshire has consistently exceeded the target during 2013/14 and 2014/2015. Improvements seen in waiting times for drug and alcohol services have made services more accessible and increased the numbers attending and the Alcohol and Drugs Partnership are anticipating that the core indicators will start to improve in the next reported annual report (2014/15).

- 9.7 In addition, once individuals are accessing treatment there are several services in Renfrewshire that can help with the challenges associated with alcohol and drug use:

- RCA Trust - a voluntary agency who offer support to people affected by alcohol;
- Alcohol Carers Group – alcohol support groups for families and carers;
- Renfrewshire Adolescent Drug and Alcohol Resource (RADAR) - provides group work programmes for young people using cannabis as well as groups for young women and young men;
- Barnardo's Threads - provides family and housing support to young people and young parents;
- Integrated Alcohol Team (IAT) - offers a range of interventions to help support abstinence from alcohol;
- Alcohol Problems Clinic (APC) - offers medical support and interventions to support people to change and abstain from their alcohol use;
- Alcohol Liaison Service - supports people with alcohol issues in hospitals;
- Renfrewshire Drug Service (RDS) - offers a range of support to assist people to work towards recovery from drug addiction;
- Family Support Service - supports people who are affected by someone else's drug use.

9.8 Renfrewshire Alcohol and Drug Partnership has also commissioned training for drug and alcohol staff. This has included Cannabis, Benzodiazepine and Stimulants training. The NHS Greater Glasgow & Clyde Health Improvement Team also offers a wealth of training on alcohol and drugs including:

- Alcohol training which focuses on units of alcohol, safer drinking guidelines and general alcohol awareness;
- Drugs awareness training which equips participants with the knowledge to recognise certain drugs and their effects on the body;
- Alcohol Brief Intervention (ABI) training which is aimed at practitioners who have face to face contact with the public. This training is a way of discussing alcohol with someone in a non-judgmental, non-confrontational way, seeking to motivate the person to make positive changes to their drinking behaviour.

- 9.9 Particularly focusing on drug misuse, Renfrewshire Alcohol and Drug Partnership recently carried out a scoping exercise with young people to review the prevalence and attitudes relating to Cannabis use in Renfrewshire:
- 90% had friends or family members who have used cannabis
 - 70% had used cannabis themselves at some point
 - 80% were aware that cannabis is illegal
- 9.10 While the young people questioned understood that Cannabis could affect mental health, many believed it is no more dangerous than alcohol or tobacco. Earlier research also shows similar findings including the Scottish Schools Adolescence Lifestyle and Substance Use Survey and the Renfrewshire Health and Wellbeing Survey of Young People.
- 9.11 In order to address the issues raised from the research, the Prevention and Education Sub-group of the Alcohol and Drug Partnership launched a Cannabis awareness campaign in February 2015. As Renfrewshire has a large student population, the campaign is focussed on 16-23 year olds accessing further education. The intended outcomes of the campaign are:
- To challenge the normalisation of cannabis use;
 - To address the apathy young people often feel towards the health and social issues surrounding cannabis.
- 9.12 Cannabis posters and information are being displayed in the University of the West of Scotland and West College Scotland initially. The campaign will also be advertised amongst young people receiving their first tenancy.

10. Background

- 10.1 The Safer & Stronger Renfrewshire Partnership brings together key resources to tackle and address issues to sustain and maintain safer and stronger communities. The Partnership consists of Renfrewshire Council, Police Scotland, Scottish Fire & Rescue Service (SFRS) and other community safety agencies.
- 10.2 Our Safer & Stronger Renfrewshire Partnership long-term vision is that: 'Renfrewshire is known as a safe and tolerant place where residents and visitors enjoy a high level of personal safety and public protection and are free from crime. A culture of fairness, respect and equality exists and vulnerable children and adults are well looked after and protected'
-

Implications of this Report

1. **Financial** – none.
2. **HR & Organisational Development** – none.
3. **Community Plan/Council Plan**

Safer and Stronger – The activities set out within this report contribute to ensuring that Renfrewshire is a safe and tolerant place where residents and visitors enjoy a high level of personal safety and public protection, are free from crime and vulnerable children and adults are well looked after and protected.

Greener – Activities set out in this report contribute towards developing the quality of the environment of Renfrewshire in a sustainable way ensuring it is clean, green and safe for all residents and visitors.

4. **Legal** – none.
5. **Property/Assets** – none.
6. **Information Technology** – none.
7. **Equality & Human Rights** – The Recommendations contained within this report have been assessed in relation to their impact on equalities and human rights. No negative impacts on equality groups or potential for infringement of individuals' human rights have been identified arising from the recommendations contained in the report.
8. **Health And Safety** – none.
9. **Procurement** – none.
10. **Risk** – none.
11. **Privacy Impact** – none.

List of Background Papers - none
