TITLE:
**Applications for Local Partnership Funding to Gleniffer
Local Partnership 2022/23**

1. Summary

- 1.1 Applications for grant funding from the seven Local Partnership areas were invited to be submitted during March and April 2022, to be considered at the Local Partnership meetings due to be held in June 2022.
- 1.2 The available allocation for Gleniffer Local Partnership for 2022/23 is £52,804.
- 1.3 From this total budget, a sum of £50 per community representative requires to be ringfenced for potential claim of expenses. These expenses are deducted from the available allocation for the Local Partnership. Gleniffer Local Partnership has space for seven community members, so the total ringfenced for expenses is £350. **The total budget available for allocation by Gleniffer Local Partnership is therefore £52,454.**
- 1.4 The Youth Challenge Fund component of Gleniffer Local Partnership Funding for 2022/23 is £19,861. This funding will be allocated by young people through a Participatory Budgeting exercise that will take place during autumn 2022.

2. Recommendations

- 2.1 It is recommended that members of Gleniffer Local Partnership consider the applications for Local Partnership grant funding, as set out below in Appendix 1 and 2.

3. Background

- 3.1 Applicants for funding in 2022/23 have been provided with guidance, as well as a description of the Local Priorities identified by Gleniffer Local Partnership.

- 3.2 Local Partnership members are asked to consider the applications for funding summarised at Appendix 1 and 2 of this report, and to assess these against the Local Priorities agreed by the Gleniffer Local Partnership.
- 3.3 An initial assessment has been carried out by officers to support Local Partnership members in their decision-making. Where applications have made clear reference to the Local Priorities identified by the Local Partnership, this is identified in the first table at Appendix 1. Applications that make a partial or no reference to Gleniffer Local Priorities are summarised in the second table – for example, the project supports tackling loneliness and isolation (and therefore meets the Local Priority around loneliness and isolation) but does not deliver this directly in the Local Partnership area or make reference to how many people from the area would be engaged in the project.
- 3.4 The priorities of Gleniffer Local Partnership are:

Community assets

The Local Partnership want to see busy local community centres, full of activities. They also want to boost community involvement, getting more people involved in local groups and volunteering.

What's on in Foxbar, Brediland and Glenburn

The Local Partnership want to develop ways to share information about what is going on locally across the area, including developing community noticeboards and networks.

Public safety and road safety

The Local Partnership want to promote public safety across the area. This includes road safety and managing the speed of traffic in the area.

Isolation and loneliness

The Local Partnership want to tackle isolation and loneliness across the area. They think a key barrier for some people is transport and being able to access activities.

Play facilities

The Local Partnership want to see development of parks and play areas for children and young people.

Local Partnership Support 2022/23

Reference: FR1039	Organisation Name: The Thursday Club
Project Name: The Thursday Club	Amount applied for: £ 2900
Purpose of the project To help the club provide a meeting each week which will help combat loneliness and isolation in the over 50's and at the same time keep them fitter both mentally and physically by providing exercise sessions, quizzes, bingo and special open days when new members are encouraged to come along and we have a hot buffet and dance to live entertainment, we have a Christmas dinner and a summer trip and if finances allow a day out to a closer destination. As we are now well established in our new meeting place St Peter's men club we operate all year. The club has grown each year and the demand for our type of organisation comes from the pensioners themselves as well as health boards, Age Scotland and politicians local and national. With many clubs closing it is important that we continue to give the people of Glenburn and the surrounding area somewhere to go make friends especially after a bereavement which would normally lead to the onset of loneliness. The members decide on all our activities when we are open where we go and at our AGM the office bearers and volunteer for duties.	
What will the project do? We will provide weekly exercises - keeping us fit and preventing falls, quizzes - will help keep the mind alert, bingo - will also help keep the brain working and alert and also help raise funds, fun raffle - will ensure the club starts promptly, tea/coffee and biscuits - interaction between our members, 4 special open days - new members, Christmas lunch community spirit and a sense of belonging, summer trip - will encourage members to go out and visit places, bus runs - encourage members to get out more, sing songs - prevent onset dementia

They will be fitter and less likely to have a fall and end up in hospital. All the activities will slow down the onset of dementia, heart attacks, strokes as all research has shown. Being a pensioners club we will lose members as time passes but we are gaining more and our numbers are increasing and we hope will continue to do so.

<p>Purpose of the project</p> <p>To provide part funding of ice hire, permitting on ice activities for young persons to take place at Braehead Arena, the only facility available within a 30mile radius of Paisley. Purpose of the project <p>Community as an impartial access point. A place people feel comfortable approaching for advice and advocacy. We see a wide range of people from different cultures with their own unique barriers, situations and needs. Purpose of the project To help take away financial strain from vulnerable local families by providing new and safe toys/gifts for 0 to 18-year-olds at birthdays and Christmas. Allowing children to play, learn and express themselves which is vital for wellbeing. Distribute Easter eggs to local children living in poverty as well as Halloween costumes. Creating equality within our community by removing any stigma due to the quality of gifts and costumes distributed.	
What will the project do? Previously we only ran at Christmas. It was clear to us from the level of need at the festive period that the toy bank could becoming a vital service for the Renfrewshire community all year round. We had various meetings with organisations that refer to us and the feeling was mutual. Now that we have ran for a full year we continue to grow to help as many local children as possible as we have seen a significant rise in poverty especially in working families. Continuing to identify ways to further develop the toy bank for the community's needs. Working with referring organisations such as social work, health visitors, all local schools and nurseries, the foodbank, The STAR project, EBI Unites, Pals of the Privies, who Cares? Scotland, Home Start, The SPACE project we are trying to reach as many children in need as possible. Continuing to network with local businesses we set up drop off points for gifts with volunteers collecting and making up gift packages. Spreading information about the Toy Bank via social and traditional media outlets.

Purpose of the project The purpose of the project is to provide transport to and from the Friendly Hour for members. We provide an afternoon of friendship and fellowship that allows the members to meet and develop their friendships. Entertainment and social activities are provided on a weekly basis from October to May. Children and Adults provide the Entertainment. Members also have a much-appreciated cup of tea or coffee and goodies. The programme includes a Christmas lunch and an annual outing.	
What will the project do? The Committee identified many members would be unable to attend our weekly meeting without provision of transport. Many of our members live alone and the Friendly Hour is the only time they may see other people. It gives them some entertainment which avoids an afternoon of loneliness and isolation. Our average age is over 85 and many are quite infirm. There is a greater need for these people to be transported to a happy and lively environment for a few hours on a weekly basis. If we are successful in securing the grant, it will assist us to continue to provide much needed transport to bring these people to and from the Friendly Hour, thus giving them much needed company and socialisation.

Project Name: CREATE Paisley Primary School Programme - Gleniffer	Amount applied for: £2535
Purpose of the project: The purpose of the project is to provide creative opportunities for children in P6/P7 to build confidence and reduce isolation. Children will be able to mix with pupils from schools other than their own in their area and build friendships and improve wellbeing.	
What will the project do? We have been approached by local primary schools in the areas in which we currently work with older young people, expressing an interest in us running similar primary school age programmes. Young people we currently work with have retrospectively expressed their disappointment in not having anything like CREATE for them during their time at Primary school. Parents of young people who already engage with us have asked about programmes for younger siblings of primary age. Our programme will bring together children from primary schools in the Gleniffer area to engage in creative activities which will allow them to mix with children from other schools in their community. We will do this through the delivery of weekly sessions open to all P6/P7s in the area where they will be given opportunities to experience various creative workshops and drop-in sessions. These will help build confidence, give children a voice to express themselves and their opinions and a platform to build friendships in a safe space.

Project Name: Partnership Working with Inchinnan Development Trust and Paisley Darkside Historical Walking Tours	Amount applied for: £645
Purpose of the project We are working with partners on joint projects to locate mobility equipment for hire across Renfrewshire thus making it easier for those with mobility issues to hire equipment in their locality. Equipment is free for hire during the day. If hired overnight it will cost £5 for a scooter and £1 for a wheelchair. Shopmobility will own, maintain and insure equipment safe for use. We will hire local volunteers in the area to help manage this project, provide expenses for doing so and kit volunteers out with branded uniforms, training, development.	
What will the project do? Meetings: Inchinnan Development Trust have an ageing population. Many local people will benefit from getting out to do their shopping in Erskine for example. Survey being sent out to the community which will be shared with Erskine and Bishopton which will give us statistical representation of need. Paisley Darkside Historical Walking Tours - will locate equipment in their Paisley Centre Office due to demand opening up opportunities for those with mobility issues to participate in tours and hire from their local office. We anticipate growth. Essentially this project will open up opportunities for local people in their communities to be able to hire mobility scooters and wheelchairs at no or low cost. No project of this kind has ever been carried out in Renfrewshire and what a great opportunity to also offer local people robust volunteering roles with training, development thus helping their journey to another positive destination. We are well equipped within our organisation to roll out this project confidently and in partnership with local communities.

Project Name: Reducing Loneliness and Isolation through Activity	Amount applied for: £9320
Purpose of the project: <p>The main purpose of this project is focused on getting residents back into the community to help lift the feeling of isolation. We want to purposely rebuild the strong relationships we had with local schools and nurseries before covid. Another part of this application aims to get people outside in the garden with other local people, which is made a bit easier with the change in weather coming. We aim to reduce isolation and tackle loneliness with our project.</p>	
What will the project do? <p>Getting people out to places of interest over the last few years has been challenging. We know from residents' feedback that people would love to go on day trips again. We also know the benefits of interactions between older and younger. There is a need to develop those relationships again and we'll use interactive activities as a steppingstone for moving forward as a group again. We know from feedback that getting people out and forming relationships will give people something to look forward too which is incredibly positive for mental health.</p> <p>We will book specialised transport designed to cater for to the needs of older people to ensure they can travel safely. We will book a variety of garden-based activities to aid in the development of the relationships we plan to rebuild with our local schools and nurseries. We will also book garden entertainment that will be inclusive to our partners from local care homes, sheltered housing and day centre clients as a way of bringing people together to help everyone in our area feel less lonely and isolated.</p>

Project Name: Future Music	Amount applied for: £4000
Purpose of the project We have 3 rooms which are unused. We want to create 3 Music Production Workshops for teaching and to be made available for young artists. We have been a tradition music school providing education in Guitar, Bass Drums Keyboards and Singing. We want to provide a new generation with opportunities to learn new skills on computer-based music using the latest sound equipment and keyboards. This would add another dimension to our programme.	
What will the project do? Our Youth Committee and the young people who have taken part in recent projects have identified that Music Production is getting more popular and have suggested that young people who have an interest in IT rather than traditional instruments would benefit having access to a tutor and equipment. The format, structure and content are all suggestions that came from them and conveyed to the manager, and this is why the application is being made. In recent years more and more young people today are finding their way into music through technology. We will deliver workshops and lessons in Music Production. With the equipment we can help young people explore and develop new skills in music and nurture their talents using a digital multimedia studio. A professional studio with recording facilities gives young people the opportunity to develop professional skills in music and sound technology, recording and video editing. They will also gain a solid foundation in music theory and production, which allows many of them build on to develop own musical style becoming artists in their own right.

Project Name: Re-rendering exterior of club hall	Amount applied for: £2900
Purpose of the project <p>The club building has suffered from significant dampness due to loose and broken rendering allowing water saturation. New windows installed last year have helped, but problems of cold and damp cannot be cured until the render is replaced, as it is almost entirely blown across the whole building. This will make the building watertight to prevent further damage to the structure and contents and improve thermal efficiency thereby helping to cut heating costs and energy usage.</p>	
What will the project do? <p>Dampness has been an issue for several years, but resources had been focussed on piecemeal roof repairs. A damaging woodworm outbreak in 2019 highlighted the need to eliminate other sources of dampness. After several pieces of render fell off, we obtained quotations for its repair, which brought to light the fact that the condition of the render was a major source of the dampness and the whole building required re-rendering. Renewal of the windows was also urgently needed and was done last year, resulting in further damage to the loose render.</p> <p>The entire building (or as much as can be afforded if grant is partial) would be re-rendered.</p>

Project Name: Ground Equipment Investment	Amount applied for: £6000
<p>Purpose of the project</p> <p>The purpose of our project is to allow invest in our ground equipment with the purchase of a modern outfield cutter. Such a machine would cut the amount of time required to prepare our ground thus helping to reduce costs elsewhere.</p> <p>Our ground is used to play cricket and is also used by the local community as a place to regular walk/run etc. During lockdown our facility was regularly used as a result of local parks not being maintained.</p>	
<p>What will the project do?</p> <p>The need for the project was identified following a review of costs and a review of ground maintenance tasks and time requirements.</p> <p>We currently spend 8+ hours twice per week cutting grass - a new machine would cut this down to 2 hours twice a week - a significant saving in terms of man hours and fuel.</p> <p>We will purchase a modern machine which will reduce time required to cut the grass. In addition, the machine will also reduce fuel consumption thus reducing costs.</p> <p>The purchase of the machine would leave a lasting legacy given it will be used for many years to come.</p>

Reference: FR1159	Organisation Name: Paisley and District Battalion – The Boys’ Brigade
Project Name: Development Project	Amount applied for: £1000
<p>Purpose of the project:</p> <p>We are currently looking to grow the number of boys under our stewardship following a steeply trending reduction in boy numbers in recent years. We need to attract boys back into the Boys’ Brigade with a pro-active and modern approach to recruiting and also retention. We have received partial funding for this project already but hope to be able to secure additional funding to allow this resource to be able to prepare, present and send out recruitment materials.</p>	
<p>What will the project do?</p> <p>It has become evident in recent years that the reduction in boy numbers is extremely worrying. Our job in the Battalion is to support these local companies of boys to re-grow and to achieve our mission and objectives as mentioned above. We have 18 companies across Renfrewshire, some of which have single digit membership which we need to develop and grow within their local communities.</p> <p>The project will focus totally on development of membership to attempt to recruit boys back into the organisation. This is not an easy task so needs specific focus. There are so many other things which exist to attract boys away from a uniformed organisation, so we are in no doubt that our objectives are challenging.</p>	
<p>Gleniffer Local Priorities: <i>please tick the relevant box(es)</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> Community assets <input type="checkbox"/> What’s on in Foxbar, Brediland and Glenburn <input type="checkbox"/> Public Safety and road safety <input type="checkbox"/> Isolation and loneliness <input type="checkbox"/> Play facilities <input checked="" type="checkbox"/> Partial fit with priorities <input type="checkbox"/> Does not fit with priorities <p>Anticipated Outcomes:</p> <p>We hope to generate interest in the Boys’ Brigade all areas within Renfrewshire. By growing some or all of our companies, we are bringing more boys and their families into our organisation and churches which helps all communities flourish while allowing those in less well-off areas of any background an equal chance to join us. Our Christian mission also hopes to teach boys and leaders good morals and values which we hope will serve them well in their future well-being and stature in the community. This meets the Community Empowerment priority.</p> <p>Note: This application has been marked as a “partial fit with priorities” due to a lack of specific reference to the Gleniffer Local Partnership area.</p>

Reference: FR1170	Organisation Name: Pachedu
Project Name: Pamoja (Together)	Amount applied for: £1533
<p>Purpose of the project</p> <p>We would like to develop a drop in aimed at capacity building hard to reach minority ethnic (in particular African) communities in and around Renfrewshire which encounter multiple barriers, such as communication and those of a cultural nature, which prevent them from becoming resilient communities.</p> <p>The project will provide weekly 40 weekly drop-in sessions for 8-10 individuals around volunteering job search and application support, volunteering opportunities, general and mental health support and information on entitlements, The project will also aim to improve awareness via providing access to literature and media through the development of information packs on hot topic subjects to share with 600 - 800 people. The proposed information packs would also be written using simple English and translated into several common languages that are prevalent within the community, making them accessible to a wide range of audiences. The project would also deliver 6 workshops targeting 5 participants per workshop around areas that our client base feel they need more help within order to become more resilient and independent. These areas could include budgeting, recycling, how to buy online (using comparison websites and freebies) cooking (how to make healthy meals utilising leftovers), confidence building, CV writing and developing interview skills. The project will also organise one massive cultural celebration event bringing the whole community together to allow community integration.</p>	
<p>What will the project do?</p> <p>The project has been developed as a result of a combination of factors such as an increasing number of diverse groups in and around the Renfrewshire area; gaps in service provision for hard-to-reach communities; consultations held with target communities in order to assess their needs; anecdotal evidence; evidence from research; and government and local council community development priorities. This information as it relates to our experience of service delivery at a local level in Renfrewshire indicates that regular activities and intervention.</p> <p>The project will support them through the provision of information as well as through developing skills that will allow communities to fight poverty and cushion the effects of welfare reforms.</p>	
<p>Gleniffer Local Priorities: <i>please tick the relevant box(es)</i></p> <ul style="list-style-type: none"> <input type="checkbox"/> Community assets <input type="checkbox"/> What's on in Foxbar, Brediland and Glenburn <input type="checkbox"/> Public Safety and road safety <input type="checkbox"/> Isolation and loneliness <input type="checkbox"/> Play facilities <input checked="" type="checkbox"/> Partial fit with priorities <input type="checkbox"/> Does not fit with priorities <p>Anticipated Outcomes</p> <p>The project will actively encourage us to work with individuals and communities to build on existing and create new social networks and relationships</p>	

We will do this by encouraging communities to be more:

- Connected: The delivery of our interactive sessions will result in diverse communities with the same barriers coming together to share their barriers, concerns on general health and wellbeing whilst also understanding the need to improve themselves through good nutrition and exercise.

- Strengthen trust and shared understanding: As individuals supported will be from diverse community groups, they will have increased knowledge and understanding of cultural and religious barriers and will strengthen trust through shared understanding.

- Build skills: We will build our own project delivery skills and those of people we support through the development of local people from local communities, empowering them by providing opportunities for self-development and self-improvement.

Participants will be able to improve in self-confidence and add to their skills set. The areas of support have been identified as areas of need from previous project work done with target groups.

Note: This application has been marked as a “partial fit with priorities” due to a lack of specific reference to the Gleniffer Local Partnership area.
