

To: Renfrewshire Integration Joint Board Audit, Risk and Scrutiny

Committee

On: 18 June 2021

Report by: Interim Chief Officer

Heading: Renfrewshire Adult Protection Committee Improvement Plan

1. Summary

1.1. The purpose of this report is to provide the Integration Joint Board Audit, Risk and Scrutiny Committee with an update on progress of the Renfrewshire Adult Protection Committee Improvement Plan, following the ASP Joint Inspection undertaken in March 2020.

2. Recommendation

It is recommended that the IJB Audit, Risk and Scrutiny Committee:

• Note the contents of this report.

3. Background

- 3.1. The pre-onsite phase of the joint inspection concluded successfully with the provision of a Renfrewshire position statement, which was highly commended; advanced evidence; and the completion of an interagency electronic staff survey. Due to the COVID-19 pandemic not all activities for the onsite file reading phase were completed.
- 3.2. Verbal feedback was provided by the Care Inspectorate, in collaboration with joint inspection partners Health Improvement Scotland (HIS) and Her Majesty's Inspectorate of Constabulary in Scotland (HMICS), to senior officers from key partners on 1 June 2020.
- 3.3. The findings of the inspection were well balanced and highlighted key strengths together with areas for improvement. As a result, an improvement plan was swiftly developed, in consultation with partners.
- 3.4. The Inspection Improvement Plan was approved by RAPC on 15 June 2020. This was amalgamated with an existent Improvement Plan for the Adult Protection Committee with the support of the HSCP's Change and Improvement Team. It was agreed by RAPC that the RAPC Continuous Improvement Subcommittee will be responsible for

monitoring and reviewing the collated improvement plan, with actions in the plan led by each of the RAPC subcommittees.

- 3.5. This plan was subsequently brought to the Renfrewshire Chief Officers Group in October 2020 and will continue to be regularly reviewed by the Adult Protection Committee.
- 3.6. The current version of the amalgamated plan was signed off by RAPC on 8 June 2021. This included an Excel version of the plan (Appendix 2), which provides higher level oversight of outstanding and completed improvement actions.

4. ASP Joint Inspection 2020 Summary

- 4.1 On 7 January 2020, the Care Inspectorate, Her Majesty's Inspectorate of Constabulary in Scotland (HMICS) and Healthcare Improvement Scotland (HIS) formally notified Renfrewshire Health and Social Care Partnership (HSCP) and Renfrewshire Council that they would be undertaking a joint inspection of adult support and protection arrangements in the Renfrewshire partnership area commencing on Monday 16 March 2020.
- 4.2 The scrutiny work has been programmed around the 13 Police Scotland Divisional areas and their associated Risk and Concern Hubs and therefore an inspection in the Inverclyde partnership area was undertaken concurrently. Inverclyde's onsite file reading was due to commence one week after that for Renfrewshire.
- 4.3 The focus of the joint inspection was to provide:
 - Independent scrutiny and assurance of how partnerships ensure that adults at risk of harm are kept safe, protected, and supported.
 - Assurance to Scottish Ministers about how effectively partnerships have implemented the Adult Support and Protection (Scotland) Act 2007.
 - An opportunity to identify good practice and support improvement more broadly across Scotland.
- 4.4 The inspection focussed on the two key areas:
 - Key adult support and protection processes.
 - Leadership for adult support and protection.
- 4.5 Although the onsite phase began on Monday 16 March 2020, due to the covid-19 emergency not all activities were completed. From the 50 file samples of adults at risk of harm only 23 social work, police and health records were read. None of the 40 recordings of initial inquiry episodes for which no further adult protection related action was required were reviewed. However, the inspectors were able to undertake an analysis of the staff survey (562 responses) and review the supporting evidence and position statement.

- 4.6 Despite the outbreak of the pandemic, on 1 June 2020, the Care Inspectorate provided feedback through a virtual meeting which was also attended by inspectors from HMICS and HIS together with senior officers from across the partnership including: Renfrewshire Council, Renfrewshire HSCP, Police Scotland and NHS Greater Glasgow and Clyde.
- 4.7 The feedback was balanced and highlighted key strengths and areas for improvement as detailed below.

Key Strengths

- The staff survey showed that staff across the partnership held positive views about adult support and protection, and the partnership's efforts to keep adults at risk of harm safe, protected and supported;
- Operational adult support and protection practice across the partnership was sound in many areas, with effective collaborative working to keep adults at risk of harm safe;
- Partnership staff shared information coherently to identify harm to adults at risk of harm and then protect them;
- Adults at risk of harm were supported and listened to for the key processes undertaken to keep them safe and protected;
- Adults at risk of harm received good support from health staff. They
 worked collaboratively to manage the risks for adults at risk of harm and
 improve their health and wellbeing.
- Strategic leadership for adult support and protection exercised sound governance, robust quality assurance, and improvement work that was undertaken collaboratively.

Areas for Improvement

- The partnership should ensure that a cogent, collaborative adult protection plan is prepared timeously for all adults at risk of harm who require one.
- The partnership should make sure that the police are appropriately involved in adult protection investigations.
- The partnership should strive to ensure all organisations required to attend adult protection case conferences attend.
- The partnership should do everything possible to encourage and assist adults at risk of harm to attend adult protection case conferences that are held about them.
- The partnership should make sure that adults at risk of harm and their unpaid carers are represented at a strategic level on the Adult Protection Committee

5. RAPC Improvement Plan development and update

- 5.1 The areas for improvement highlighted above formed the basis of the Improvement Plan, which was developed in consultation with partners.
- 5.2 Because there was already an RAPC Improvement Plan, which contained several overlapping areas for improvement as identified by

the inspectors, RAPC amalgamated the two plans to ensure a cohesive approach to improvement and to reduce confusion. The amalgamated plan is attached as Appendix 1; for clarity, the left-hand column indicates whether the action arose from the Joint Inspection. Appendix 2 is an Excel version of the plan, which provides higher level oversight of outstanding and completed improvement activity.

- Further work is being done on the plan to align its objectives with those of the Scottish Government National ASP Improvement Plan. The RAPC Improvement Plan is a "live" documents that will continue to evolve as new improvement areas are identified.
- 5.4 Some date targets have not been met due to the resource and operational impact of the Covid-19 response and several Large Scale Investigations throughout 2020 until the present.

6. ASP Joint Inspection update

- A letter from Cabinet Secretary for Health and Sport, Jeane Freeman, MSP, was received to all Health and Social Care Partnerships across Scotland on 3 March 2021.
- Ms Freeman advised that the Adult Support and Protection Joint Inspection Programme would resume at the end of March 2021 to ensure ongoing protection for adults at risk of harm while managing the risks to individuals and the wider Covid response. Inspection partners have begun formally advising HSCPs about their participation.
- The letter makes reference to the "completion of the first inspection in January 2021." We understand this to be referring to Renfrewshire and therefore we do not anticipate further ASP Joint Inspection activity until Phase 2 of the national programme. IJB Audit Committee members will be informed if information contradicting this assumption is received from the Care Inspectorate.
- There has been no update provided by Scottish Government or by the Care Inspectorate as to when Phase 2 will be commenced due to the development of a new timetable for Phase 1. However, the Care Inspectorate may wish to receive progress on our Improvement Plan prior to formal commencement of Phase 2.

Implications of the Report

- **1. Financial** None.
- 2. HR & Organisational Development None.
- **3. Community Planning** None.
- 4. Legal None.
- **5. Property/Assets** property remains in the ownership of the parent bodies.
- **6. Information Technology** None.
- 7. **Equality & Human Rights** The recommendations contained within this report have been assessed in relation to their impact on equalities and human rights.

No negative impacts on equality groups or potential for infringement have been identified arising from the recommendations contained in the report. If required following implementation, the actual impact of the recommendations and the mitigating actions will be reviewed and monitored, and the results of the assessment will be published on the Council's website.

- 8. Health & Safety None.
- **9. Procurement** procurement activity will remain within the operational arrangements of the parent bodies.
- **10.** Risk None.
- **11. Privacy Impact** None.

List of Background Papers – None.

Version 5.2 - Revised May 2021

Renfrewshire Adult Protection Committee

Inter-agency Improvement Plan 2020-2023

Renfrewshire Adult Protection Committee – Improvement Plan

Introduction and Multi-agency Improvement Strategy

RAPC vision statement

In Renfrewshire everyone is committed to keeping adults at risk of harm safe and protected.

Introduction

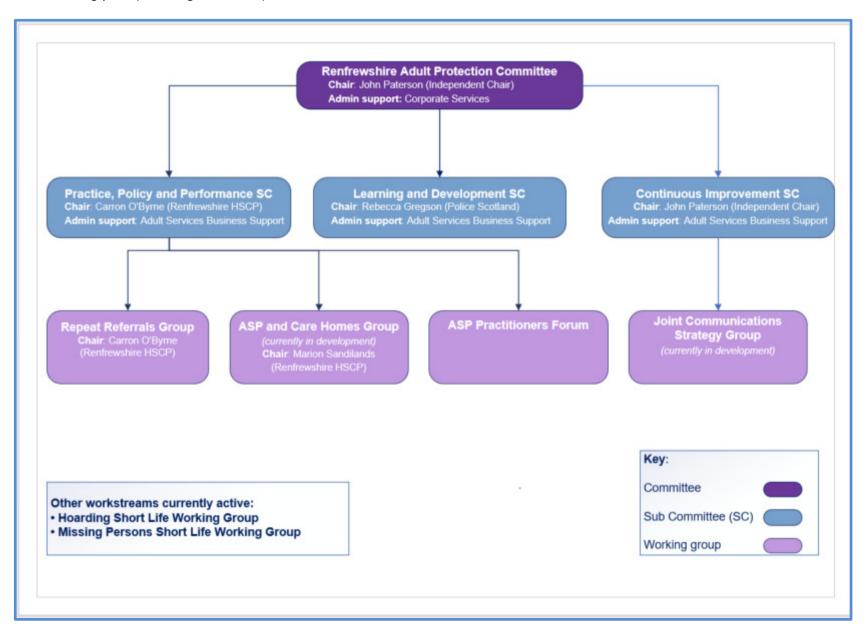

We are pleased to present the 2020-2022 RAPC multi-agency Improvement Plan. This is a live, working document that sets out identified outcomes and associated actions for practice, policy and performance improvement for Adult Support and Protection in Renfrewshire. It is designed so that it can record newly identified areas for development while tracking the progress and achievement of actions already established.

The Improvement Plan was developed under the remit of the Renfrewshire Adult Protection Committee's Practice, Policy and Performance subcommittee. The current form, layout and content of the plan is influenced and driven by the following:

- The review of 2013-14, 2016-17 and 2017-19 RAPC Improvement Plans and associated outcomes
- RAPC Biennial Reports 2012-2014, 2014-2016 and 2016-2018
- National Priorities for Adult Support and Protection as described in Scottish Government's ASP Improvement Plan June 2019
- Key themes emerging from the Care Inspectorate's Joint ASP Thematic Inspection 2018
- Improvement Areas from Renfrewshire's ASP Joint Inspection of March 2020
- Local priorities and areas for action emerging from:
 - o Biennial Adult Protection Conference feedback
 - o Review and audit activity, including RAPC Self-Evaluation and Case File audit 2018
 - Feedback from RAPC Members 2019

The Scottish Government Adult Support Protection Plan was updated in May 2021, our intention is to align these national objectives with our local priorities, and this will be included in our improvement and action plans. The national improvement themes are as follows: Assurance, Governance, Data and Information, Legislation, Policy and Guidance, Practice Improvement and Prevention.

The Renfrewshire Adult Protection Committee is supported by three sub committees and two subgroups who collectively (with partners) are responsible for delivering this overarching plan (see diagram below).

For example, the RAPC Inter-agency Learning and Development Strategy (2017-2020) underpins the work done by the RAPC Learning and Development Subcommittee. The Renfrewshire Financial Harm Subgroup is responsible for its strategy and accompanying action plan. Action plans arising from initial or significant case reviews; appreciative inquiries; or relevant case discussions are monitored by RAPC. Where appropriate, these actions are incorporated into the RAPC Improvement Plan.

In collaboration with the Renfrewshire Child Protection Committee, a Joint Engagement and Communications Strategy has been developed. The communications strategy and relevant actions arising from the current RAPC Improvement Plan work in parallel.

The RAPC Improvement Plan has been revised so that Key Improvement Themes align with those reported by the quarterly RAPC Scorecard. This means that desired outcomes and actions are directly linked to measures reported to RAPC and, subsequently, to Renfrewshire's Chief Officers for Public Protection. The scorecard fields are ever evolving, which means that they can be amended to ensure consistency with aspirations laid out in the Improvement Plan. The "reference" column of the plan refers to actions stemming from our previous RAPC Improvement Plan or from recommendations emergent from the ASP Joint Inspection 2020.

The RAG status indicates progress against our outcomes. Status is measured as:

Red (R)	Not met
Amber (A)	Potential delay
Green (G)	On track
Complete (C)	Complete

Looking forward - new outcomes and activities

The RAPC will continue to support partner agencies to implement any recommendations that emerge from review and audit activity. This will include early intervention and preventative work to reduce the frequency of repeat referrals. Focus in the coming year will be on advocacy and participation of all ASP partners, including people subject to adult protection referrals. RAPC is committed to upholding individual's rights and recognises the need for enhanced attention on communicating with adults who are at the centre of the work we do. RAPC intends to continue strengthening links with care homes and care at home services, promoting consistent understanding of adult protection referral thresholds, referral pathways, and processes.

We will further focus on the support required for staff in their varied roles in Adult Support and Protection activity and intervention. Commitment to ensuring clarity and a working knowledge of current protocols, procedures, legislation, and practice guidance will be paramount. The RAPC is also committed to the

ongoing development of strong leadership and management that focuses on the safety and well-being of adults in Renfrewshire. This includes the learning and development required to ensure competent and confident Adult Protection practice by staff and managers across agencies.

Renfrewshire has recently published a revised Inter-agency ASP Large Scale Investigation guidance; building on work published by Scottish Government in 2019 we also intend to revise our Initial and Significant Case Review Guidance. Underpinning this work will be the revised West of Scotland Inter-agency Guidance (2019) and Renfrewshire's own ASP Inter-agency Operational Guidance and Procedures. Strategy and procedures related to self-neglect and hoarding are anticipated locally in 2021, in addition to an ambitious Financial Harm Strategy and Action Plan; work is underway locally to progress the National Missing Persons Framework.

To ensure that the RAPC Improvement Plan is current and clear in purpose, the committee will continue to review its activities and achievements via the work of its subcommittees. It will revise and introduce intended outcomes and activities that are in line with changing priorities and developments for Adult Support and Protection at local and national levels. Recently the plan has been amended to include COVID-19 Service Delivery and Recovery for Adult Support and Protection. This aims to ensure that those at risk of harm continue to be identified and supported throughout the current uncertainty.

As always, we will continue to promote a strong value base that places adults and their carers at the heart of our practice and strive to improve our services in Adult Support and Protection activity.

John Paterson Independent Chair of the Renfrewshire Adult Protection Committee
