Current Position: Breakeven

Previously Reported: Breakeven

The breakeven position at this stage in the year relates mainly to the net effect of over and underspends in the following areas of service:-

 An overspend of (£55,000) on Refuse Collection is mainly due to lower income from trade waste and special uplifts and a small overspend on employee costs which are partly offset by an underspend on property and supplies and services.

- An underspend of £30,000 on School Crossing Patrollers due to lower than budgeted employee costs.
- An underspend of £8,000 on Regulatory Services due to a lower than budgeted employee costs.
- An underspend of £12,000 within traffic management is due to a small over recovery of income.

Projected Year End Position

It is currently projected that Community Resources will breakeven at year end. This forecast position will be reviewed on an ongoing basis during the financial year, particularly with regard to recycling performance and the level of tonnages received for recycling or disposal, and the costs of roads maintenance throughout the remainder of the winter maintenance period to March 2017.

Current Position: £4,000 underspend *Previously Reported:* £5,000 underspend

Older People

Current Position: Net underspend of £274,000 Previously Reported: Net underspend of £331,000

The overall underspend within Older People services is due to the availability of integration funding for Adult Social Care for 2016/17 and also vacancies within Local Authority run Care Homes, for which active recruitment remains ongoing.

Physical Disabilities

Current Position: Net overspend of (£219,000)

Previously Reported: Net overspend of (£383,000)

The overspend within Physical Disabilities relates to pressures within the Adult Placement budget due to increasing demand and the impact of Self Directed Support (SDS).

Learning Difficulties

Current Position: Net overspend of (£88,000)

Previously Reported: Net underspend of £150,000

The current overspend within Learning Disability services is due to an overspend on the Adult Placement budget as a result of increasing demand. This overspend is partially offset by an underspend within employee costs.

Mental Health

Current Position: Net overspend of (£50,000) Previously Reported: Net overspend of (£98,000)

The overspend within Mental Health Services relates to pressures within the Adult Placement budget reflecting both the impact of increasing demand and SDS.

Addictions

Current Position: Net underspend of £82,000 Previously Reported: Not previously Reported

The underspend within Addiction Services reflects the current client profile of care packages within this area. However, as this budget is highly volatile it would be prudent to retain this level of budget provision to ensure there is adequate provision should the need arise.

Social Work Management

Current Position: Net underspend of £5,000 Previously Reported: Not previously Reported

The underspend within management is as a result of an underspend in travel and transport costs.

3.14 **Trading Operations**

These are the subject of separate reports submitted to the relevant Policy Boards. An overview is attached for information which confirms an actual breakeven position in line with the budgeted surplus for the General Fund. Expenditure is currently greater than anticipated due an increase in the volume of works across various works streams, mainly within Building Services, offset by a corresponding increase in income. In this context, it is projected that the Building Services trading operation will achieve a £468,000 surplus. In line with agreed policy this surplus will be returned to the General Fund or the HRA based on the level of Housing related turnover and the reported position reflects this policy.

3.15 <u>Housing Revenue Account</u> (Housing & Community Safety Policy Board)

Current Position: Breakeven

Previously Reported: Breakeven

The current breakeven position principally reflects an overspend within Property Costs due to greater than anticipated repair costs, offset by an over recovery of income from OFGEM for a renewable heat incentive.
