**Report by: DIRECTOR OF COMMUNITY RESOURCES**

---

**Heading: COMMUNITY SAFETY & PUBLIC PROTECTION,  
PROGRESS UPDATE**

---

## **1. Summary**

1.1 This report provides a progress update for quarter 4 of 2016/12017 on activities the Renfrewshire Community Safety Partnership has carried out in the Paisley South area. A number of community planning partners have provided statistical information, including: Police Scotland; Scottish Fire & Rescue Service; and Renfrewshire Community Safety Partnership. The report includes information on:

- Paisley South community safety statistics;
  - Environmental enforcement and improvement activities;
  - Protecting vulnerable residents;
  - Building safer communities;
  - A spotlight on the Renfrewshire Alcohol and Drug Partnership.
- 

## **2. Recommendations**

2.1 It is recommended that the Local Area Committee notes the content of this progress update report for Quarter 4, 2016/2017 (1 January to 31<sup>st</sup> March 2017).

---

### 3. Focus on Paisley South

- 3.1 The table below details the number of incidents reported within the Paisley South Local Area during Quarter 4, 2016/17 (January to March 2017). The Renfrewshire Community Safety Partnership continues to target resources into identified hotspot areas.

Incidents Reported	Q3 2015/16		Q3 2016/17	
	Ward 5	Ward 6	Ward 5	Ward 6
Serious Violent Crime	5	6	2	4
Minor Assault	29	22	25	14
Drug Crime	23	12	19	14
Disorder and Anti Social Behaviour (ASB) (number of calls)	211	174	211	239
Vandalism	31	20	31	37

- 3.2 The incidents reported above are obtained directly from the Police Database (Storm) with many discussed as part of the Daily Tasking meetings. The information gathered allows early intervention and quick resolution to incidents.
- 3.3 From previous years, the Community Safety Partnership often see a pattern with regards to complaints in relation to anti-social behaviour, with an increase from Easter (light nights) through to the end of Summer time and then there is seen to be a decline over the darker nights.
- 3.4 Ward 5: Reductions were noted across three of the five crime/incident types, whilst reported crimes of vandalism and incidents of disorder/anti-social behaviour remained at the same level as the corresponding quarter last year. Serious violent crime remained at a very low overall level with only two crimes recorded during the reporting period.
- 3.3 Ward 6: A very slight increase was noted within drug crimes (increased from 12 to 14), whilst increases were also noted within reported incidents of anti-social behaviour and disorder, as well as crimes of vandalism. Within the anti-social behaviour and disorder incidents, the increase can mainly be attributed to an increase in noise complaints, with two specific repeat addresses/perpetrators identified, both of which resulted in Noise Team intervention. Within the crimes of vandalism, a repeat location was identified at Brediland Primary School which had windows smashed on three occasions and damage to the roof on another. A quick response was instigated with increased patrols and attention from Community Wardens and Youth Team staff quickly stopping these incidents, with the last reported incident occurring during the first week of March.

#### **Renfrewshire Wardens' Antisocial Behaviour Calls**

- 3.5 81 antisocial behaviour calls were received directly by the Renfrewshire Wardens' Service for the Paisley South LAC area during 1 January – 31 March 2017. This is a decrease compared to the corresponding period in 2016. It should be noted that

several of the calls to Wardens will also have been reported to Police Scotland and will be included within the statistics detailed in paragraph 3.1 above. 716 patrols took place within the Paisley South LAC area, many in response to these calls. The antisocial behaviour calls made to the Wardens help the Community Safety Partnership to respond to and direct resources across Renfrewshire.

### Noise Enforcement

- 3.6 During 1 January – 31 March 2017, the number of calls to the Noise Team remained at a similar level compared to the same period last year. However, Ward 5 significantly decreased by 39% and Ward 6 notably increased by 14%. The number of Warning Notices issued has also remained constant which corresponds to the calls received. The Noise Team has worked with its community safety partners and operated extended hours until 4am on Fridays and Saturdays since 2014. These working practises have established an excellent service with a history of successfully resolving noise complaints, without formal enforcement action being required following the issue of a Warning Notice.

## 4 Environmental Enforcement and Improvements

### Vehicle Emissions Testing

- 4.1 This bi-annual event took place during March 2017. The Renfrewshire Wardens, working in partnership with Licensing Officers and Police Scotland, carried out emissions testing on light vehicles entering Air Quality Management Areas in the town centres of Johnstone (15 & 16 March) and Renfrew (23 & 24 March). 696 vehicles were tested including 35 taxis and private-hire vehicles, with only 1 fail resulting in the issuing of a Fixed Penalty Notice to the driver. Although detection was very low for emissions this year, other offences were identified. This resulted in the following: 1 male was arrested for drunk driving, a young driver was reported to the Procurator Fiscal for possession of drugs, 1 private hire taxi was immediately suspended from operating due to an illegal tyre tread and 3 warnings were issued due to minor defects.

### **2017 School Parking Safety and Idling Initiative**

- 4.2 This campaign aims to make drivers aware of the dangers of parking illegally or inconsiderately near schools and the threat that idling engines can pose to children's health. Following on from our campaign of 2015-16 where 18,894 text messages were sent to parents/guardians, combined with thousands of leaflets distributed to drivers, this year's campaign aims to be equally successful. A further 10 schools have been identified to be part of the 2017 School Parking Safety and Idling Initiative. Banners highlighting the issues relating to engine idling and dangerous parking were erected outside these schools and wardens patrolled during key times to reinforce the messages during February-June 2017. Information was also communicated through the Council's website, text alerts, school newsletters, leaflets and local media. This action supported wider activities relating to road safety carried out at schools across Renfrewshire.

### **Secondary Schools Litter Initiative**

- 4.3 Community Resources has received multiple complaints regarding issues of litter generated by the pupils from local high schools at lunchtimes and after school. A variety of shops near the schools offer hot food which pupils use regularly. Renfrewshire Council do not enforce littering on juveniles. However, the Community Safety Partnership together with local schools have implemented a joint action plan during March 2017:

- Areas surrounding the schools were cleaned by Streetscene and the Community Payback Team;
- The Community Safety Youth Team addressed school assemblies regarding pupils' behaviour outside school grounds;
- Litter picks by the school pupils were arranged by the Youth Team with equipment supplied by the wardens;
- Wardens regularly patrolled the local areas and challenged any unacceptable behaviours they observed involving pupils and captured the interaction using body worn video. Footage was forwarded to the schools for follow up action.

### **DVLA Audit of Abandoned Vehicle Procedures**

- 4.4 Renfrewshire Council received over 300 reports of abandoned vehicles in 2016/17. However, after investigation less than 10% of these vehicles were officially categorised as abandoned. There are strict criteria to assess if a vehicle is abandoned and this can include (but is not limited to) flat tyres or removed wheels, smashed windscreens or windows, missing number plates or graffiti. Most of the complaints related to cars that had not moved for a time period and were untaxed, however, they were not deemed to be abandoned once inspected. The DVLA enforce cars that are untaxed and remain on the road and complainants can check on the DVLA website to see if a car is untaxed.
- 4.5 To assist in the delivery of the service, the Council website has been updated to provide more information to the public as to what constitutes an abandoned vehicle. One issue is that many of the complaints were anonymous which resulted in the

Council being unable to advise why they were not abandoned and therefore there were numerous repeat callers. This has been rectified and now to report an abandoned vehicle, the complainer must leave contact details to allow Renfrewshire Council to respond.

- 4.6 The Renfrewshire Wardens Service was externally audited by the DVLA Data Sharing Assurance Team in December 2016. The purpose of this audit was to confirm that the Council was recording and investigating abandoned vehicles to the required DVLA standards. In January 2017, Renfrewshire Council received an overall audit rating of 'Green', which demonstrates a high level of compliance. This allows the Renfrewshire Wardens continued access to DVLA vehicle keeper data which helps to identify abandoned vehicles at the earliest point in the process.

## **5 Protecting Vulnerable Residents**

### **Safe Kids**

- 5.1 Safe Kids is an annual interactive educational programme involving Renfrewshire's Community Safety Partners, delivering messages relating to a range of safety issues to every Primary 6 pupil in Renfrewshire, i.e. 1,830 pupils in total.
- 5.2 The aim of Safe Kids is to reduce the number of accidents involving young people, promote positive behaviour and eliminate risks.
- 5.3 Safe Kids was delivered at St Mirren's Paisley 2021 Stadium during February-March 2017 with pupils transported to the stadium from their respective schools. Workshops were designed to be interactive and short in length (10-12 minutes) to enable partners to get vital messages across in subject areas that can be difficult to discuss.
- 5.4 Workshops this year included - antisocial behaviour; CCTV; alcohol and drug awareness; internet safety; fire safety; litter & dog fouling and Street Stuff. Some new workshops were also included for the first time this year, including raising awareness and encouraging kids to "back the bid" for Paisley - City of Culture 2021, Who Cares Scotland raising awareness of children in the care system and working with the Council's Civil Contingencies Team, to increase awareness of how to prepare for emergency situations.

### **The Street**

- 5.5 'The Street' is an award winning drama project based in Hamilton that helps young people to address antisocial behaviour and keep themselves safe. This 20 minute drama is delivered by young people aged 14-24 with the target audience being other young people. Topics include knife crime; teenage pregnancy; domestic violence and alcohol misuse.
- 5.6 The Renfrewshire Community Safety Partnership visited the project on 2 occasions during January - February 2017, with young people who come to the attention of the Community Safety Youth Team through their involvement in youth disorder. After

watching the drama, the young people attend a 1 hour workshop to assess the impact of their behaviour on themselves and their community.

### **Choices for Life**

- 5.7 Choices for Life is an innovative diversionary and educational initiative aimed at raising awareness amongst young people aged 11-18 about the dangers of substance use and misuse in relation to smoking, alcohol and drugs. It also offers online safety and advice on how to deal with negative peer pressure and provides useful resources for young people and parents, carers, teachers and youth workers at [www.choicesforlifeonline.org](http://www.choicesforlifeonline.org).
- 5.8 The 2017 Choices for Life event took place on 20 March 2017 at Johnstone Town Hall. It was attended by 120 second year pupils from Renfrewshire's Secondary Schools. This event focused on the dangers of alcohol and drugs with inputs from Police Scotland, RADAR, Scottish Fire and Rescue Service, Renfrewshire Wardens Service and Community Safety Service, Clubbercise with Active Communities and St Andrew's First Aid.

### **I Am Me/Keep Safe**

- 5.9 The I Am Me Cinebus is touring Renfrewshire primary schools to deliver a comprehensive programme which raises awareness of disability, bullying and hate crime. Over 7,000 children have participated in the programme since September 2016. The programme has been designed to complement the curriculum for excellence and a progressive lesson plan is available for each school year (from P1-P7). Feedback from nearly 3,000 participants highlights that 98% of participants have enjoyed the Cinebus visit, 99% know bullying is wrong and 96% would report an incident.
- 5.10 Disability hate crime awareness training is currently being delivered to the Scottish Prison Service. The training is being delivered, in-house, to Polmont young offenders, with excellent feedback and engagement. I Am Me staff recently delivered the training to the Scottish Prison Services Headquarters in Edinburgh and will be delivering the sessions to inmates and staff at Shotts prison in the spring.
- 5.11 Based in Renfrewshire, Keep Safe is now being rolled out in Ayrshire, with Orkney, Highlands and Islands, Stirling and West Dunbartonshire at the early stages of adopting the initiative. The Keep Safe Scotland "phone app" has now been launched and is free to download from iOS and Android. The app can be used to plan routes, highlighting all Keep Safe places and provide details including opening hours, website and telephone number. The app is linked to Police Scotland to dial 101 or 999 with an approximate location displayed allowing officers to find the app user if they are lost or in distress. A link is provided for all local authorities in Scotland, with the option to provide details for community safety events and contacts. The Keep Safe places are being linked with Police Scotland A-Z system to provide additional support, if required.

## 6. Building Safer Communities

### Best Bar None

- 6.1 Best Bar None is an awards scheme which raises standards and rewards excellence for those venues that attain the award standard. This is delivered at a local level in partnership with the industry, local authorities and Police Scotland. Community Resources' Trading Standards & Licensing Team is responsible for the local co-ordination and assessment of the scheme. Best Bar None Awards are based on core national standards relating to the five licensing objectives, which are:

- preventing crime and disorder;
- securing public safety;
- preventing public nuisance;
- protecting and improving public health; and
- protecting children from harm.

- 6.2 12 venues attained either gold or silver awards at the local Awards Ceremony on 12 January 2017. 7 venues were presented with awards in specialist categories such as "Best family establishment", "Most improved" or "Heart of the Community". 4 Category winners were shortlisted for categories in the Best Bar None Scotland Awards 2016-17, held at the Hilton Hotel, Glasgow on 30 March 2017. The Tartan Rose, Paisley won the Heart of the Community Award - the first ever National Best Bar None Award for a Renfrewshire venue.

## 7. Strategic Police Priorities

- 7.1 At the Housing and Community Safety Police Board on 23 August 2016, Community Resources presented the Renfrewshire Council response to the Scottish Government consultation on the Strategic Police Priorities.

- 7.2 The strategic priorities have now been published and are in line with Renfrewshire Council's consultation response.

- 7.3 The Scottish Government has now established seven strategic priorities for Police Scotland to drive their service over the coming years and these are:

- **Localism** – Ensure that the needs of local communities are understood and reflected in the planning and delivery of policing at a local and national level.
- **Inclusion** – Ensure our police service is accessible and responsive to the needs of all people in Scotland.
- **Prevention** – Ensure our police service works to protect people by preventing crime and reducing fear of crime through communication, education, innovation and partnership working.

- **Response** – Focus policing on improving the wellbeing of individuals and communities by tackling crime and responding to and investigating incidents effectively and efficiently.
- **Collaborative Working** – Ensure that our police service works productively with partners at local, national and international levels to deliver better outcomes for people in Scotland.
- **Accountability** – Continuously improve public confidence in policing and inspire trust by being transparent, accountable and acting with integrity, fairness and respect.
- **Adaptability** – Ensure our police service takes advantage of new opportunities and meets emerging threats and challenges.

7.4 Police Scotland and the Scottish Police Authority (SPA) launched a consultation on the 2026 Strategy on 27 February 2017. The Chief Constable has advised that the strategy is aimed at making police time more productive and that Police Scotland will work smarter. As part of this, Police Scotland is also introducing new Operational Area models, including across Renfrewshire from 4 April 2017. The focus of the new strategy and operational model is in line with the Strategic Police priorities above and will result in a focus on Community Policing.

## **8 Public Protection Spotlight – Renfrewshire Alcohol and Drug Partnership**

- 8.1 The Renfrewshire Alcohol and Drug Partnership (ADP) is a multi-agency group, which has strategic responsibility to review, develop and deliver local services related to the challenges associated with alcohol and drug misuse. It was established in 2009 and comprises representatives from Renfrewshire Health & Social Care Partnership, Engage Renfrewshire, Police Scotland, Scottish Fire & Rescue Services, Scottish Prison Service and Job Centre Plus.
- 8.2 Renfrewshire Alcohol and Drug Partnership's vision is to ensure that individuals will achieve and sustain recovery from their alcohol and drug use and become contributing members of society.
- 8.3 Renfrewshire Alcohol and Drug Partnership is responsible for reporting outcomes in their Annual Report (latest 2015/16). The annual report also includes core and local indicators, many of which demonstrate an improving trend.
- 8.4 Renfrewshire ADP has a drug death action plan which outlines key priorities for preventing deaths. Key areas include investigating all drug related deaths and trends and reviewing any areas for intervention. Recent data shows that there were 19 drug related deaths in Renfrewshire in 2015. This represents a 37% decrease compared with 2014 and is in contrast with many other areas of Scotland which experienced a 15% increase.

- 8.5 In the last year, over 98% of individuals in Renfrewshire waited no more than 3 weeks for treatment, which is better than the Scotland wide figure of 96% for alcohol and 93.7% for Drugs. Renfrewshire has consistently exceeded the local target of 91.5% during 2016/17. Improvements seen in waiting times for drug and alcohol services have made services more accessible and increased the numbers attending.
- 8.6 Renfrewshire's Alcohol and Drug Partnership's 2016/17 developments include:
- Implementation of the Scottish Government's Quality Principles which include a detailed self assessment, and an evidence informed programme of work to support and improve service performance;
  - Recruitment of a Licensing Intern who will work with communities to enhance their involvement in the Licensing process;
  - Recruitment of a Recovery Development worker to enhance the work related to recovery from drug and alcohol problems in Renfrewshire;
  - Funding of the Safe Bus, which seeks to support people who are at risk during the Festive period (Fridays & Saturdays nights in December). The Safe Bus provides a safe environment for anyone who may be vulnerable as a result of being intoxicated, injured or separated from their fellow revellers;
  - The continuation of the National Naloxone Programme which aims to prevent drug related deaths. Naloxone is a potentially lifesaving drug which can temporarily reverse the symptoms of overdose. Training is offered on how to administer Naloxone and basic lifesaving skills including Cardio-pulmonary Resuscitation (CPR);
  - A Training Needs Analysis is being conducted which seeks to identify training needs amongst staff working in addiction services and other key practitioners. This will inform future workforce development priorities for the partnership;
  - Implementation of Peer to Peer programme, which offers training and a recognised qualification for people in Recovery from alcohol and drug use which will allow them the skills to become Peer Support workers.

## **1. Summary**

- 1.1 Street Stuff has been delivering activities in Renfrewshire since 2009, during which the programme has contributed to delivering a sustained reduction in reported youth disorder and anti social behaviour. Across Renfrewshire a 75% reduction in youth disorder and anti social behaviour was achieved in the first 5 years of the programme and a further 42% increase in participation levels has been seen over the past 3 years. Over 43,000 participants took part during 2016/17, an increase of 5000 from the previous year. The programme now offers a range of activities such as football, dance, cheerleading, clubbercise, gaming, DJ workshops, filming and much more.
- 1.2 In 2016/17, supported by the Tackling Poverty Commission, Street Stuff replaced 5 container boxes with 5 buses equipped with playstations and Xboxes. The last two buses were further supported by Paisley 2021 linking in with community engagement intended to take cultural and media experiences to all Renfrewshire communities. Following consultation, the buses were designed both internally and externally by Street Stuff participants to include ipads, macbooks and DJ decks as well as a fresh new vibrant exterior. Free Wi-Fi is also to be installed very soon following discussion with young people. The buses give flexibility in providing activities across wider areas in Renfrewshire as well as supporting events, gala days and community engagement related to the Paisley 2021 Bid.
- 1.3 The success of the programme relies on its ability to respond quickly to hot spot areas identified through collaborative working supported by Renfrewshire Community Safety Partnership. Being evidence led, and by responding early through the daily

tasking process, the service is able to divert young people effectively from anti social behaviour into more meaningful activities.

- 1.4 The success of the programme in delivering life changing outcomes for residents is demonstrated by the fact that previous participants in the programme have gone onto become volunteers in the programme. Some participants (sessional workers) in the programme have used their experiences to support entry into further and Higher Education as well as careers in Police Scotland and the Scottish Fire and Rescue service and as teachers.
- 1.5 This report confirms the development and expansion of the Street Stuff programme through the 2016/17 financial year and highlights some of the additional projects linked with the core programme that have further improved its reach and effectiveness across Renfrewshire.
- 1.6 Over the previous years, opportunities have been available for each Local Area Committee (LAC) to consider funding additional activities within their LAC area. This funding would facilitate additional sessions delivered within communities not identified at a Renfrewshire level as hotspot areas but that the local communities feel would benefit from this type of programme. Given the scale of the core programme, it is requested that a contribution of £5,000 per LAC area should be considered, which would contribute to the costs of delivery of up to two activity sessions per week within the LAC area through the peak summer, autumn, and spring months as well as attendance at local gala days and fetes.

---

## **2. Recommendation**

It is recommended that the Local Area Committee:

- 2.1 Note the continued development of the StreetStuff Programme as detailed in this report; and
- 2.2 Consider the provision of £5,000 grant to the Street Stuff Programme for 2017/2018 to contribute towards the costs of additional activity sessions within the LAC area including attendance at local gala days and fetes.

---

## **3. Background and Further Information on the Programme**

- 3.1 Street Stuff provides a range of activities primarily in the evenings and at weekends across Renfrewshire. Effective targeting and identification of the activities is delivered using information and data controlled by the Renfrewshire Community Safety Partnership including Police data that highlights the days, times and locations of incidents of youth disorder and anti-social behaviour.
- 3.2 The table below summarises the number of sessions delivered during 2016/17 and recorded attendance figures within each local committee area including events, gala

days and fetes supported by funding from LACs and events and activities supported by the Paisley 2021 Bid Team.

## **General**

3.3 Street Stuff became an active partner of the Paisley 2021 Bid Team during 2016/17. The key objective being to engage with young people raising awareness of cultural activities, and what it would mean for Paisley to win City of Culture in 2021. The partnership has grown from strength to strength and has opened up a range of opportunities that Street Stuff participants would not normally get the chance to participate in. Whilst the list is not exhaustive, Street Stuff Dance and the new buses have featured in a number of key events over the year including:

- Smashot Day – Young People got involved in the parade, some participating in dance with others involved with the parachutes and the parade itself. Tuition for this event was provided by an organisation called 'Walk the Plank'. The Young People had a fantastic time in what was an amazing day.
- Renfrew Gala Day – Young People from Kirklandneuk and Glenburn performed a few of their dance routines at the gala day. The bus was also in Robertson Park with activities being well received.
- Pipe Band Festival - The Youth Bus supported the Pipe band championships at St James Park which was well received by those who travelled far and wide to be at this prestigious event. Coaching staff also took this opportunity to get the Paisley 2021 message out and encourage support for the bid to be City of Culture 2021.
- Halloween Parade – Street Stuff young people were involved in this year's parade. The dancers performed a routine based on the Paisley pattern outside Paisley Abbey at the event on both nights.
- Fair Trade Day, Paisley Methodist church – Due to the success of performances at other events, Street Stuff young people were invited to perform routines in the church as part of the Fairtrade day. Performances were well received by those attending the event.
- Summer Holiday Dance Show – Young people from across Renfrewshire performed in a dance show in Glenburn community centre displaying dance moves including singing and acting. The show was a great success with over 150 parents attending and having the ability to see how far Street Stuff Dance has come over the last couple of years.

3.4 ROCCO Business Awards Ceremony – In November 2016, the Renfrewshire Chamber of Commerce chose Street Stuff Culture Buses as one of their Charity Programmes at the Normandy Hotel and awarded £3000 to further develop the buses in the new financial year. As part of this process two Street Stuff Coaches were invited to speak at the awards ceremony to talk about their Street Stuff Journey and what it meant for them to be involved in the development of the buses and new cultural activities.

- 3.5 Street Stuff Annual Football Festival – The annual festival event held in May 2016 hosting around 500 young people from across Renfrewshire. This year's event was also enhanced with additional activities including the Youth Buses and dance classes being provided.
- 3.6 Football Beyond Borders – A group of young people from London visited Street Stuff during the summer holidays. The annual visit, which saw the group returning to Lapwing Lodge for the second year running toured different football grounds over the course of the week. A football tournament was arranged for the visitors at St Mirren Training Ground.

### **Volunteering, Training & Employability**

- 3.7 The ongoing development of the Street Stuff programme has continued to provide volunteering and employment opportunities. Nine new volunteers were recruited with two of the existing trainees receiving the Saltire Summit Awards for volunteering above and beyond expectations and completing over 200 volunteering hours within the programme.
- 3.8 A further positive outcome for the programme is the increase in the percentage of staff delivering activities who have participated, volunteered and live in the Renfrewshire Area rising from 50% to 77% over the course of the year.
- 3.9 Two of the four trainees recruited through the Tackling Poverty programme are now employed by Street Stuff to deliver Dance Sessions and drive the new buses. The other two trainees have moved on to positive destinations with Skills Development Scotland and Hairdressing. Other coaches within the programme have also moved on to positive destinations with one setting up their own dance schools and another progressing to University to complete a degree in Sports Leadership.
- 3.10 University West of Scotland - Street Stuff has been working with the University West of Scotland to provide placements for 2<sup>nd</sup> year students within the programme. Work experience placements with young people from local schools and colleges across Renfrewshire have also been popular this year with over 12 placements being provided.
- 3.11 At the ROCCO awards in November 2016 two coaches spoke to over 500 people about their own experience of being a participant in the programme, progressing to become volunteers and with support from Street Stuff progressing to study an HND in Sports Leadership at West College Scotland and now employed by Street Stuff on a sessional basis. They explained their roles within Street Stuff highlighting that they wouldn't be where they are now if it wasn't for the programme. They also highlighted how much they enjoyed the consultation and community engagement with young people on the development of the new buses and being able to see the end product with the buses now on the street.
- 3.12 Street Stuff continued their support at the annual Safe Kids event held in February/March 2017 at the St Mirren Paisley 2021 Stadium. Safe Kids is an annual

interactive educational programme involving Renfrewshire's Community Safety Partners, delivering messages relating to a range of safety issues to every Primary 6 pupil in Renfrewshire, i.e. 1,830 pupils in total. The aim of Safe Kids is to reduce the number of accidents involving young people, promote positive behaviour and eliminate risks.

- 3.13 Pupils are transported to the stadium from their respective schools and attend workshops designed to be interactive and short in length (10-12 minutes) to enable partners to get vital messages across in subject areas that can be difficult to discuss. Workshops this year included - antisocial behaviour; CCTV; alcohol and drug awareness; internet safety; fire safety; litter & dog fouling and Street Stuff. Some new workshops were also included for the first time this year, including raising awareness and encouraging kids to "back the bid" for Paisley - City of Culture 2021 and working with the Council's Civil Contingencies Team, to increase awareness of how to prepare for emergency situations.
- 3.14 All P6 pupils from across Renfrewshire who attended the event were given the opportunity to attend a St Mirren match with a parent free of charge. Around 800 people attended the match against Queen of the South in March.

#### **Holiday/Festive and other Programmes**

- 3.15 The Street Stuff Holiday Programme delivered an extended programme of activities during the school holiday periods throughout 2016/17 including the provision of a healthy meal. Over 16,000 healthy meals have now been provided at activities since the extended programme began in October 2015.
- 3.16 All five Local Area Committees benefited from this additional funding with local holiday camps being provided at some point throughout the course of the year.
- 3.17 A key feature of 2016 was the Festive programme delivered over the 2 week Christmas shut down period with over 500 recorded attendances of young people from all over Renfrewshire.
- 3.18 Over and above the normal delivery of activities and provision of a healthy meal, a special Christmas Party was held with over 100 young people in attendance. A Christmas Dinner was served with gifts, selection boxes, games and quizzes taking place. Street Stuff Dance displayed their routines with a DJ mixing the latest songs and providing workshops for the young people to participate in.
- 3.19 Chief Executive award – To finish another successful year, Street Stuff was recognised for their efforts by winning the Chief Executive's "Place Award" for making Renfrewshire a better place to live in, work and visit.
- 3.20 The popularity of the programme is clear however, in previous years, LAC areas have been keen to ensure that a wider range of communities and young people benefit from the activities offered and have funded additional sessions specifically to address hotspot areas within their own communities. Given the continued success of

the programme in terms of sessions delivered and recorded attendances in each LAC area and the wider opportunities available to young people, we would welcome the continued support from the LACs with the allocation of £5,000 during 2016/17. This would enable the programme to continue to provide additional sessions/activities each week within the LAC area as well as secure attendance at relevant local gala days and fetes.

It will entail renewing all the curtains in the gym hall to provide blackout for performances and enhance the lighting system put in recently. The renewing of the curtains will enable the pupils to perform in an area which is now suitable for the purpose and which will help them gain confidence in public speaking and performing. The need for the project has been evident for the past few years when the performances of the children have suffered due to the lighting and other effects being spoiled by the lack of blackout curtains. The school have recently revamped the stage lighting and sound equipment and a lack of blackout undermines much of this work. A professional company will be employed to assess the need and to carry out any work in line with health and safety standards. We would like to provide blackout curtains for the full hall which will create a 'theatre' feel for future performances. The anticipated outcome is more frequent use of the area for dramatic performances to aid literacy. The pupils will have increased access to the area to showcase their talents. The project will help to increase confidence in performing and public speaking among the pupils. The area would also be much more inviting for hall lets for drama/dance groups.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>The purpose of this project is to support the school in the implementation and delivery of outdoor gym and daily outdoor physical exercise for all pupils. This will enable all children to receive more than the 2 hours of Government recommended weekly physical activity whilst ensuring children are ready for learning at the start of each day. Following consultation with their peers members of our Pupil Council have mentioned on numerous occasions their peers' desire to have increased opportunities to take part in a variety of outdoor sporting activities both during PE lessons and during break and lunch times. Through these meetings our children's desire has become obvious alongside staff's desire to take part in daily mile activities to promote physical and mental wellbeing whilst readying pupils for learning each day. This project is looking to increase the educational opportunities for our pupils as well as implement best practice activities shown on national TV and on teaching sites. Our project also links in with Renfrewshire's Community Plan 2013 – 2023 Children and young people's vision of all children having the best start in life; being ready to learn, supported to achieve and be ambitious throughout and beyond their school lives; and have good physical, emotional and mental health and wellbeing. This project will provide outdoor physical education opportunities for all pupils as well as a better playground environment for pupils to enjoy at their breaks. With the necessary equipment children will be able to take part in a variety of sporting lessons outside including football, hockey, basketball and netball.</p>	

		Children will be able to use the equipment all year round, teachers will be able to facilitate outdoor physical education all year round and there will be a safe and specific route for children to follow to allow them to participate in 'daily mile' activities to impact positively on their readiness to learn. These 'daily mile' sessions will run on a daily basis at 9.00am for 15mins. Year round use of equipment to facilitate outdoor physical education. Children meeting the 2hrs minimum requirement of physical education per week. Year round and daily activity to increase readiness to learn. 'Daily Mile' sessions will assist in the reduction of childhood inactivity and obesity; build self-esteem and confidence; improve children's perception of exercise for life; and develop within the children greater resilience and determination.

What does your Organisation/Group do?	1.10	We are a group open to all over 50 but this can be relaxed for people with disabilities. We are an active community group with our main aim to provide a forum which will tackle loneliness and isolation within over 50s in our area. We help our members stay fit mentally and physically and although we only meet once a week our members have developed and continue to develop friendships and companionship to enhance their everyday life.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	Geographical Area: Paisley South  LAC Applying to: Paisley South	
How much grant funding are you seeking?	2.10	<b>£3,050.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	To help the club provide a meeting each week which will combat loneliness and isolation in over 50s and at the same time keep them fitter both mentally and physically in a hall convenient to the area and well looked after. As we have moved from St Paters Church Hall to St Peters Men's Club we now operate all year and only being closed at Christmas, Easter, Glasgow and Paisley Fair so providing a better, more continuous service for our members. The club has grown each year and the demand for our type of organisation comes from the pensioners themselves as well as health boards and politicians local and national. With so many local clubs closing it is important that we continue giving the people of Glenburn and surrounding areas somewhere to go and make friends, especially following a bereavement which would normally lead to the onset of loneliness. We will provide - exercise sessions, a quiz, bingo, a fun raffle, Tea/coffee biscuits and a good old chat, 4 special open days to encourage new members, Christmas lunch and party, summer trip, bus runs etc, sing songs and an all year round club and meeting place for the over 50s. The members will have a more active life with new friends and less loneliness. They will be fitter and less likely to have a fall and end up in hospital. The activities will slow down the onset of dementia, heart attacks, strokes etc as all research shows.

What does your Organisation/Group do?	1.10	<p>The aim of the Organisation is to improve, enhance and develop green spaces in our communities. We do this by Utilising qualified, competent individuals to lead trainees to develop employability skills and sector based skills to help them move into employment. We work with those whom have significant barriers to employment. Our Social Enterprise generates an income which we invest into green spaces and that allows up to make the impact of grants go so much further.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>The purpose of the project is to build upon previous years success in improving Community Spaces across Paisley South and build upon this. The project will take trainees who have significant barriers to employment and train them up while enhancing green spaces across the Paisley South LAC area; these include but are not limited to Durrockstock Park LNR, Glenfield Woodland, Gleniffer Braes Country Park. Our Services are Run by the Community for The Community meaning that they are always involved in the Management, Operation and Development of our Organisation. Without the Support of the Community we would not exist, It is also the Community who normally spark the Projects up and bring them to our attention and want to actively improve them and be empowered to maintain them once improved. The LAC Area will be better maintained, - The People of the LAC Area will learn transferable skills which can be used to benefit the Community and in the Work place, - Green Spaces in the LAC area will be better maintained, managed and the Community Empowered. We will achieve this by carrying out practical work to improve them and then put in provisions for the maintenance of the sites to ensure a long term success and legacy of the funding. The communities are improved and are cleaner; aesthetically pleasing and people feel safe to use them. Local people are trained as part of the project to</p>

What does your Organisation/Group do?	1.10	<p>PAISLEY OPERA believes that opera can speak directly and powerfully to all kinds of people. We aim to build a community-based company that local people can be proud of and engage with directly by: -Debunking the myth that opera is for 'posh' folk and presenting what it really is on the street, in the workplace and in schools. -Inviting them to volunteer in our chorus, led and supported by experienced professionals. -Volunteering to help in other aspects of production. -Inviting people in to see our work as it evolves. - Performing in unusual spaces in and around Paisley.</p>

<p>What will this grant be used for?</p> <p>Please provide a breakdown of the costs to be incurred.</p> <p>(Please use a separate sheet if required)</p>	<p>2.3</p> <p>2.9</p>	<p>Year 1 is about making a solid foundation from which to grow the company. The basis for this is the foundation of our volunteer chorus. The set up fund will be a one-off fund and will be replaced in following years by our own fundraising and business sponsorship, by membership fees, specific project funding and by ticket revenue for performances. The company will succeed only if it has support from the local community. We have therefore decided that we need to start with engaging volunteers to work with us so that from the beginning the company comes from the community and continues to grow there. To do this, we need the help of experienced professionals who can work with volunteers of all experience and help them to discover what they can achieve in this field and what they can gain from it. The fund will be used for: -Publicity materials (printing of posters, fliers and T-shirts)</p> <p>-Fees for professional singers and accompanists to take part in street, workplace and school events to promote the company start-up and give all kinds of people the opportunity to be a part of it.</p> <p>-The purchase of a mobile digital piano and amplifier for use outside and in different venues, -Purchase of sheet music, -start-up administration costs. If this start-up funding is present, we believe that we can make a firm foundation for the company to move</p>	

		forward. We anticipate a strong voluntary chorus to be underway and growing. 'Pop-up' events taking place in work places, schools and in the street to show people what we are and encourage them to take part. We anticipate that this funding will help us raise the profile of the company and put us in a strong position to apply to other funding streams both in the public and private sector as well as creating a momentum for our own fundraising events.

What does your Organisation/Group do?	1.10	<p>Renfrewshire Leisure's main aim is to provide facilities for recreation, sport and cultural pursuits which are of maximum benefit to the community and in doing so ensure this provision is truly inclusive. There is no doubt that sport and culture can bring real benefits for communities and individuals alike and participation in physical activity can make a significant and positive contribution to many areas of our lives. It is vital that everyone has the opportunity to participate and through the following services Renfrewshire Leisure will provide a range of programmes, projects and initiatives which target inequalities and aim to improve life chances for the most disadvantaged as well as providing all with opportunities to improve the health, wellbeing and the learning environment of the population of Renfrewshire in general.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>Lunch &amp; After School clubs. The project will use extra-curricular sports clubs as a tool to engage primary and secondary aged children into a safe, fun and professional environment. Classes will be delivered by professional coaches and will allow the children to engage in free sports. Provide employment opportunities. It will provide young people and secondary pupils the opportunity to train, coach or volunteer in a structured pathway, whilst developing an essential skill set for further education. It will provide employment opportunities, promote better health and wellbeing and engages hard to reach groups including young girls and women. Friday Night -Fit 4 Sport ASN Club. This club offers multi sports and fitness activities to help keep participants active and engaged in exercise. All sessions are delivered by professional coaches and will allow the children to engage in free sports. School clubs. The funding will enable additional sport sessions to be offered in all Paisley South schools. The sessions will be delivered during</p>	

		<p>lunch time and after school clubs to promote a healthier engaged community. Employment opportunities. Lack of employment opportunities- pupils in the high schools can access UKCC coach education, potential future employment with Renfrewshire Leisure (RL) and be utilised to volunteer and eventually coach at clubs &amp; community classes in and around their schools. As highlighted in Scottish Index of Multiple Deprivation (SIMD) the Renfrewshire area particularly Paisley are in the top 10-15% most deprived for employment in Scotland. Friday Night - Fit 4 Sport ASN Club. This project is valued and is supported by the schools and parents of children with additional sport needs. The project is costly to run due to the specialised equipment and qualified staff. The funding would allow for more opportunities to engage with local clubs in the hope that they can make the necessary adaptations to their club to allow more young people with ASN to participate. School &amp; Community Clubs. More children and young people engaged in sport and a reduced drop out level between the transition from primary to high school. By having the confidence and familiarity with the programme participants will be more likely to engage in sports clubs which can avoid increasing dropout rates shown in national statistics. We aim to improve physical wellbeing of the participants, install a sense of achievement and a higher sense of self confidence. Overall improve the health and wellbeing of participants involved as we strive to break down the barriers created by poverty. RL will provide first aid and child protection and look to support any further training needs of coaches and volunteers. Those involved can build on coaching skills, personal qualities, team work and transferable skills into other sports and potential employment. They will be able to plan and lead sessions, create safe controlled environments and complete risk assessments that are key employment skills in many trades. School club links will be developed to encourage a pathway into the young persons preferred sport. Friday night- Fit 4 Sport ASN Club. Participants involved in the programme would benefit physically, socially and psychologically. The skills and activities involved in dance will improve health and wellbeing, strength, flexibility, range of movement, coordination and the overall fitness of the young people involved. Change of perception of sport as we create positive image and strong role models in both the participants and deliverers. The young people have a chance to become the future volunteers and coaches. We aim to create a sustainable project that can continue to grow in Renfrewshire based on the success of the current programme and the pathway implemented. We aim to provide access to sport that can be somewhat expensive as this is a major barrier in such areas of deprivation. If the funding bid is successful, the money will increase participation by over 10,000 attendances. A sports project that the community and participants are proud to celebrate its successes in at local awards evenings, school assemblies, national awards and the local press, with young people at the forefront of the sport.</p>

Please briefly explain the benefit for the Local Area Committee Area if you are awarded this grant	2.6	Change of perception of sport as we create positive image and strong role models in both the participants and deliverers. The young people have a chance to become the future volunteers and coaches. We aim to create a sustainable project that can continue to grow in Renfrewshire based on the success of the current programme and the pathway implemented. We aim to provide access to sport that can be somewhat expensive as this is a major barrier in such areas of deprivation. If the funding bid is successful, the money will increase participation by over 10,000 attendances. A sports project that the community and participants are proud to celebrate its successes in at local awards evenings, school assemblies, national awards and the local press, with young people at the forefront of the sport.

Address/based	1.3	Bushes Primary School Paisley	
What does your Organisation/Group do?	1.10	<p>The Girls' Brigade is a uniformed, church based, non-denominational, worldwide organisation with a structured badge work system. Girls' Brigade offers a programme of activity based on four elements being Educational, Physical, Service and Spiritual in which members work towards their awards throughout their GB journey. The aim is to help girls become followers of the Lord Jesus Christ and through self-control, reverence and a sense of responsibility to find true enrichment of life.</p>	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Paisley South</p> <p>LAC Applying to: Paisley South</p>	
How much grant funding are you seeking?	2.10	<b>£1,500.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3	<p>Purchase of materials to assist girls in their badgework activities throughout the 2017/18 session. Costs associated with girls participating in various outings and competitions organised by Renfrewshire Division GB. Assist towards costs of all girls in the company being able to participate in the company's annual outing in May 2018. Assistance with capitation fees for each girl which is paid to Girls' Brigade Scotland. As a company we pay this fee for each girl from our funds to prevent the cost of being part of the organisation cost prohibitive for parents. As a company we attempt to keep all costs for the session as low as we possibly can. We organise 'bag packs' in local supermarkets and various sponsor activities during the course of the session in order to subsidise costs for parents.</p> <p>Unfortunately not all girls are able to participate in the annual outing and enjoy the experience with their friends and it would be fantastic if we could subsidise the outing to an extent that all girls could participate. This funding would benefit over 50 girls in the company by allowing them to participate fully in all activities, competitions and outings in the programme for session 2017/18. It would allow us to purchase materials required and hire a coach and a minibus for the annual outing thus allowing the whole company, comprising 55 girls and 10 officers, to enjoy an outing as the last event of the session. Girls in our company are encouraged to</p>

What does your Organisation/Group do?	1.10	To promote a Positive Paisley and Renfrewshire to a wider audience, using volunteers who are trained in photography, social media marketing, I.T etc. To connect, digitally, with the community, raising awareness of services, events, and news in the local area.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to: Paisley North and Paisley South</p>	
How much grant funding are you seeking?	2.10	<b>£1,340.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>Paisley.org.uk is a community group website which promotes a positive Paisley and Renfrewshire. The application is to support the running costs of the community website. The group is managed by volunteers and any costs so far have been covered by myself. I am no longer in the position to fund these costs and am now looking for help to continue the group. To work with, and promote, community groups and teach them skills in social media, photography and marketing. To also train unemployed people within the community giving them key skills for employability. They would learn skills in social media and photography. All training would be focused on a promoting a positive Paisley and Renfrewshire. We have shown we have outlived other Paisley websites but we have a capacity to build on our existing audience and platform. With mobile use being more frequent we can use the website to bring down barriers and to break social isolation. Our engagement with individuals is crucial so to engage in discussion and for the members of the public to feel part of the town and the events and history and/or future of the town is imperative. I have been working for paisley.org.uk for 19 years and have saw a growth in the amount of our service users during this time. In the last year we have doubled our audience and currently receive 40k impressions on our social media platform each day. It is vital that we showcase Paisley in its bid for the City of Culture 2021. Paisley.org.uk can play a huge role in supporting Paisley's city of culture 2021 bid. We will promote events on our digital platforms showcasing Paisley and Renfrewshire to the public in a positive way. We aim to show the population that Paisley is alive and full of</p>	

		culture aiming to support the City of Culture Bid 2021. We regularly engage with a number of organisations and we provide volunteers to photograph events. These events are then showcased on our social media platforms to ensure the maximum audience. We aim to ensure the community is kept up to date of the latest events in Paisley and Renfrewshire. We shall promote everything related to the Paisley and surrounding area. We want to make sure the community can engage in discussions through the various social media channels. Local people will have more influence and power to improve their lives through our training. We will deliver training to unemployed or low skilled people. This will give the volunteers opportunities to build skill levels to help them move into sustainable employment. Organisations will be learning digital skills which will help them engage and progress in the social media marketing world.

(Please use a separate sheet if required)	2.3  2.9	<p>Renfrewshire is leading the way, in Scotland, for working with disabled people, children, young people and the wider community to raise awareness of disability hate crime. This funding would enable the development of a book, based on the character from our I Am Me film, but using the real life experiences of Kieran, a young Renfrewshire adult with autism and a learning disability. The book will be available online and can be used as part of the Cinebus programme.</p> <p>I Am Me are currently working with 7,000 children in Renfrewshire primary schools to raise awareness of disability, bullying and hate crime. The feedback has been incredible (available if required), with many children (and teachers) commenting on the value of Kieran's input and real life experiences. We have decided to capture this in a book - Made in Paisley - which can be available for children to help understand disability. We aim to pull all of the experience together using our small team (English Literature graduate, Graphic Design graduate, Project Manager and Kieran our project clerical assistant). We will then work closely with our volunteer committee to develop the book. The committee consists of young people, disabled people and parents of disabled people. The book will be tested with age group 6-8 and pre school. When complete, the book will be used for reading sessions with preschool and P4 children. Anticipated outcomes: For children to have an awareness of disability. For children to understand how their actions can affect others.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>The Hall requires some urgent refurbishment to support both the group and the community who we provide sublets for. We need to replace the current heating system with a more environmentally friendly and sustainable system, replace existing lighting system, sand and seal the hall floor and repair the hall. In addition we hope to install broadband to support all of the groups who use the hall.</p> <p>The hall is used heavily by the beaver, cub, scout and explorer sections and used by a broad range of community groups. The current users require a refurbished facility. The local afterschool club would also like to use the hall but need broadband. The broadband is also a facility that the Scout Group will use. We have secured quotations for the broadband, for the new heating systems and we are awaiting quotations on the sending of the floor of the hall and the new lighting system. The improved amenity of the hall will allow the continued growth of the Scout Group, support the other community organisations who currently sublet the facility and allow us to use the facility to support the community in other ways. An increase in the Scout Group head count, greater community engagement and a greater number of sub-lets.</p>

What does your Organisation/Group do?	1.10	<p>Royal Blind is Scotland's largest visual impairment organisation. We support people with visual impairments at all stages of life through our services in Edinburgh. This includes The Royal Blind School and Kidscene holiday club, the Forward Vision service for adults with additional support needs, Braeside House care home, the Scottish Braille Press and The Learning Hub, which provides educational training and resources. This year we open our first service in Paisley, a second care home for people with visual impairments.</p>

In 2017, the charity will be opening the second care home of its kind in Paisley, Renfrewshire. There is a real need for a home of this kind for older people with visual impairments living in the west of Scotland. The addition of a care home providing specialist, person centered care for visually impaired people, along with the creation of around 75 - 100 new jobs, will be a great asset to the local community in Renfrewshire. Analysis has shown that there is a high population of older people living in the Renfrewshire area. A 2014 Renfrewshire Council report stated ; 'The social work service has experienced increasing levels of demand for all services but in particular care at home...and nursing care home placements.' Jenny's Well will be located in a neighbourhood that is classed as an area of multiple deprivation. Around half of the residents will be funded by social care, with a degree of subsidy from Royal Blind. The service will also bring up to 100 new jobs to the local area. Jenny's Well will have 54 beds and offer support to older people with visual impairments including some living with additional disabilities or conditions such as dementia. It will be bright and airy with open space and access to the outdoors. The lay-out of the building and lighting will be designed to facilitate independent movement as much as possible. Jenny's Well will be a care home with a specialist in older people with visual impairments. We will offer more in the training of staff, the physical environment of the home and the additional resources and bespoke activities available to residents. By opening up a new</p>

Address/based	1.3	Create Paisley Methodist Central Halls, 2 Gauze St, Paisley, PA1 1EP	
What does your Organisation/Group do?	1.10	Create primarily works with local young people in Paisley, with the aim of fostering safe environments and facilitating events and activities inspired and informed by the interests and passions of local young and the wider community. We are working hard to promote a 'positive Paisley'. Central to this, Create aims to advance local arts and culture, cultivating a creative community and giving spaces and opportunities for artists and musicians to develop their skills, abilities and potential.

(Please use a separate sheet if required)	2.3  2.9	CREATE will provide safe environments in which young people will develop their creative skills in songwriting, filmmaking, photography and digital app design. Young people will increase in confidence, develop skills in technology and design, engage in City of Culture 2021 projects and build social networks with other young people and the wider community. Create will continue to engage young people where they're at and signpost them to relevant activities. CREATE was started in response to local young people hanging out in the town centre who were seeking a positive place on the weekends to play their music. Over the last 3 years of our Create Cafe, our fortnightly youth drop, 25% of attendees have been from postcodes from the top 2 deprived deciles (SIMD2016). Lots of the young people we work with say there is a lack of free-to-access art and music opportunities in Paisley and therefore Create identified a need for such programmes and safe environments. We don't want cost to be a barrier to young people succeeding. Create will deliver creative programmes in songwriting, filmmaking, photography, app design and work alongside Paisley 2021 to offer free high quality arts opportunities for young people. Workshops and opportunities will be advertised through social media, schools and partnership organisations. Create will continue to run Cafe nights, offering safe spaces for young people to come and be creative, showing off their creations. Volunteers will be trained to support young people, signposting young people to relevant services and meeting identified needs. 400 young people will access safe arts spaces and have increased opportunities to engage in art and make social connections, improving confidence and wellbeing and being support	

		through transitions in their lives. 40 young people will have improved access to creative arts workshops learning about filmmaking, photography, app design and songwriting and developing their own creative art projects. 40 volunteers will increase in confidence and knowledge through high quality training sessions in mental health, mentoring, youth work and signposting

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	We currently use Holy Trinity Episcopal Church halls for the Drop In activities. We supply light food throughout the day and a main meal at lunchtime. Heating and lighting are used as required. We support the church in the use of the hall and in particular the cost of the power used by our organisation. A few people who had come through life issues wanted to help other with similar life challenges. When the Drop In was established, food was a small part of the work done. Some of the folks who used the centre asked if food of a more substantial nature could be provided. At the same time the premises we used was undergoing redevelopment with a modern well equipped kitchen being installed. It was therefore felt that we could provide fuller meals which was appreciated by those using the Drop In. We will provide support and friendship to those who need this type of relationship while also providing good quality food both of which will assist in improving their well being. Providing food also encourages folks to come in allowing the overall aim of the project ie to engage with those in need to be fulfilled. The Drop In is open one day per week where refreshments are offered all day and a full meal offered at lunch time. We use the Holy Trinity Episcopal Church hall/facilities. More people will access that provided by the Drop In which will give more opportunity to befriend and listen to them and where possible help them with their life needs which includes referring them to specialist agencies

How much grant funding are you seeking?	2.10	<b>£ 1,880.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	The project aims to dispel the myths surrounding suicide, as well as reducing the stigma attached. It also aims to promote help-seeking behaviours by raising awareness of sources of support and invites the community along to remember those they have lost, and to celebrate the lives of those who have taken their life. Ferguslie Park remains one of the most deprived area in Scotland. High levels of deprivation increase the risk of suicide in communities and deaths by suicide are considerably more within these communities. In 2012, local Ferguslie man, Paul Cardona, asked to work with the local support group, Survivor's of Bereavement by Suicide, to organise a 5-a-side Memorial Football Tournament. The football tournament acts as a medium to transmit information about suicide and the help-seeking resources available locally and nationally. It will also stimulate conversation around suicide, reducing the stigma attached. It invites services into the community, breaking down barriers to seeking help in a particularly hard to reach community. The main benefit will be that people are more informed about where to go if they or someone they know are feeling suicidal. Outcomes - conversations about suicide that help to reduce stigma, an awareness of the local/national help seeking resources available and people feeling more informed about the best way in which to access, helping to reduce barriers for people at risk, to remember those lost to suicide, people who have been bereaved by suicide will be supported as they will be made aware and invited along to the local support group, the community will feel better equip to signpost a person at risk

(Please use a separate sheet if required)	2.3  2.9	<p>The main purpose of the minibus is to provide transport each week to enable our less able and disabled members to attend the friendly hour. Many of these members who live in the local community are afraid or unable to leave their homes, so transport assists them. Otherwise they would be unable to leave their home and meet up with friends. This is essential and a great benefit for their health and wellbeing. The Friendly Hour Committee very quickly identified that certain members would be unable to attend weekly meetings unless transport was provided. More and more members request help with transport, it was decided to hire a minibus and provide our own qualified volunteer driver. It is very important for volunteering groups like Oakshaw Trinity Friendly Hour who provide help in the community. The minibus project encourages people to get out of their homes, meeting other members for a cup of tea, a variety of afternoon entertainment and some light exercises. To date the minibus project has been a great success, which in future the membership of the club will continue to grow. More elderly people living on their own will be encouraged to take part in the club. This year a few members have given up driving and wish to use the minibus, otherwise they would be unable to attend.</p>

Address/based	1.3	23 Birchwood Drive, Paisley, PA2 9NE	
What does your Organisation/Group do?	1.10	<p>To promote, foster and encourage participation in ice hockey at junior level. To provide the opportunity for as many youngsters as possible (7 to 17 years of age) to participate in our sport through our "Learn to Play" initiative. The club has an open membership for children aged 7 to 17. To carry out the hiring of 2 practice sessions weekly (without placing too much extra financial burden on the participants to allow as many as would wish to take part in the sport). This is non-competitive but allows the children to learn techniques and drills, to learn the discipline of team sport, be very active and have fun whilst improving social skills, team building skills, confidence, health and wellbeing and increasing fitness levels. To ensure a duty of care to all members and to provide all services in a way that is fair to everyone whilst promoting equal opportunities for all, with anti- racism and anti- discrimination underpinning and informing our aims.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>To be in a position to continue to offer junior ice hockey training to all who wish to participate, at an affordable cost which makes the club available to anyone who wishes to join. Our players range in age from 7 to 17, with both boys and girls, of different social backgrounds and nationalities, taking part. They learn the skills and drills of the game in an atmosphere of fun combined with the discipline a team sport offers. It's a great way too, to keep fit and active and make lots of new friends. We will provide the opportunity for as many youngsters as possible (7 to 17 years of age) to participate in our sport through our "Learn to Play" initiative. Grant funding would ensure that participation remains affordable to all, whilst providing sufficient ice time to allow our players to progress their skills, partake in twice weekly physical activity and have a positive, healthy focus. We will also develop coaches, some of whom are older players. This season's dramatic and unexpected rise in hire costs (from £180 to £191 per hour) plus a new security charge of £75 per hour, has increased our ice costs to £265 per hour - a rise of 46%. We understand that security is a necessity in this day and age, however the increased costs have placed an added financial burden on our players' parents. We have been supported by grant funding</p>	

		<p>from Renfrewshire Council for a number of years, with our applications reducing in amount year on year. This latest increase , though, could threaten the future of what is a very successful club and funding, along with already instituted higher fees (up by 40%)and continued fundraising, would help secure Renfrewshire's only junior ice hockey club it's continuation. We will provide the opportunity for as many youngsters as possible to participate in our sport through our "Learn to Play" initiative.</p> <p>Grant funding would ensure that participation remains affordable to all, whilst providing sufficient ice time to allow our players to progress their skills, partake in twice weekly physical activity and have a positive, healthy focus. We will also develop coaches, some of whom are older players, who also enjoy the social participation and physical activity. The funding from this LAC application will also enable the club to meet the cost of on ice equipment, stationery such as provision of newsletters, registration and medical forms, etc., and the provision of annual awards which is essential to the motivation and recognition of the young people's efforts and sportsmanship during the season. Involvement in team sport brings great benefits to those involved – encouraging a healthy and active lifestyle, increasing confidence and self esteem, encouraging team work, making like-minded friends and, of course, having fun! There are opportunities to play ice hockey, competitively and recreationally, from age 7 to 70+ and many of the original intake at the Lagoon in 1992 are still regularly playing/coaching and will continue to do so well into older age, keeping fit in body and mind.</p> <p>At present we have boys in training who are playing with the Scotland and GB squads. We have female players in Scotland Ladies, travelling to Czech this year, progressing their hockey skills and broadening their outlook!</p>

Please briefly explain the benefit for the Local Area Committee Area if you are awarded this grant	2.6	Involvement in team sport brings great benefits to those involved – encouraging a healthy and active lifestyle, increasing confidence and self esteem, encouraging team work, making like-minded friends and, of course, having fun! There are opportunities to play ice hockey, competitively and recreationally, from age 7 to 70+ and many of the original intake at the Lagoon in 1992 are still regularly playing/coaching and will continue to do so well into older age, keeping fit in body and mind. At present we have boys in training who are playing with the Scotland and GB squads. We have female players in Scotland Ladies, travelling to Czech this year, progressing their hockey skills and broadening their outlook!

We are looking for group tracksuits. At present we have plain T shirts and everyone wears their own tracksuit trousers but as our group are a Team it would be beneficial to morale for everyone to be the same. We encourage fair play, celebrate success and acceptance that we have done our best even when we do not succeed. We encourage the team to be a collective who strive for the team. All the adults have a learning disability and many have associated difficulties such as mental health, autism, epilepsy, and sensory and physical disabilities, which make it difficult for them to access mainstream activities. The team building and personal challenge aspects in being part of a sports team are particularly well received by the learning disabled. This is not a service provided at Milldale Centre within the remit of the Social Work Department. Each member of this group have their own challenges to face in daily lives and overcome various difficulties including mobility, communication and general health however this does not discourage our team. The team are supported by two dedicated staff members and led by our Red Star Special Olympics Athletics coach. As well as promoting teamwork and building self-esteem, these sessions promote co-ordination, communication, and confidence building skills. These activities have been thoroughly researched by Centre staff and are considered to be of great benefit to the learning disabled clients.</p>

What does your Organisation/Group do?	1.10	The Scottish Afro-Caribbean Art Association (S.A.A.C) provides the Renfrewshire community with an outlet to celebrate and share the diversity of their different cultures. We provide the resources and tools to illustrate the heritage and traditions of their homelands through music and art.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to:</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>This project is to promote cultural integrations to the community and to have a platform for celebrating diversity and also to generate interest and understanding in each other's cultures, in non-threatening, friendly and inquisitive environments. We want to dispel any myths and mis-understandings that are easily reported but have no real factual support and have real impacts on minority communities. The idea was identified through a table - talk group in Reem whose initial objectives was to come up with ways of promoting cultural integration in the community. The group noted that Renfrewshire has diverse cultures, but it lacked opportunities and places for people to share such cultures. As a result the carnival idea was identified as a good opportunity to come together, share cultural experiences through art, dance, drama and celebrate. On the lead up to the actual West indies type of parade, we plan to arrange a programme of activities in partnership with local youth groups operating around the Renfrewshire area. These activities will cover such things as National costume designing and making, playing musical instruments related to certain cultures and fun around finding out about each others cultural beliefs and history by way of dance, story-telling and other art mediums. The parade and event will be organised. Our main objective is artistic development through this specific project. The Carnival on 5 August will allow the opportunity for the community to come together and the workshops allow the delivery of skill building and creative enjoyment. By providing the opportunity to engage with difficult to reach target groups and encouraging involvement in the Arts through our workshops we are achieving our goal.</p>

What does your Organisation/Group do?	1.10	We are a group of people from across Africa who has settled in Renfrewshire. We want to run different activities and events to assist and encourage integration and intergenerational community based work and REEM's main aim is to promote economic and social inclusion among immigrant communities within Renfrewshire area especially those from Africa and eastern Europe to whom the UK environment may be very foreign, either in terms of language barrier or otherwise.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	Geographical Area: Renfrewshire Wide  LAC Applying to: Paisley North, Paisley South	
How much grant funding are you seeking?	2.10	<b>£9,265.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	REEM operates a Drop-in Centre, recognized within the community as an impartial access point. A place people feel comfortable approaching for advice and advocacy. We see a wide range of people from different cultures with their own unique barriers, situations and needs. The centre is already helping a lot of people and the demand of the project has been overwhelming. There is a need to keep the centre 5 days a week due to demand. We are looking for funding to cover basic running costs. When various minorities leave their home countries they are faced with new customs and ways of doing things. They struggle to cope with life changing events without the support of family and friends and with no one to speak to within their new community. They do not interact for several reasons, including trust issues, language difficulties or religious belief. The project was initiated by a group of people who themselves went through a similar phase and are aware of the need. We ran scheduled information clinics as well as stay open 5 days a week for people who need to be listened to one-on one. The centre serves as a first point of contact for people from immigrant communities. It is used by a variety of people including families, students, workers, asylum seekers and refugees; some of whom have little grasp of English while others need a translator to communicate at all. We provide some much needed training; including ESOL, job matters & awareness on other issues.	

		The ethnic minorities will have a chance to engage within the wide community. The project will help people feel less isolated and more able to participate in the wider society and want to be part of it. Volunteers will receive training to allow them to develop their skills which will enhance their employability skills.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>The purpose of the project is to provide an area where people who have experienced poor mental health can feel accepted and not judged. We do this by offering craft based activities to refocus and divert from ruminating. The project offers peer support and assists in breaking isolation not only on the day the project runs but on the other social activities that stem from participation. To design and produce various Scottish Themed Toys to develop new skills and build on existing. These toys will then be sold to provide the group with additional funds. The project has developed out of a group of people who were previously in supported employment. As this opportunity came to an end, we realised we wanted to continue to meet and use our skills to support others as we all had experienced poor mental health and had developed a range of art &amp; craft skills. We formed a committee and drafted a constitution. We encourage anyone in recovery from poor mental health to attend our group and our numbers are increasing year on year. We have attended a local gala day to raise funds as we as a committee are learning through our management of the group. We will offer art &amp; craft activities. Art tutor &amp; sewing tutor who will support group members to develop new or build on existing skills. Making use of various fabrics &amp; materials to make Scottish themed soft toys &amp; gifts. The group will have made Scottish Themed soft toys &amp; gifts that could be sold to raise funds for other group activities and the group members will have learned new skills. What does your Organisation/Group do?	1.10	To provide a safe training environment to progress tumbling skills; to provide opportunities to train young adults to prepare for work, such as, project management, coaching and leadership skills; to create a safe welcoming environment where children can socially interact and take part in physical activity, competitive and non-competitive, which increases fitness levels, encourages team building skills and increases confidence and health and wellbeing; to engage with families in areas of high deprivation and Renfrewshire wide to take part in community events. We also have an open membership policy.

How much grant funding are you seeking?	2.10	<b>£10,000.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>To enable the club to purchase a tumbling specific floor facility to provide the children and young adults with greater opportunities such as additional and increased movement and dance programmes, also the club would be able to host local, national and international competitions. To increase physical activity which tackles issues related to obesity and general poor health (physical, emotional, mental etc.). To increase physical and mental wellbeing, increase self-confidence, providing an opportunity to be part of a team within a safe environment in a non-competitive/competitive fun environment. To reduce boredom and therefore help to reduce anti-social behaviour. To increase friendships, fun, social interaction, pride and discipline. To provide support for those with low self esteem to build confidence, help towards realising their full potential and have life goals. Research and assessment has continually been on-going for a 24 month period. During this time it has been a constant observation that many young people are going outwith the Renfrewshire area to engage in the above type of facility and project (City of Glasgow, Dumbarton, Inverclyde etc.) - thus reinforcing the need for such a project in the heart of Renfrewshire.</p>	

		<p>With the club having the provision of a sprung floor, this would increase membership and therefore footfall to Renfrewshire rather than potential or existing members attending other clubs with this facility outside Renfrewshire. Renfrewshire Council also signed up to the 'Stick your Labels' campaign that aims to eliminate the stigma that is associated with poverty and how those affected by it often feel 'isolated' and lacking in opportunity to access equal services. Continue to provide classes of physical activity with little or no cost, provide training in a tumbling appropriate facility to minimise risk of athlete injury and increase coaching qualifications, provide work experience in sports coaching and project management through club volunteering, working with partnership companies to provide work experience and internship opportunities, provide a safe environment to meet new people from different organisations by engaging with community projects. An increase in participation of residents in Renfrewshire through our facility (decreasing them resourcing outside venues), increase in physical activity over a range of disciplines and intensity (recreational to elite) which will contribute to a decrease in levels of obesity, More young adults have additional qualifications/work experience which increases the chance of part or full time employment within Renfrewshire, Those living in the targeted areas are more involved in community projects and levels of anti-social behaviour are lowered, Increased enjoyment for the children and young adults, Increase in membership</p>

(Please use a separate sheet if required)	2.3  2.9	<p>To provide part funding with regard to hiring ice to permit the above activities to take place at Braehead Arena, the only available and suitable facility within a 30 mile radius of Paisley. That part of the funding not included within this application will be met from club funds. Paisley Pirates formerly played and practised at the Lagoon Leisure Centre until 2006. However, at that time Renfrewshire Leisure Ltd ended ice based activities at that venue, obliging the club (and, indeed, other ice related groups) to seek alternative accommodation, the only suitable venue locally being Braehead Arena. Other groups have either disbanded or moved significant distances away from Renfrewshire (eg Ice Hockey Junior Development, allowing junior players to develop to an appropriate playing level, has disbanded, whereas some skating activities have re-located to venues such as East Kilbride. Some centres are unsuitable for ice hockey because of the topography of these rinks (eg non-symmetrical shape, boards of insufficient height around the skating surface), and thus Braehead Arena is the only local venue available. Current operating costs at that venue are the most expensive in Scotland, being approximately £740 per home game and £400 per week for training, approximately £200 per hour, compared with, for example, the Galleon Centre in Kilmarnock where the hourly charge is of the order of £125 per hour. The Pirates coach and management have there for continued the development of young players through training and playing in matches and have gained a reputation for bringing through younger talent to a high standard, the most recent illustration being the selection of Dean Hamilton to play for the Scotland under 19 team. It will enable:</p> <p>1 the club to continue providing a local focus for the sport, given</p>	

		<p>that no other suitable venue is available locally.</p> <p>2 the continued development of on ice skills</p> <p>3 the continued development of off-ice skills (eg, adults with learning difficulties carry out tasks on match nights requiring numeracy, interpersonal skills, and organisational skills. For example, two supporters were recently tasked to organise a coach to take supporters to an away fixture, set prices, recruit people to travel on the bus, arrange times and pickups, etc.</p> <p>4 the club to publicise the existence of the Paisley Pirates, an ice hockey team playing within Renfrewshire in general and Paisley in particular, through the local media and maintain a significant profile for the club, the town, and the wider Renfrewshire community. In the past year, for example, the club management has gone to Tampa Bay in Florida (at its own expense) to publicise the existence of ice hockey in Paisley, and has recently been included in a wide ranging "42 Best Ice Hockey Towns in Europe", produced by a Canadian agency, where the Pirates, and Paisley, were one of only two clubs and towns within the UK to be featured.</p> <p>1 Enhanced on ice skills through regular practice/improved performance. 2 Enhanced off-ice skills through use of volunteers referred to above in various activities. 3 Success in various local and national awards-for example, in the past year, (i) The club has won the Scottish Cup, and in February 2017 won the Scottish National League to make them Scottish champions (ii) It has won the "Team of the Year" award organised by the Gazette Newspaper group locally, (iii) The club secretary has recently won the Provost's Award for Sporting Achievement, (iv) As indicated, a young players has been selected to play for the Scotland under-19 squad. 4 Continuing the iconic name of "Paisley Pirates" throughout Scotland and beyond for example, the club currently has 3 ongoing enquiries from Canadian families looking for information relating to relatives who played for the club in the 1950's, illustrating that the club continues to reach out across the globe</p>

To promote the group to people in recovery from addiction or poor mental health who may not know of Paisley Guitar Group or who may feel uncomfortable coming through the door for the first time. A number of people had identified an interest in guitar however the cost of one to one lessons meant they could not participate. Guitar had been identified as a possible diversionary behaviour as some in recovery had expressed they had an interest in guitar. A group of people within recovery services who had identified guitar as an interest where put together and advised they could support each other through their common interest by forming and constituting a group and delivering guitar for beginners intermediate and advanced which was reflective of the skills of those identifying an interest. The group has been meeting for 2yrs offering guitar which was initialled supported by Awards for all for equipment. The group has taken 2yrs to develop as a group (as no one had ever done anything like it before and has been a learning curve for all involved). The group have now identified that there are a number of people who are stumbling across the guitar group and a number that say they wanted to come in for a long time but were fearful of coming for the first time as they had never held a guitar before. It is the intention of the Guitar Group to address these barriers and make themselves known to the services and service users. What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>The purpose of the project is to study the practice of orchestral music, in order to foster public knowledge and appreciation of the same by means of public performance. It was recognised that people who learned orchestral instruments during school should be given the opportunity to continue to develop their skill. The general public in Renfrewshire should have the opportunity to hear orchestral performances in Renfrewshire. This is the only Orchestra in Renfrewshire other than school groups. It will give the opportunity for musicians to develop skills in performing the orchestral repertoire. It will give the citizens of Renfrewshire the opportunity to hear the live performance of orchestral works in Renfrewshire. The orchestra has recently given performances both in Paisley and Johnstone. Lack of suitable accommodation has meant that we have been unable to perform in other towns in Renfrewshire. We are the only adult Orchestra regularly performing in Renfrewshire. The anticipated outcome is the opportunity for musicians to play the orchestral repertoire and work with professional soloists. It allows any students from the Renfrewshire Council Music Services who wish to continue playing the opportunity to do so. It gives the public in Renfrewshire the chance to hear live performances of orchestral works. The audience at our concerts has been steadily increasing as a result of which we have had a look for new venues with a larger audience capacity.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>Our project aims to increase the number of people participating in regular sport within Renfrewshire and aims to address the reduction in people participating regularly in sport and active activity sessions, by providing regular cricket sessions throughout the year. Led by a qualified cricket coach our cricket sessions will increase the activity levels all participants and help to promote an active and healthy lifestyle throughout the local communities where our project will work. The need for this project was identified by liaising with local groups and local people. We have become aware of the declining number of people of all ages participating regularly in sport, especially cricket. Football teams cater for a high number of people however our project seeks to cater for those who do not play football and indeed cater for people regardless of ability. We seek to promote participation in sport, through cricket for people of all ages and abilities. Our project will provide cricket sessions for people of all ages and will focus on the following: in or after school cricket coaching sessions (primary schools), in or after school cricket coaching sessions (secondary schools), university and college cricket coaching sessions, weekly, open cricket coaching sessions for all aged under 18, weekly, open cricket coaching sessions for all aged 18 and above, winter cricket coaching sessions for people all ages and abilities. Our project will not only help to enhance fitness levels</p>	

		and improve the health and well-being of each individual but it will also promote key transferable skills which people of all ages can use in their educational or employment lives. Communication and team work skills will be promoted by our project while self-confidence, self-belief and self-esteem of each individual will be enhanced.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>Our project seeks to ensure that the cricket club has appropriate ground machinery to maintain a high quality playing and practice facility. The purchase of a multipurpose sports tractor will enable the ground to be maintained to the highest of standards without the need to rely on others to provide machinery on loan etc. A multipurpose tractor will enable the grass to be cut in a much shorter time while also enabling attachments such as a scarifier, verti drainer etc to be used on a regular basis to further enhance the ground surface. The need for the project has been identified over the past number of years following discussions with our groundsman, ground convenor, players, committee members and the treasurer. At present the club utilises a small outfield cutter that takes limits the speed to which the outfield can be cut while other equipment is loaned from other sources to undertaken verti draining etc. All of the above have financial implications for the club with increased groundsman cost and the cost of the loan of machinery. The club therefore seeks to purchase its own equipment in order to maintain the ground and reduce costs. The purchase of the ground machinery will create a legacy for years to come. Our project will enable a multipurpose sports tractor to be purchased which will assist in ensuring that the ground is maintained to the highest standard. The machinery will provide a legacy to the club for years to come as the machinery would be used for many years to maintain a high quality sporting environment.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>PLEASE NOTE: IF SLA IS OBTAINED, THIS APPLICATION WILL BE WITHDRAWN. The purpose of the project is to provide running costs for the offices of Renfrewshire Access Panel to enable us to continue assisting Renfrewshire Council on various projects such as: Living Streets, The Joint Employability Project, Training for all LAC Members, Changing Places Toilets. We started a project to have changing places toilets installed in Renfrewshire to improve quality of life and prevent isolation for many people. A motion was passed through council for 10 changing places toilets over the next 5 years. Renfrewshire Access Panel identified that a base was essential to the development of the Access panel therefore an essential part of providing support to Renfrewshire Council. The base will only continue to develop with the forthcoming City of Culture bid and the ongoing projects we have with Renfrewshire Council. We will continue to support Renfrewshire Council on the many boards we sit on. We will continue to support Clyde Muirshiel Regional Park, which is funded by Renfrewshire Council regarding funding for</p>	

		specialist boats and bikes or any other equipment the park may require to develop. We will also provide all access audits required for the City of Culture. As well as all ongoing projects. The sight-screen project is the next phase of our facilities improvement programme which to date has resulted in new cricket covers, boundary ropes, a three lane practice facility and a new grounds man garage, while work has also been completed in installing much needed drainage. Our project is the next phase of our improvement programme which will help encourage and promote regular participation in sport. The need for the project has been identified over the past number of years following discussions with our grounds man, ground convenor, players and spectators. The existing sight-screen to the north of the ground is now in a state of disrepair. Despite ongoing maintenance the sight screen is now approaching a state which may be considered to be not fit for purpose and will have a direct negative impact on the standard of the facilities at Meikleriggs. Our project will enable replacement sightscreens to be purchased. It should be noted our existing sight-screen to the north of the ground is in a state of disrepair and is no longer in a condition to enable repairs to be undertaken. What is your group's current bank balance?	1.14	2,392.89	
Are there any significant items of expenditure to be set against this bank balance?	1.14	<p>To promote a better understanding of the Mills, to hear from former workers, to learn about their working conditions. Stage an exhibition in Paisley and surrounding areas. To enlarge and print pictures for the exhibition, to print a booklet for the exhibition which will be free to the public. To interview and record workers memories of working for Coats and Clarks. With Paisley in the running for City Status 2021, there is an app with the public to learn about the Towns rich and diverse history. The Coats and Clarks have a long history and association with Paisley dating back to the early 1800's. What better way to support the Councils bid, on staging the exhibition and printing the booklets. The money will help us in the following ways: Print and enlarge the pictures for the exhibition. Print the free booklet for the free leaflet. We will also interview former Coats workers and put their memories on our web site. Regarding the pictures, we will be reviewing pictures which have never been seen in the public before, selecting the best and reprinting and enlarging them. We will design and print a free booklet which will be made available to members of the public who visit the exhibition. We hope that this will help showcase Paisley and help in our City Status Bid.</p>	

		The outcomes are several: Firstly showcase the Towns rich history and assist the City Status Bid. To educate and inform the public on the Towns rich Cotton Thread history, to select and showcase the best pictures for our exhibition. To interview and make available the Oral Histories to the public and students/High School pupils.

What does your Organisation/Group do?	1.10	Rainbow Turtle works in various ways to enhance the profile of Fair trade in Renfrewshire by * campaigning and education e.g. talks, workshops and activities in schools, * organising special events e.g. in Fairtrade Fortnight, * working in partnership with producers in the developing world and directly supporting some producers, * working with others to lobby for change in world trade to benefit small scale producers, * providing a market for fairly traded goods through our shop, stalls, + online	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	Geographical Area: Renfrewshire Wide  LAC Applying to: All	
How much grant funding are you seeking?	2.10	<b>£7,500.00</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	Building on the achievements of 2016-17 to create more informed and active global citizens, particularly from the school age population in Renfrewshire, concerning Fair trade and its impact, including involvement in the local Common Threads project (connecting Paisley's weaving and textile history with that of the modern day clothing industries in the developing world and poverty both local and global). We intend to capitalise on our successful Producer visit from Peru in February 2017 with its well attended Primary and Secondary schools workshops (and our Ghanaian visit in October) and to strengthen links with Paisley 2021, working collaboratively with Create Paisley, LEAP and other local organisations involved in sustainability and social justice issues. In addition, we are committed to building on our links with refugee and asylum-seeker groups to highlight further the issues which connect us; e.g. linking our demand for technology to mines and forced labour in the Congo, to those people seeking refuge here. Thanks to LAC funding and our own resources, our Education Officer works 3 days a week and demand continues to be high from schools to provide regular input on Global Citizenship. We were fully booked by schools for both our Producer visit Workshop day in Paisley in February 2017 and for school-based workshops in Fairtrade Fortnight 2017. Our membership of the IDEAS network	

		<p>(International Development Education Association for Scotland) has increased awareness of what we can offer and helped us to forge strong links with organisations concerned with issues of justice, throughout Scotland. Our links with Traidcraft assist us in bringing producers to Renfrewshire which benefits our schools. Our specific aims are* to meet increased demand host 3 school conferences during the year, enabling pupils to actively engage with issues of social justice, Global Citizenship and Fair Trade. * to host and facilitate at least one producer visit, combining with one of the above. * to collaborate with local organisations in producing an Education programme around the issues above (social justice, poverty, trade etc) to be used in secondary schools and community groups working with young people in particular, enabling them to take what they've learnt in to their communities * to host at least one film screening and community symposium, discussing issues of social justice and poverty in a local and global context through collaborative work with other organisations * to use our experience, creativity and expertise to support Paisley's City of Culture bid * to develop further our working links with Create Paisley, LEAP and local refugee/asylum-seeker groups. * to continue to develop our social media presence (eg Podcasts, Twitter etc) to reach a wider audience and help boost Renfrewshire's status as a Fairtrade Zone * to build on what has been achieved so far by staff and volunteers * to reach out proactively to the business and Higher Education sectors, particularly UWS. * increased collaboration with Renfrewshire Council and other local organisations, in particular Paisley 2021 * production of Education programme as above which will increase community cohesion, understanding of global issues within a local context * engagement of more schools and community groups with Fair Trade issues local and global * research and development of a Global Citizenship and Fair Trade programme/package for Higher Education * involvement of more individuals and local organisations in Fair Trade * higher social media presence and response * deepening impact of our current engagement and a greater understanding of the connections between the various issues.</p>

What does your Organisation/Group do?	1.10	To promote responsible dog ownership within the community. This includes animal safety, hygiene, discipline and health. For both the handlers and dogs it improves stamina and well being. We help dogs and owners improve their position in present society at a time when irresponsible dog ownership causes major problems. The club meets in an outdoor venue throughout the full year. The shared activities bring about an increased level of fitness in both handlers and dogs.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	Maintenance and improvement of training facilities. Dog Agility is a physically demanding sport and in poorly maintained grounds the risk of injury is greatly increased. We also seek to provide toilet facilities as none are presently available on site. We have considered options to allow us to undertake the maintenance ourselves but due to the size of the grounds we are not currently able to do so and the club pays for landscaping to maintain the training facilities. This maintenance is essential not only aesthetically but primarily ensures the safety and wellbeing of our members both human and canine. We are aware that members have to leave training and travel to the nearest public bathrooms; this involves driving to the closest toilet. Identify an appropriate ride on lawnmower and single portable toilet, then undertake cost comparison with various providers to determine most cost effective in terms of initial purchase cost and ongoing maintenance fees if appropriate. By purchasing a ride on lawnmower the club would be in a position to undertake the grounds maintenance themselves thus reducing annual outlay with no reduction in the standard of upkeep of the training facility. On-site toilet facilities would remove the need to drive to public toilet facilities.

(Please use a separate sheet if required)	2.3  2.9	<p>The Positive About Youth Awards were designed to highlight young people's achievements which may go unnoticed, and to show the Renfrewshire community the positive work young people do on a daily basis. To enable young people to feel that their dedication (to whichever category they are nominated) is worthwhile and appreciated by the whole of Renfrewshire. To inspire the next generation to get involved in their community, using previous winners/runners-up as role models. It was felt that young people weren't given enough recognition for voluntary and community work that gave a direct benefit to their peers and local area. The awards have been run by RYV for seven years, with the 2016 awards being one of our most successful ever, with 11 category winners and 10 runners-up. Nomination forms will be set out, collected and judged by a panel of RYV members. Films of the runners-up and winners will be made in advance of the event (EMMS). The evening will be a mixture of awards, speeches and music/entertainment, giving young people attending a fantastic experience in celebrating young people's achievements over the past year. Young people are given more recognition for their dedication, hard work and achievements. The community is also made aware of who these people are and the work they have done, in order to be nominated for a category.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>Dates-n-mates Renfrewshire is a friendship and dating agency run by and for adults with learning disabilities. The project helps hundreds of people that would otherwise be socially isolated and lack confidence and self-esteem in their everyday lives. It provides opportunities for people to connect, make friends and build meaningful relationships though hosting a regular calendar of social events in a safe, comfortable and inclusive environment thus improving overall health and well-being. With 26,000 adults with learning disabilities in Scotland, the Scottish Government's 10 Year Learning Disability Strategy 'The Keys to Life' states that improving the quality of life for people with learning disabilities is a priority. People with learning disabilities are more prone to abuse and more likely to be denied the opportunity to conduct their own lives, including forming and conducting relationships. The Learning Disability team in Renfrewshire Council support its development. Our recent dates-n-mates Renfrewshire evaluation evidences the significant, positive impact that the 16-17 LAC grant for outreach work has made to people with learning disabilities in Renfrewshire over the past 9 months since (Please see LAC Record of grant form attached for evidence and information). We will target many people of all ages in Renfrewshire that are isolated with learning disabilities and that are unaware of the project and potential benefits to them.</p>	

		<p>A resource to specifically focus on carrying out outreach work will help to identify these individuals and provide them the opportunity to connect and make friends and form meaningful relationships. Dedicated Outreach Workers (part-time) and awareness raising materials and activity will enable us to continue developing the outreach work, partnering with GPs, Housing Associations, Pharmacies, colleges, advocacy services, carers centres etc to achieve this. To compliment the work of social work, health and education services by reducing the formal statutory need to provide services for adults with learning disabilities by making more natural connections through dates-n-mates. To identify those that are most isolated and support them to access the dates-n-mates project to help reduce social isolation, improve their self-esteem, build confidence and improve the person's ability to be active citizens and improve their overall health and well-being.</p>

What does your Organisation/Group do?	1.10	<p>Paisley &amp; District Scouts is one of the largest co-education groups for young people (6-25 year old) in Paisley. It provides 6-to-25 year old girls and boys with fun and challenging activities, everyday adventure, opportunities to help others and have a positive impact in communities. Through a wide range of outdoor, sporting and cultural activities, The young people develop a range of life skills such as leadership, independence, communication and problem-solving that they can bring back into scouting and the wider community in Paisley.</p>

<p>What will this grant be used for?</p> <p>Please provide a breakdown of the costs to be incurred.</p> <p>(Please use a separate sheet if required)</p>	<p>2.3</p> <p>2.9</p>	<p>In July 2017, 69 Scouts, Explorer Scouts and Volunteers from Paisley &amp; District are going to Poland to take part in a two week outdoor intercultural exchange camp with Polish Scouts. This is intended as the first in the series of cultural exchange camps. The young people will experience outdoor camping for two weeks and a range of cultural activities. Camping with Polish scouts will give them a new cultural experience and they will also see another type of scouting. The camp will give the young people experience in looking after themselves and their fellow Scouts and are wide range of outdoor activities. We also plan to visit Auschwitz to enable our young people to learn about the experiences of the past and how these can never be forgotten. Before travelling to Poland, experience of similar District events has shown that it is essential that the young people have the opportunity to camp together and get to know each other, as well as ensuring that they all have the necessary camping skills to able to enjoy a two week outdoor camp. We are having a monthly meeting of the expedition group. Our monthly gatherings have ensured that the Scouts and Explorers are practising their camping skills, working in patrols, learning about Polish food, some useful Polish words and the Polish way of life. We</p>	

		<p>have linked in with the local Polish community who are supporting our learning in advance of this intercultural exchange. This partnership came about through communication with a Polish Scout Leader. We both felt that young people were spending a lot of time indoors and not really engaging with their wider community. We conducted a meeting with a range of young people and adults and looked at the things the young people wanted to do. One of which was to learn about a community which is represented locally. As a partnership was already established with the Polish Scouts we felt this was a natural link to develop. This project would also ensure young people would develop key skills which can help them in achieving outcomes with the curriculum of excellence. Local, national and international camps have proved popular with young Scouts and the difference the experience makes to them in terms of maturity and independence is always clear (a large fraction of the leader team is 18-25 and has developed through their camping experiences). Based on this experience, it was decided to run the project as an outdoor camp. We are planning an 11 day intercultural exchange to Poland. The young people will be travelling and camping in groups of seven throughout their time and this will help develop reliance, teamwork and become more confident individuals. We will be travelling to Bydgoszcz taking part in a range of cultural exchange events including traditional dancing, language and food classes and outdoor activities. We will be visiting the city of Gdansk and learning about how the Scouts in Poland helped during the war and how they are key players today within the local community. Our final two days will be spent in Krakow where our young people will be shown around key sites in Krakow in relation to Scouting and the war. The Scouts will be joined by Polish Scouts in a visit to the concentration camp. We are keen given the mixture of young people and the diverse background to ensure that money is not a barrier to participate hence why we hope you will be able to support this worthwhile project. Our principal outcome is to ensure our young people become successful learners and more engaged citizens within their wider community. Through interaction with the local Polish community in Paisley and the Polish Scouts we hope this will be successful. Due to the nature of this exchange we will ensure Polish Scouts are aware of our strong culture in Paisley and will be tying this in with our bid to become the city of culture. Our young people will come back confident, successful, and motivated individuals who can be successful in the community, at school, further education or an apprenticeship. Evidence of previous camps shows that many of the young people go on to participate as leaders in Scouts, giving back to their local community. Due to the young leadership team we are developing a new generation of leaders who are confident in running international experiences and local projects to a high standard.</p>

PACE Youth Theatre is already committed to keeping fees as low as possible to allow the maximum number of young people to benefit from the experiences and skills it provides. Our membership fees are already amongst the lowest of similar organisations, we also offer family discounts, and always endeavour to make individual arrangements with member's families who encounter difficulty in paying. However, as a charitable organisation with limited resources that relies on membership fees as a major source of income, there is a limit on what we can currently offer. We have been aware for some time that some people who may benefit, are dissuaded from even applying in the first place, due to their financial circumstances or socio-economic status. We will promote and administrate the PACE Youth Theatre Bursary Fund. This fund will offer a full experience of PACE including a full year's membership, two full weeks of school holiday performance project training, casting membership including a professional headshot and a PACE T-shirt. Parents of young people aged between 5 and 15, living in each LAC area, will be invited to submit a short application form to apply for the bursary along with evidence of their financial circumstances (e.g Employment and Support Allowance, Income Support, Incapacity Benefit etc). Initially we propose fifteen bursaries will be made available, three for each LAC area in</p>	

		Renfrewshire. We expect the individual young people to gain confidence, communication and self-expression skills which will help them realise their potential in their life and whatever future career they choose. What does your Organisation/Group do?	1.10	Our central aim is to promote interest, participation and progression of young people's knowledge and skills in traditional Gaelic music & language in Renfrewshire. This is achieved through the planning & delivery of year-round traditional arts activities for young people aged 8-18, including an annual tuition festival structured to highlight the musical, cultural & educational objectives of the Feis.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to: All 5 local area committees</p>

(Please use a separate sheet if required)	2.3  2.9	<p>Following a hugely successful pilot programme of weekly lessons in 2016/17, we aim to expand our year-round programme of traditional music tuition for young people aged 8-18. Weekly contact time with some of Scotland's top traditional musicians will give participants the opportunity to develop their instrumental abilities.</p> <p>In addition by developing a pool of local traditional musicians we hope to establish a Feis youth band and ultimately a Ceilidh Trail that will tour nationally. We received a hugely positive response to our 2015 Fèis week which included feedback showing that 89% of participants would be interested in ongoing lessons. The top 4 choices for ongoing tuition were accordion, fiddle, guitar and singing. Our pilot programme of weekly lessons had 25 regular participants developing instrumental skills and performing at a number of public events throughout the year. We will run 37 music class sessions between Sep '17 and June '18 with lessons running from 10am-1pm on Saturday mornings. Participants will receive tuition appropriate to their age and ability, in streamed classes, ensuring maximum learning benefit &amp; enjoyment. Local tutors will be employed at MU rates and we aim to attract 40 pupils to our weekly classes initially, building to 60 by June 2018. We are in discussions with UWS to host the project which will allow more young people from across Renfrewshire to participate with good transport links to and from the town. A year-round programme will offer 40-60 participants the opportunity to develop traditional music</p>	

		and social skills at an affordable cost as well as providing employment for 4 local tutors. End of term showcase concerts will bring together the community to celebrate the achievements of our students. We also aim to develop a youth band and, by 2019, a Ceilidh Trail which will promote live traditional music in the community and add significantly to the local and national cultural calendar.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>This would be YEAR 10 of the project and the grant would complement and enhance the previous nine successful coaching projects. This year we aim to work harmoniously with the Renfrewshire Sports Services, supporting their festivals and other events while filling any gaps in coaching provision. In conjunction with the Active Schools Programme, it would continue to promote good behaviour and a positive image of young people while giving them opportunities to have active involvement in their communities. In 2005-06, the project offered many Renfrewshire pupils an opportunity to play a different sport, indoors in a safe and warm environment. There is a strong 'Football Culture' in this country and it was an excellent alternative to our national sport. The previous 9 years of Basketball successfully being promoted in Renfrewshire and securing LAC grants has seen more than 30 local Primary Schools involved in the initiative which is totally inclusive. This project will: - Involve pupils in a structured, high energy and enjoyable activity, provide opportunity to become a member of a Community Club and further develop as a young person. -Increase wellbeing of young people to ensure that they are safe, fit and healthy. -Provide opportunities to improve fitness and performance. -Continue to be a vital diversionary activity to reduce anti-social behaviour, disorder and crime. This will be completed through supporting Renfrewshire Sports Services activity and 3 Rounds of Coaching in Primary Schools.</p>	

		In comparison to the previous 9 years of the Project, the anticipated outcomes are; More pupils participating. More pupils with additional support needs involved in Programme. More pupils becoming members of a community based Club. Increase parental involvement. Improve attendance and behaviour at school. Improved pathways between Active Schools and Community Clubs

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>We have identified a building to create Renfrewshire's first Digital Maker Space, a DIY environment where young people can gather to create, invent and learn using digital technology as a tool to address a community issue or mini project, thus creating a solution in line with STEM subjects. Workshops and sessions will include robotics, learning to code, develop phone apps, design video games and build PC's etc. Maker Space Paisley will operate Monday to Wednesday from 1-4pm for p4-S6 school pupils and young people aged 16 to 24 who are not in education, employment or training. Then from 5-8pm same days for children and young people in planned/focused maker space activity for 40 weeks. We held three focus group activities with 38 school pupils from three local high schools, St Andrews, Paisley Grammar and Mary Russell School who attend our weekly code or drop in youth clubs. During focus group sessions, youth workers discuss with young people what they identified as their digital needs based on their current understanding of STEM activity, what they feel was relevant and not being met in terms of closing the digital literacy skills gap within after school activity and what are the identified resources to make it happen. Then 11 young people who participated in the above research then formed a youth lead working group that created the Maker Space Paisley concept. In week one we record a base line of current digital skills and self-learning that young people has undertaken to date. This is used throughout the 10 weeks as an ongoing evaluation to monitor the young people's digital learning journey. The programme is devised in such a way that regardless of skill level in week one we support the young people to produce a tangible product or outcome by</p>	

		<p>week 10 i.e. create a mobile app, shoot a 360 video or build a website. Young people will be mentored and supported to take on project management roles, problem solve, set goals and work as a team, through a learn by doing approach. Maker Space Paisley will improve young peoples digital literacy skills, further develop their problem solving and cognitive thinking abilities, learn to use analytical approach's and support young people to communicate their ideas more effectively using a range of digital platforms. Young people are positively empowered, as its young people that identify what the project will be, its young people who are the main drivers and decision maker to develop what the solution will be and how to implement it digital. Young people gain increased confidence using digital technology in intuitive ways that makes sense to them thus developing the knowledge to use technology as a problem-solving tool.</p>

What does your Organisation/Group do?	1.10	We work collaboratively with children, young people, older people and communities to achieve our aims. Predominantly, but not exclusively with vulnerable groups. Want Renfrewshire to be a place where all children have the self-confidence and resilience to pursue their ambitions and realise their potential, through a positive mindset, health and wellbeing through our workshops with innovation, enterprise and creativity alongside outstanding delivery. Through sound management and a strong ethos of partnership to tackle society's big issues.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	Geographical Area: Renfrewshire Wide  LAC Applying to: All 5 LACs	
How much grant funding are you seeking?	2.10	<b>£3,915.60 from each 5 LACs</b>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	We propose to deliver workshops on criminal justice and mental health agendas to help young people on a Personal and Social Education progressive pathway into further education or employment. We would like to provide a summer programme that shall be offered free to all young people who would benefit from such an opportunity. Offer drugs and alcohol awareness training, Hate crime awareness, Respect me anti bullying training. Building up resilience. This includes highlighting dangers, recognising risky behaviour and how best to handle misuse. We shall offer interactive sessions in PSE classes and include Dj skills with in house certification and within other appropriate settings like confidence building camping activities. We also offer Saltire awards and Dynamic youth awards. Young people and professionals interviewed for the recent national Media reports, Young minds report and CAHMS stated that waiting lists are still too long for young people to access mental health services which meant young people often self-medicated with drugs and alcohol, exacerbating their mental ill health and offending behaviour. We are on a mission to improve the mental health and wellbeing of young people, Renfrewshire wide. Currently our Young People work accounts for over 80% of the work we deliver and while education and employability is a key focus,	

		<p>Mental health is one of the most talked about issues we encounter when working with young people during workshops and our certificated courses and mental health issues are rapidly on the rise. Renfrewshire Youth assembly in November 2016 and Renfrewshire Youth Commission just recently found this week. Rigid criteria for mental health services meant young people had to be severely ill before they could access any support, and if they did get help it was usually in the form of medication. With a 6 week counselling service with CAHMS However, following prescription, young people often went long periods of time with no review or ongoing support. In the rare occasions where intervention extends beyond medication, professionals had little time for young people and a high turnover of staff meant a lack of staff continuity made it difficult for the young person to establish rapport or trust. We have also recently been requested by our young people to deliver on criminal justice and drug and alcohol agendas due to these being regularly used as coping mechanisms. We have offices with facilities in Paisley to deliver Comedy and mental health workshops and DJ workshops or for larger groups in one locality we can hire their local community halls. We have priced the DJ equipment required and camping equipment for 10 young people that they can borrow in order to allow the group all to feel included the same in equity as well as in unity, whatever their financial circumstances. We plan to cover Renfrewshire wide have DJ workshops for 10 Young people for 4 days over the Summer holidays and have outdoor DJ music events, promoting Drug and alcohol awareness. We plan to hold an open day in our centre in March/April to promote this and are already working closely with Barnardos, Kibble, Victim support, UWS and all Secondary schools in Renfrewshire. Our summer workshops shall provide an opportunity for young people to make friends, support each other, learn new skills in positive coping mechanisms and grow in confidence that they're not alone in improved communication/social skills, learn how best to support each other and find out more about self manage techniques discover themselves and their strengths, helping them to make informed decisions about their lives and feeling more in control specific positive improvements with focus on physical and mental health through Comedy, music technology and outdoor confidence building activities with graded certification for achievements. Developing further on their skills for learning, life and work with an improved outlook and better life chances.</p>

The purpose of this project is to encourage youngsters to speak about their feelings through play and education where the youngsters are taught about illegal/and legal drug taking (good and bad drugs). Additionally the education aims are around healthy eating, keeping themselves safe. The need for the project was identified due to grandparent carer feeling unsure how to explain to the children they are caring for about why they can't stay at home. Grandparents didn't feel they had the proper tools or skills to explain about illegal and legal substances. Additionally the role of social work and police (Authorities). We will offer education through play around drink and drugs. Healthy eating and mindfulness sessions. The grant will develop the mindfulness programme along with fitness, healthy eating and education around substance misuse teaching families that recovery is possible in any addition and teaching young adults they can break the cycle by healthy life choices. We already work closely with carer centres, families outside and out place Our Families and Renfrewshire support group. The anticipated outcomes. It is innovative and will be nostalgic for those who went there and experienced it for themselves and will capture the imagination of those that didn't. For theatre goers and music lovers no matter what age they are. It is an amazing story punctuated with music that is timeless and also takes a look at what was going on in Paisley in the late 70's and early 80's. It will be a platform for young people to tell the story of a time when Paisley welcomed the most influential bands and musicians to its doors. It is a nostalgic look back in history, a time of platform shoes, perms and big flares. On one hand, it is a musical but on the other it keeps a part of Paisley's history alive. The show will include young actors, dancers and musicians from various organisations within Renfrewshire. They will have the chance to show that with the right guidance and professional help that they can produce a show at the highest level. Loud n Proud has the reputation of producing creative and courageous high quality musicals performed by young people.</p> <p>We have staged 3 versions of "I Was There" a musical telling the story of the legendary Glasgow Apollo. It is the biggest show of its kind in the country. We have been asked constantly by our partners,</p>	

		<p>those who took part in the show or attended it to do something similar in Paisley. Renfrewshire Council Officers were also keen to stage something similar in Paisley too. In response to those suggestions some research has been carried out and the popular choice was a musical play telling the story of The Legendary Bungalow Bar. The Bungalow was a small bar at the bottom of Renfrew Road, Paisley. It came to the forefront of the Scottish live music scene during the late 70's and early 80's. It's difficult to imagine that a little pub in Paisley attracted such big names as The Fall, The Skids, The Tourists, Orange juice, Roddy Frame, Alan McGee, The Buzzcocks, Echo and the Bunnymen, The Alarm, Altered Images, Jam, The Teardrop Explodes, Chelsea and many more. It is a story that has become local folklore and put Paisley on the music map of Britain. John Dingwall of The Daily Record said: "For me, gigs by post-punk acts, such as the Associates and Psychedelic Furs, at Paisley's Bungalow Bar, easily rub shoulders with The Rolling Stones at the Stade de France in Paris or Macca in Mexico" The grant will fund a series of dance, music and drama training workshops and rehearsals to give young people the skills to take part in a new and exciting musical. In conjunction with the Performance Programme there will be classes in Technical and Management subjects such as Sound Engineering, Light Design, Stage Crew and Event Organisation. The show will be premiered at Paisley Town Hall. It is envisaged that the experience in working in such an ambitious professional level project will develop the participants skills and inspire the young people to pursue a career in the arts or enable them to take part in other similar activities. They will understand the benefits of being part of a group and the positive elements of volunteering. We can help up to 32 musicians, 25 actors, 30 singers and 20 dancers by giving them professional instruction that will raise their performance level and experience performing on a high-quality show. Young people will gain confidence, self-esteem and valuable transferable skills from a mix of workshops and a real "hands on" experience. Other volunteering opportunities will be available in particular Set Building, Video Production, Backstage, Front of House, Roadies, Sound Engineering, Light Engineering and General Production. Participation in the group activities that are involved will give young people an understanding of the value of teamwork. The project will:</p> <ol style="list-style-type: none"> <li>1. Increase participation in positive activity</li> <li>2. Increase opportunities to develop interests and skills</li> <li>3. Increase participant's skills and will have positive changes in behaviour.</li> </ol> <p>The local community will be introduced to a piece of history that will educate them, make them proud and at the same time enjoy a fast paced, energetic show. It is envisaged that the show would be developed further to be part of Paisley2021.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>This project idea is about organising community clean ups in the areas where we live, and to involve local people in that. To undertake this work and for future projects we are currently planning and chatting to communities about the area they live in and how we can support them to make the desired changes, that will not only improve their mental health but their local area. We require office and PR equipment, the members of our group all suffer from some form of mental health issues and this is about supporting them to get involved in an activity that offers them the chance get out and meet others in the same situation as them. An important part of this project is that we plan to work with local schools to get their pupils involved. This will link with their curriculum work on the environment, and the Green Flag programme. So providing an opportunity to learn in a different environment. Community clean ups are unfortunately something that need to be done every so often. We see locally how things such as rubbish and general waste can quite quickly pile up and for things to graffiti to appear. We know from talking to our members and the wider community that they feel this further blocks them from going out of the house, as they see declining neighbourhoods as threatening and unfriendly, at a time when they actually need to get out as part of their recovery journeys.</p> <p>Primary Schools all have pupil Eco committees. These are about the children recognising their impact on the school and wider environment, and how they can empower themselves to work to</p>	

		<p>improve how things look, and are saved for future generations. So we want to take that enthusiasm and move it out into the areas where they stay and play. So that as the next generation they realise how important it is that they take on the responsibility of keeping their communities safe and secure.</p> <p>To ensure we keep a record of all our work, before, during &amp; after, and to also ensure we promote ourselves in the most effective way possible we require to be organised at a level where we can record and show a professional face to the groups we are looking to. We will arrange 3-4 community clean ups around the Gallowhill and Paisley South area of Paisley. These will take place over the course of 2 months weather dependent. Each clean up will last around 2 hours at the most.</p> <p>We will link with agencies already carrying out this type of work in Renfrewshire, so that we are fully supported in the details of running such a project. This will be for example training on using pickers, what to do if we come across very specific pieces of refuse, needles and how to bag different types of materials, so that they can be distinguished between landfill and recyclable. Communities more involved in their upkeep, ensuring a more welcoming and safe environment. More local people getting involved in volunteering opportunities. Building a more cohesive community by way of encouraging people to get involved in community action projects. Providing people with mental health issues the means to continue with their recovery journey. Our group more organised and more able to take on different projects. Ensuring that at all times we value ethnic equality and diversity through volunteering opportunities.</p>

(Please use a separate sheet if required)	2.3  2.9	<p>Renfrewshire Schools Pipe Band has been formed with pipers and drummers taught through the 'Piping in School' project delivered by Johnstone Pipe Band with funding from Renfrewshire Council, Creative Scotland and The Scottish Schools Pipe Band Trust. The band consists of 14 pipers who have brought their own bagpipes and five drummers who are playing drums borrowed from Johnstone Pipe Band. There is a steady stream of learners who will join the band as their skills develop. The band competed in the 2017 Scottish Schools Championships winning their section. The band intends to compete in local competition over the summer, but they have no uniform or drums. The project is to help the management committee to meet start up costs and equip the band. The band is the product of a successful teaching programme and is the only youth pipe band in Renfrewshire. The project will allow the management committee to provide initial uniforms and equipment for the band. The main output is to provide those learning pipes and drums a sustainable pipe band that they can join. The band will be an excellent flagship organisation for Renfrewshire and in time will grow to be nationally recognised. Pupils will learn and develop lifelong skills through the band and will no doubt go onto join adult bands invigorating the local pipe band scene.</p>

What does your Organisation/Group do?	1.10	<p>As a Cancer Support Group, we bring people together to support each other through their cancer journey. We do this by promoting the benefits of friendship and laughter to those whose lives have been affected by this raging disease, promoting improved Health and Wellbeing by encouraging members to participate in various activities including light exercise with a RL qualified instructor, crafts, theatre, outings and respite. We encourage people of all ages abilities and ethnic background, helping them build confidence and self-esteem.</p>

<p>What will this grant be used for?</p> <p>Please provide a breakdown of the costs to be incurred.</p> <p>(Please use a separate sheet if required)</p>	<p>2.3</p> <p>2.9</p>	<p>To help cancer sufferers improve and maintain their overall quality of life albeit. Physical Health, Mental Health &amp; general wellbeing. We do this with the support network of friends who understand and share their experiences of the Cancer Journey, thus helping them to move on with their lives, with more mobility, motivation, friendship and a willingness to help others in a similar situation. WE encourage our members to look to the future more positively by taking part in light exercise, chatting over tea, crafts and companionship, thus alleviating loneliness and isolation. Listening to Cancer Patients explain what was out there to meet their needs during and after their treatment, although there is some good support, it was deemed due to financial constraints the support was only there for a limited period thus not meeting their long term needs which can lead to loneliness and isolation amongst other issues. The group was therefore setup in Elderslie which has proved very successful, and on assessment the exercise programme has been very beneficial as each individual is more active and the general wellbeing of the group has gone from strength to strength. In the last year we have also started up a new group in Paisley which is also proving very popular. We have also asked our members what they like doing and try to implement this where possible from these discussions and also</p>	

		<p>talking with other network partners we have identified that we could possibly help the wider community of people if we had an evening group, this is something that could possibly be considered with a slightly different programme. Because we listen to our members overall needs this group is unique in that our programme will adapt to its members needs and is ongoing throughout the year. It's amazing to see the overall wellbeing of the group, through the various degrees of support that is now available within the group there is more social contact and friendship with people who have been through a similar journey as they can discuss various aspects of their illness with confidentiality, including financial difficulties experienced through the loss of income whilst going through treatment. We have recently started up a walking group which meets once a month for a short walk and new knowledge of the surrounding area, we now also have a Nutritionist and Psychotherapist on board and this is also proving to be very helpful with a positive health improvement. Improved health and wellbeing for those who are having or have had cancer treatment, overall improved family relationships, thus improving the overall quality of life for those affected by cancer. Aspiring individuals to try new things in life, or move on with their lives to whatever level they are happy with, and helping others in a similar situation. We have also been in discussions with one of the other cancer support groups and some of their members have express a willingness to join up with our newly developed walking group so this will bring more like minded people together.</p>

(Please use a separate sheet if required)	2.3  2.9	<p>This project will aim to support the development of a Youth Commission in Mental Health in local communities: training young people to be equipped as peer educators to promote positive, mental wellbeing in local communities across Renfrewshire and breakdown the stigma surrounding mental health issues. Provide opportunity to encourage community based activities exploring mental health involving young people and their families/carers. Stimulate solutions to combat concerns held by young people, families and workers, and to shine a light on sustaining positive well being. Young people will attend a summer training programme ahead of their delivery at the community events. Adult volunteers from local communities will be recruited and trained to support the Youth Commissioners in localities. In November 2016, Youth Services held its first Renfrewshire Youth Assembly in Paisley Town Hall. 300 young people from schools and youth organisations attended along with local councillors and service managers. At this event young people discussed 5 key themes which had been decided during a youth consultation in 2016: Jobs and Training,</p>	

		<p>Paisley 2021 Youth Culture, Health &amp; Wellbeing: Mental Health, Social &amp; Culture: Youth Hub and Having a Say: Youth Voice. The Youth Assembly voted to decide which issue that should be the focus for the Youth Commission. Mental Health was overwhelmingly voted as the focus for their campaign for this year. Youth Services has established a Youth Commission Partners Group to ensure a joined up approach to support Youth Commissioners for Mental Health who will help to deliver on the project. These partners include Active Communities, Create Paisley, Right to Dance, Renfrewshire Health Improvement Team, ACUMEN, EMMS, St. Andrews Academy and Choose Life. Deliver training to provide a legacy and sustainability to the project: understanding of mental health, introduction to mindfulness, youth work skills and positive mental wellbeing techniques. Support the Youth Commissioners to develop a social media campaign to help raise awareness of existing support services and on-line resources to encourage positive approaches. Organise outreach sessions for Youth Commissioners to engage young people in schools, colleges, universities and community groups, in the co-design of recommendations. Deliver a programme of community based events in 5 areas across Renfrewshire, leading to a celebration event bringing communities together to showcase good practice and projects. This event will launch the Youth Commission recommendations that young people have proposed. Renfrewshire Youth Commission will make recommendations that will impact directly on service and community responses to Mental Health: increased awareness of mental health issues and support available amongst young people and their supporters, better understanding of mental health issues and knowing how to respond to them, and the stigma attached to mental health issues being reduced. A united and consistent approach across Renfrewshire for delivery of support for young people suffering from mental health issues. A lasting legacy whereby communities will have an understanding of supporting agencies and resources available to help themselves and family / community members. accreditation through Saltire and Youth Achievement Awards</p>

What does your Organisation/Group do?	1.10	<p>Our vision is a society where mums and families are able to make informed decisions about breastfeeding, to access help when they need it and to become confident in their choices. For a new mum deciding how to feed her baby, talking to a mum who knows about breastfeeding can make a crucial difference and the Breastfeeding Network strives to be the best we can be at providing peer support.</p> <p>Our mission is to offer independent, evidence-based information and support to help build awareness of breastfeeding to individuals and organisations and to support a mum in her choice to breastfeed.</p>	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to: We are a national charity and provide support daily over the whole of Renfrewshire</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3  2.9	<p>To provide breastfeeding peer support and evidence based information to families in Renfrewshire, especially in areas of multiple deprivations. To ensure our existing volunteers can continue to provide up to date information, receive ongoing support and learning (supervision), and continue to develop their skills. We will train more local women to volunteer which will help us maintain our well established services in the area and ensure sustainability of the project. This will help us to improve knowledge and support within hard to reach groups and the community. Despite recommendations from the World Health Organisation, UNICEF and the Scottish Government, breastfeeding rates remain very low especially in deprived areas. Across Renfrewshire only 13.5% of babies are still exclusively breastfed at 6-8 weeks in these data zones. Babies who are not breastfed are more likely to suffer from chest, ear, gastrointestinal and urinary tract infections, and at higher risk of developing high blood pressure, obesity, diabetes, heart disease and some cancers in later life. Mothers who do not breastfeed are at higher risk of developing breast and ovarian cancers and osteoporosis in later life. Breastfeeding promotes bonding and attachment which can help alleviate symptoms of post natal depression. Because of low breastfeeding rates in this area</p>	

		<p>some mums can feel isolated and have no one to ask for support, offering peer support to these mums can help them feel part of a supportive community and help reduce isolation. We will continue to provide high quality breastfeeding peer support across Renfrewshire at our groups in Johnstone, Ferguslie and Linwood. We anticipate that at least 12 different families will come along to access support at the three groups each week. We will continue to collaborate with the Families First, Health Improvement and Health Visiting Teams. We will attend community events to help normalise breastfeeding, raise our profile and raise community awareness. We will train 12 women to provide peer support, and will continue their ongoing learning, provide supervision and insurance. This a nationally recognised qualification which increases their confidence and helps toward retraining and future employment. That we will be able to continue to support vulnerable local families with high quality support at our local groups which are a valuable community resource. The families we support will have increased knowledge and confidence about breastfeeding and have increased links to a supportive community. We aim to support 75 different families during the year at groups and community based events. That we can continue to support our dedicated existing volunteers and help them increase their knowledge and skills. We will promote our work within Renfrewshire &amp; become more widely known as a source of skilled support that is available every day via the National Breastfeeding Helpline, website and on social media. We will increase social capital, active volunteering, knowledge and skills within a new cohort of volunteers, sustaining the project as a whole.</p>		
What is your group's current bank balance?	1.14	418,213.65		
Are there any significant items of expenditure to be set against this bank balance?	1.14	<p>Yes This figure represents the bank balance of a National Charity. We operate large scale commissioned services and this reflects ring fenced funding for several large specific projects. Locally we rely on the part time coordinator post to support our volunteers on a weekly basis. We want to continue our services locally and rely on Renfrewshire funding to provide this support.</p>

I am an affiliated Scottish Tourist Guides Association Yellow Badge Member and would like to put my knowledge and experience to good use. Too many people go about their daily business and don't know what is round about them, for instance they maybe walk along the High Street everyday and don't notice any of the wonderful building until they are pointed out to them and that is when they say "I have never noticed that before" and then they start asking questions about it. That is where I come in and answer all their questions and tell them the history. We have a great wealth of history in the whole of Renfrewshire waiting to be discovered by many locals and tourists alike and I want to share my knowledge with them all. Most people know of Paisley Abbey, The Museum &amp; Art Galleries, Coats Memorial Church, the Observatory and the Thread Mills but we have so much</p>	

		<p>more out there that needs to be highlighted and with the themed tours it make it even more interesting and entertaining. We also feel we should be trying to help people out of isolation and get involved. I will go out there on my mobility scooter and take groups of all ages and abilities out on Guided Walking Tours to discover everything we have in the area and if for any reason they cannot manage a Walking Tour I will take my tours to them by presenting a PowerPoint presentation and slide show, whether it be a school, a community group or a nursing home. "No group too big no group too small I cater for all". The tours will encourage people to get out and about and help them to interact with other light minded people. The themed tours encourage people to get involved, interact and connect with each other. To encourage and get everyone involved and interested in their towns history and future. To get people out of isolation and join us on our tours. To show people with mobility issues that they too can come on the tours as the tours are assessable for everyone. We aim to do this by boosting general wellbeing and building confidences among the elderly citizens in the Paisley Area. We can do this by giving them a regular meeting place and arranging special outings and new experiences to look forward to. These new experiences encourage them to contact family who they rarely see, with a new topic of conversation bringing them together. Theatre outings are a particular favourite as they enjoy the live interaction, singing along to tunes they have not heard in many years in turn jogging happy memories of past times and reminding them that they still have people to socialise with and that life still holds happy times ahead. Going out for a meal is a very special occasion for elderly people as this also makes them feel part of the wider community once more.</p> <p>Our members' spirits are lifted when they have an outing to look forward to and attendance is more regular. The project was initiated by a local voluntary group who visit elderly people living alone and elderly people who find themselves in financial hardship. Receiving the grant would allow us to make a difference to our members lives on several levels as it will allow us to provide a comfortable meeting place once a week for elderly people in the area with activities and refreshments. This gets them out of the house and involved in the community again. We could plan three to four special outings over</p>

---

**To: Paisley South Local Area Committee**

**On: 6 June 2017**

---

**Report by: Director of Finance & Resources**

---

**Heading: Timetable of LAC Meetings to December 2017**

---

## **1. Summary**

- 1.1 The Council at its meeting held on 14th February, 2008 agreed its scheme of decentralisation, which included reference to the cycle of local area committee (LAC) meetings as follows:

**“10.1 Local area committees will meet at least on a quarterly basis. This will allow sufficient time for progress on action to be reported on local strategies and issues. Local area committees should meet in suitable local venues to enhance community participation.”**

- 1.2 The Council's Standing Orders apply to LACs. Standing Order 53 allows the convener of a LAC to call a special meeting of that committee by notifying the Director of Finance & Resources. In these circumstances, special meetings require to be held within 14 days of the Director of Finance & Resources receiving the notification. This mechanism allows the convener to call a special meeting should any matters of particular urgency arise or if there is a general need for a meeting to consider matters such as outstanding grant applications.
- 1.3 Taking into consideration the ability of the convener to call special meetings if the need arises, it is suggested that meetings of this LAC be programmed on the basis of a quarterly cycle. Member availability, it is suggested that meetings be held on Wednesday 23 August and Wednesday 22 November 2017.
- 1.4 Members are also invited to consider the time of Paisley South Local Area Committee meetings. In the past, meetings of this LAC have been scheduled for 6.00 p.m.

- 1.5 The choice of venues for local area committee meetings is limited as a result of practical considerations such as size and accessibility. Taking into account these considerations the Council Chambers, Renfrewshire House, have been used when required.

## **2. Recommendations**

---

- 2.1 That meetings of this local area committee be programmed for 23 August and 22 November 2017; and
- 2.2 That consideration be given to the time and venue of local area committee meetings.
