

Scotland Excel

To: Scotland Excel Joint Committee

On: 9 December 2016

**Report
by
Director Scotland Excel**

Scotland Excel Risk Register

1. Introduction

Scotland Excel has, since the inception of the organisation, had in place a regularly reviewed risk register for the organisation's operations. The risk register is maintained to assess risks and threats that could impact on the delivery of Scotland Excel's organisational objectives and to identify actions that are being taken to mitigate such risks.

2. Background

The risk register, attached as an appendix, has been reviewed and has identified the current risks to the organisation and the service delivery. The risk register has been considered by the Executive Team, the wider Senior Management Team and with staff through team meetings on a regular basis to ensure that all current risks are identified and that suitable actions are in place or under development to address the potential impact upon the organisation and its stakeholders.

When the risk register, in the revised format, was first reported to the Joint Committee members indicated a number of proposals that would improve the tracking of risks and actions to manage the potential impact on the organisation. These have now been incorporated into the report and show movements in risks, where actions have reduced likelihood or impact and the residual risk after these actions.

The regular review of risks has included the addition of the political changes created by "Brexit". While there remains uncertainty over what changes and impact this may have on the organisation the inclusion ensures that review and sharing of information with stakeholders takes place.

The risks will continue to be monitored and reviewed on a quarterly basis by the Senior Management Team and be reported on a 6 monthly basis to the Executive Sub-Committee and annually to the Joint Committee.

3. Recommendations

Members are invited to provide feedback on the risk register, the actions identified, any further improvements to the reporting and to note the report.

Risk Management Plan

November 2016

CONTENT

- 1. Risk management arrangements within the organisation 3
- 2. Report on corporate risk management objectives 3
- 3. Summary report on previous year’s risk position 3
- 4. Current internal and external business context for the organisation 3
- 5. The risk register going forward from 1/10/2015..... 5

- Appendix 1: Risk Register going forward from 1/10/2015..... 9

1. Risk management arrangements within Scotland Excel

- 1.1 During 2014-15, the organisation has implemented a range of standard procedures in keeping with the organisation's risk management strategy. This includes adoption of the risk management process and the standardised risk matrix for analysis and evaluation of risk.
- 1.2 The review of the Risk Register will be carried out by the Senior Management Team and the top 5 risks will be reported quarterly to the appropriate governance committee of Scotland Excel.
- 1.3 The Senior Management Team will review the register on a monthly basis. However managers will bring to the attention of the group a new risk or significant change in an existing risk this will be circulated within the Senior Management Team with immediate effect.

2. Report on corporate risk management objectives

- 2.1. To ensure that risks are identified and effectively managed Scotland Excel will put in place a range of measures and processes. These will include:
 - (1) The Senior Management team owns and regularly reviews the risk register reporting on it to the governance committee of elected members.
 - (2) By carrying out regular review of the register and the process of review ensure that the risk management policy and strategy remain fit for purpose, providing a consistent approach to risk management and increasing its effectiveness.
 - (3) Ensuring that staff are equipped and supported to identify and manage risk in their area.
 - (4) The organisation will ensure that it has effective arrangements in place for managing risks in partnerships.
 - (5) Ensuring that the management of risk contributes to achieving positive outcomes for the organisation including encouraging innovation and identifying new opportunities.

3. Summary report on previous year's risk position

- 3.1. As part of the review of service this is a new risk register that reflects the current and future risks identified for the organisation.

4. Current internal and external business context for the organisation

- 4.1. The Scotland Excel Senior Management Team (SMT) have participated in dedicated sessions, facilitated by Renfrewshire Council's Risk Manager to explore the organisation's current risk landscape and agree the key risks that should feature in the organisation's revised strategic risk register.
- 4.2. As a basis for refreshing the strategic risk register, the SMT considered the organisation's key business priorities and perceived significant challenges to achieving these:
 - Supporting the delivery of better and more effective public services
 - Being sustainable in everything we do.
 - Placing customers at the heart of our business.
 - Becoming the partner of choice for delivering shared services.

- 4.3. Focus was then given to the organisation's current external business environment: immediate matters of importance as well as those that may be on the horizon. In particular, the SMT considered the following:
- **POLITICAL CONTEXT**
 - The Christie Commission on the Future Delivery of Public Services
 - Changes in the political landscape, such as the breakup of CoSLA and the formation of the new Local Government Partnership
 - Health and social care integration – joint bodies as new legal entities who may procure through other means and not access Scotland Excel contracts
 - **ECONOMIC CONTEXT**
 - The increasing focus on public sector procurement as a driver of economic benefits and the relationship between procurement and the local economic agenda
 - Financial pressures and budget cuts in member councils
 - Financial (and other) factors impacting on resilience of suppliers – potential for provider failure/ business continuity risk
 - **SOCIAL CONTEXT**
 - The increasing focus on public sector procurement as a driver of social benefits
 - **TECHNICAL CONTEXT**
 - Complexities of certain new markets and matching in-house capacity/ capability
 - The third phase of the national Public Procurement Reform Programme – potential to be out of step with what's seen as good practice – detached from key requirements
 - Linked to the above, recommendations in the Review of Scottish Public Sector Procurement in Construction - the need to review, position the organisation to better serve customers (PCA good example)
 - Scotland's Digital Future/ delivery of Public Services strategy and the Local Government Information and Communication Technology (ICT) strategy – access in local communities. – Opportunity. – reputation that we say we can deliver ICT contract but can't deliver.
 - **LEGISLATIVE CONTEXT:**
 - The Procurement Reform (Scotland) Bill
 - Changes to EU and UK procurement legislation
 - Consultation on the Community Empowerment (Scotland) Bill – Scotland Excel Contracts may not be fully utilised. Sales and marketing need to respond and there is opportunity for small projects team to be involved.
 - Personalisation and self directed support legislation (individual choice) – risk in terms of the contract and additionally governance, in terms of how Scotland Excel supports member councils
 - Public Bodies (Joint Working) (Scotland) Act 2014
 - **ENVIRONMENTAL CONTEXT**
 - The increasing focus on public sector procurement as a driver of environmental benefits
- 4.4. Further to the above consideration of the current external business environment, the SMT also gave consideration to the current internal business environment: matters of importance identified in relation to internal priorities or challenges, or feedback/ performance:
- Performance against Transforming Scotland Excel priorities
 - Data integrity – systems and management information requirements to support future activities, future decisions and the transformation programme

- Financial integrity and stability – funding/ rebates
- Exploring new markets/ developing new contracts with related reputational impact in how these are handled by the organisation
- Feedback from the Scotland Excel customer surveys - managing customer expectations/ demonstrating value and outcomes achieved – to be the provider of choice
- Outputs from the Audit Scotland review of procurement in Local Government– poor forecasting in terms of timelines
- Opportunities for growing the current shared services model to include the delivery of additional contract areas and value add services
- Workforce planning needs – turnover and the availability of skilled and experienced resources
- Trends in relation to complaints, incidents/ near misses, claims and insurance information
- Internal business continuity arrangements in respect of loss of staff, power/ systems, facilities

4.5. On the basis of the extensive consideration of the above business context, the organisation has identified and agreed the key strategic risks to be recorded within its risk register going forward from 01/09/2015.

5. The risk register from October 2015

5.1. The risk register is shown in detail in Appendix 1. The risks are categorised under the themes noted below (referred to in more detail earlier in paragraph 4.2), reflecting the strategic aims of the organisation and one additional category to enable capture of significant risks that are inherent in business as usual for the organisation:

- Supporting the delivery of better and more effective public services
- Being sustainable in everything we do.
- Placing customers at the heart of our business.
- Becoming the partner of choice for delivering shared services.

Original Risk Position

IMPACT	Extreme (5)	5	10 R1	15 R4 R5 R14	20 R11 R12	25 R15
	Major (4)	4	8 R6 R7 R8	12 R10 R13 R16	16 R2	20

LIKELIHOOD

Low (1-3), Moderate (4-9), High (10-16), or Very High (17-25)

- 5.2. The organisation's top five risks (in terms of potential significance) are:
- (1) Recruitment and Retention of Staff
 - (2) Political change impacts upon the governance of the organisation
 - (3) Failure to exploit new markets / opportunities leads to a failure to provide savings.
 - (4) Business Continuity if a failure occurs, impacts upon stakeholders.
 - (5) The financial stability of the organisation going forward based on annual requisitions
- 5.3. The planned risk treatment activity going into this year, which is required to further control of reduce the risks is included within the register in Appendix 1.
- 5.4. Strategic risks will be reported on a 6 monthly basis to the Executive Sub Committee.
- 5.5. As a minimum, the Senior Management Team will review the entire strategic risk register on a quarterly basis.
- 5.6. Individual SMT members will as a matter of course throughout the year, bring to the SMT for collective consideration any local (contract specific or operational) risks that may require escalation to the strategic risk register.

Appendix 1:

Risk Register from 01/09/2015

Context	Risk Statement	Owned by	Current Risk Control Measures	Likelihood	Impact	Evaluation	Residual Risk	Movement
<p>REF: Risk 1 Title</p> <p>Context: (1) There is less opportunity to show significant savings from second and third generation contracts (2) As demonstrated with COSLA councils can serve notice and leave the organisation (3) An example of this is some councils not participating in the NCHC.</p>	<p>Membership of Scotland Excel is optional for Councils. The risk is that Councils decide not to renew membership of Scotland Excel. Scotland Excel must be alert to this and the impact of any council leaving membership.</p>	JW	<ul style="list-style-type: none"> ▪ The Director has undertaken and will continue a programme of meetings with Directors of Finance in Councils to ensure awareness of Scotland Excel and the financial benefits to councils. ▪ Head of Service role created with responsibility for engaging with stakeholders to ensure that requirements are met and relationships are managed effectively. ▪ Engagement with CIPFA to ensure that there is awareness and understanding of Scotland Excel and the benefits of fully engaging are clearly communicated to executives in member councils. ▪ Competitor analysis is providing a clear understanding of our unique selling propositions ▪ Scotland Excel has developed a model to plan and support effective engagement between the Executive Team and senior stakeholders. 	3	5	15	10	↓
