I. Introduction to the Service Improvement Plan

- I.1 The Service Improvement Plan for Environment & Communities covers a 3 year period from 2018/19 to 2020/21. The plan outlines what the service intends to achieve based on the financial and employee resources available. The plan assists in shaping the strategic direction for the service and outlines key programmes, actions and improvements which we will deliver during the next three years.
- I.2 The major factors that this Service Improvement Plan responds to are the challenging financial environment, public sector reform and delivering the key priorities and outcomes of the Council Plan and Community Plan. The Service Improvement Plan sets out the likely impact that these issues will have on the service and our actions to address them.
- I.3 The Council Plan clearly articulates the Council's priorities for Renfrewshire, and along with the Community Plan, sets out an ambitious programme of work. Environment & Communities will work together with partners, businesses, local people and communities to target the 5 strategic outcome areas of the Council Plan, creating opportunities for all. These are outlined below:
- Reshaping our place, our economy and our future
 - Building strong, safe and resilient communities
 - Tackling inequality, ensuring opportunities for all
 - Creating a sustainable Renfrewshire for all to enjoy
 - Working together to improve outcomes
- I.4 Renfrewshire's Community Plan was developed in tandem with the Council Plan ensuring the two Plans are closely aligned; focusing the work of the Council and our partners towards shared objectives and a shared vision for Renfrewshire. The four community plan themes are:
- Our Renfrewshire is thriving: maximising economic growth that is inclusive and sustainable.
 - Our Renfrewshire is well: supporting the wellness and resilience of our citizens and communities.
 - Our Renfrewshire is fair: addressing the inequalities that limit life chances.
 - Our Renfrewshire is safe: protecting vulnerable people, and working together to manage the risk of harm
- I.5 The Service Improvement Plan feeds directly into meeting Council Plan strategic outcomes and many of the actions also contribute to Community Plan objectives and actions. This creates a golden thread through these three strategic documents and shows the role that Environment & Communities services have in delivering the strategic vision for Renfrewshire. Service level workforce, financial and risk plans are also closely aligned to the Service Improvement Plan, and translate into team and individual development plans.
- I.6 Service planning informs the budget process by enabling budget proposals to be seen in a wider policy context. In turn, the outcomes of the budget process shape the final content of the Service Improvement Plan. Integration of the budget and the service planning process supports elected members in arriving at budget decisions in the full knowledge of how these will impact at a service level.

3. Our strategic context

- 3.1 The Service Improvement Plan takes account of key national reviews and policies which have clear implications for the future delivery of public services. The main policy, economic, social and technological changes and challenges which will affect service delivery over the next three years are listed below and reflect the key issues which Environment & Communities will be focussing on in the first year of this Service Improvement Plan.
- 3.2 **Demographic Change** - The population of Renfrewshire is 175,930 and accounts for 3.2% of the total population of Scotland. Although Renfrewshire's total population is projected to remain stable, deprivation and vulnerability is a factor in some communities. Also, overall people are living longer and living in smaller households and this will impact on service delivery.
- 3.3 **Financial Climate** - Environment & Communities will continue to deliver significant financial efficiency savings over the medium term and will manage this reduction in ways that have the minimum adverse impact on the communities of Renfrewshire.
- 3.4 **Brexit** - Changes in the political and national policy environment arising from the European Union Referendum vote to leave the EU, will have implications for both the Council and Renfrewshire's communities and businesses. The full impact for Renfrewshire is likely to take several years to become fully apparent. However, this uncertainty will impact on the Council's financial outlook. In addition there will be implications for the way Environment & Communities does business in terms of the European legislative framework of key environmental, health, safety and technical policies and standards, e.g. Air Quality, Food Regulation, and product safety via Glasgow Airport.
- 3.5 **Best Value Assurance Audit** - Following the Council's Best Value Audit inspection, Audit Scotland provided direction on areas for improvement, with 7 key recommendations forming an improvement plan. Actions from the improvement plan are embedded within the Council and Community Plans and Environment & Communities will make a significant contribution to the corporate actions particularly around empowering communities, partnership working and workforce planning.
- 3.6 **Better Council Change Programme** - Environment & Communities has supported the strategic development and delivery of the transformation programme during Phases 1 and 2 of the programme and will continue to play a lead role in the delivery of phase 3 of the programme. Phase 3 presents the most challenging circumstances to date and will impact on all service areas within Environment & Communities as well as requiring cross cutting work with other areas of the Council and key partner organisations. Effective governance of the programme will be ensured by the Strategic Change and Service Review Board which will provide the strategic direction for the change programme across the service, ensuring integration with this Service Improvement Plan and the Environment & Communities Risk Management Plan.
- 3.7 **Community Empowerment & Engagement** – The Community Empowerment (Scotland) Act 2015 empowers community bodies, supports them in taking ownership or control of land and buildings, and strengthens their voices in decisions about public services. This legislative change has implications for Environment & Communities as a result of the move towards community ownership and the rights of communities to apply to take over the ownership of land and buildings owned by Councils and other public bodies. Communities of place or interest also have new rights under the Community Empowerment (Scotland) Act 2015 to request participation in the planning and delivery of services, which has implications for all Council and other public services.

The Empowering Communities approach will be delivered over the next 2 years in a change journey that will continue and further develop over a 5-year period with the following key objectives identified:

- Strengthen the Council's ability to act as an effective partner for communities
- Build community capacity in all of Renfrewshire's communities
- Increase community ownership of service delivery and assets
- Improve Council support for communities: providing resources & specialist skills; grant funding; decentralised budgets and participatory budgeting
- Share power more equally between communities, individuals and professionals

- Invest in and develop community potential, community assets and social networks.

Service specific consultations will be used to gather feedback from service users to determine future direction and service improvement activities. Consultations including Public Service Panel, service specific satisfaction surveys and residents meetings all provide platforms for community insight to be developed and monitored.

3.8 Strategic Partnerships – Environment & Communities maintain a number of strategic partnerships with key bodies in order to develop shared objectives and design services that reflect national, regional and local community planning priorities. These include:

- Scottish Government & CoSLA
- Police Scotland,
- Scottish Fire & Rescue Service
- Health
- Food Standards Scotland,
- SEPA,
- Zero Waste Scotland
- Scottish Water
- Community Councils and tenants forums

3.9 National Waste Strategy – the Waste (Scotland) Regulations 2012, recognise that waste is a valuable resource which, when treated appropriately, holds the potential to significantly boost Scotland's economy and create green jobs. These regulations will have a significant impact on Renfrewshire's strategic waste strategy and service delivery over the next five years and will also impact on the Council's carbon strategy and targets.

3.10 Supporting Attainment - The Scottish Government is implementing an increase in early learning and childcare entitlement from 600 to 1140 hours per year by 2020. This will be for all 3 and 4 year olds and eligible 2 year olds and includes the provision of a free lunch to reduce the cost of childcare for parents. A phased introduction commenced in December 2017 with the provision of additional lunch meals and extended hours in centres having a significant impact on FM (Soft Services).

3.11 Strategic Asset Management – The Council's Corporate Asset Management strategy sets out the overall framework for the strategic management of all Council assets. The Council has classified its assets into six categories:

- Property
- Open space
- Road infrastructure
- Fleet
- Housing Revenue Account assets
- Information and Communication Technology

Facilities Management maintain the property and Housing Revenue Account assets with Amenity Services responsible for the maintenance and development of open space, roads infrastructure and fleet assets.

3.12 Risk Management - The Council's risk management arrangements are well established with all strategic, corporate and service risks being reported to the Audit, Risk & Scrutiny Policy Board. (Strategic risks are more outward in nature, whereas corporate ones are more inward and often affect more than one service department). Actions related to strategic or corporate risks, where Environment & Communities is the owner or joint owners of the risks (shown below), are reflected in the service improvement plan; this ensures an additional layer or scrutiny in the management of these risks. Other risks, which may occur only for or within the service, are contained in the Environment & Communities risk register reported to the Audit, Risk & Scrutiny Policy Board. The service's top risks are shown below for information.

- 3.13 **Self Evaluation** - During 2018 the Council will introduce the Renfrewshire Continuous Improvement Model. This will be based around a checklist of statements across a number of key themes: Leadership; Service Planning; Workforce; Partnership and Resources; Processes and Services and Results.

Environment & Communities will use the model to help identify what is working well and what needs to improve within the service and to drive employee involvement, particularly in terms of putting forward suggestions for improvements to services.

Self-assessment activities are also key elements of ISO, Health and Safety and Investors in People accreditations. Environment & Communities continues to demonstrate compliance with ISO9001 for quality management systems; to contribute to the Corporate Occupational Health and Safety accreditation, OHSAS18001; and to operate to ISO22000 for Food Safety Management Systems in secondary schools and Council run care homes. During the past year a number of key achievements have also been recognised:

- Facilities Management (Soft Services) retained 'Food for Life Served Here' Bronze Award in Primary Schools.
- Building Services maintained Investors in People Gold standard, demonstrating a clear commitment to business sustainability through strong leadership, support and improvement.

- 3.14 **Workforce Planning** - The Council's Organisational Development Strategy will ensure that the Council can continue to deliver its core business and service objectives, with an engaged and motivated workforce during a climate of financial and resource constraints. A workforce plan, as specific to Environment & Communities has been developed and an associated action plan with key outcomes is now in place to address key issues such as age profiling, learning & development, succession planning and skills development. The plan will deliver a flexible, skilled, modern workforce that will deliver for communities in Renfrewshire.
- 3.15 **Equalities** - Environment & Communities actively promotes equality and diversity and will contribute to the development of the Council's six equality outcomes. The service will ensure compliance with equality law (The Equality Act), protect people from unfair treatment and make a positive difference to equality groups through its provision of services.

4. Environment & Communities - Delivering the Council Plan

- 4.1 The Council Plan, 'Thriving People, Connected Communities', clearly articulates the Council's priorities for Renfrewshire and along with the Community Plan sets out an ambitious programme of work.

6. Strategic Outcome Overview

- 6.1 There has been a 3% reduction in crime since 2013/14, with a 65% reduction in the number of incidents of antisocial behaviour sustained over the last 5 years. Initiatives such as the Renfrewshire Community Safety Partnership Hub and daily tasking have been recognised as best practice nationally. Challenges remain in relation to levels of gender based violence and drug-related crime. Partnership work in relation to counter-terrorism and civil contingencies is a key priority and Environment & Communities will work to ensure that Renfrewshire is able to respond effectively to challenges that emerge.
- 6.2 There is a thriving network of community groups, organisations and expertise locally. Environment & Communities will support them to involve communities and work together on joint priorities that will transform the relationship the Council has with the communities it serves and will play a lead role in developing a new Empowering Communities frontline service model.

Using the Hub as a Joint Agency Command Centre to support events and activities.
