Current Position: Breakeven
Previously Reported: Breakeven

Although the HRA is projecting a breakeven position for both year to date and projected year end positions, there are some significant compensating variances to be noted. Expenditure on repairs within property costs is £208k lower than expected at this stage of the year. although a breakeven position is still projected. Within payments to other bodies, year end underspends are being reported in respect of void loss £200k and irrecoverable rent £300k based on current performance, delays in the roll out of Universal Credit and ongoing improvements in these areas. Although neighbourhood forum costs are currently £80k underspent, this is expected to be fully spent by the end of the year are project commitments are made. An overspend of £62k is also anticipated in respect of Council Tax on void properties. predominately due to the Council Tax levy being applied to longer term empty properties in regeneration areas. A corresponding overspend is being reported against loan charges to reflect the current policy of utilising any HRA underspends to repay debt.
