

## **Scotland Excel**

**To: Executive Sub-Committee**

**On: 27 January 2023**

**Report by:  
Chief Executive of Scotland Excel**

**Tender: Building Construction Consultancy**

**Schedule: 0920**

**Period: Two years from the commencement date with an option to extend for up to a further 24-month period**

### **1. Introduction and Background**

This recommendation is for the award of the first national framework for building construction consultancy services.

This report is submitted in order to record a correction to the award recommendations made at the 21 October 2022 meeting of the Executive-Sub Committee.

Updates have been made to reflect the evaluation outcome. Specific changes to Lots 5 and 11 to correct formatting errors are identified in the Appendix by the yellow highlighted rows.

The appendices have now been updated to reflect this. The 'standstill' procedure has not yet been undertaken and will be commenced subject to the approval of this update.

Accordingly, the report has been brought back to the Executive Sub-Committee for fresh approval, superseding previous reports.

As previously reported to members, this framework will provide member councils with a mechanism to procure services relating to buildings and their surrounding grounds. Following the delivery of Scotland Excel's New Build Residential Construction (NBRC) framework in 2019, there has been a growing demand to deliver a consultancy framework to support the NBRC framework. Scotland Excel operates frameworks for other building construction works, such as demolition, asbestos removal and energy efficiency contractors which this framework will also support.

This proposed framework will be for a period of two years from the commencement date with an option to extend for up to a further 24-month period as advertised in the published tender documents. Subject to approval and completion of a standstill period, the framework is intended to commence in February 2023.

This report summarises the outcome of the procurement process for this national framework agreement.

## 2. Scope, Participation and Spend

The framework comprises of 14 lots as summarised in Table 1.

**Table 1: Lotting Structure**

Lot No	Description	Estimated % of Spend per lot
1	Architecture	12%
2	Civil and Structural Engineering	7%
3	Mechanical, Electrical and Plumbing Engineering	7%
4	Quantity Surveying	7%
5	In House Multi-Disciplinary	12%
6	Architect Led Multi-Disciplinary	12%
7	Conservation Architecture	3%
8	Clerk of Works	6%
9	Project Management	12%
10	Landscape Architecture	3%
11	CDM Advice	3%
12	Master Planning	3%
13	Environmental Engineering	6%
14	Building Surveying	7%

As a first-generation framework, the percentage spend per lot, as set out in Table 1, is the best estimate of the apportionment of the spend to each lot. This is derived from historical information, market research and future plans as confirmed by Scotland Excel members. (The advertised overall spend is set out at the end of this section.)

All lots were subdivided by eight regions, and suppliers could opt to offer for one, some or all regions.

The regions are shown in table 2, below:

**Table 2: Geographical Regions**

<b>Region Number</b>	<b>Councils within Region</b>
1A	Argyll & Bute, East Ayrshire, East Dunbartonshire, East Renfrewshire, Glasgow City, Inverclyde, North Ayrshire, North Lanarkshire, Renfrewshire, South Ayrshire, South Lanarkshire, and West Dunbartonshire
1B	East Lothian, Mid Lothian, West Lothian, Scottish Borders and Edinburgh
1C	Angus, Falkirk, Clackmannanshire, Dundee, Fife, Perth and Kinross, and Stirling
1D	Aberdeenshire, Aberdeen, Moray and Highland
1E	Dumfries and Galloway
2	Orkney Islands
3	Shetland Islands
4	Nan Eilean Siar (Western Isles)

The lotting structure aligns with the various specialisms within the marketplace and member contracting preferences, as well as maximising bid opportunities for Small to Medium Sized Enterprises (SMEs) within the sector.

As detailed in Appendix 1, 29 Scottish councils have confirmed their intention to participate in the framework from its start date. The remaining three councils have their own frameworks in place, however, have confirmed they will consider migrating to this framework once their current arrangements expire. In addition to this, a number of Scotland Excel associate members have confirmed participation in this arrangement, including the universities and colleges.

The framework was advertised with an estimated spend of £100m over the maximum four year period. This value has been derived from anticipated member spend, historical data and market analysis. This value was estimated to ensure that there is sufficient capacity within the framework to accommodate additional member participation and any unforeseen peaks in demand.

This framework sought to provide an efficient method of engaging suppliers for the provision of construction related consultancy services to buildings and their surrounding grounds to Councils in accordance with the requirements of Law. It intended to allow Councils to easily select a suitable consultant from those appointed on each individual lot on appropriate conditions to carry out specific work, if and when required.

### 3. Procurement Process

A User Intelligence Group (UIG) was formed consisting of representatives from participating members. The wider UIG agreed the procurement route and the overall strategy, and a smaller working group was also formed to develop the technical scope and specification, support the development of the lotting structure and participate in the technical evaluation.

A Prior Information Notice (PIN) was published on 30 April 2021 and received over 200 notes of interest. Scotland Excel held a range of supplier meetings and distributed a supplier survey which resulted in the sharing of valuable information on the lotting structure and their ability to service.

Furthermore, Scotland Excel consulted with a range of key stakeholders to support the development of this framework including the Royal Institution of Chartered Surveyors (RICS) and The Royal Incorporation of Architects in Scotland (RIAS). Scotland Excel held an event with the Supplier Development Programme (SDP) to signpost the tender opportunity and support the market, including SMEs to engage in the framework opportunity.

This framework was advertised in the Find a Tender Service (FTS) and the Public Contracts Scotland (PCS) portal on 27 April 2022. The tender process was conducted using the Public Contracts Scotland Tender (PCS-T) system.

The procurement process followed an open tender process to ensure maximum competition and the inclusion for all potential suppliers to service the framework. All suppliers were examined against selection criteria, using the Single Procurement Document (SPD) and award criteria, concurrently. The award criteria included technical and commercial sections that were evaluated against the following criteria and weightings.

#### **All Lots**

Technical	60%
Commercial	40%

Certain specific requirements were set in respect of the award criteria which tenderers had to satisfy in order to be eligible for evaluation, all as detailed in the published tender documents.

Within the technical section, suppliers were required to evidence their knowledge and experience by responding to technical questions. These covered a range of areas, including management arrangements, localism for regions, community benefits and lot specific technical questions. In addition to these questions, suppliers were asked to provide details on their fair work first practices. Table 3 details the breakdown of the technical points available.

**Table 3: Technical Scoring Breakdown**

Question	Maximum Score Available
Management Arrangements	20
Localism	10
Community Benefits	2
Fair Work First	1
Lot Specific Technical Question	27

In addition, suppliers were asked non scored questions on their agreement to the terms and conditions, real living wage and professional body memberships.

Suppliers were asked to confirm which regions they wanted to service within each lot for which they tendered (as shown in earlier table 2). To encourage bids from local SMEs and maximise the geographical coverage available through the framework, suppliers could opt to service one, some or all regions and lots without disadvantage.

Within the commercial section suppliers were invited to offer on a lot by lot and regional basis. Suppliers were required to offer hourly staff rates (people rates), percentages based on construction values and uplift percentages which would be applicable to all lots they tendered for; these people rates were hourly rates for 13 salary banded ranges.

Suppliers' submissions for the above were calculated against the award criteria to give them a total commercial score.

The commercial evaluation included the application of a graduated scoring methodology. The methodology sought to encourage suppliers to submit competitive yet sustainable pricing and championed the Scottish Government's recently published policy on sustainable tender pricing in construction.

#### **4. Report on Offers Received**

Offers were received from 137 suppliers. A summary of the offers received is provided in Appendix 2.

Suppliers who were deemed non-compliant were advised that their offer or part of their offer would not be considered further. One supplier was non-compliant for all lots for which they tendered as they rejected the advertised terms and conditions. One supplier was partly non-compliant as they failed to submit a required element of their commercial submission for that lot.

All non-compliant offers are indicated in Appendix 3.

Based on the criteria and scoring methodology set out in the published tender documents, a full evaluation of the 136 compliant offers was completed. Appendix 3 confirms the scoring achieved by each supplier for each lot and regions.

## **5. Recommendations**

As noted above, the numbers of suppliers awarded on each lot remain the same as was previously reported to members.

Based on the evaluation undertaken, and in line with the criteria and weightings set out above, it is recommended that a multi-contractor framework arrangement is awarded to 93 suppliers across the 14 lots as outlined in Appendix 3 (Scoring and Recommendations).

Of these 93 recommended suppliers, 62 are classed as SMEs, 14 are micro businesses and 72 are Scottish suppliers. The recommended suppliers provide the choice and scope required by members as well as representing best value and providing geographical coverage.

## **6. Benefits**

### **Savings**

Due to the lack of comparable data, Scotland Excel did not benchmark the framework with councils' arrangements. An alternative approach of benchmarked costs against those on Scotland Excel's Engineering and Technical Consultancy Framework, a similar consultancy framework supporting another construction sector was used.

The Engineering and Technical Consultancy Framework tendered in October 2020, demonstrated 3.7% average savings for councils, and despite high inflation between then and now, the Building Construction Consultancy rates have seen a minimal rise. This indicates that the Building Construction Consultancy Framework pricing is highly competitive.

### **Price Stability**

Prices will remain fixed for the duration of the framework.

### **Rebate**

A retrospective rebate of 0.75% will be made payable to Scotland Excel annually and will be applied to all work orders issued under the framework contract of £100,000 or above which will be tracked and managed with suppliers through reporting of the management information returns.

### **Sustainable Procurement Benefits**

Scotland Excel is committed to maximising community benefits delivered through the framework for its members and local communities.

As part of the tender process, suppliers were required to confirm whether they would comply with the Scotland Excel community benefits approach for the lifetime of the framework and were scored on their ability to deliver it. This approach is designed to deliver local community benefits based on individual members' spend thresholds as well as an overall framework spend threshold to ensure we maximise on the community benefits being delivered.

All recommended suppliers have confirmed their acceptance of the community benefits approach.

The community benefits approach was designed to deliver targeted benefits specific to the market and covers outcomes such as:

- training,
- supply chain initiatives,
- poverty initiatives,
- educational support and
- local sponsorship

Scotland Excel will monitor spend and community benefits reported through the framework and will share with members on a six-monthly basis.

Scotland Excel and its members are committed to the delivery of high-quality public services and recognise that this is dependent on a workforce that is well-rewarded, well-motivated, well-led, has access to appropriate opportunities for training and skills development, is diverse and is engaged in decision making.

Within the technical section suppliers were asked a question on their approach to fair work first and payment of the real Living Wage to their workforce. This question was in accordance with the applicable Scottish Government guidance on Fair Work First. <https://www.gov.scot/publications/fair-work-first-guidance/>.

Suppliers approach to fair work, included a range of positive work initiatives such as:

- no zero-hour contracts,
- employee forums,
- pensions,
- training and development opportunities,
- flexible working
- accredited Investors in People (IiP)
- equal pay policies,
- signed up to the Scottish Business Pledge

As detailed within Appendix 4, of the 93 recommended suppliers, 90 pay the real Living Wage. Of these, 47 are accredited real Living Wage Employers, five are currently progressing through the Living Wage accreditation process, four are committed to becoming accredited within two years of the framework

commencement and the remaining 34 suppliers are not accredited by the Living Wage Foundation but pay the real Living Wage to all employees (except volunteers, apprentices and interns). Those three suppliers that do not pay the real Living Wage have committed to paying it within two years of the framework commencing.

Scotland Excel will continue to monitor Fair Work Practices, including encouraging further uptake by suppliers committing to paying staff the real Living Wage, during contract and supplier management activity.

## **7. Contract Mobilisation and Management**

In accordance with Scotland Excel's established contract and supplier management programme, in terms of risk and spend as detailed in Appendix 5, this framework is classified as class B. As such it will require high level of procurement expertise to support annual UIG's, frequent support to councils, suppliers and external stakeholders.

Scotland Excel will work with its established UIG to arrange appropriate mobilisation and ensure robust contract management with suppliers and members.

Meetings and engagement undertaken with suppliers will adhere to all applicable health and safety guidelines.

## **8. Summary**

This framework provides an effective and efficient route for Scotland Excel members to procure services relating to buildings and their surrounding grounds.

The Executive Sub-Committee is requested to approve the recommendations detailed in Section 5 (Recommendations), above to award this framework agreement to the suppliers as detailed in Appendix 3 (Scoring and Recommendations).

These recommendations supersede and replace the recommendations previously submitted to the Executive Sub-Committee.

## Appendix 1 – Participation and Spend Summary

### Building Construction Consultancy 0920

Member Name	Participation in Contract	Participation Entry Date	Estimated Annual Spend (£)	Source of Spend Data
Aberdeen City Council	No			
Aberdeenshire Council	No			
Angus Council	Yes	Start Date	£1,320,000	Spikes Cavell
Argyll & Bute Council	Yes	Start Date	£1,500,000	Confirmed by Council
City of Edinburgh Council	Yes	Start Date		
Clackmannanshire Council	Yes	Start Date	£1,039,000	Spikes Cavell
Comhairle nan Eilean Siar	Yes	Start Date	£55,000	Spikes Cavell
Dumfries & Galloway Council	Yes	Start Date	£1,000	Spikes Cavell

## Appendix 2 – List of Suppliers with SME Status

### Building Construction Consultancy 0920

Where the lots and regions tendered/awarded are indicated by using a combination of a number, the letter R and a second number, the first number represents the lot number, while the second the region number.

For example, 1R1D means “lot 1, Region 1D”.

Suppliers Name	SME Status	Location	Lots/Regions Tendered	Lots/Regions Awarded
ACTS Partnership Limited	Small	Glasgow	3R1A, 3R1B, 3R1C, 3R1D, 3R1E, 3R2, 3R3, 3R4, 5R1A, 5R1B, 5R1C, 5R1D, 5R1E	5R1A, 5R1B, 5R1C, 5R1D, 5R1E
AECOM Ltd	Large	London	4R1A and 4R1B	4R1A and 4R1B
AHR Architects Limited	Medium	Glasgow	1R1A, 1R1B, 1R1C, 1R1D, 1R1E, 10R1A, 10R1B, 10R1C, 10R1D, 10R1E, 11R1A, 11R1B, 11R1C, 11R1D and 11R1E	10R1A, 10R1B, 10R1C, 10R1D, 10R1E
AMP Architects LLP	Micro	Glasgow	1R1A, 1R1B, 1R1C, 1R1D and 1R1E	1R1A, 1R1B, 1R1C, 1R1D and 1R1E
Anderson Bayne Limited	Micro	Livingston	1R1A, 1R1B and 1R1C	1R1A, 1R1B and 1R1C
Anderson Bell Christie Limited	Small	Glasgow	1R1A, 1R1B, 1R1C, 1R1D, 1R1E, 6R1A, 6R1B, 6R1C, 6R1D and 6R1E	1R1A, 1R1B, 1R1C, 1R1D, 1R1E, 6R1A, 6R1B, 6R1C, 6R1D and 6R1E
Armour Construction Consultants	Small	Kilmarnock	4R1A, 4R1B, 4R1C, 4R1D, 4R1E, 4R2, 4R3, 4R4, 9R1A, 9R1B, 9R1C, 9R1D, 9R1E, 9R2, 9R3, 9R4, 11R1A, 11R1B, 11R1C, 11R1D, 11R1E, 11R2, 11R3 and 11R4	4R1A, 4R1B, 4R1C, 4R1D, 4R1E, 4R2, 4R3, 4R4, 9R1A, 9R1B, 9R1C, 9R1D, 9R1E, 9R2, 9R3, 9R4, 11R1A, 11R1B, 11R1C, 11R1D, 11R1E, 11R2, 11R3 and 11R4
Atkins Limited	Large	Glasgow	1R1A, 1R1B, 1R1C, 1R1D, 1R1E, 2R1A, 2R1B, 2R1C, 2R1D, 2R1E, 3R1A, 3R1B, 3R1C, 3R1D, 3R1E, 5R1A, 5R1B, 5R1C, 5R1D, 5R1E (added lot offers), 6R1A, 6R1B, 6R1C, 6R1D, 6R1E, 10R1A, 10R1B, 10R1C, 10R1D, 10R1E, 12R1A, 12R1B, 12R1C, 12R1D, 12R1E, 13R1A, 13R1B, 13R1C, 13R1D, 13R1E	1R1A, 1R1B, 1R1C, 1R1D, 1R1E, 2R1A, 2R1B, 2R1C, 2R1D, 2R1E, 3R1A, 3R1B, 3R1C, 3R1D, 3R1E, 5R1A, 5R1B, 5R1C, 5R1D, 5R1E (added lots awarded), 6R1A, 6R1B, 6R1C, 6R1D, 6R1E, 10R1A, 10R1B, 10R1C, 10R1D, 10R1E, 12R1A, 12R1B, 12R1C, 12R1D, 12R1E, 13R1A, 13R1B, 13R1C, 13R1D, 13R1E
Austin-Smith:Lord Limited	Medium	Glasgow	1R1A, 1R1B, 1R1C, 1R1D, 1R1E, 1R2, 1R3, 1R4, 6R1A, 6R1B, 6R1C, 6R1D, 6R1E, 6R2, 6R3, 6R4, 7R1A, 7R1B, 7R1C, 7R1D, 7R1E, 7R2, 7R3, 7R4, 10R1A, 10R1B, 10R1C, 10R1D, 10R1E, 10R2, 10R3, 10R4, 12R1A, 12R1B, 12R1C, 12R1D, 12R1E, 12R2, 12R3 and 12R4	7R1A, 7R1D, 7R2, 7R3, 7R4, 10R2, 10R3, 10R4

## **Appendix 5 – Segmentation classifications**

**Building Construction Consultancy 0920** is classified as Class B.

There are five segmentation classifications and these classifications are rated from Class A to Class E. Each classification has contract and supplier management activities associated with it based on pre-determined weighted criteria.

### **Class A**

Due to the unique and bespoke nature of the frameworks that fall within this class, a contract management plan to be developed and agreed with CSG.

### **Class B**

Quarterly supplier contact, six monthly surveys, annual UIG, frequent support to councils, suppliers and external stakeholders requiring high level of procurement expertise, extensive contract monitoring.

### **Class C**

Six monthly supplier contact, six monthly to annual surveys, annual UIG, regular support to councils, suppliers and external stakeholders requiring procurement expertise, high contract monitoring.

### **Class D**

Annual supplier contact, annual surveys, optional annual UIG, ad-hoc support to councils, suppliers and external stakeholders potentially requiring procurement expertise, regular contract monitoring.

### **Class E**

Annual supplier contact (if required), optional annual surveys, no requirement for annual UIG, straightforward ad-hoc support to councils, suppliers and potentially requiring procurement assistance, basic contract monitoring.
