

Renfrewshire Health and Social Care Partnership (HSCP)

Local Area Committee Update

Renfrewshire HSCP Strategic Plan Consultation Draft

1. Summary

- 1.1 From 1 April, 2016, Renfrewshire Health and Social Care Partnership (HSCP) will be responsible for a range of delegated health and adult social care functions in Renfrewshire. Similar Partnerships are being established across the country.
- 1.2 Over recent years, we have seen the benefits from health and social care services working together within Renfrewshire. The new Partnership will build upon this so it can continue to deliver the best possible services for the people of Renfrewshire.
- 1.3 Under the Scottish Government legislation that sets out the formal arrangements for these Partnerships, we are required to develop a Strategic Plan in consultation with local people and organisations. The Strategic Plan sets out what we want to achieve, and how we plan to improve services, making the best use of resources available to us.
- 1.4 A draft Strategic Plan has been developed with the help of a Strategic Planning Group which includes service users, staff, partners, carers and health and social care professional representatives. It looks at what the needs of local people are and will be into the future and at how our services will change and develop in order to meet those future needs. In line with the legislation, Renfrewshire HSCP has carried out a wide consultation on the draft Plan, which concluded on 3 February. This consultation included members of the Local Area Committees, with a copy being sent to all LAC members and feedback invited.

2. Recommendations

It is recommended that the Committees:

- a) Note the consultation exercise which has been carried out, and that feedback has been sought from members of the Local Area Committees
- b) Note that a further report will be brought to a future Local Area Committee meeting providing a copy of the final strategic plan.
