## Introduction

### Promoting Town Centres

Town centres are central to the local economy and communities offering a base for a range of businesses, community activity and jobs.

Renfrewshire Council is committed to promoting economic growth and regeneration in our centres and continues to identify and deliver a range of innovative approaches to sustain and encourage investment to ensure that all of our town centres remain as the economic and social hubs of our communities and places.

Following on from the successful adoption of the Hillington Park Simplified Planning Zone (SPZ) in 2014, Renfrewshire Council have sought to prepare a SPZ for one of our town centres as a means to stimulate investment within the context of a wider Town Centre Strategy and Action Plan.

In consultation with colleagues from the Scottish Government, Renfrew Town Centre was selected as a suitable location and the Council agreed to take part in a nationally funded Pilot Project to prepare a SPZ Scheme for the town centre.

The promotion of a Simplified Planning Zone within Renfrew Town Centre is a clear demonstration that Renfrewshire Council is working to promote investment and enhance the town centre, to promote a culture of being ‘open for business’ and to ensure that planning controls are proportionate.

### Planning Context

This SPZ Scheme has been prepared in line with the provisions of Sections 49 and 50 and Schedule 5 of the Town and Country Planning (Scotland) Act 1997 (the 1997 Act) as amended by the Planning Etc. (Scotland) Act 2006 and the Town and Country Planning (Simplified Planning Zones) (Scotland) Regulations 1995 (the Regulations).

#### *Scottish Planning Policy*

Scottish Planning Policy (SPPP) recognises that town centres are at the heart of local communities and the local economy and can be hubs for a range of activities.

The Scottish Government’s Town Centre First Policy is central to the approach being promoted with other broad policy principles including: encouraging a mix of uses in town centres; ensuring development plans, decisions and monitoring supports town centres; and, considering opportunities to increase the amount of people living in town centres.

#### *Renfrewshire 2023 – Renfrewshire’s Community Plan*

The Renfrewshire Community Plan recognises that attractive and successful town centres are important to the local community and the delivery of sustainable economic growth within Renfrewshire.

The Community Plan makes a commitment to:

“Deliver a regulatory framework designed to support and encourage investment and area regeneration”.

## The Glasgow and the Clyde Valley Strategic Development Plan

The Glasgow and the Clyde Valley Strategic Development Plan (SDP) identifies a network of Strategic Centres, their challenges and a range of interventions that will be required to support their long-term roles and functions.

While Renfrew Town Centre isn't one of the Strategic Centres identified in the SDP, a Simplified Planning Zone will have no impact on the role and function of any Strategic Centre (including Braehead and Paisley) and will strengthen the network of centres identified in the Renfrewshire Local Development Plan.

## Renfrew Town Centre

In comparison to many town centres across Scotland Renfrew Town Centre is performing well with less than 9% of commercial units / buildings currently vacant, however, it is envisaged that this SPZ will help reduce vacancy further and strengthen the offer within the town centre, delivering benefits for developers, property owners, businesses and residents of Renfrew.

The SPZ offers the flexibility to help Renfrew's businesses to grow and adapt as well as encourage new business to locate in the town centre.

## Renfrewshire Local Development Plan

The Renfrewshire Local Development Plan (LDP) Spatial Strategy aims to promote sustainable economic growth by indicating opportunities for change and supporting investment which helps to regenerate, create and enhance communities and places.

Strengthening the vitality and viability of Renfrewshire's centres is central to the LDP Spatial Strategy and requires the channelling of investment to allow a diverse range of activities and uses to develop. In terms of Renfrew Town Centre the LDP identifies that the Council will continue to work to strengthen and refresh the offer within the town centre to maintain its vitality and viability.

## City Deal Investment

Renfrew Town Centre will also benefit from the City Deal investment programme which will deliver a new bridge crossing between Renfrew and Yoker and a new road to the north of the town. The increased promotion of the town centre and simplified planning framework delivered by this SPZ together with the City Deal infrastructure investment will add to the overall strength of the town centre providing for new economic growth opportunities.

## **What is a Simplified Planning Zone?**

A Simplified Planning Zone is an area where the need to apply for planning permission is removed for certain types of development so long as the development complies with the details, conditions and guidance set out in the SPZ Scheme.

A SPZ Scheme maintains acceptable standards of development, care for the built environment and amenity. These matters are addressed in this Scheme while offering flexibility designed to help Renfrew's businesses to grow and adapt as well as encouraging new business opportunities to locate in the town centre.

Renfrew Town Centre SPZ allows for certain changes of use, external alterations, and other minor works without the need for a planning application subject to their compliance with the development parameters and conditions detailed in this document.

Under the Town and Country Planning (Use Classes) (Scotland) Order 1997 changes of use can occur without the need for planning permission. Under the SPZ Scheme there is increased flexibility to change the use of properties.

Planning issues are addressed within the Scheme. The types of new/additional uses and new development that are approved within the SPZ area are confirmed.

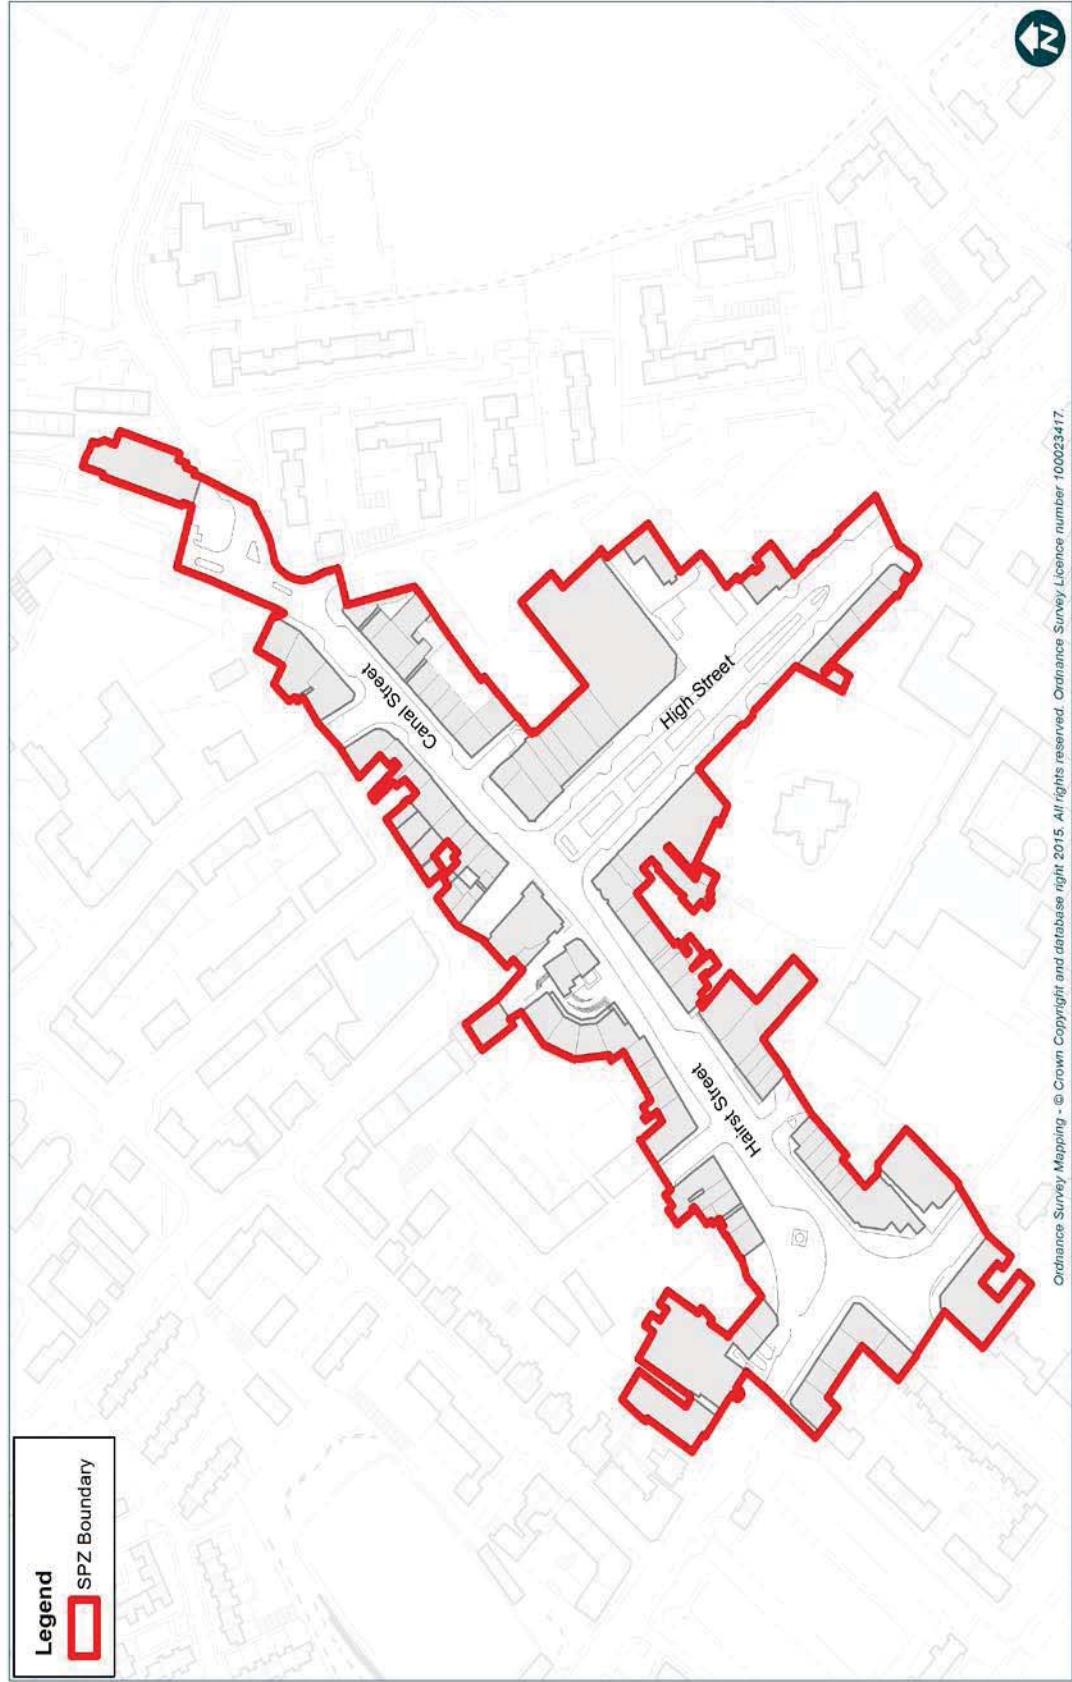

The aim of the SPZ is to assist in informing investment decisions as businesses and investors are able to establish with certainty and speed the acceptability of their proposals.

The savings in terms of time, money and effort in considering these minor changes and the certainty offered by the SPZ status will help promote Renfrew town centre further as a location to invest.

## SPZ Boundary

**SPZ Boundary**  
The provisions of this SPZ Scheme apply only to the area identified on the Plan below. Areas outside of this boundary are subject to standard planning control.

# RENFREW TOWN CENTRE SIMPLIFIED PLANNING ZONE SCHEME

## WHAT STILL REQUIRES CONSENT?

### *Proposals Not Permitted by the Scheme*

Proposals falling outside of the SPZ scheme that require planning consent will be considered by way of a planning application and determined under the development plan. Renfrewshire Council continue to welcome such submissions.

### *Permitted Development Rights*

This scheme does not affect existing permitted development rights afforded under the Town and Country Planning (General Permitted Development) (Scotland) Order 1992 (as amended). The amended order, subject to specified criteria, allows for certain alterations and extensions to commercial properties and minor developments such as access ramps, trolley stores and the installation of vehicle recharging electrical outlets.

Any alterations or extensions to permitted development rights which may subsequently emerge through future regulatory change would also be available.

### *Other Consents*

The **SPZ Scheme relates only to planning permission**. It is the developer's responsibility to ensure compliance with all other relevant legislation and requisite fees. For example, separate approval will be required from the Local Authority for, if applicable, Listed Building Consent and Building Warrants.

Proposals for signs and advertisements, unless having deemed consent, will require approval under the terms of the Town and Country Planning (Control of Advertisement) (Scotland) Regulations 1984 (as amended) or its replacement.

Certain types of advertisements do not need permission under the regulations. As a guide, you will normally need to apply for permission for most illuminated signs, advertisements using special structures for display such as poster hoardings and large signs or those positioned high up on buildings.

The following page provides guidance on two types of advertisement which can be displayed without consent. For a full list of advertisements which can be displayed without consent please see Schedule 4 of the Advertisement Regulations.

## APPENDIX 2 - Renfrew Town Centre Design Guide

Well designed shop fronts make a positive contribution to the character and appearance of Town Centres. In the Renfrew Town Centre Simplified Planning Zone the following design principles will apply:

- **Frame the shop window** – The basic frame

of a shop front consists of the fascia at the top for signage, the stall riser at the bottom, the pillars or columns to the sides of the unit and the separation between units;

- **Respect the main building** – there should

be a relationship between the shop and the building that it is a part of rather than trying only to achieve uniformity with adjoining units;

- **Add visual interest** – The use of colour,

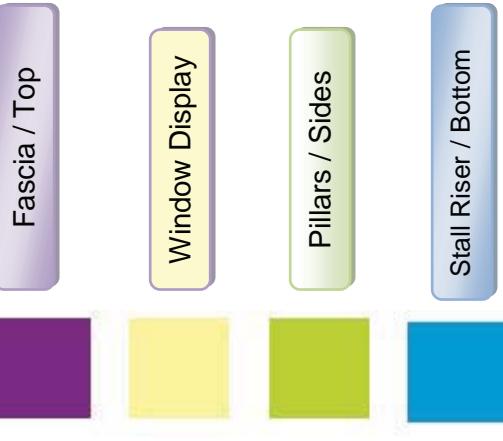

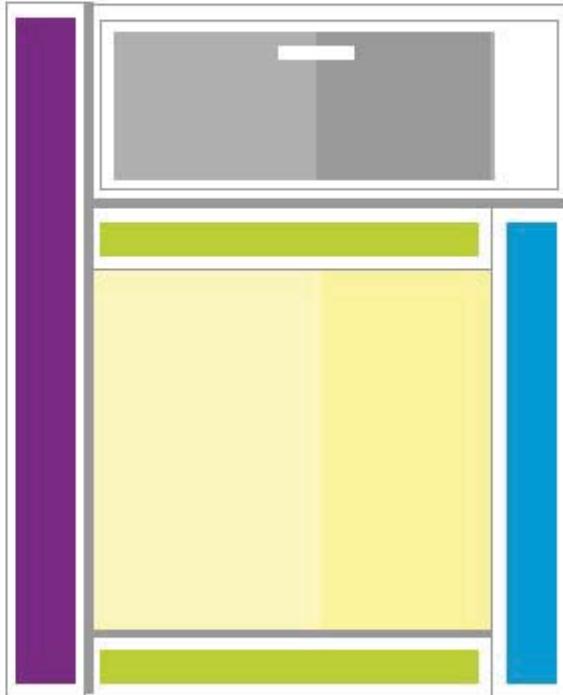

materials, signage and window displays can add visual interest to individual units and the wider street scene;

- **Use good quality materials and finishes** –

materials should complement the existing building. Keeping the range of materials used to a minimum can create a degree of unity in the street scene;

- External air conditioning and refrigeration units require to be located at the rear of the building, screened from public view.
