4 **BUILDING SAFER GREENER COMMUNITIES MULTI AGENCY APPROACH**

A report was submitted by the the Director of Community Resources, Renfrewshire Council relative to a Multi-Agency approach to building safer and greener communities.

The report advised that following discussions with Police Scotland and the Community Safety and Public Protection Steering Group, the monthly tasking process was being developed into a Renfrewshire Multi-Agency Tasking Group. This would develop the principles set out in the Building Safer Communities National Strategy of reducing victims of crime and reducing victims of unintentional harm to carry out structured multi-agency interventions in key communities to help them build capacity to resolve issues which affected the area in which they lived.

The report advised that Police Scotland had successfully implemented this approach in a number of communities with positive results and with the full co-operation of all other partners with an agreement to participate, allocate and focus resources as required.

It was highlighted that the group would identify geographical areas with vulnerabilities and problems that could be addressed by a multi-agency approach, including high numbers of victims of crime and victims of unintentional harm. Over a six week period the group, made up of relevant Community Planning Partners, would work together to make improvements in the local community with a view to building long term community capacity. The proposed model would support a number of key priorities currently being taken forward by Community Planning Partners.

The report intimated that an evidence based action plan would be developed to tackle

issues relating to each area where there was evidence of need using the EPIC approach of Enforcement, Prevention, Intelligence and Communication. This will be carried out in 4 phases and the Group would access and coordinate the relevant partner resources required to tackle the issues identified in each area. The group would operate throughout the 2016 – 17 financial year using the additional capacity delivered by the Tackling Poverty Special Wardens and Special Constables programme to focus on key tackling poverty communities and town centres. The intention was to engage with between 6 and 8 communities during 2016/17, starting in March 2016 when the Special Wardens and Special Constables would be in place during the 2016/17 financial year.

DECIDED:

- (b) That the content of the report be noted;
- (c) That it be noted that further update reports would be presented to the Board as the approach was implemented.

The inspection had taken place between December 2014 and February 2015 and the findings, which were attached to the report, had been published on 11 December 2015. The inspection measured progress against nine quality indicators marked against a six point scale.

Renfrewshire received six "very good", two "good" and one "adequate" grades which was a very positive result given the scale of the inspection. This placed Renfrewshire in the top four of such inspections undertaken to date. The inspection recognised that the community planning partners and elected members were all highly committed to working together and had a compelling vision, value and aims, with meaningful ownership across the partnership to collaboratively realise the vision.

DECIDED:
