	4. NHS Greater Glasgow & Clyde and Renfrewshire Council	

1. Summary

- 1.1. Renfrewshire Alcohol and Drug Partnership (ADP) has key responsibility for implementing the National Policy Frameworks and driving forward local action to reduce the impact of alcohol and drugs.
- 1.2. This survey demonstrates some of the work undertaken by Renfrewshire ADP focused on a range of key priority areas which relate to the delivery of the National Mission Action Plan during 2022/23.
- 1.3. The survey is composed of single option and multiple-choice questions designed by the Scottish Government to allow consistent recording and analysis by all ADPs nationally.
-

2. Recommendations

It is recommended that the IJB:

- Note the contents of the survey (as attached in Appendix 1)
 - Approves the ADP Annual Reporting Survey, 2022/23
-

3. Background

- 3.1. The ADP is tasked with the delivery of the Scottish Government's National Mission Outcomes Framework and is required to complete and

submit an annual survey based on a template developed by the Scottish Government (detailed in Appendix 1).

- 3.2. The survey is designed to capture a range of actions which relate to the National Mission key priority areas:-
- Prevention, Early Intervention and Education
 - Treatment, Care and Recovery
 - Whole Family Approach
 - Public Health Approach to Justice
 - Reducing Alcohol Harms
- 3.3 The data collected will be used to identify any potential gaps at a local level and the findings will help monitor the impact of the National Mission Action Plan.
- 3.4 The Annual Survey was completed in conjunction with all relevant partners and approved by the ADP in June 2023.

Alcohol and Drug Partnership (ADP) Annual Reporting Survey: 2022/23

This survey is designed to collect information from all ADPs across Scotland on a range of aspects relating to the delivery of the National Mission **during the financial year 2022/23**. This will not reflect the totality of your work but will cover those areas where you do not already report progress nationally through other means.

The survey is primarily composed of single option and multiple-choice questions, but we want to emphasise that the options provided are for ease of completion and it is not expected that every ADP will have all of these in place. We have also included open text questions where you can share more detail.

We do not expect you to go out to services in order to respond to questions relating to activities undertaken by them in your area. Where questions refer to service level activities, we are interested in the extent to which you are aware of these at an ADP level.

We are aware of some element of duplication with regards to questions relating to MAT Standards and services for children and young people. To mitigate this, we've reviewed the relevant questions in this survey and determined the ones that absolutely need to be included in order to evidence progress against the national mission in the long-term. While some of the data we are now asking for may appear to have been supplied through other means, this was not in a form that allows for consistently tracking change over time.

The data collected will be used to better understand the challenges and opportunities at the local level and the findings will be used to help inform the following:

- The monitoring of the National Mission;
- The work of a number of national groups including the Whole Family Approach Group, the Public Health Surveillance Group and the Residential Rehabilitation Working Group, amongst others; and
- The priority areas of work for national organisations which support local delivery.

The data will be analysed and findings will be published at an aggregate level as [Official Statistics](#) on the Scottish Government website. All data will be shared with Public Health Scotland to inform drug and alcohol policy monitoring and evaluation, and excerpts and/or summary data may be used in published reports. It should also be noted that the data provided will be available on request under freedom of information regulations and so we would encourage you to publish your return.

The deadline for returns is Tuesday 27th June 2023. Your submission should be signed off by the ADP and the IJB, with confirmation of this required at the end of the questionnaire. We are aware that there is variation in the timings of IJB meetings so please let us know if this will be an issue.

If you require clarification on any areas of the survey or would like any more information, please do not hesitate to get in touch by email at substanceuseanalyticalteam@gov.scot.

Cross-cutting priority: Surveillance and Data Informed

Q1) Which Alcohol and Drug Partnership (ADP) do you represent?
[single option, drop-down menu]

Renfrewshire ADP

Q2) Which groups or structures were in place **at an ADP level** to inform surveillance and monitoring of alcohol and drug harms or deaths? (select all that apply)

No

Don't know

Q15) Please describe what work is underway to reduce stigma for people who use substance and/or their families in your ADP area.

[open text – maximum 2000 characters]

Renfrewshire ADP has been working collaboratively with individuals and families with lived and living experience, as well as frontline workers and partners, to tackle stigma through training and awareness raising in Educational settings. I Am Me Scotland was commissioned by Renfrewshire Children's Services to create a suite of resources from Early Years – S5 on Alcohol & Substance Awareness. The overall aim of the resources is to educate children and young people about substances (drugs, solvents, alcohol, tobacco), the effects they can have on your mind and body, and how to keep safe in situations they may find themselves in. The lessons are interactive, engaging and fully accessible with cc captions and audio voice overs throughout each lesson. Each lesson is designed to complement the experiences and outcomes set out in the Curriculum for Excellence (CfE). All lessons have teachers notes and additional activities, to facilitate ease of delivery in each year.

SDF Police Scotland Understanding Stigma: Promoting inclusive attitudes and practice training delivered to Renfrewshire ADP, HSCP, Council and 3rd sector staff.

We are working with the Alcohol and Drugs Programme Board to support delivery of some of the Alcohol and Drug Commission's recommendations which includes developing a Language Matters Initiative to help challenge preconceptions and stigma around alcohol and drug use.

Q29b) Please describe what treatment and support is in place **specifically for children aged 0-4 (early years) and 5-12 (primary)** affected by **alcohol**.
[open text – maximum 2000 characters]

RADAR (young person's service) generally does not work with children under the age of 13. If someone under the age of 13 was involved in alcohol misuse we might offer some brief intervention, but the main focus would be on ensuring adequate supervision and education by carers which would be the responsibility of Children and Families Social Work. For children (aged 0-15) impacted by alcohol use by a parent/carer, a GIRFEC approach is taken by Children & Families Social Work to assess the holistic needs of the child and the impact of the alcohol misuse on them. Addiction workers co-located with these services will form part of the multi-agency team to support the family. If proportionate, Child Protection measures could be applied in order to safeguard the child.
