**To: HOUSTON, CROSSLEE, LINWOOD, RIVERSIDE & ERSKINE LOCAL
 AREA COMMITTEE**

On: 14 JUNE 2017

Report by: DIRECTOR OF COMMUNITY RESOURCES

**Heading: COMMUNITY SAFETY & PUBLIC PROTECTION,
 PROGRESS UPDATE**

1. Summary

1.1 This report provides a progress update for quarter 4 of 2016/2017 on activities the Renfrewshire Community Safety Partnership has carried out in the Houston, Crosslee, Linwood, Riverside & Erskine area. A number of community planning partners have provided statistical information, including: Police Scotland; Scottish Fire & Rescue Service; and Renfrewshire Community Safety Partnership. The report includes information on:

- Paisley North community safety statistics;
 - Environmental enforcement and improvement activities;
 - Protecting vulnerable residents;
 - Building safer communities;
 - A spotlight on the Renfrewshire Alcohol and Drug Partnership.
-

2. Recommendations

2.1 It is recommended that the Local Area Committee notes the content of this progress update report for Quarter 4, 2016/2017 (1 January to 31st March 2017).

3. Focus on Houston, Crosslee, Linwood, Riverside & Erskine

- 3.1 The table below details the number of incidents reported within the Houston, Crosslee, Linwood, Riverside and Erskine Local Area during Quarter 4, 2016/17 (January to March 2017). The Renfrewshire Community Safety Partnership continues to target resources into identified hotspot areas.

Incidents Reported	Q4 2015/16			Q4 2016/17		
	Ward 9	Ward 10	Ward 11	Ward 9	Ward 10	Ward 11
Serious Violent Crime	2	0	2	0	3	3
Minor Assault	15	6	8	8	6	7
Drug Crime	13	1	17	15	4	7
Disorder and Anti Social Behaviour (ASB) (number of calls)	192	78	146	123	59	155
Vandalism	31	15	12	25	8	15

- 3.2 The incidents reported above are obtained directly from the Police Database (Storm) with many discussed as part of the Daily Tasking meetings. The information gathered allows early intervention and quick resolution to incidents.
- 3.3 From previous years, the Community Safety Partnership often see a pattern with regards to complaints in relation to anti-social behaviour, with an increase from Easter (light nights) through to the end of Summer time and then there is seen to be a decline over the darker nights.
- 3.4 Ward 9: Four out of the five indicators have reduced in comparison to the corresponding period of 2015/16, whilst drug crime increased very slightly. There were no incidents of serious violent crime and whilst drug crimes increased, it remained at a relatively low level with only 15 crimes recorded. As with the previous reporting quarter, it would appear that the intensive interventions and visits from youth officers, Police and mobile CCTV staff have impacted extremely positively on recorded anti-social behaviour and disorder incidents, which have reduced by more than one-third (36%).
- 3.5 Ward 10: Very slight increases were noted within serious violent crimes and drug crimes, however due to the very small overall number of recorded crimes for these two crime types, there were no significant concerns highlighted. As is normal with such low number, there were no repeat victims, and no temporal or geographic patterns identified.
- 3.6 Ward 11: Slight increases were noted within serious violent crimes, anti-social behaviour/disorder calls, and crimes of vandalism. As with Ward 10, serious violent crime only increased slightly (one crime) and with 3 crimes it remains at a very low level. Similarly, crimes of vandalism increased by only three to a total of 15 crimes, which also represents a relatively low overall level of offending. Anti-social behaviour

and disorder calls increased by 9 incidents and it was noted that the main increase lay within reported incidents of neighbour dispute. Two repeat locations were identified which accounted for 13 separate complaints – one of these locations has been disposed back to the local Housing Association whilst the other is currently with mediation.

Renfrewshire Wardens' Antisocial Behaviour Calls

- 3.7 62 antisocial behaviour calls were received directly by the Renfrewshire Wardens' Service for the Houston, Crosslee, Linwood, Riverside & Erskine LAC area during 1 January – 31 March 2017 which is a decrease compared to the corresponding period in 2016. It should be noted that several of the calls to Wardens will also have been reported to Police Scotland and will be included within the statistics detailed in paragraph 3.1 above. 818 patrols took place within the Houston, Crosslee, Linwood, Riverside & Erskine LAC area, many in response to these calls. The antisocial behaviour calls made to the Wardens assist the Community Safety Partnership in responding to and directing resources across Renfrewshire.

Noise Enforcement

- 3.8 During 1 January – 31 March 2017, the number of calls to the Noise Team remained at a similar level compared to the same period last year in Wards 9 & 11, but significantly dropped in Ward 10. The number of Warning Notices issued has also remained constant which corresponds to the calls received. The Noise Team has worked with its community safety partners and operated extended hours until 4am on Fridays and Saturdays since 2014. These working practises have established an excellent service with a history of successfully resolving noise complaints, without formal enforcement action being required following the issue of a Warning Notice.

4 Environmental Enforcement and Improvements

Vehicle Emissions Testing

- 4.1 This bi-annual event took place during March 2017. The Renfrewshire Wardens, working in partnership with Licensing Officers and Police Scotland, carried out emissions testing on light vehicles entering Air Quality Management Areas in the town centres of Johnstone (15 & 16 March) and Renfrew (23 & 24 March). 696 vehicles were tested including 35 taxis and private-hire vehicles, with only 1 fail resulting in the issuing of a Fixed Penalty Notice to the driver. Although detection was very low for emissions this year, other offences were identified. This resulted in the following: 1 male was arrested for drunk driving, a young driver was reported to the Procurator Fiscal for possession of drugs, 1 private hire taxi was immediately suspended from operating due to an illegal tyre tread and 3 warnings were issued due to minor defects.

2017 School Parking Safety and Idling Initiative

- 4.2 This campaign aims to make drivers aware of the dangers of parking illegally or inconsiderately near schools and the threat that idling engines can pose to children's health. Following on from our campaign of 2015-16 where 18,894 text messages were sent to parents/guardians, combined with thousands of leaflets distributed to drivers, this year's campaign aims to be equally successful. A further 10 schools have been identified to be part of the 2017 School Parking Safety and Idling Initiative. Banners highlighting the issues relating to engine idling and dangerous parking were erected outside these schools and wardens patrolled during key times to reinforce the messages during February-June 2017. Information was also communicated through the Council's website, text alerts, school newsletters, leaflets and local media. This action supported wider activities relating to road safety carried out at schools across Renfrewshire.

Secondary Schools Litter Initiative

- 4.3 Community Resources has received multiple complaints regarding issues of litter generated by the pupils from local high schools at lunchtimes and after school. A variety of shops near the schools offer hot food which pupils use regularly. Renfrewshire Council do not enforce littering on juveniles. However the Community Safety Partnership together with local schools have implemented a joint action plan during March 2017:
- Areas surrounding the schools were cleaned by Streetscene and the Community Payback Team;
 - The Community Safety Youth Team addressed school assemblies regarding pupils' behaviour outside school grounds;
 - Litter picks by the school pupils were arranged by the Youth Team with equipment supplied by the wardens;
 - Wardens regularly patrolled the local areas and challenged any unacceptable behaviours they observed involving pupils and captured the interaction using body worn video. Footage was forwarded to the schools for follow up action.

DVLA Audit of Abandoned Vehicle Procedures

- 4.4 Renfrewshire Council received over 300 reports of abandoned vehicles in 2016/17. However, after investigation less than 10% of these vehicles were officially categorised as abandoned. There are strict criteria to assess if a vehicle is abandoned and this can include (but is not limited to) flat tyres or removed wheels, smashed windscreens or windows, missing number plates or graffiti. Most of the complaints related to cars that had not moved for a time period and were untaxed, however, they were not deemed to be abandoned once inspected. The DVLA enforce cars that are untaxed and remain on the road and complainers can check on the DVLA website to see if a car is untaxed.
- 4.5 To assist in the delivery of the service, the Council website has been updated to provide more information to the public as to what constitutes an abandoned vehicle. One issue is that many of the complaints were anonymous which resulted in the Council being unable to advise why they were not abandoned and therefore there were numerous repeat callers. This has been rectified and now to report an abandoned vehicle, the complainer must leave contact details to allow Renfrewshire Council to respond.
- 4.6 The Renfrewshire Wardens Service was externally audited by the DVLA Data Sharing Assurance Team in December 2016. The purpose of this audit was to confirm that the Council was recording and investigating abandoned vehicles to the required DVLA standards. In January 2017, Renfrewshire Council received an overall audit rating of 'Green', which demonstrates a high level of compliance. This allows the Renfrewshire Wardens continued access to DVLA vehicle keeper data which helps to identify abandoned vehicles at the earliest point in the process.

5 Protecting Vulnerable Residents

Safe Kids

- 5.1 Safe Kids is an annual interactive educational programme involving Renfrewshire's Community Safety Partners, delivering messages relating to a range of safety issues to every Primary 6 pupil in Renfrewshire, i.e. 1,830 pupils in total.
- 5.2 The aim of Safe Kids is to reduce the number of accidents involving young people, promote positive behaviour and eliminate risks.
- 5.3 Safe Kids was delivered at St Mirren's Paisley 2021 Stadium during February-March 2017 with pupils transported to the stadium from their respective schools. Workshops were designed to be interactive and short in length (10-12 minutes) to enable partners to get vital messages across in subject areas that can be difficult to discuss.
- 5.4 Workshops this year included - antisocial behaviour; CCTV; alcohol and drug awareness; internet safety; fire safety; litter & dog fouling and Street Stuff. Some new workshops were also included for the first time this year, including raising awareness and encouraging kids to "back the bid" for Paisley - City of Culture 2021, Who Cares Scotland raising awareness of children in the care system and working with the

Council's Civil Contingencies Team, to increase awareness of how to prepare for emergency situations.

The Street

- 5.5 'The Street' is an award winning drama project based in Hamilton that helps young people to address antisocial behaviour and keep themselves safe. This 20 minute drama is delivered by young people aged 14-24 with the target audience being other young people. Topics include knife crime; teenage pregnancy; domestic violence and alcohol misuse.
- 5.6 The Renfrewshire Community Safety Partnership visited the project on 2 occasions during January - February 2017, with young people who come to the attention of the Community Safety Youth Team through their involvement in youth disorder. After watching the drama, the young people attend a 1 hour workshop to assess the impact of their behaviour on themselves and their community.

Choices for Life

- 5.7 Choices for Life is an innovative diversionary and educational initiative aimed at raising awareness amongst young people aged 11-18 about the dangers of substance use and misuse in relation to smoking, alcohol and drugs. It also offers online safety and advice on how to deal with negative peer pressure and provides useful resources for young people and parents, carers, teachers and youth workers at www.choicesforlifeonline.org.
- 5.8 The 2017 Choices for Life event took place on 20 March 2017 at Johnstone Town Hall. It was attended by 120 second year pupils from Renfrewshire's Secondary Schools. This event focused on the dangers of alcohol and drugs with inputs from Police Scotland, RADAR, Scottish Fire and Rescue Service, Renfrewshire Wardens Service and Community Safety Service, Clubbercise with Active Communities and St Andrew's First Aid.

I Am Me/Keep Safe

- 5.9 The I Am Me Cinebus is touring Renfrewshire primary schools to deliver a comprehensive programme which raises awareness of disability, bullying and hate crime. Over 7,000 children have participated in the programme since September 2016. The programme has been designed to complement the curriculum for excellence and a progressive lesson plan is available for each school year (from P1-P7). Feedback from nearly 3,000 participants highlights that 98% of participants have enjoyed the Cinebus visit, 99% know bullying is wrong and 96% would report an incident.
- 5.10 Disability hate crime awareness training is currently being delivered to the Scottish Prison Service. The training is being delivered, in-house, to Polmont young offenders, with excellent feedback and engagement. I Am Me staff recently delivered the training to the Scottish Prison Services Headquarters in Edinburgh and will be delivering the sessions to inmates and staff at Shotts prison in the spring.

- 5.11 Based in Renfrewshire, Keep Safe is now being rolled out in Ayrshire, with Orkney, Highlands and Islands, Stirling and West Dunbartonshire at the early stages of adopting the initiative. The Keep Safe Scotland “phone app” has now been launched and is free to download from iOS and Android. The app can be used to plan routes, highlighting all Keep Safe places and provide details including opening hours, website and telephone number. The app is linked to Police Scotland to dial 101 or 999 with an approximate location displayed allowing officers to find the app user if they are lost or in distress. A link is provided for all local authorities in Scotland, with the option to provide details for community safety events and contacts. The Keep Safe places are being linked with Police Scotland A-Z system to provide additional support, if required.

6. Building Safer Communities

Best Bar None

- 6.1 Best Bar None is an awards scheme which raises standards and rewards excellence for those venues that attain the award standard. This is delivered at a local level in partnership with the industry, local authorities and Police Scotland. Community Resources’ Trading Standards & Licensing Team is responsible for the local co-ordination and assessment of the scheme. Best Bar None Awards are based on core national standards relating to the five licensing objectives, which are:

- preventing crime and disorder;
- securing public safety;
- preventing public nuisance;
- protecting and improving public health; and
- protecting children from harm.

- 6.2 12 venues attained either gold or silver awards at the local Awards Ceremony on 12 January 2017. 7 venues were presented with awards in specialist categories such as "Best family establishment", "Most improved" or "Heart of the Community". 4 Category winners were shortlisted for categories in the Best Bar None Scotland Awards 2016-17, held at the Hilton Hotel, Glasgow on 30 March 2017. The Tartan Rose, Paisley won the Heart of the Community Award - the first ever National Best Bar None Award for a Renfrewshire venue.

7. Strategic Police Priorities

- 7.1 At the Housing and Community Safety Police Board on 23 August 2016, Community Resources presented the Renfrewshire Council response to the Scottish Government consultation on the Strategic Police Priorities.
- 7.2 The strategic priorities have now been published and are in line with Renfrewshire Council’s consultation response.
- 7.3 The Scottish Government has now established seven strategic priorities for Police Scotland to drive their service over the coming years and these are:

- **Localism** – Ensure that the needs of local communities are understood and reflected in the planning and delivery of policing at a local and national level.
- **Inclusion** – Ensure our police service is accessible and responsive to the needs of all people in Scotland.
- **Prevention** – Ensure our police service works to protect people by preventing crime and reducing fear of crime through communication, education, innovation and partnership working.
- **Response** – Focus policing on improving the wellbeing of individuals and communities by tackling crime and responding to and investigating incidents effectively and efficiently.
- **Collaborative Working** – Ensure that our police service works productively with partners at local, national and international levels to deliver better outcomes for people in Scotland.
- **Accountability** – Continuously improve public confidence in policing and inspire trust by being transparent, accountable and acting with integrity, fairness and respect.
- **Adaptability** – Ensure our police service takes advantage of new opportunities and meets emerging threats and challenges.

7.4 Police Scotland and the Scottish Police Authority (SPA) launched a consultation on the 2026 Strategy on 27 February 2017. The Chief Constable has advised that the strategy is aimed at making police time more productive and that Police Scotland will work smarter. As part of this, Police Scotland are also introducing new Operational Area models, including across Renfrewshire from 4 April 2017. The focus of the new strategy and operational model is in line with the Strategic Police priorities above and will result in a focus on Community Policing.

8 Public Protection Spotlight – Renfrewshire Alcohol and Drug Partnership

- 8.1 The Renfrewshire Alcohol and Drug Partnership (ADP) is a multi-agency group, which has strategic responsibility to review, develop and deliver local services related to the challenges associated with alcohol and drug misuse. It was established in 2009 and comprises representatives from Renfrewshire Health & Social Care Partnership, Engage Renfrewshire, Police Scotland, Scottish Fire & Rescue Services, Scottish Prison Service and Job Centre Plus.
- 8.2 Renfrewshire Alcohol and Drug Partnership's vision is to ensure that individuals will achieve and sustain recovery from their alcohol and drug use and become contributing members of society.

- 8.3 Renfrewshire Alcohol and Drug Partnership is responsible for reporting outcomes in their Annual Report (latest 2015/16). The annual report also includes core and local indicators, many of which demonstrate an improving trend.
- 8.4 Renfrewshire ADP has a drug death action plan which outlines key priorities for preventing deaths. Key areas include investigating all drug related deaths and trends and reviewing any areas for intervention. Recent data shows that there were 19 drug related deaths in Renfrewshire in 2015. This represents a 37% decrease compared with 2014 and is in contrast with many other areas of Scotland which experienced a 15% increase.
- 8.5 In the last year, over 98% of individuals in Renfrewshire waited no more than 3 weeks for treatment, which is better than the Scotland wide figure of 96% for alcohol and 93.7% for Drugs. Renfrewshire has consistently exceeded the local target of 91.5% during 2016/17. Improvements seen in waiting times for drug and alcohol services have made services more accessible and increased the numbers attending.
- 8.6 Renfrewshire's Alcohol and Drug Partnership's 2016/17 developments include:
- Implementation of the Scottish Government's Quality Principles which include a detailed self assessment, and an evidence informed programme of work to support and improve service performance;
 - Recruitment of a Licensing Intern who will work with communities to enhance their involvement in the Licensing process;
 - Recruitment of a Recovery Development worker to enhance the work related to recovery from drug and alcohol problems in Renfrewshire;
 - Funding of the Safe Bus, which seeks to support people who are at risk during the Festive period (Fridays & Saturdays nights in December). The Safe Bus provides a safe environment for anyone who may be vulnerable as a result of being intoxicated, injured or separated from their fellow revellers;
 - The continuation of the National Naloxone Programme which aims to prevent drug related deaths. Naloxone is a potentially lifesaving drug which can temporarily reverse the symptoms of overdose. Training is offered on how to administer Naloxone and basic lifesaving skills including Cardio-pulmonary Resuscitation (CPR);
 - A Training Needs Analysis is being conducted which seeks to identify training needs amongst staff working in addiction services and other key practitioners. This will inform future workforce development priorities for the partnership;
 - Implementation of Peer to Peer programme, which offers training and a recognised qualification for people in Recovery from alcohol and drug use which will allow them the skills to become Peer Support workers.

Report by: DIRECTOR OF COMMUNITY RESOURCES

Heading: STREET STUFF ANNUAL REPORT/FUNDING REQUEST

1. Summary

- 1.1 Street Stuff has been delivering activities in Renfrewshire since 2009, during which the programme has contributed to delivering a sustained reduction in reported youth disorder and anti social behaviour. Across Renfrewshire a 75% reduction in youth disorder and anti social behaviour was achieved in the first 5 years of the programme and a further 42% increase in participation levels has been seen over the past 3 years. Over 43,000 participants took part during 2016/17, an increase of 5000 from the previous year. The programme now offers a range of activities such as football, dance, cheerleading, clubbercise, gaming, DJ workshops, filming and much more.

- 1.2 In 2016/17, supported by the Tackling Poverty Commission, Street Stuff replaced 5 container boxes with 5 buses equipped with playstations and Xboxes. The last two buses were further supported by Paisley 2021 linking in with community engagement intended to take cultural and media experiences to all Renfrewshire communities. Following consultation, the buses were designed both internally and externally by Street Stuff participants to include ipads, macbooks and DJ decks as well as a fresh new vibrant exterior. Free Wi-Fi is also to be installed very soon following discussion with young people. The buses give flexibility in providing activities across wider areas in Renfrewshire as well as supporting events, gala days and community engagement related to the Paisley 2021Bid.

- 1.3 The success of the programme relies on its ability to respond quickly to hot spot areas identified through collaborative working supported by Renfrewshire Community Safety Partnership. Being evidence led, and by responding early through the daily

tasking process, the service is able to divert young people effectively from anti social behaviour into more meaningful activities.

- 1.4 The success of the programme in delivering life changing outcomes for residents is demonstrated by the fact that previous participants in the programme have gone onto become volunteers in the programme. Some participants (sessional workers) in the programme have used their experiences to support entry into further and Higher Education as well as careers in Police Scotland and the Scottish Fire and Rescue service and as teachers.
- 1.5 This report confirms the development and expansion of the Street Stuff programme through the 2016/17 financial year and highlights some of the additional projects linked with the core programme that have further improved its reach and effectiveness across Renfrewshire.
- 1.6 Over the previous years, opportunities have been available for each Local Area Committee (LAC) to consider funding additional activities within their LAC area. This funding would facilitate additional sessions delivered within communities not identified at a Renfrewshire level as hotspot areas but that the local communities feel would benefit from this type of programme. Given the scale of the core programme, it is requested that a contribution of £5,000 per LAC area should be considered, which would contribute to the costs of delivery of up to two activity sessions per week within the LAC area through the peak summer, autumn, and spring months as well as attendance at local gala days and fetes.

2. Recommendation

It is recommended that the Local Area Committee:

- 2.1 Note the continued development of the StreetStuff Programme as detailed in this report; and
- 2.2 Consider the provision of £5,000 grant to the Street Stuff Programme for 2017/2018 to contribute towards the costs of additional activity sessions within the LAC area including attendance at local gala days and fetes.

3. Background and Further Information on the Programme

- 3.1 Street Stuff provides a range of activities primarily in the evenings and at weekends across Renfrewshire. Effective targeting and identification of the activities is delivered using information and data controlled by the Renfrewshire Community Safety Partnership including Police data that highlights the days, times and locations of incidents of youth disorder and anti-social behaviour.
- 3.2 The table below summarises the number of sessions delivered during 2016/17 and recorded attendance figures within each local committee area including events, gala

days and fetes supported by funding from LACs and events and activities supported by the Paisley 2021 Bid Team.

General

3.3 Street Stuff became an active partner of the Paisley 2021 Bid Team during 2016/17. The key objective being to engage with young people raising awareness of cultural activities, and what it would mean for Paisley to win City of Culture in 2021. The partnership has grown from strength to strength and has opened up a range of opportunities that Street Stuff participants would not normally get the chance to participate in. Whilst the list is not exhaustive, Street Stuff Dance and the new buses have featured in a number of key events over the year including:

- Smashot Day – Young People got involved in the parade, some participating in dance with others involved with the parachutes and the parade itself. Tuition for this event was provided by an organisation called 'Walk the Plank'. The Young People had a fantastic time in what was an amazing day.
- Renfrew Gala Day – Young People from Kirklandneuk and Glenburn performed a few of their dance routines at the gala day. The bus was also in Robertson Park with activities being well received.
- Pipe Band Festival - The Youth Bus supported the Pipe band championships at St James Park which was well received by those who travelled far and wide to be at this prestigious event. Coaching staff also took this opportunity to get the Paisley 2021 message out and encourage support for the bid to be City of Culture 2021.
- Halloween Parade – Street Stuff young people were involved in this year's parade. The dancers performed a routine based on the Paisley pattern outside Paisley Abbey at the event on both nights.
- Fair Trade Day, Paisley Methodist church – Due to the success of performances at other events, Street Stuff young people were invited to perform routines in the church as part of the Fairtrade day. Performances were well received by those attending the event.
- Summer Holiday Dance Show – Young people from across Renfrewshire performed in a dance show in Glenburn community centre displaying dance moves including singing and acting. The show was a great success with over 150 parents attending and having the ability to see how far Street Stuff Dance has come over the last couple of years.

3.4 ROCCO Business Awards Ceremony – In November 2016, the Renfrewshire Chamber of Commerce chose Street Stuff Culture Buses as one of their Charity Programmes at the Normandy Hotel and awarded £3000 to further develop the buses in the new financial year. As part of this process two Street Stuff Coaches were invited to speak at the awards ceremony to talk about their Street Stuff Journey and what it meant for them to be involved in the development of the buses and new cultural activities.

- 3.5 Street Stuff Annual Football Festival – The annual festival event held in May 2016 hosting around 500 young people from across Renfrewshire. This year's event was also enhanced with additional activities including the Youth Buses and dance classes being provided.
- 3.6 Football Beyond Borders – A group of young people from London visited Street Stuff during the summer holidays. The annual visit, which saw the group returning to Lapwing Lodge for the second year running toured different football grounds over the course of the week. A football tournament was arranged for the visitors at St Mirren Training Ground.

Volunteering, Training & Employability

- 3.7 The ongoing development of the Street Stuff programme has continued to provide volunteering and employment opportunities. Nine new volunteers were recruited with two of the existing trainees receiving the Saltire Summit Awards for volunteering above and beyond expectations and completing over 200 volunteering hours within the programme.
- 3.8 A further positive outcome for the programme is the increase in the percentage of staff delivering activities who have participated, volunteered and live in the Renfrewshire Area rising from 50% to 77% over the course of the year.
- 3.9 Two of the four trainees recruited through the Tackling Poverty programme are now employed by Street Stuff to deliver Dance Sessions and drive the new buses. The other two trainees have moved on to positive destinations with Skills Development Scotland and Hairdressing. Other coaches within the programme have also moved on to positive destinations with one setting up their own dance schools and another progressing to University to complete a degree in Sports Leadership.
- 3.10 University West of Scotland - Street Stuff has been working with the University West of Scotland to provide placements for 2nd year students within the programme. Work experience placements with young people from local schools and colleges across Renfrewshire have also been popular this year with over 12 placements being provided.
- 3.11 At the ROCCO awards in November 2016 two coaches spoke to over 500 people about their own experience of being a participant in the programme, progressing to become volunteers and with support from Street Stuff progressing to study an HND in Sports Leadership at West College Scotland and now employed by Street Stuff on a sessional basis. They explained their roles within Street Stuff highlighting that they wouldn't be where they are now if it wasn't for the programme. They also highlighted how much they enjoyed the consultation and community engagement with young people on the development of the new buses and being able to see the end product with the buses now on the street.
- 3.12 Street Stuff continued their support at the annual Safe Kids event held in February/March 2017 at the St Mirren Paisley 2021 Stadium. Safe Kids is an annual

interactive educational programme involving Renfrewshire's Community Safety Partners, delivering messages relating to a range of safety issues to every Primary 6 pupil in Renfrewshire, i.e. 1,830 pupils in total. The aim of Safe Kids is to reduce the number of accidents involving young people, promote positive behaviour and eliminate risks.

- 3.13 Pupils are transported to the stadium from their respective schools and attend workshops designed to be interactive and short in length (10-12 minutes) to enable partners to get vital messages across in subject areas that can be difficult to discuss. Workshops this year included - antisocial behaviour; CCTV; alcohol and drug awareness; internet safety; fire safety; litter & dog fouling and Street Stuff. Some new workshops were also included for the first time this year, including raising awareness and encouraging kids to "back the bid" for Paisley - City of Culture 2021 and working with the Council's Civil Contingencies Team, to increase awareness of how to prepare for emergency situations.
- 3.14 All P6 pupils from across Renfrewshire who attended the event were given the opportunity to attend a St Mirren match with a parent free of charge. Around 800 people attended the match against Queen of the South in March.

Holiday/Festive and other Programmes

- 3.15 The Street Stuff Holiday Programme delivered an extended programme of activities during the school holiday periods throughout 2016/17 including the provision of a healthy meal. Over 16,000 healthy meals have now been provided at activities since the extended programme began in October 2015.
- 3.16 All five Local Area Committees benefited from this additional funding with local holiday camps being provided at some point throughout the course of the year.
- 3.17 A key feature of 2016 was the Festive programme delivered over the 2 week Christmas shut down period with over 500 recorded attendances of young people from all over Renfrewshire.
- 3.18 Over and above the normal delivery of activities and provision of a healthy meal, a special Christmas Party was held with over 100 young people in attendance. A Christmas Dinner was served with gifts, selection boxes, games and quizzes taking place. Street Stuff Dance displayed their routines with a DJ mixing the latest songs and providing workshops for the young people to participate in.
- 3.19 Chief Executive award – To finish another successful year, Street Stuff was recognised for their efforts by winning the Chief Executive's "Place Award" for making Renfrewshire a better place to live in, work and visit.
- 3.20 The popularity of the programme is clear however, in previous years, LAC areas have been keen to ensure that a wider range of communities and young people benefit from the activities offered and have funded additional sessions specifically to address hotspot areas within their own communities. Given the continued success of

the programme in terms of sessions delivered and recorded attendances in each LAC area and the wider opportunities available to young people, we would welcome the continued support from the LACs with the allocation of £5,000 during 2016/17. This would enable the programme to continue to provide additional sessions/activities each week within the LAC area as well as secure attendance at relevant local gala days and fetes.

IMPLICATIONS OF THIS REPORT

1. **Financial Implications:** Any financial commitment made by the LAC will be contained within the LAC's grant allocation 2015/16.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>To provide community space for activities such as out of school care (already established in a classroom rented from Renfrewshire Council), Play scheme, training room with connecting kitchen, elderly drop in centre with support from Alzheimers Scotland and Linstone, exercise classes and family activities in partnership with Active Communities, energy advise in partnership with LEAP, family support in partnership with families first, gardening clubs in partnership with Linwood High School. Due to the success of our out of school care we wanted to expand our services to cover a wider community circle. We are well respected in the area and have worked in partnership with Linstone, Active Communities, Parish church, LEAP, Linwood High and many smaller community groups. We have a long term lease with full repair and maintenance on the property this was made possible through the empowering community act. Our building will be the only community space in the East Fulton area. It will reduce social isolation and provide a space for the community to use. Our anchor business of child care will pay for the over heads of the running of the building thus creating a community space that is self sustainable and environmentally friendly. Our affordable child care has boosted the local economy, with this larger area we can accommodate more children and reach further into family life by introducing cooking sessions, gardening projects, exercise classes and much more. We would expect people in the area to be better off mentally, physically and financially with the partnership working of bring services to the community in a no judgemental environment that allows people to have self worth and a purpose. Our current child care volunteering program will be</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	Replacement of old lawnmower to maintain the improved bowling green surface following several years of expenditure on this. Although there has been a distinct improvement our club cannot operate without a suitably maintained bowling green and our current lawnmower is reaching the end of its lifespan. The greenkeeping contractor and the maintenance engineers have advised that the existing lawnmower has reached the end of its useful lifespan. Annual service costs are increasing greatly and parts are now becoming difficult or impossible to source. The new lawnmower should maintain the improvement in the bowling green surface because it could be used more frequently than our current aging lawnmower. The outcome should be an even better playing surface which should allow members to have a more enjoyable experience and hopefully retain them and encourage them to promote the club to new members.

The system is presently powered by 3-phase electricity and is very expensive to operate. The project proposal is to replace this system with a modern gas-fired LPG system which will be significantly more economically and environmentally friendly, will be reliable, will have improved resilience, and will help to preserve the 200-year old fabric of the Grade-B listed building. Studies have been undertaken since 2013, using resources from Church of Scotland General Trustees, Resource Efficient Scotland, and internal resources to identify the most effective upgrade proposal. A project in association with Glasgow Caledonian University was undertaken in 2016 and has been used to complete research of best options. Discussion papers and proposals have been submitted to the Church Congregational Board and are expected to be approved shortly. Strip out existing electrically-heated cast-iron heating pipes of 1904 vintage and replace with a modern small-bore closed heating system using panel convectors throughout the Sanctuary. Install loft insulation. Heat supply to be from 2-off gas-fired condensing boilers using bulk LPG (mains gas not available). System to be installed by approved contractors. The system to provide constant background heat and enhanced comfort heating. Increased use of the Sanctuary building beyond present outreach activities due to improved comfort; reduced emissions and running costs for heating; preservation of the B-listed building fabric; improved reliability; improved ongoing viability of the Church organisation and outreach</p>

(Please use a separate sheet if required)	2.3 2.9	Our project will take 80+ members of Linwood Elderly Forum on a night out to the theatre. The purpose of this project is for those who participate will be given the opportunity to come an mix with their friends in a pleasant environment, enjoy each others company and, talk about issues that maybe affecting them. The major purpose is to help combat loneliness and isolation and having these functions helps with the serious issue. We have 100+ members in Linwood Elderly Forum of which approximately half are living on their own , isolation and loneliness is a big issue for some seniors. We have found giving our members the opportunity to attend social events like this, helps them make new friends and, catch up with old friends. Our main aim is to combat these issues, by encouraging our members to come along to the functions we can provide for them. Our project will take 80+ members of Linwood Elderly Forum on a night out to the theatre, we will hire 2 buses to take our members to the venue, we will book all the seats for our show. This has a positive impact on those members who participate they will be given the opportunity to come and mix with their friends in a pleasant environment, enjoy a show with music and laughter. By organising the transport we are providing a feeling of security for our members knowing they are safe both travelling to the venue and returning home. The outcomes are very positive for our members, we think that giving our members the opportunity to come together will help	

		combat the scourge of loneliness and isolation. We at Linwood Elderly Forum are committed to helping our senior members have a better outlook on life therefore their health and wellbeing will also be improved.

To enhance the appearance of Houston village during the Christmas period. 2. To foster community spirit and a sense of pride in the village. 3. To engage children and schools in the project by repeating the highly successful competitions for local schoolchildren to design a Christmas light motif, with the winning entries from each school having their design fabricated and displayed in the village centre. 4. To add to the celebratory nature of the switch-on event by rounding off with a firework display. 5. To enhance local trade by attracting visitors to the village. This is phase 2 of a 4 year plan and involves extending the lamppost-mounted Christmas motifs further up Main Street in addition to repeating the competitions for local schoolchildren, the winners of which will switch on the lights. Year 3 will concentrate on tree winter lights within the village centre, to be switched on early winter, and off in late winter, plus the addition of another illuminated Christmas tree at the junction of Barrochan Road and Magnus Road. Provision of this tree has been priced by Renfrewshire Council at £6,500 including necessary groundwork in year 1 and £1,500 in subsequent years. Year 4 plan is to erect the 6 school motifs from previous years on lampposts in Crosslee to thus extend the display beyond the village centre.</p> <p>1. Christmas Street Decorations are part of our national culture and are commonplace in other communities in the locality. 2. Feedback from local residents who attended our community council meetings when we first took office in 2015 and commented on the lack of Christmas lights in Houston, 3, We consulted with the head teachers of both local primary schools and were given enthusiastic agreement to participate in the children's Christmas Motif design element of the display. 4. Feedback from residents following or inaugural switch on</p>	

		<p>in 2016 has been uniformly positive. Over 1000 people attended and our Facebook page was inundated with messages of support. 1. Project will provide additional Christmas light motifs suspended from lampposts on Main Street. 2. Project will provide additional Christmas light motifs designed by local schoolchildren, with the winners of the competitions in each school having their designs fabricated by the manufacturers and displayed in the village centre. The winning children will jointly switch on the Christmas lights on the evening of 1st December 2017. 1. Community spirit within the village will be enhanced. We know this from the very positive feedback we received from Houston residents, following our inaugural Christmas lights display and switch-on event in 2016, which was attended by over 1000 people. 2. Local children as well as their schools and families will be at the heart of the project and will be closely involved in a major community event. 3. The switch-on will be closely involving both primary schools, and we will take this opportunity to draw the community even more closely together. 3. Civic pride within the village will be enhanced. 3. Houston will be seen to be involved in the widespread mood of festivity that prevails at this time of year.</p>

Members walked through the village and took note of stalled, derelict and unkempt areas and formulated a strategy to deal with those and develop other ways of enhancing the environment of the village. This is an ongoing project, with previous work requiring regular maintenance and new areas being identified continuously. It will further enhance the appearance of the village and its amenities. We will achieve this by building on our previous work and developing other areas in need of regeneration as and when they are identified. Our core group will work regularly throughout the year, increasingly involving other residents, businesses, youth groups and, where possible, schools, as well as working with other community groups, such as the Tenants and Residents Association and the Community Council. We aim to build upon our past successes, helping to bring the community together and encourage a sense of civic pride and responsibility. It also aims to develop and engage in activities, including fundraising, which support the education and welfare of the pupils and to identify and represent the views of parents to the school and local authority.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>To transform a large waterlogged and uneven piece of land within the school grounds, which currently cannot be used for the majority of the year, into a developed area which will provide enjoyment for all pupils, school staff and the wider community. The project will create a flat sports pitch with a surrounding running track, an outdoor seating area, garden area, along with educational and play equipment. All areas of the newly regenerated field will be fully accessible for all. The need was identified by parents of pupils attending the school, along with consultation with pupils. Currently Bishopton Primary does not have a usable sports facility leaving it behind the other schools in the area who do. Children have highlighted that they are unable to play on the field due to its condition and are disappointed due to the lack of facilities. The school role in Bishopton has and still is increasing due to the expansion of the local population meaning there is a much greater need for such a facility. Active Schools, who contribute to the Curriculum for Excellence, currently host sporting clubs within the school but these are limited due to lack of facilities. An improved sports facility would be welcomed by Renfrewshire Council's Active Schools who would be able to offer an improved sports programme to all children. The Scottish Government made a commitment that</p>	

		<p>all primary school children should get a minimum of 2 hours of physical education per week as it was recognised this had a positive impact on a child's health, educational attainment and life chances. This project would assist in maintaining and improving this standard. A garden area, outdoor classroom and educational equipment will be beneficial for an enhanced educational experience. This project is also aligned with Renfrewshire Council's Community Plan 2013-2023 to implement the National Play Strategy to encourage physical, mental and social development. It will provide a year round usable outdoor space for all students. It will enhance sporting facilities allowing more children to enjoy physical activities during the school day. It will give children the experience and responsibility of growing and reaping fruits and vegetables which can in turn be used during masterclass time to develop and enhance life skills. This will be achieved through contracting work to local companies, with preference towards using a local enterprise scheme which offers employment to young, often vulnerable adults. A usable space will be created that children can use throughout the year. The field will provide something for all children and not only those who are interested in sport. The school will benefit from regenerating the field as they will be able to use the area for gym classes and for walking the daily mile. An outdoor seating/ classroom area can be utilised when weather permits and a garden area can be incorporated into the gardening masterclass and gardening club. Educational equipment will benefit all children through taught activities and play. This project will encourage better use of a piece of land which has historically been under utilised whilst enhancing the environmental profile of a section of land within the village. It will improve access to local amenities by installing a variety of community based resources for the betterment of all and provide a variety of resources for local school children that will enhance their ability to learn and play outdoors throughout the entire year.</p>

(Please use a separate sheet if required)	2.3 2.9	<p>The aims of Girls on the Run are to educate and empower girls to look after their health and wellbeing. It introduces teenage girls to physical activity in a safe and fun environment through weekly sessions which include walking, jogging, boot camp, circuits, team building and fun games. We include personal development sessions which aim to increase self-esteem and confidence and include health inputs to address healthy eating, sugar consumption, smoking, alcohol and mental health. Older girls have the opportunity to progress to be volunteers with the group. We know that there is a substantial drop off in physical activity levels of girls when they move from primary school to high school and that there are not many activities solely for teenage girls to take part in in their local community. We are currently running taster sessions for p6 and p7 girls in the Linwood primary schools and have a Hearty Lives project and teacher in all Renfrewshire High schools. We have worked in St Benedicts and Linwood High for 4 years now and have good links with the teachers and pupils. The group is already running successfully on a small scale due to limited funding but we want more girls to have the opportunity to come along. This is a youth led project which will seek to improve the health and wellbeing of the girls attending every Saturday morning in the ONX. Those attending will get a say on what activities they want at their club. We are well aware of the issues girls are facing, particularly around self-esteem, body image, confidence and mental health. Our sessions will introduce girls to the wider world of physical activity out with the</p>

(Please use a separate sheet if required)	2.3 2.9	To replace lights for the village lighting display and to continue the work aimed at ensuring as many resident families become involved in this annual village activity. The local churches, the primary school choir, village Gala Queen, and church music group all contribute to making this event a success. The original need for this on-going event was identified as a way of reducing vandalism to the previous single Christmas tree light display. The change to this format has proved highly successful and now attracts upwards of 350 residents. Some local retailers open late to take advantage of the heavier than usual evening footfall that the event creates. A carol service will be held in one of the local churches, involving all denominations. The Primary school choir will be central to this. Thereafter, the light display will be switched on, followed by a visit from Santa and further entertainment from the choir, church music group and light refreshments in the Royal British Legion hall. Greater community cohesion and participation in a family night of entertainment.

(Please use a separate sheet if required)	2.3 2.9	The purpose is to provide a piece of playground equipment which will provide more of a challenge for older children, which would involve a climbing facility, as at the moment the equipment is suitable for younger children and adults. At the annual Gala Day, the children attending were consulted and a need for further development of the play park was identified. Currently there is equipment for younger children and adults, and there is a lack of play equipment for children aged 8-14. The equipment will provide a new interesting and challenging piece of equipment in the play park and prevent parents driving further afield to other parks for this. We have a little money from fund-raising and apart from the LAC application we also intend to apply to the Flightpath Fund, and do more fundraising. We would like the village children to make more use of the park, to enjoy more exercise and stay in the local environment. More challenging equipment would encourage children to become confident in trying new skills.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>We wish to redevelop Ardgyffe Play Park. The current equipment is outdated and damaged. We aim to provide play equipment for toddler and primary aged children and fitness equipment for older children and adults. A committee was formed in May 2016 following a local residents meeting highlighting the derelict state of the park facilities and concerns of equipment safety for the local community. We consulted with local residents through social media, specifically our Facebook page to gauge support for the project. It was widely supported by residents of Houston. We have also engaged local nurseries and schools asking for their ideas and views on what type of park and equipment they would like to see developed there. Following a meeting with Houston Community Council, they have also given their support to this initiative. We plan to approach this in 2 phases of development. We are planning to start phase 1 in Spring 2017 by installing fitness equipment - funding for this was provided in part by the LAC in 2016. Phase 2 will be to redevelop the toddler area of the park, we plan to install a range of play equipment including - Timber Trail, Swings, Basket Swing, See Saw, Roundabout and Tower/Slide. We hope to start phase 2 in Summer 2017. Once improved it will give local residents access to a range of unique play and fitness equipment, allowing children, teens and older residents of Houston and surrounding areas to visit the park and experience this equipment which is different to other parks in the area. The park is set in a lovely piece of green open ground and redeveloping this will give children a safe place to play and socialise. It is in walking and cycling distance of all areas of Houston so residents can</p>	

		<p>organise to meet locally as opposed to travelling by car to parks thus reducing our carbon footprint. People from all backgrounds will be free to join in the fun and experience our new park. We are raising funds for the project through local charity events. We are also applying for grants from various organisations, and Renfrewshire Council are providing coordination support and advice on the project planning and logistics. To provide a stimulating, safe and modern play facility for children of all ages and abilities. To provide fitness equipment for older children and adults and improve health and well being. Children will be fitter and be able to practice turn taking and being part of a team. Children will enjoy an open green space in all weathers. New friendships can be formed and parents can also meet and socialise. The play area will offer many years of play for children and service our village and outlying areas.</p>

(Please use a separate sheet if required)	2.3 2.9	<p>To host a day of celebration for residents of Erskine and the surrounding villages. This will take the form of a Gala Day with traditional stalls and acts taking place within a central arena. Erskine was the only town in the area which did not have a gala day - we surveyed residents to ascertain what kind of event they would support and have organised events in accordance. During the first year we had fantastic weather - last year however, the weather was atrocious and we suffered horrendous losses - stock and equipment was damaged and lost. Following feedback from stallholders and volunteers we reached the conclusion that we have to provide cover and require marquees. We will hire marquees to ensure that volunteers, stallholders and visitors will be protected from extreme weather. We will also train more volunteers to act as First Aid support and offer Lifting and Handling Courses for people who help us. We also need more appropriate, secure storage solutions for the equipment that we own in order to protect these from the elements. The marquees will enable us to host our event regardless of the weather. Training will allow us to attract and protect our volunteers, and enable us to ensure that age, sex and disability issues do not exclude residents from volunteering with us. We are providing work placement opportunities for locals and need to ensure we are up to date with current legislation in relation to safety etc. The storage will allow us to protect our equipment ensuring our project can become sustainable sooner.</p>

We have identified the need for further equipment to continue our volunteer activities. To work with youths from local high schools to encourage a sense of ownership of community facilities. This project was identified through the Charrette process held in 2016 where residents of Erskine expressed a need for volunteer opportunities within the town. It was felt that the sense of community offered by these positions would further our process of forming a town rather than 4 separate villages (how people from the different areas had identified themselves). We then held open meetings to discuss the proper vehicle for this work to be taken forward and a development trust was formed. We will develop the citizenship and wellbeing of the residents of Erskine through the delivery of sustainable economic, social and environmental projects. We will work with local high school students to ensure their voice is heard and will provide suitable training to ensure that age, sex or disability is not a factor for exclusion within our programmes. We will consult regularly with the residents to ensure we have their agreement and seek progress our projects with an enterprising ethos. (Please use a separate sheet if required)	2.3 2.9	<p>Within the main over-project, St Conval to All Hallows: 1420 years and counting are eight mini projects. One project has the uninspiring title of "Education packs - school support material from all projects". However, it is every bit as important as it is a "practical legacy" for future schoolchildren on what was learned from this current over-arching project. This mini-project is one of the latter phases to be carried out, bringing together into an education pack all of the information gained from all projects, and combining it with information already known, giving one comprehensive booklet, to be used by future schoolchildren. The IHIG by listening to feedback from the community and group members about their previous oral history project "Inchinnan Farmlands to Erskine Community", identified there was a desire / interest to find out more about life around the now demolished All Hallows church. After some discussion the IHIG decided they should investigate what the potential for a project of this nature may entail. The IHIG found there is significant importance to the site at Inchinnan, and this statement is backed up by Historic Environment Scotland, for their Scheduled Monument Ref.M2792. From this the IHIG group has identified a series of projects which could unearth much more information about the former church and its environs, and consequently there is the need for this area to be investigated. For</p>	

		<p>the development of the project, the IHIG group has involved a number of specialists in archaeology, geophysics, Photogrammetric and RTI technology. Between the IHIG and the specialists, they have developed a series of seven projects to maximise the information to be gathered. The eight projects is the one the IHIG is seeking support for, the legacy project which will be developed for the schoolchildren, so that future pupils will be able to learn much more about their own local environs. The IHIG will gather all the new information gather for the other mini-projects, and marry this with material and information already known, and combine it all into an "education pack", which will be made available to the schools for use in generating interest in the schoolchildren in their local environs. This will be available to future schoolchildren, and consequently this is being viewed by the IHIG group as a legacy element to the over-arching project. A legacy education booklet for schoolchildren is the direct result of this particular mini-project. This will build on outcomes from all the other projects which will have quite a number of their own. Some examples of the outcomes from just one of the other mini-projects related to the ancient and Templars stones at the current Inchinnan church will be: - A better evidence-based interpretation / understanding of these ancient stones. A better evidence-based interpretation / understanding of these Templar stones. Discovering the historical importance of these groups of stones and how this fits into the history of the West of Scotland. Through the foregoing outcomes endeavouring to establish why these ancient stones are located at Inchinnan. This will improve the communities' knowledge from a heritage, people and community perspective.</p>

(Please use a separate sheet if required)	2.3 2.9	The Gryffe Theatre Improvement Project is a sustainable initiative that will promote a long lasting cultural ethos at the heart of the Gryffe Community. There is a need to strengthen the cultural activity in the area and ensure that local people can access cultural events in their own community. A successful bid would ensure that the cultural ethos is developed in the Gryffe catchment area and this will ultimately improve the quality of experiences for our pupils in Renfrewshire. The Theatre Project was identified as an area of priority by staff, children and parents through the School's self evaluation process. Gryffe High School strives to raise cultural ambition for all its pupils by enhancing participation and releasing the creative potential that exists in Gryffe High School. In addition the school community wish to support the wider community by strengthening the cultural capacity in Renfrewshire and help showcase the talent of Renfrewshire. The Project is designed to enhance the theatre and make it fit for purpose. The improved environment will also enable the school to strengthen links with the local and surrounding communities. This would also provide an opportunity for working with different agencies and broaden creative projects to a wider field. Renfrewshire Council Estates Department have agreed that the contract for the works will be organised and supervised by themselves using an approved	

		contractor. It is anticipated that the Gryffe High School Theatre could once again become a thriving hub for many different cultural events. The project would improve inclusion and support equity by enabling wider audiences to become involved in cultural activities, who otherwise may not have the opportunity. The venue would provide a platform to showcase creativity and local talent in the Local Community.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>The Erskine Youth Council would like to raise its profile in the area to let local young people know about the group and that they are welcome to get involved with our activities. The EYC would like to produce a social media and action campaign to encourage young people to volunteer and to help make Erskine a better place your children and young people to grow up in. The EYC want to plan and organise monthly youth events, which are run by young people for young people. Young people can choose the theme of each event, and have a role to play in organising or delivering activities. The events could be a chance for young people to meet socially in a safe place, to have fun activities, but there could also be some workshops to try a new skill, or learn something new. The EYC want their regular evening to have a Drop In Sessions where any young person can drop in and help to organise the events, but if there are any problems that they want to raise they can go to the EYC to help them make changes for the better. The EYC membership has changed as older members have moved onto university or moved away, and now is the right time to invite and welcome new members. The EYC have attended local meetings where concerns have been shared about the number of complaints being received from the police and council about some young people causing anti-social behaviour issues. As a result of this some young people feel that all young people are being seen as the same. The Erskine Youth Council have decided to do something about this and one of their ways of trying to support the local community is to provide Fun Drop</p>	

		<p>In sessions and monthly Youth events. It is hoped that by providing fun, meaningful alternatives for young people to take part in, they will want to come away from causing locals so many issues. It will also provide all Young People in the community with a chance to access Youth Provision at nights or weekends. Some examples would be to have pizza movie nights, or to give young people the chance to go away on trips to local facilities. The EYC spoke with a number of local stakeholders including the Local Development trust and Renfrewshire Council. All spoke and agreed this would be a great way to help combat some of the ongoing local issues. EYC would like to buy a laptop to be able to communicate with the public and have a central place where they can store all information, and ensure they are not using their own equipment to carry out the work of the Youth Council. Our last laptop was really old and does not work anymore. We will start our campaign and go talk to young people in the schools and to invite people to join us, as members of EYC or just to get involved and volunteer to organise events. It is also hoped that it will provide young people the chance to take part in new activities and develop new skills. The plan is supported by local Stakeholders, and they have agreed to support this in whatever way they can. The Drop In sessions will be staffed and supported by Renfrewshire Council Youth Services who will also help to give training in planning and organising youth events and on issues and themes we want to cover. The space that will be used is the Youth Space at Bargarran Community Centre and Parkmains High School. That it will decrease the number young people taking part in Anti - Social behaviour at weekends. It will provide young people the chance to take part in new activities that they might otherwise not have had the chance to do. Young people will learn new skills and confidence to put their ideas into action. EYC will have more members involved in their community Young people will better be able to communicate and complete tasks using the laptop to work on the projects. Young people will show a positive image and work against the negative minority.</p>

We will also produce an illustrated veteran's cook book. Most of the veterans we support have Post Traumatic Stress Disorder and some also have physical disability.</p> <p>Our communal cooking and sharing of meals, enables to work as part of a team, to socialise, which for some is their only opportunity each week, to feel part of a community. When we took over the Old Garden Centre, 12 veterans from the former charity asked for us to provide meals and more veterans have joined as well as several new volunteers, we now have 30 regular people attending. The kitchen equipment, seating and lighting are very old, and we had to cook our turkey for Christmas lunch elsewhere as the cooker is too small and unreliable. The number of veterans who cook or want to learn to cook has grown, and it was their idea to produce a cook book. We have surveyed our centre and identified the equipment and improvements we need in order to make the project accessible to all and particularly the disabled veterans who we support. Raised seating for amputee veterans as an example. We will purchase a new large cooker, washing machine and tumble dryer, new chairs, tables, kitchen wear, cutlery, crockery. Repairs to heating system and canopy and greenhouses to grow our own vegetables and to paths to make them accessible. The entire site will be fully accessible</p>	

		to disabled veterans. We will double the number of veteran we are able to support to 60 with gardening projects. We will have heating and lighting to make the centre welcoming and to allow plants to grow. We will repair our canopy, and green houses. (This is one off expenditure, not ongoing maintenance costs.) What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>To grow and provide activities for young people in the area through scouting providing fun, adventure, activities and learning no matter social status, culture or ability. To be able to further the current sections and provide a scout section in the next year to allow more young people to enjoy life long experiences that scouting provides. The scout group closed approximately 20 years ago and there has been no scout presence in Linwood since then. With the growth of scouting in the whole of Renfrewshire and in UK overall it was clear there was a demand to provide a youth organisation in Linwood. Investigations were carried out by project group and there appeared to be few youth organisations providing activity for boys and girls aged 6 to 14 in the area. With lots of planning the group has started with the first two sections. The interest that has been shown in the Group from parents and the local community has been fantastic so far. Currently like all scout groups there income is from weekly subscriptions to allow it to be affordable to all, however we do not have to pay membership fees to scout HQ to cover insurances etc ever March. This has taken any funds we have and as a brand new group we have not built up funds to provide the start up the group needs. We plan to use grant money to pay for hall lets at the local school and also for a storage facility which is not provided at the school. This will allow us to concentrate on providing a full active program to the young people and allow growth in the group. As most scouting records etc are now done online to provide security and governance of young people's details the group requires a laptop computer to allow access to this and also create websites etc to promote the group. We also require start up uniforms such as</p>	

		badge and neckies which are a big outlay. 1. The growth of Linwood Scout Group and development of Beaver age (6-8) and Cub age (8-10.5), 2. The provision to provide a better quality program with lots of fun and adventure both indoors and outdoors and camping experience for all which is not always possible for young people to get in their normal lives, 3. The sustainability of the group and recruitment and training of new leaders, 4. The increase public knowledge of the group within the community and interaction with other community groups, 5. What does your Organisation/Group do?	1.10	<p>Renfrewshire Leisure's main aim is to provide facilities for recreation, sport and cultural pursuits which are of maximum benefit to the community and in doing so ensure this provision is truly inclusive. There is no doubt that sport and culture can bring real benefits for communities and individuals alike and participation in physical activity can make a significant and positive contribution to many areas of our lives. It is vital that everyone has the opportunity to participate and through the following services Renfrewshire Leisure will provide a range of programmes, projects and initiatives which target inequalities and aim to improve life chances for the most disadvantaged as well as providing all with opportunities to improve the health, wellbeing and the learning environment of the population of Renfrewshire in general.</p>	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Houston, Crosslee, Linwood, Riverside & Erskine</p> <p>LAC Applying to: Houston, Crosslee, Linwood, Riverside & Erskine</p>	
How much grant funding are you seeking?	2.10	£9,763.00	
<p>What will this grant be used for?</p> <p>Please provide a breakdown of the costs to be incurred.</p> <p>(Please use a separate sheet if required)</p>	<p>2.3</p> <p>2.9</p>	<p>Lunch & After School clubs. The project will use extra-curricular sports clubs as a tool to engage primary and secondary aged children into a safe, fun and professional environment. Classes will be delivered by professional coaches and will allow the children to engage in free sports. If the funding is successful, the money will provide the opportunity to increase participation by approximately 15,000 attendances. Provide employment opportunities</p> <p>It will provide young people and secondary pupils the opportunity to train, coach or volunteer in a structured pathway, whilst developing an essential skill set for further education. It will provide employment opportunities, promote better health and wellbeing and engages hard to reach groups including young girls and women. The project will be delivered in the following schools; East Fulton Woodlands Our Lady of Peace, Linwood High, Clippens School (new Riverbrae), St Annes, St John Bosco, Bargarren and Rashielea. This will bring an extra 32 clubs to the community over a period of 24 weeks of the school term. Accessible and Affordable Sports clubs</p>	

		<p>Costs of sports clubs and transport are known to be barriers to participation for many children and young people. This funding will enable free, additional sport sessions to be provided in schools most in need within Linwood and Erskine. These will be during lunch time and after school. This will remove the participation barriers providing the opportunity for maximum attendance and promote a healthier engaged community. Employment opportunities</p> <p>Lack of employment opportunities- pupils in the high schools can access UKCC coach education, potential future employment with Renfrewshire Leisure (RL) and be utilised to volunteer and eventually coach at clubs & community classes in and around their schools. As highlighted in Scottish Index of Multiple Deprivation (SIMD) the Renfrewshire area particularly Linwood are in the top most deprived for employment in Scotland. School Clubs. More children and young people engaged in sport and a reduced drop out level between the transitions from primary to high school. By having the confidence and familiarity with the programme participants will be more likely to engage in sports clubs which can avoid increasing dropout rates shown in national statistics. We aim to improve physical wellbeing of the participants, install a sense of achievement and a higher sense of self confidence. Overall improve the health and wellbeing of participants involved as we strive to break down the barriers created by poverty. RL will provide first aid and child protection and look to support any further training needs of coaches and volunteers. Those involved can build on coaching skills, personal qualities, team work and transferable skills into other sports and potential employment. They will be able to plan and lead sessions, create safe controlled environments and complete risk assessments that are key employment skills in many trades. School club links will be developed to encourage a pathway into the young person's preferred sport within local, accessible facilities. More young people engaged in sport and physical activity. A change of perception of sport as we create positive image and strong role models in both the participants and deliverers. The young people have a chance to become the future volunteers and coaches. We aim to create a sustainable project that can continue to grow in Renfrewshire based on the success of the current programme and the pathway implemented. We aim to provide access to sport that can be somewhat expensive as this is a major barrier in such areas with families on low income or in deprivation. A sports project that the community and participants are proud to celebrate its successes in at local awards evenings, school assemblies, national awards and the local press, with young people at the forefront of the sport.</p>

What does your Organisation/Group do?	1.10	As a Community Council, our work is broad and varied however the main aim is to Representative the wants and needs of the community at all levels including communicating with the council on all matters relevant to the community. We aim to stem the flow of community spirit decline and the increase of youth disorder, vandalism and graffiti that is beginning to blight the town. We want to bring about a sense of community and civic pride by bringing numerous community groups together and bringing our town in line with our neighbours by having colourful floral displays across the summer and light displays across the festive periods.	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Houston, Crosslee, Linwood, Riverside & Erskine</p> <p>LAC Applying to: Houston, Crossless, Linwood, Riverside and ERSKINE</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>To bring about some colour, culture and civic pride to a large town in Renfrewshire who thus far has Zero Christmas lighting input from Renfrewshire Council or any other external body. Give some well needed lighting instalments to the community to invest in the well being of the residents and bring the town in line with many of our surrounding neighbours. We see this as a multi level opportunity in that we aim to bring numerous bodies of the community together with this project. Following the town Charrette carried out last year there was a wealth of input from the local community, we witnessed the needs and wants of the community and it highlighted a lot of gaps we have in the town. There is an ever increasing issue with youth disorder within the town that is running at a higher level than expected and in comparison to the other areas Police Scotland have similar issues with. It was recognised there is a lack of civic pride in Erskine, littering and graffiti along with anti social behaviour is all on the rise. Renfrewshire Council has recognised this as an issue in Paisley, Renfrew and Johnstone like wise to the planting, they are the three most lit up areas in the Council boundary, upon speaking with the Council it was discussed that the illumination of these towns was deemed to have a positive effect on the youth growing</p>	

		up in the areas and that it installed some, perhaps sub conscious pride in "their town". All in all it was identified as something lacking in the town, something that will have a positive affect across the entire demographic. This project will brighten up the town around the festive period, it will bring the town in line with other communities in the council district and help in the bringing about of some civic pride and community spirit, it is well documented the benefits of a town working well as a community and having some festive cheer around the town will have a knock on effect across the neighbouring communities. We hope to work with the council for the installation of the electrical infrastructure ie the fitments and fittings and coming to an already discussed agreement on annual erection and storage. As mentioned already, we aim to brighten the town up, introduce a level of identity and pride in the community. The project will also have a role in encouraging the empowerment of the community along with creating a safer, stronger Renfrewshire.			
What is your group’s current bank balance?	1.14	7,122.96			
Are there any significant items of expenditure to be set against this bank balance?	1.14	Yes £4000 from LAC grant last year for Christmas lights, following discussion with the council and lighting providers it was decided to retain this money and add to monies secured this year in a bid to be able to buy in a larger bulk resulting in more light decorations at a far better price. Remaining £3122.96 is accumulation of the council administration grant which comes with set spending limits following the community council constitution.

We see this as a multi level opportunity in that we aim to bring numerous bodies of the community together with this project. We have welcomed the help, support and knowledge of our local community allotments; we are sourcing sponsorship by means of financial or practical help from many local businesses. We look forward to welcoming along nursery and school groups who have requested the opportunity to have the children take part in the planting and maintenance of the planters within the town centre. This alone has numerous civic advantages. We have already started on bringing these groups together and have a strong interest across the board, we will continue to work with these groups, branching out to disabled and disadvantaged groups to engage in something worthwhile and satisfying. As mentioned already, we aim to brighten the town up, introduce a level of identity and pride in the community. Bring businesses and community groups together along with schools and nurseries for a mixture of fun and learning with endless opportunities to be nurtured from such a humble start. What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	The project aims to dispel the myths surrounding suicide, as well as reducing the stigma attached. It also aims to promote help-seeking behaviours by raising awareness of sources of support and invites the community along to remember those they have lost, and to celebrate the lives of those who have taken their life. Ferguslie Park remains one of the most deprived area in Scotland. High levels of deprivation increase the risk of suicide in communities and deaths by suicide are considerably more within these communities. In 2012, local Ferguslie man, Paul Cardona, asked to work with the local support group, Survivor's of Bereavement by Suicide, to organise a 5-a-side Memorial Football Tournament. The football tournament acts as a medium to transmit information about suicide and the help-seeking resources available locally and nationally. It will also stimulate conversation around suicide, reducing the stigma attached. It invites services into the community, breaking down barriers to seeking help in a particularly hard to reach community. The main benefit will be that people are more informed about where to go if they or someone they know are feeling suicidal. Outcomes - conversations about suicide that help to reduce stigma, an awareness of the local/national help seeking resources available and people feeling more informed about the best way in which to access, helping to reduce barriers for people at risk, to remember those lost to suicide, people who have been bereaved by suicide will be supported as they will be made aware and invited along to the local support group, the community will feel better equip to signpost a person at risk

Address/based	1.3	23 Birchwood Drive, Paisley, PA2 9NE	
What does your Organisation/Group do?	1.10	<p>To promote, foster and encourage participation in ice hockey at junior level. To provide the opportunity for as many youngsters as possible (7 to 17 years of age) to participate in our sport through our "Learn to Play" initiative. The club has an open membership for children aged 7 to 17. To carry out the hiring of 2 practice sessions weekly (without placing too much extra financial burden on the participants to allow as many as would wish to take part in the sport). This is non-competitive but allows the children to learn techniques and drills, to learn the discipline of team sport, be very active and have fun whilst improving social skills, team building skills, confidence, health and wellbeing and increasing fitness levels. To ensure a duty of care to all members and to provide all services in a way that is fair to everyone whilst promoting equal opportunities for all, with anti- racism and anti- discrimination underpinning and informing our aims.</p>	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to: Houston, Crosslee, Linwood, Riverside & Erskine Johnstone & Villages, Renfrew and Gallowhill, Paisley North, Paisley South</p>	
How much grant funding are you seeking?	2.10	£3,445.00	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>To be in a position to continue to offer junior ice hockey training to all who wish to participate, at an affordable cost which makes the club available to anyone who wishes to join. Our players range in age from 7 to 17, with both boys and girls, of different social backgrounds and nationalities, taking part. They learn the skills and drills of the game in an atmosphere of fun combined with the discipline a team sport offers. It's a great way too, to keep fit and active and make lots of new friends. We will provide the opportunity for as many youngsters as possible (7 to 17 years of age) to participate in our sport through our "Learn to Play" initiative. Grant funding would ensure that participation remains affordable to all, whilst providing sufficient ice time to allow our players to progress their skills, partake in twice weekly physical activity and have a positive, healthy focus. We will also develop coaches, some of whom are older players. This season's dramatic and unexpected rise in hire costs (from £180 to £191 per hour) plus a new security charge of £75 per hour, has increased our ice costs to £265 per hour - a rise of 46%. We understand that security is a necessity in this day and age, however the increased costs have placed an added financial burden on our players' parents. We have been supported by grant funding</p>	

		<p>from Renfrewshire Council for a number of years, with our applications reducing in amount year on year. This latest increase, though, could threaten the future of what is a very successful club and funding, along with already instituted higher fees (up by 40%) and continued fundraising, would help secure Renfrewshire's only junior ice hockey club its continuation. We will provide the opportunity for as many youngsters as possible to participate in our sport through our "Learn to Play" initiative.</p> <p>Grant funding would ensure that participation remains affordable to all, whilst providing sufficient ice time to allow our players to progress their skills, partake in twice weekly physical activity and have a positive, healthy focus. We will also develop coaches, some of whom are older players, who also enjoy the social participation and physical activity. The funding from this LAC application will also enable the club to meet the cost of on ice equipment, stationery such as provision of newsletters, registration and medical forms, etc., and the provision of annual awards which is essential to the motivation and recognition of the young people's efforts and sportsmanship during the season. Involvement in team sport brings great benefits to those involved – encouraging a healthy and active lifestyle, increasing confidence and self esteem, encouraging team work, making like-minded friends and, of course, having fun! There are opportunities to play ice hockey, competitively and recreationally, from age 7 to 70+ and many of the original intake at the Lagoon in 1992 are still regularly playing/coaching and will continue to do so well into older age, keeping fit in body and mind.</p> <p>At present we have boys in training who are playing with the Scotland and GB squads. We have female players in Scotland Ladies, travelling to Czech this year, progressing their hockey skills and broadening their outlook!</p>

We are looking for group tracksuits. At present we have plain T shirts and everyone wears their own tracksuit trousers but as our group are a Team it would be beneficial to morale for everyone to be the same. We encourage fair play, celebrate success and acceptance that we have done our best even when we do not succeed. We encourage the team to be a collective who strive for the team. All the adults have a learning disability and many have associated difficulties such as mental health, autism, epilepsy, and sensory and physical disabilities, which make it difficult for them to access mainstream activities. The team building and personal challenge aspects in being part of a sports team are particularly well received by the learning disabled. This is not a service provided at Milldale Centre within the remit of the Social Work Department. Each member of this group have their own challenges to face in daily lives and overcome various difficulties including mobility, communication and general health however this does not discourage our team. The team are supported by two dedicated staff members and led by our Red Star Special Olympics Athletics coach. As well as promoting teamwork and building self-esteem, these sessions promote co-ordination, communication, and confidence building skills. These activities have been thoroughly researched by Centre staff and are considered to be of great benefit to the learning disabled clients.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	To provide equipment on order for our guest speakers to demonstrate their presentations. The present IT equipment and projector are old and limited in capacity and flexibility, and do not fulfil up to date requirements for presentations. The need for upgrading was identified when some of our presenters were unable to demonstrate and display photographs/videos as part of their presentation talk. The new equipment will allow the group to invite a wider range of speakers with their up to date presentations. Compatibility and better flexibility with more up to date IT equipment.

(Please use a separate sheet if required)	2.3 2.9	<p>We are planning a number of events throughout Renfrewshire. The events will be such as to encourage participation in physical activity, and to inform on world events such as Fairtrade. As a precursor to these events we will be hoping to attract new members to share in the values of The Boys' Brigade and provide them with an opportunity to attend local regular clubs as a diversion to anti-social behaviour. Renfrewshire residents in each LAC - Paisley South 205, Paisley North 119, Houston Bishopton Erskine and Inchinnan 223, Johnstone, Kilbarchan, Elderslie and Bridge of Weir 259, Renfrew and Gallowhill 81, Total 887. Over many years we have been organising events to encourage more participation in these various events which we hope will be in line with Renfrewshire Councils Community Plan. Wealthier and fairer by holding events that will attract visitors and create business for local businesses. Healthier -</p> <p>The activities will promote being active and healthier safer and stronger. From a young age our boys and young men will learn that they are responsible for their own actions and preparation for the various events. All of our events are based around developing young people to be the best that they can be, mentally, physically and encourage their concerns for others. All our events will be organised by our activities committees which cover the whole age range of the Battalion from Primary one through to 18 years of age. We hold 23 events which cover the wide age range. These events will involve sport, physical activities, arts and crafts and fun days for junior boys. Over the session we will expect an attendance of around 1000 Boys' Brigade members which will hopefully attract new members through family and friends. All these events require the support and input of</p>	

		<p>leaders and volunteers to organise and run these events in addition to their normal weekly involvement in their individual companies. it is our aim that many boys will participate in our arranged events which include progressive training throughout the age range. We hope to see improvements in the various disciplines that our events cover. We hope that together our programme of events will be a positive influence and will prepare our young people for and sustain them in future life.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>To provide part funding with regard to hiring ice to permit the above activities to take place at Braehead Arena, the only available and suitable facility within a 30 mile radius of Paisley. That part of the funding not included within this application will be met from club funds. Paisley Pirates formerly played and practised at the Lagoon Leisure Centre until 2006. However, at that time Renfrewshire Leisure Ltd ended ice based activities at that venue, obliging the club (and, indeed, other ice related groups) to seek alternative accommodation, the only suitable venue locally being Braehead Arena. Other groups have either disbanded or moved significant distances away from Renfrewshire (eg Ice Hockey Junior Development, allowing junior players to develop to an appropriate playing level, has disbanded, whereas some skating activities have re-located to venues such as East Kilbride. Some centres are unsuitable for ice hockey because of the topography of these rinks (eg non-symmetrical shape, boards of insufficient height around the skating surface), and thus Braehead Arena is the only local venue available. Current operating costs at that venue are the most expensive in Scotland, being approximately £740 per home game and £400 per week for training, approximately £200 per hour, compared with, for example, the Galleon Centre in Kilmaronock where the hourly charge is of the order of £125 per hour. The Pirates coach and management have there for continued the development of young players through training and playing in matches and have gained a reputation for bringing through younger talent to a high standard, the most recent illustration being the selection of Dean Hamilton to play for the Scotland under 19 team. It will enable:</p> <p>1 the club to continue providing a local focus for the sport, given</p>	

		<p>that no other suitable venue is available locally.</p> <p>2 the continued development of on ice skills</p> <p>3 the continued development of off-ice skills (eg, adults with learning difficulties carry out tasks on match nights requiring numeracy, interpersonal skills, and organisational skills. To promote the group to people in recovery from addiction or poor mental health who may not know of Paisley Guitar Group or who may feel uncomfortable coming through the door for the first time. A number of people had identified an interest in guitar however the cost of one to one lessons meant they could not participate. Guitar had been identified as a possible diversionary behaviour as some in recovery had expressed they had an interest in guitar. A group of people within recovery services who had identified guitar as an interest where put together and advised they could support each other through their common interest by forming and constituting a group and delivering guitar for beginners intermediate and advanced which was reflective of the skills of those identifying an interest. The group has been meeting for 2yrs offering guitar which was initialled supported by Awards for all for equipment. The group has taken 2yrs to develop as a group (as no one had ever done anything like it before and has been a learning curve for all involved). The group have now identified that there are a number of people who are stumbling across the guitar group and a number that say they wanted to come in for a long time but were fearful of coming for the first time as they had never held a guitar before. (Please use a separate sheet if required)	2.3 2.9	<p>The purpose of the project is to study the practice of orchestral music, in order to foster public knowledge and appreciation of the same by means of public performance. It was recognised that people who learned orchestral instruments during school should be given the opportunity to continue to develop their skill. The general public in Renfrewshire should have the opportunity to hear orchestral performances in Renfrewshire. This is the only Orchestra in Renfrewshire other than school groups. It will give the opportunity for musicians to develop skills in performing the orchestral repertoire. It will give the citizens of Renfrewshire the opportunity to hear the live performance of orchestral works in Renfrewshire. The orchestra has recently given performances both in Paisley and Johnstone. Lack of suitable accommodation has meant that we have been unable to perform in other towns in Renfrewshire. We are the only adult Orchestra regularly performing in Renfrewshire. The anticipated outcome is the opportunity for musicians to play the orchestral repertoire and work with professional soloists. It allows any students from the Renfrewshire Council Music Services who wish to continue playing the opportunity to do so. It gives the public in Renfrewshire the chance to hear live performances of orchestral works. What does your Organisation/Group do?	1.10	Rainbow Turtle works in various ways to enhance the profile of Fair trade in Renfrewshire by * campaigning and education e.g. talks, workshops and activities in schools, * organising special events e.g. in Fairtrade Fortnight, * working in partnership with producers in the developing world and directly supporting some producers, * working with others to lobby for change in world trade to benefit small scale producers, * providing a market for fairly traded goods through our shop, stalls, + online	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	Geographical Area: Renfrewshire Wide LAC Applying to: All	
How much grant funding are you seeking?	2.10	£7,500.00	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	Building on the achievements of 2016-17 to create more informed and active global citizens, particularly from the school age population in Renfrewshire, concerning Fair trade and its impact, including involvement in the local Common Threads project (connecting Paisley's weaving and textile history with that of the modern day clothing industries in the developing world and poverty both local and global). We intend to capitalise on our successful Producer visit from Peru in February 2017 with its well attended Primary and Secondary schools workshops (and our Ghanaian visit in October) and to strengthen links with Paisley 2021, working collaboratively with Create Paisley, LEAP and other local organisations involved in sustainability and social justice issues. In addition, we are committed to building on our links with refugee and asylum-seeker groups to highlight further the issues which connect us; e.g. linking our demand for technology to mines and forced labour in the Congo, to those people seeking refuge here. Thanks to LAC funding and our own resources, our Education Officer works 3 days a week and demand continues to be high from schools to provide regular input on Global Citizenship. We were fully booked by schools for both our Producer visit Workshop day in Paisley in February 2017 and for school-based workshops in Fairtrade Fortnight 2017. Our membership of the IDEAS network	

		<p>(International Development Education Association for Scotland) has increased awareness of what we can offer and helped us to forge strong links with organisations concerned with issues of justice, throughout Scotland. Our links with Traidcraft assist us in bringing producers to Renfrewshire which benefits our schools. Our specific aims are* to meet increased demand host 3 school conferences during the year, enabling pupils to actively engage with issues of social justice, Global Citizenship and Fair Trade. * to host and facilitate at least one producer visit, combining with one of the above. * to collaborate with local organisations in producing an Education programme around the issues above (social justice, poverty, trade etc) to be used in secondary schools and community groups working with young people in particular, enabling them to take what they've learnt in to their communities * to host at least one film screening and community symposium, discussing issues of social justice and poverty in a local and global context through collaborative work with other organisations * to use our experience, creativity and expertise to support Paisley's City of Culture bid * to develop further our working links with Create Paisley, LEAP and local refugee/asylum-seeker groups. * to continue to develop our social media presence (eg Podcasts, Twitter etc) to reach a wider audience and help boost Renfrewshire's status as a Fairtrade Zone * to build on what has been achieved so far by staff and volunteers * to reach out proactively to the business and Higher Education sectors, particularly UWS. * increased collaboration with Renfrewshire Council and other local organisations, in particular Paisley 2021 * production of Education programme as above which will increase community cohesion, understanding of global issues within a local context * engagement of more schools and community groups with Fair Trade issues local and global * research and development of a Global Citizenship and Fair Trade programme/package for Higher Education * involvement of more individuals and local organisations in Fair Trade * higher social media presence and response * deepening impact of our current engagement and a greater understanding of the connections between the various issues.</p>

What does your Organisation/Group do?	1.10	To promote responsible dog ownership within the community. This includes animal safety, hygiene, discipline and health. For both the handlers and dogs it improves stamina and well being. We help dogs and owners improve their position in present society at a time when irresponsible dog ownership causes major problems. The club meets in an outdoor venue throughout the full year. The shared activities bring about an increased level of fitness in both handlers and dogs.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	Maintenance and improvement of training facilities. Dog Agility is a physically demanding sport and in poorly maintained grounds the risk of injury is greatly increased. We also seek to provide toilet facilities as none are presently available on site. We have considered options to allow us to undertake the maintenance ourselves but due to the size of the grounds we are not currently able to do so and the club pays for landscaping to maintain the training facilities. This maintenance is essential not only aesthetically but primarily ensures the safety and wellbeing of our members both human and canine. We are aware that members have to leave training and travel to the nearest public bathrooms; this involves driving to the closest toilet. Identify an appropriate ride on lawnmower and single portable toilet, then undertake cost comparison with various providers to determine most cost effective in terms of initial purchase cost and ongoing maintenance fees if appropriate. By purchasing a ride on lawnmower the club would be in a position to undertake the grounds maintenance themselves thus reducing annual outlay with no reduction in the standard of upkeep of the training facility. On-site toilet facilities would remove the need to drive to public toilet facilities.

What does your Organisation/Group do?	1.10	Renfrewshire Youth Voice is a non-partisan organisation that ensures young peoples views are heard on a local and national level. We promote young people in a positive light. Our members are aged between 12 and 25 and membership is open to any young person living in Renfrewshire. We organise and host the annual positive about youth awards, local campaigns and hosting events for local and national elections.

(Please use a separate sheet if required)	2.3 2.9	<p>The Positive About Youth Awards were designed to highlight young people's achievements which may go unnoticed, and to show the Renfrewshire community the positive work young people do on a daily basis. To enable young people to feel that their dedication (to whichever category they are nominated) is worthwhile and appreciated by the whole of Renfrewshire. To inspire the next generation to get involved in their community, using previous winners/runners-up as role models. It was felt that young people weren't given enough recognition for voluntary and community work that gave a direct benefit to their peers and local area. The awards have been run by RYV for seven years, with the 2016 awards being one of our most successful ever, with 11 category winners and 10 runners-up. Nomination forms will be set out, collected and judged by a panel of RYV members. Films of the runners-up and winners will be made in advance of the event (EMMS). The evening will be a mixture of awards, speeches and music/entertainment, giving young people attending a fantastic experience in celebrating young people's achievements over the past year. Young people are given more recognition for their dedication, hard work and achievements. The community is also made aware of who these people are and the work they have done, in order to be nominated for a category.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>Dates-n-mates Renfrewshire is a friendship and dating agency run by and for adults with learning disabilities. The project helps hundreds of people that would otherwise be socially isolated and lack confidence and self-esteem in their everyday lives. It provides opportunities for people to connect, make friends and build meaningful relationships though hosting a regular calendar of social events in a safe, comfortable and inclusive environment thus improving overall health and well-being. With 26,000 adults with learning disabilities in Scotland, the Scottish Government's 10 Year Learning Disability Strategy 'The Keys to Life' states that improving the quality of life for people with learning disabilities is a priority. People with learning disabilities are more prone to abuse and more likely to be denied the opportunity to conduct their own lives, including forming and conducting relationships. The Learning Disability team in Renfrewshire Council support its development. Our recent dates-n-mates Renfrewshire evaluation evidences the significant, positive impact that the 16-17 LAC grant for outreach work has made to people with learning disabilities in Renfrewshire over the past 9 months since (Please see LAC Record of grant form attached for evidence and information). We will target many people of all ages in Renfrewshire that are isolated with learning disabilities and that are unaware of the project and potential benefits to them.</p>	

		<p>A resource to specifically focus on carrying out outreach work will help to identify these individuals and provide them the opportunity to connect and make friends and form meaningful relationships. Dedicated Outreach Workers (part-time) and awareness raising materials and activity will enable us to continue developing the outreach work, partnering with GPs, Housing Associations, Pharmacies, colleges, advocacy services, carers centres etc to achieve this. To compliment the work of social work, health and education services by reducing the formal statutory need to provide services for adults with learning disabilities by making more natural connections through dates-n-mates. To identify those that are most isolated and support them to access the dates-n-mates project to help reduce social isolation, improve their self-esteem, build confidence and improve the person's ability to be active citizens and improve their overall health and well-being.</p>

PACE Youth Theatre is already committed to keeping fees as low as possible to allow the maximum number of young people to benefit from the experiences and skills it provides. Our membership fees are already amongst the lowest of similar organisations, we also offer family discounts, and always endeavour to make individual arrangements with member's families who encounter difficulty in paying. However, as a charitable organisation with limited resources that relies on membership fees as a major source of income, there is a limit on what we can currently offer. We have been aware for some time that some people who may benefit, are dissuaded from even applying in the first place, due to their financial circumstances or socio-economic status. We will promote and administrate the PACE Youth Theatre Bursary Fund. This fund will offer a full experience of PACE including a full year's membership, two full weeks of school holiday performance project training, casting membership including a professional headshot and a PACE T-shirt. Parents of young people aged between 5 and 15, living in each LAC area, will be invited to submit a short application form to apply for the bursary along with evidence of their financial circumstances (e.g Employment and Support Allowance, Income Support, Incapacity Benefit etc). Initially we propose fifteen bursaries will be made available, three for each LAC area in</p>	

		Renfrewshire. We expect the individual young people to gain confidence, communication and self-expression skills which will help them realise their potential in their life and whatever future career they choose. We hope that after successfully piloting this project the Bursary Fund can be extended by donations from other businesses, individuals or organisations.

What does your Organisation/Group do?	1.10	Our central aim is to promote interest, participation and progression of young people's knowledge and skills in traditional Gaelic music & language in Renfrewshire. This is achieved through the planning & delivery of year-round traditional arts activities for young people aged 8-18, including an annual tuition festival structured to highlight the musical, cultural & educational objectives of the Feis.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>Following a hugely successful pilot programme of weekly lessons in 2016/17, we aim to expand our year-round programme of traditional music tuition for young people aged 8-18. Weekly contact time with some of Scotland's top traditional musicians will give participants the opportunity to develop their instrumental abilities. In addition by developing a pool of local traditional musicians we hope to establish a Feis youth band and ultimately a Ceilidh Trail that will tour nationally. We received a hugely positive response to our 2015 Fèis week which included feedback showing that 89% of participants would be interested in ongoing lessons. The top 4 choices for ongoing tuition were accordion, fiddle, guitar and singing. Our pilot programme of weekly lessons had 25 regular participants developing instrumental skills and performing at a number of public events throughout the year. We will run 37 music class sessions between Sep '17 and June '18 with lessons running from 10am-1pm on Saturday mornings. Participants will receive tuition appropriate to their age and ability, in streamed classes, ensuring maximum learning benefit & enjoyment. Local tutors will be employed at MU rates and we aim to attract 40 pupils to our weekly classes initially, building to 60 by June 2018. We are in discussions with UWS to host the project which will allow more young people from across Renfrewshire to participate with good transport links to and from the town. A year-round programme will offer 40-60 participants the opportunity to develop traditional music</p>	

		and social skills at an affordable cost as well as providing employment for 4 local tutors. End of term showcase concerts will bring together the community to celebrate the achievements of our students. We also aim to develop a youth band and, by 2019, a Ceilidh Trail which will promote live traditional music in the community and add significantly to the local and national cultural calendar.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>This would be YEAR 10 of the project and the grant would complement and enhance the previous nine successful coaching projects. This year we aim to work harmoniously with the Renfrewshire Sports Services, supporting their festivals and other events while filling any gaps in coaching provision. In conjunction with the Active Schools Programme, it would continue to promote good behaviour and a positive image of young people while giving them opportunities to have active involvement in their communities. In 2005-06, the project offered many Renfrewshire pupils an opportunity to play a different sport, indoors in a safe and warm environment. There is a strong 'Football Culture' in this country and it was an excellent alternative to our national sport. The previous 9 years of Basketball successfully being promoted in Renfrewshire and securing LAC grants has seen more than 30 local Primary Schools involved in the initiative which is totally inclusive. This project will: - Involve pupils in a structured, high energy and enjoyable activity, provide opportunity to become a member of a Community Club and further develop as a young person.-Increase wellbeing of young people to ensure that they are safe, fit and healthy. -Provide opportunities to improve fitness and performance. -Continue to be a vital diversionary activity to reduce anti-social behaviour, disorder and crime. This will be completed through supporting Renfrewshire Sports Services activity and 3 Rounds of Coaching in Primary Schools.</p>	

		In comparison to the previous 9 years of the Project, the anticipated outcomes are; More pupils participating. More pupils with additional support needs involved in Programme. More pupils becoming members of a community based Club. Increase parental involvement. Improve attendance and behaviour at school. Improved pathways between Active Schools and Community Clubs

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>We have identified a building to create Renfrewshire's first Digital Maker Space, a DIY environment where young people can gather to create, invent and learn using digital technology as a tool to address a community issue or mini project, thus creating a solution in line with STEM subjects. Workshops and sessions will include robotics, learning to code, develop phone apps, design video games and build PC's etc. Maker Space Paisley will operate Monday to Wednesday from 1-4pm for p4-S6 school pupils and young people aged 16 to 24 who are not in education, employment or training. Then from 5-8pm same days for children and young people in planned/focused maker space activity for 40 weeks. We held three focus group activities with 38 school pupils from three local high schools, St Andrews, Paisley Grammar and Mary Russell School who attend our weekly code or drop in youth clubs. During focus group sessions, youth workers discuss with young people what they identified as their digital needs based on their current understanding of STEM activity, what they feel was relevant and not being met in terms of closing the digital literacy skills gap within after school activity and what are the identified resources to make it happen. Then 11 young people who participated in the above research then formed a youth lead working group that created the Maker Space Paisley concept. In week one we record a base line of current digital skills and self-learning that young people has undertaken to date. This is used throughout the 10 weeks as an ongoing evaluation to monitor the young people's digital learning journey. The programme is devised in such a way that regardless of skill level in week one we support the young people to produce a tangible product or outcome by</p>	

		<p>week 10 i.e. create a mobile app, shoot a 360 video or build a website. Young people will be mentored and supported to take on project management roles, problem solve, set goals and work as a team, through a learn by doing approach. Maker Space Paisley will improve young peoples digital literacy skills, further develop their problem solving and cognitive thinking abilities, learn to use analytical approach's and support young people to communicate their ideas more effectively using a range of digital platforms. Young people are positively empowered, as its young people that identify what the project will be, its young people who are the main drivers and decision maker to develop what the solution will be and how to implement it digital. Young people gain increased confidence using digital technology in intuitive ways that makes sense to them thus developing the knowledge to use technology as a problem-solving tool.</p>

What does your Organisation/Group do?	1.10	We work collaboratively with children, young people, older people and communities to achieve our aims. Predominantly, but not exclusively with vulnerable groups. Want Renfrewshire to be a place where all children have the self-confidence and resilience to pursue their ambitions and realise their potential, through a positive mindset, health and wellbeing through our workshops with innovation, enterprise and creativity alongside outstanding delivery. Through sound management and a strong ethos of partnership to tackle society's big issues.

How much grant funding are you seeking?	2.10	£3,915.60 from each 5 LACs	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	We propose to deliver workshops on criminal justice and mental health agendas to help young people on a Personal and Social Education progressive pathway into further education or employment. We would like to provide a summer programme that shall be offered free to all young people who would benefit from such an opportunity. Offer drugs and alcohol awareness training, Hate crime awareness, Respect me anti bullying training. Building up resilience. This includes highlighting dangers, recognising risky behaviour and how best to handle misuse. We shall offer interactive sessions in PSE classes and include Dj skills with in house certification and within other appropriate settings like confidence building camping activities. We also offer Saltire awards and Dynamic youth awards. Young people and professionals interviewed for the recent national Media reports, Young minds report and CAHMS stated that waiting lists are still too long for young people to access mental health services which meant young people often self-medicated with drugs and alcohol, exacerbating their mental ill health and offending behaviour. We are on a mission to improve the mental health and wellbeing of young people, Renfrewshire wide. Currently our Young People work accounts for over 80% of the work we deliver and while education and employability is a key focus,	

		<p>Mental health is one of the most talked about issues we encounter when working with young people during workshops and our certificated courses and mental health issues are rapidly on the rise. Renfrewshire Youth assembly in November 2016 and Renfrewshire Youth Commission just recently found this week. Rigid criteria for mental health services meant young people had to be severely ill before they could access any support, and if they did get help it was usually in the form of medication. With a 6 week counselling service with CAHMS However, following prescription, young people often went long periods of time with no review or ongoing support. In the rare occasions where intervention extends beyond medication, professionals had little time for young people and a high turnover of staff meant a lack of staff continuity made it difficult for the young person to establish rapport or trust. We have also recently been requested by our young people to deliver on criminal justice and drug and alcohol agendas due to these being regularly used as coping mechanisms. We have offices with facilities in Paisley to deliver Comedy and mental health workshops and DJ workshops or for larger groups in one locality we can hire their local community halls. We have priced the DJ equipment required and camping equipment for 10 young people that they can borrow in order to allow the group all to feel included the same in equity as well as in unity, whatever their financial circumstances. We plan to cover Renfrewshire wide have DJ workshops for 10 Young people for 4 days over the Summer holidays and have outdoor DJ music events, promoting Drug and alcohol awareness. We plan to hold an open day in our centre in March/April to promote this and are already working closely with Barnardos, Kibble, Victim support, UWS and all Secondary schools in Renfrewshire. Our summer workshops shall provide an opportunity for young people to make friends, support each other, learn new skills in positive coping mechanisms and grow in confidence that they're not alone in improved communication/social skills, learn how best to support each other and find out more about self manage techniques discover themselves and their strengths, helping them to make informed decisions about their lives and feeling more in control specific positive improvements with focus on physical and mental health through Comedy, music technology and outdoor confidence building activities with graded certification for achievements. Developing further on their skills for learning, life and work with an improved outlook and better life chances.</p>

The purpose of this project is to encourage youngsters to speak about their feelings through play and education where the youngsters are taught about illegal/and legal drug taking (good and bad drugs). Additionally the education aims are around healthy eating, keeping themselves safe. The need for the project was identified due to grandparent carer feeling unsure how to explain to the children they are caring for about why they can't stay at home. Grandparents didn't feel they had the proper tools or skills to explain about illegal and legal substances. Additionally the role of social work and police (Authorities). We will offer education through play around drink and drugs. Healthy eating and mindfulness sessions. The grant will develop the mindfulness programme along with fitness, healthy eating and education around substance misuse teaching families that recovery is possible in any addition and teaching young adults they can break the cycle by healthy life choices. We already work closely with carer centres, families outside and out place Our Families and Renfrewshire support group. The anticipated outcomes. The initial need for this initiative was identified during discussions involving all of the Renfrewshire Sports Partnership stakeholders which in turn led to the publication of the Renfrewshire Sports Strategy. The pilot community games event will plan and deliver a community games event within Renfrewshire during the late summer / early autumn of 2017. The event will seek to engage clubs from all of the sports operating within Renfrewshire and this will be advertised widely once the venue and date are confirmed. Active participation from all seven of the Sports Strategy partners will be encouraged from the inception of the event through to its delivery and subsequent evaluation. RSN will act as event organiser and will convene meetings with each of the interested parties in early summer to commence the planning process. The District has 13 groups around Renfrewshire that have their own identity. The District is led by a management team of volunteers. All members also assist with local groups and will have purchased uniforms at their own cost. The District want to have their own neckerchief, t-shirts and hoodies for volunteers in their own brand. Scouting is growing with Renfrewshire - 2016 we grew 14% and this year we have grown a further 8%. We want to ensure that Scouting reaches every corner of Renfrewshire and that young people have the opportunity to join. To do this, we need to have an identity that YP/non scouting families can see us in. The brand is important. 3 members of the team are our youth commissioners - under 25. We would prefer that they do not incur the cost of additional uniform. UK Scouting is becoming more of a youth led organisation. With young people leading the way at our events, there will be a clear visibility of our profile and therefore encourage more young people to come forward and benefit from Scouting. There is a District programme of events and our team will be present talking to and engaging with the young people. An increase in the number of young people and adults enjoying Scouting. The profile in the Community enhanced. More fun and adventure for all members.</p>

What does your Organisation/Group do?	1.10	<p>We are a community based music initiative for young people in Renfrewshire. Our purpose is to give young potential musicians access to facilities, equipment and expertise, giving them a platform to play live music and providing them with the management skills to organise their own community based music events. We aim to help young people prepare for Further Education and make them more employable.</p>

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>This project aims to produce a musical called "The Bungalow" It is the story of a small bar in Paisley which became an important part in the history of music in the UK not only Paisley. The story has never been told before and this will be the first show of its kind documenting this small venue's rise to fame. It is innovative and will be nostalgic for those who went there and experienced it for themselves and will capture the imagination of those that didn't. For theatre goers and music lovers no matter what age they are. It is an amazing story punctuated with music that is timeless and also takes a look at what was going on in Paisley in the late 70's and early 80's. It will be a platform for young people to tell the story of a time when Paisley welcomed the most influential bands and musicians to its doors. It is a nostalgic look back in history, a time of platform shoes, perms and big flares. On one hand, it is a musical but on the other it keeps a part of Paisley's history alive. The show will include young actors, dancers and musicians from various organisations within Renfrewshire. They will have the chance to show that with the right guidance and professional help that they can produce a show at the highest level. Loud n Proud has the reputation of producing creative and courageous high quality musicals performed by young people.</p> <p>We have staged 3 versions of "I Was There" a musical telling the story of the legendary Glasgow Apollo. It is the biggest show of its kind in the country. We have been asked constantly by our partners,</p>	

		<p>those who took part in the show or attended it to do something similar in Paisley. Renfrewshire Council Officers were also keen to stage something similar in Paisley too. In response to those suggestions some research has been carried out and the popular choice was a musical play telling the story of The Legendary Bungalow Bar. The Bungalow was a small bar at the bottom of Renfrew Road, Paisley. It came to the forefront of the Scottish live music scene during the late 70's and early 80's. It's difficult to imagine that a little pub in Paisley attracted such big names as The Fall, The Skids, The Tourists, Orange juice, Roddy Frame, Alan McGee, The Buzzcocks, Echo and the Bunnymen, The Alarm, Altered Images, Jam, The Teardrop Explodes, Chelsea and many more. It is a story that has become local folklore and put Paisley on the music map of Britain. John Dingwall of The Daily Record said: "For me, gigs by post-punk acts, such as the Associates and Psychedelic Furs, at Paisley's Bungalow Bar, easily rub shoulders with The Rolling Stones at the Stade de France in Paris or Macca in Mexico" The grant will fund a series of dance, music and drama training workshops and rehearsals to give young people the skills to take part in a new and exciting musical. In conjunction with the Performance Programme there will be classes in Technical and Management subjects such as Sound Engineering, Light Design, Stage Crew and Event Organisation. The show will be premiered at Paisley Town Hall. It is envisaged that the experience in working in such an ambitious professional level project will develop the participants skills and inspire the young people to pursue a career in the arts or enable them to take part in other similar activities. They will understand the benefits of being part of a group and the positive elements of volunteering. We can help up to 32 musicians, 25 actors, 30 singers and 20 dancers by giving them professional instruction that will raise their performance level and experience performing on a high-quality show. Young people will gain confidence, self-esteem and valuable transferable skills from a mix of workshops and a real "hands on" experience. Other volunteering opportunities will be available in particular Set Building, Video Production, Backstage, Front of House, Roadies, Sound Engineering, Light Engineering and General Production. Participation in the group activities that are involved will give young people an understanding of the value of teamwork. The project will:</p> <ol style="list-style-type: none"> 1. Increase participation in positive activity 2. Increase opportunities to develop interests and skills 3. Increase participant's skills and will have positive changes in behaviour. <p>The local community will be introduced to a piece of history that will educate them, make them proud and at the same time enjoy a fast paced, energetic show. It is envisaged that the show would be developed further to be part of Paisley2021.</p>

(Please use a separate sheet if required)	2.3 2.9	<p>This project idea is about organising community clean ups in the areas where we live, and to involve local people in that. To undertake this work and for future projects we are currently planning and chatting to communities about the area they live in and how we can support them to make the desired changes, that will not only improve their mental health but their local area. We require office and PR equipment, the members of our group all suffer from some form of mental health issues and this is about supporting them to get involved in an activity that offers them the chance get out and meet others in the same situation as them. An important part of this project is that we plan to work with local schools to get their pupils involved. This will link with their curriculum work on the environment, and the Green Flag programme. So providing an opportunity to learn in a different environment. Community clean ups are unfortunately something that need to be done every so often. We see locally how things such as rubbish and general waste can quite quickly pile up and for things to graffiti to appear. We know from talking to our members and the wider community that they feel this further blocks them from going out of the house, as they see declining neighbourhoods as threatening and unfriendly, at a time when they actually need to get out as part of their recovery journeys. Primary Schools all have pupil Eco committees. These are about the children recognising their impact on the school and wider environment, and how they can empower themselves to work to</p>	

		<p>improve how things look, and are saved for future generations. So we want to take that enthusiasm and move it out into the areas where they stay and play. So that as the next generation they realise how important it is that they take on the responsibility of keeping their communities safe and secure.</p> <p>To ensure we keep a record of all our work, before, during & after, and to also ensure we promote ourselves in the most effective way possible we require to be organised at a level where we can record and show a professional face to the groups we are looking to. We will arrange 3-4 community clean ups around the Gallowhill and Paisley South area of Paisley. These will take place over the course of 2 months weather dependent. Each clean up will last around 2 hours at the most.</p> <p>We will link with agencies already carrying out this type of work in Renfrewshire, so that we are fully supported in the details of running such a project. This will be for example training on using pickers, what to do if we come across very specific pieces of refuse, needles and how to bag different types of materials, so that they can be distinguished between landfill and recyclable. Communities more involved in their upkeep, ensuring a more welcoming and safe environment. More local people getting involved in volunteering opportunities. Building a more cohesive community by way of encouraging people to get involved in community action projects. Providing people with mental health issues the means to continue with their recovery journey. Our group more organised and more able to take on different projects. Ensuring that at all times we value ethnic equality and diversity through volunteering opportunities.</p>

The band consists of 14 pipers who have brought their own bagpipes and five drummers who are playing drums borrowed from Johnstone Pipe Band. There is a steady stream of learners who will join the band as their skills develop. The band competed in the 2017 Scottish Schools Championships winning their section. The band intends to compete in local competition over the summer, but they have no uniform or drums. The project is to help the management committee to meet start up costs and equip the band. The band is the product of a successful teaching programme and is the only youth pipe band in Renfrewshire. The project will allow the management committee to provide initial uniforms and equipment for the band. The main output is to provide those learning pipes and drums a sustainable pipe band that they can join. The band will be an excellent flagship organisation for Renfrewshire and in time will grow to be nationally recognised. Pupils will learn and develop lifelong skills through the band and will no doubt go onto join adult bands invigorating the local pipe band scene.</p>

(Please use a separate sheet if required)	2.3 2.9	<p>Johnstone Pipe band have been working in partnership with Renfrewshire Council and Creative Scotland for the past three years, developing a piping and drumming project to introduce new learners to these traditional instruments. The Scottish Schools Pipe Band Competition Trust have provided to match fund any awards to pay for piping tuition in schools. Currently, through Renfrewshire Councils Youth Music Initiative bid to Creative Scotland, we have £6000 in place for the 2016/17 school year, a £7000 grant from LAC's, the match funding brings this up to £26000. A £10000 award from the Local Area Committee's would attract an additional £10000 from SSPBT giving a total for the project of £32000 for 2016/2017. We are currently working in P6/7 classes in 10 primary schools and S1/2 classes in 4 high schools. Renfrewshire was identified as one of the few areas of Scotland where piping tuition was not available in schools. The project has been developed by Johnstone Pipe Band working in conjunction with instrumental music service, Creative Scotland, and the Scottish Schools Pipe band trust. The project will allow for the continuation of tuition of piping and drumming in P6/7 and in High Schools. In Dec 16, 38 pupils were successfully presented for SQA approved qualifications. For most pupils these qualifications will be the first entries on their SQA accounts. The project has proved to be very popular in schools and in March 2017 Renfrewshire Schools Pipe band was launched, the membership comprising of pupils taught through the project. The new band entered their first competition on 12/3/17 and won it. Over 100 pupils are currently being taught piping drumming. The main output</p>	

		is to teach pupils how to play bagpipes and to form and sustain a schools pipe band. Many of the pupils are now displaying greater levels of responsibility and self confidence.

What does your Organisation/Group do?	1.10	As a Cancer Support Group, we bring people together to support each other through their cancer journey. We do this by promoting the benefits of friendship and laughter to those whose lives have been affected by this raging disease, promoting improved Health and Wellbeing by encouraging members to participate in various activities including light exercise with a RL qualified instructor, crafts, theatre, outings and respite. We encourage people of all ages abilities and ethnic background, helping them build confidence and self-esteem.

What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	To help cancer sufferers improve and maintain their overall quality of life albeit. Physical Health, Mental Health & general wellbeing. We do this with the support network of friends who understand and share their experiences of the Cancer Journey, thus helping them to move on with their lives, with more mobility, motivation, friendship and a willingness to help others in a similar situation. WE encourage our members to look to the future more positively by taking part in light exercise, chatting over tea, crafts and companionship, thus alleviating loneliness and isolation. Listening to Cancer Patients explain what was out there to meet their needs during and after their treatment, although there is some good support, it was deemed due to financial constraints the support was only there for a limited period thus not meeting their long term needs which can lead to loneliness and isolation amongst other issues. The group was therefore setup in Elderslie which has proved very successful, and on assessment the exercise programme has been very beneficial as each individual is more active and the general wellbeing of the group has gone from strength to strength. In the last year we have also started up a new group in Paisley which is also proving very popular. We have also asked our members what they like doing and try to implement this where possible from these discussions and also	

		<p>talking with other network partners we have identified that we could possibly help the wider community of people if we had an evening group, this is something that could possibly be considered with a slightly different programme. Because we listen to our members overall needs this group is unique in that our programme will adapt to its members needs and is ongoing throughout the year. It's amazing to see the overall wellbeing of the group, through the various degrees of support that is now available within the group there is more social contact and friendship with people who have been through a similar journey as they can discuss various aspects of their illness with confidentiality, including financial difficulties experienced through the loss of income whilst going through treatment. We have recently started up a walking group which meets once a month for a short walk and new knowledge of the surrounding area, we now also have a Nutritionist and Psychotherapist on board and this is also proving to be very helpful with a positive health improvement. Improved health and wellbeing for those who are having or have had cancer treatment, overall improved family relationships, thus improving the overall quality of life for those affected by cancer. Aspiring individuals to try new things in life, or move on with their lives to whatever level they are happy with, and helping others in a similar situation. We have also been in discussions with one of the other cancer support groups and some of their members have express a willingness to join up with our newly developed walking group so this will bring more like minded people together.</p>

What does your Organisation/Group do?	1.10	<p>Youth Services is Renfrewshire Council's youth work team. It is part of Children's Services and comprises of Community Learning, Youth Information and Awards Development Officers. We deliver services in school and in communities across Renfrewshire. Our service aim is to improve outcomes for young people in Renfrewshire through youth work, youth information, empowerment activities and outdoor learning. Youth Services: 1. Promotes wider achievement through accredited and non-accredited awards. 2. Empowers young people to have a voice and make positive contributions to their community 3. Develop skills for learning, life and work 4. Promote health and wellbeing, 5. Give young people information on opportunities and help them to make good, informed choices.</p>	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to: All Local Area Committee</p>	
How much grant funding are you seeking?	2.10	£9,110.00	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	<p>This project will aim to support the development of a Youth Commission in Mental Health in local communities: training young people to be equipped as peer educators to promote positive, mental wellbeing in local communities across Renfrewshire and breakdown the stigma surrounding mental health issues. Provide opportunity to encourage community based activities exploring mental health involving young people and their families/carers. Stimulate solutions to combat concerns held by young people, families and workers, and to shine a light on sustaining positive well being. Young people will attend a summer training programme ahead of their delivery at the community events. Adult volunteers from local communities will be recruited and trained to support the Youth Commissioners in localities. In November 2016, Youth Services held its first Renfrewshire Youth Assembly in Paisley Town Hall. 300 young people from schools and youth organisations attended along with local councillors and service managers. At this event young people discussed 5 key themes which had been decided during a youth consultation in 2016: Jobs and Training,</p>	

		<p>Paisley 2021 Youth Culture, Health & Wellbeing: Mental Health, Social & Culture: Youth Hub and Having a Say: Youth Voice. The Youth Assembly voted to decide which issue that should be the focus for the Youth Commission. Mental Health was overwhelmingly voted as the focus for their campaign for this year. Youth Services has established a Youth Commission Partners Group to ensure a joined up approach to support Youth Commissioners for Mental Health who will help to deliver on the project. These partners include Active Communities, Create Paisley, Right to Dance, Renfrewshire Health Improvement Team, ACUMEN, EMMS, St. Andrews Academy and Choose Life. Deliver training to provide a legacy and sustainability to the project: understanding of mental health, introduction to mindfulness, youth work skills and positive mental wellbeing techniques. Support the Youth Commissioners to develop a social media campaign to help raise awareness of existing support services and on-line resources to encourage positive approaches. Organise outreach sessions for Youth Commissioners to engage young people in schools, colleges, universities and community groups, in the co-design of recommendations. Deliver a programme of community based events in 5 areas across Renfrewshire, leading to a celebration event bringing communities together to showcase good practice and projects. This event will launch the Youth Commission recommendations that young people have proposed. Renfrewshire Youth Commission will make recommendations that will impact directly on service and community responses to Mental Health: increased awareness of mental health issues and support available amongst young people and their supporters, better understanding of mental health issues and knowing how to respond to them, and the stigma attached to mental health issues being reduced. A united and consistent approach across Renfrewshire for delivery of support for young people suffering from mental health issues. A lasting legacy whereby communities will have an understanding of supporting agencies and resources available to help themselves and family / community members. accreditation through Saltire and Youth Achievement Awards</p>

What does your Organisation/Group do?	1.10	<p>Our vision is a society where mums and families are able to make informed decisions about breastfeeding, to access help when they need it and to become confident in their choices. For a new mum deciding how to feed her baby, talking to a mum who knows about breastfeeding can make a crucial difference and the Breastfeeding Network strives to be the best we can be at providing peer support.</p> <p>Our mission is to offer independent, evidence-based information and support to help build awareness of breastfeeding to individuals and organisations and to support a mum in her choice to breastfeed.</p>	
If your group covers more than one Local Area Committee (LAC) area, and you are applying to more than one LAC, please tell us which LACs you are applying to	1.13	<p>Geographical Area: Renfrewshire Wide</p> <p>LAC Applying to: We are a national charity and provide support daily over the whole of Renfrewshire</p>

<p>What will this grant be used for?</p> <p>Please provide a breakdown of the costs to be incurred.</p> <p>(Please use a separate sheet if required)</p>	<p>2.3</p> <p>2.9</p>	<p>To provide breastfeeding peer support and evidence based information to families in Renfrewshire, especially in areas of multiple deprivations. To ensure our existing volunteers can continue to provide up to date information, receive ongoing support and learning (supervision), and continue to develop their skills. We will train more local women to volunteer which will help us maintain our well established services in the area and ensure sustainability of the project. This will help us to improve knowledge and support within hard to reach groups and the community. Despite recommendations from the World Health Organisation, UNICEF and the Scottish Government, breastfeeding rates remain very low especially in deprived areas. Across Renfrewshire only 13.5% of babies are still exclusively breastfed at 6-8 weeks in these data zones. Babies who are not breastfed are more likely to suffer from chest, ear, gastrointestinal and urinary tract infections, and at higher risk of developing high blood pressure, obesity, diabetes, heart disease and some cancers in later life. Mothers who do not breastfeed are at higher risk of developing breast and ovarian cancers and osteoporosis in later life. Breastfeeding promotes bonding and attachment which can help alleviate symptoms of post natal depression. Because of low breastfeeding rates in this area</p>	

		<p>some mums can feel isolated and have no one to ask for support, offering peer support to these mums can help them feel part of a supportive community and help reduce isolation. We will continue to provide high quality breastfeeding peer support across Renfrewshire at our groups in Johnstone, Ferguslie and Linwood. We anticipate that at least 12 different families will come along to access support at the three groups each week. We will continue to collaborate with the Families First, Health Improvement and Health Visiting Teams. We will attend community events to help normalise breastfeeding, raise our profile and raise community awareness. We will train 12 women to provide peer support, and will continue their ongoing learning, provide supervision and insurance. This a nationally recognised qualification which increases their confidence and helps toward retraining and future employment. That we will be able to continue to support vulnerable local families with high quality support at our local groups which are a valuable community resource. The families we support will have increased knowledge and confidence about breastfeeding and have increased links to a supportive community. We aim to support 75 different families during the year at groups and community based events. That we can continue to support our dedicated existing volunteers and help them increase their knowledge and skills. We will promote our work within Renfrewshire & become more widely known as a source of skilled support that is available every day via the National Breastfeeding Helpline, website and on social media. We will increase social capital, active volunteering, knowledge and skills within a new cohort of volunteers, sustaining the project as a whole.</p>

I am an affiliated Scottish Tourist Guides Association Yellow Badge Member and would like to put my knowledge and experience to good use.</p> <p>Too many people go about their daily business and don't know what is round about them, for instance they maybe walk along the High Street everyday and don't notice any of the wonderful building until they are pointed out to them and that is when they say "I have never noticed that before" and then they start asking questions about it. That is where I come in and answer all their questions and tell them the history. We have a great wealth of history in the whole of Renfrewshire waiting to be discovered by many locals and tourists alike and I want to share my knowledge with them all. Most people know of Paisley Abbey, The Museum & Art Galleries, Coats Memorial Church, the Observatory and the Thread Mills but we have so much</p>	

		<p>more out there that needs to be highlighted and with the themed tours it make it even more interesting and entertaining. We also feel we should be trying to help people out of isolation and get involved. I will go out there on my mobility scooter and take groups of all ages and abilities out on Guided Walking Tours to discover everything we have in the area and if for any reason they cannot manage a Walking Tour I will take my tours to them by presenting a PowerPoint presentation and slide show, whether it be a school, a community group or a nursing home. "No group too big no group too small I cater for all". The tours will encourage people to get out and about and help them to interact with other light minded people. The themed tours encourage people to get involved, interact and connect with each other. To encourage and get everyone involved and interested in their towns history and future. To get people out of isolation and join us on our tours. To show people with mobility issues that they too can come on the tours as the tours are assessable for everyone. To deliver Powerpoint presentations and slide shows to schools, community groups and care homes for the elderly and infirm. To make everyone proud of their town and surrounding area</p>

To: Houston, Crosslee, Linwood, Riverside & Erskine Local
On: Area Committee
 14 June 2017

Report by: Director of Finance & Resources

Heading: Timetable of LAC Meetings to December 2017

1. Summary

- 1.1 The Council at its meeting held on 14th February, 2008 agreed its scheme of decentralisation, which included reference to the cycle of local area committee (LAC) meetings as follows:

“10.1 Local area committees will meet at least on a quarterly basis. This will allow sufficient time for progress on action to be reported on local strategies and issues. Local area committees should meet in suitable local venues to enhance community participation.”

- 1.2 The Council's Standing Orders apply to LACs. Standing Order 53 allows the convener of a LAC to call a special meeting of that committee by notifying the Director of Finance & Resources. In these circumstances, special meetings require to be held within 14 days of the Director of Finance & Resources receiving the notification. This mechanism allows the convener to call a special meeting should any matters of particular urgency arise or if there is a general need for a meeting to consider matters such as outstanding grant applications.
- 1.3 Taking into consideration the ability of the convener to call special meetings if the need arises, it is suggested that meetings of this LAC be programmed on the basis of a quarterly cycle, with meetings being held on 30 August and 29 November 2017.
- 1.4 Members are also invited to consider the time of Johnstone & the Villages Local Area Committee meetings. In the past, meetings of this LAC have been scheduled for 6.00 p.m.

- 1.5 The choice of venues for local area committee meetings is limited as a result of practical considerations such as size and accessibility.

2. Recommendations

- 2.1 That meetings of this local area committee be programmed for 30 August and 29 November 2017; and
- 2.2 That consideration be given to the time and venue of local area committee meetings.
