Minute of Meeting Renfrewshire Community Planning Partnership Oversight Group

Date	Time	Venue
Monday, 20 May 2019	15:00	Corporate Meeting Room 1, Council Headquarters, Renfrewshire House, Cotton Street, Paisley, PA1 1AN

PRESENT

Councillors Cameron, McEwan and Nicolson.

CHAIR

Councillor Nicolson, Chair, presided.

IN ATTENDANCE

S Black, Chief Executive, L McIntyre, Head of Policy & Commissioning, S Graham, Partnerships & Planning Manager (all Chief Executive's); and C MacDonald, Senior Committee Services Officer, Finance & Resources.

APOLOGIES

Councillors Bibby, McGurk, Paterson and Shaw.

DECLARATIONS OF INTEREST

Councillor J Cameron declared an interest in Item 3 of the agenda as Chair of the Alcohol and Drugs Commission and indicated that it was her intention to remain in the meeting and take part in the discussion thereon.

1 **MINUTE OF PREVIOUS MEETING**

There was submitted the Minute of the meeting of the Community Planning Partnership Oversight Group held on 25 September 2018.

DECIDED: That the Minute be approved.

2 **PUBLIC HEALTH REFORM**

There was submitted a report by the Chief Executive relative to the creation of a new public health body.

The report advised that Public health reform was a partnership between the Scottish Government and COSLA but also required the combined efforts of partners from across the public, private and third sectors and local communities. The reform aimed to challenge current ways of working, put more decisions directly in the hands of citizens and provide support to local communities to develop their own approaches and solutions to local population health challenges.

Community planning and health and social care partnerships would be enablers of change and would work with public health teams and communities to realise the reform ambitions for whole system working to improve the public's health, by developing local solutions to local public health challenges.

It was envisaged that Public Health Scotland would be established in December 2019 and there were several strands of the work already underway to inform how the new body would function and operate.

DECIDED: That the report be noted.

3 **RENFREWSHIRE ALCOHOL AND DRUGS COMMISSION**

There was submitted a report by the Chief Executive which provided an update on the establishment of an Alcohol and Drugs Commission in Renfrewshire.

The report advised that the Alcohol and Drugs Commission was generated through the development of the Community Plan in 2017. The Partnership recognised that there were a range of services and groups and organisations which supported individuals and families affected by drug and alcohol use locally. However, as a community planning partnership, there was a clear commitment to establishing a true picture of the impact of alcohol and drugs in Renfrewshire and to better understanding the implications.

The report advised that support from partner organisations in terms of progressing and responding to the requests of the Commission would be appreciated and attendance at the meetings, while not essential would be welcomed, particularly in terms of specific themes which were of interest. It was noted that following the first meeting of the Commission the programme of work would be circulated for information.

The Head of Policy & Commissioning, Chief Executive's Service, Renfrewshire Council advised that the first meeting of the Commission took place on 19 March 2019. Commission members were engaged in a focused session to provide an overview of Renfrewshire and its population, with high level information provided for discussion on current trends and areas of concern and potential opportunity.

Recommendations from the Commission's work would be reported to the Community Planning Partnership Executive Group in early 2020.

DECIDED:

(a) That the work undertaken to date to establish the Commission be noted; and

(b) That it be noted that regular updates on the work of the Commission would be provided to members of the group, with initial recommendations being reported in early 2020.

4 IS SCOTLAND FAIRER IN 2018 - REPORT BY THE EQUALITIES & HUMAN RIGHTS COMMISSION

There was submitted a report by the Chief Executive which provided an overview of the 'Is Scotland Fairer? 2018' report published by the Equalities and Human Rights Commission.

The report provided an assessment of comparative "fairness" between different groups in key areas of life, such as work and health. The Commission has used the report to drive the development of its new strategic plan which was recently subject to consultation and was scheduled for publication in April 2019.

In 2017, the Our Renfrewshire – Community Plan was approved, with specific themes identified to tackle inequality and promote fairness. The publication of the Equalities and Human Rights Commission report provided an opportunity for community planning partners to review its focus and to identify potential additional areas for collective action.

DECIDED:

(a) That the summary of the Equalities and Human Rights Commission's 'Is Scotland Fairer?' report be noted; and

(b) That the action agreed by Renfrewshire Community Planning Executive Group to identify additional action to be taken forward collectively by community planning partners to tackle inequality and promote fairness be noted.

5 UPDATE ON LOCAL PARTNERSHIPS

There was submitted a report by the Chief Executive relative to an update on the Local Partnerships.

The report advised that the Local Partnerships were now established, and their membership had been agreed, with a wide range of community organisations being represented across the area.

The report intimated that at the first full round of meetings in March and April, Local Partnerships discussed and agreed a set of Local Priorities. It was noted that the

Local Priorities would shape the work plan for the Partnerships going forward, and also support each Local Partnership to make decisions about the award of grants. The priorities would require regular review and refinement as the Local Partnerships established themselves.

Significant work had been carried out to review the grant making processes, improve administration to aid decision making and also to improve the experience of the community organisations who were applying. Three drop-in events to assist organisations to apply for Local Partnership grants were organised during April and May 2019 and work was in progress to carry out a Participatory Budgeting exercise involving young people in order to allocate the Youth Challenge Fund resource which would conclude in late summer 2019.

DECIDED: That the progress made in developing and implementing the Local Partnership Model be noted.

To: Renfrewshire Community Planning Partnership Oversight Group

On: 9 October 2019

Report by:
Chief Executive, Renfrewshire Council

TITLE:
**RENFREWESHIRE COMMUNITY PLANNING PARTNERSHIP ANNUAL REPORT
2018/2019**

1. Summary

- 1.1 Renfrewshire Community Planning Partnership is required to publish by 30 September 2019 and Annual Report for the year 2018/19. This is the second Annual Report since the *Our Renfrewshire* Community Plan was published by 1 October 2017. A copy of the draft Annual Report is attached.
- 1.2 The Annual Report sets out under the four themes of Thriving, Well, Fair and Safe progress and achievements during 2018/19 and current performance.
- 1.3 Some of the key messages included in the Annual Report are as follows:
 - Partners have worked together to grow economic opportunities in Renfrewshire and across the City Region. Core contracts have been awarded, progressing the delivery of major infrastructure and partners work closely to ensure the benefits from key developments such as the Advanced Manufacturing Innovation District Scotland deliver for people in Renfrewshire.
 - The Future Paisley Partnership Board is bringing together 23 key local and national partners determined to transform Paisley and Renfrewshire with cultural regeneration.
 - There is strong performance against economic indicators, including median earnings, VAT paying businesses and spend at local events. Income earned in employment by disabled people has improved, but there are still marked inequalities in earnings with non-disabled people.
 - Alcohol and Drugs Commission is now established and looking how partnership approaches can support local people and communities adversely affected by drug and alcohol use.
 - The focus on reducing the attainment gap has continued, with indicators showing promising reductions in the gap in both literacy and numeracy.
 - Renfrewshire's Local Child Poverty Action Report which shows a range of activities across partners addressing the drivers of child poverty. It is recognised that this work is set in the context of child poverty estimated to rise across Scotland and the UK.

- Early Action Systems Change is an innovative partnership initiative to support young people's emotional wellbeing and prevent coercive control in adolescent relationships, working across the third sector to gain a better understanding of the challenges and drivers of existing service provision.
- Local Partnerships have been established, and have already identified the key priorities for each area. They will provide a stronger local voice for communities and empower community led groups to shape their local areas, progressing the community empowerment agenda in Renfrewshire. This supports the delivery of the Locality Plan, and locality working more generally in the area.
- The Partnership has been developing the way that partners work together, with the first phase of a collaborative leadership programme piloted which connects and develops managers with potential across the Community Planning Partnership.

1.4 Renfrewshire Community Planning Partnership Oversight Group is asked to note that the Renfrewshire Community Planning Partnership Executive Group agreed to focus on the following areas of focus over the coming year:

- Climate change – developing a partnership response to the climate emergency.
- Inclusive Growth – Through the Economic Leadership Panel, and more widely, driving the Economic Strategy and skills plan development process, with a focus on inclusive growth.
- Social Isolation - opportunity for partners to work together to identify isolation and opportunities to address it in partnership.
- Implementing Alcohol and Drug Commission recommendations – moving from recommendations to implementation phase.
- Health Inequalities – focusing on the causes of inequalities in life expectancy and identifying opportunities to tackle these.
- CPP Self -Assessment - identifying improvements for the Community Planning Partnership securing partners contribution and commitments, including the development of the Local Partnerships.
- Brexit – mitigating any impacts from the EU Exit arrangements, and identifying any opportunities.

1.5 As set out above, the Executive Group agreed at its meeting on 9 September 2019 to carry out a self-assessment exercise to critically review the Community Planning Partnership's "fitness for purpose" in achieving shared outcomes. The exercise will use a Partnership Checklist developed by the Improvement Service. The checklist will look at the following areas:

- Clear leadership
- Governance and accountability
- Community engagement and capacity building
- Effective use of joint resources
- Performance management and reporting of outcomes and impacts

2. Recommendations

2.1 It is recommended that Renfrewshire Community Planning Partnership Oversight Group:

- (a) Notes the Annual Report 2018/19, as agreed by the Renfrewshire Community Planning Partnership Executive Group.
- (b) Notes the areas of focus agreed by the Community Planning Partnership Executive Group to be addressed over the coming year.
- (c) Notes the changes to performance indicators agreed by the Community Planning Partnership Executive Group as highlighted in the report.

3. Background

- 3.1 The Community Empowerment (Scotland) Act 2015 gave each community planning partnership the purpose of improving outcomes and reducing inequalities within its area. Each community planning partnership was required to publish by 1 October 2017 a Local Outcome Improvement Plan for its area and a Locality Plan, focused on smaller areas that experience the greatest inequalities.
- 3.2 Community Planning Partnerships are required to publish by 30 September each year an Annual Report setting out progress made in improving outcomes and reducing inequalities.

Author: Sofija Kraft, Planning and Policy Development Officer, Renfrewshire Council Chief Executive's Service, Tel: 0141 618 4168 email: sofija.kraft@renfrewshire.gov.uk

Appendix 1 Community Planning Partnership 2018/2019 Performance

Indicator changes

Our Renfrewshire is Well

Remove

2.8	Number of people who assessed their health as good or very good	Indicator to be removed - This question is no longer asked in the Health and Care Experience Survey.
2.9	Percentage of people who assess their health as good or very good. Renfrewshire average compared against SIMD 1 (the most deprived datazone)	Indicator to be removed - This question is no longer asked in the Health and Care Experience Survey.

Add

2.14	Emergency hospital admissions as a result of an unintentional injury, adults aged 15 and over	<p>In September 2018 it was agreed to develop a new indicator on Unintentional Harm.</p> <p>It is proposed to adapt this Information Services Division (ISD) of NHS Scotland indicator to report on CPP's performance.</p>
	<ul style="list-style-type: none"> Percentage of people who describe their general health as good or very good over the last year Percentage of people from the 15% most deprived communities who describe their general health as good or very good over the last year 	<p>Following the removal of indicators 2.8 "Number of people who assessed their health as good or very good" and 2.9 "Percentage of people who assess their health as good or very good" HSCP recommends considering introducing 2 new indicators as alternative measure of people assessing their own health. Source of both indicators will be NHSGG&C Adult Health and Wellbeing Survey (survey is completed every three years)</p>

Our Renfrewshire is Fair

Remove

3.5	Average Complimentary Tariff (S4)	<p>Indicators to be removed - They do not provide a complete picture of pupil attainment in the senior phase. Nationally, the standard measure is to consider attainment at the point of leaving school and therefore we want to align with this.</p>
3.6	Average Complimentary Tariff (S5)	

Add

3.7	Average total tariff score of all school leavers in Renfrewshire	Indicator added to replace indicators 3.5 "Average Complimentary Tariff (S4)" and 3.6 "Average Complimentary Tariff (S5)"
-----	--	--

Change

3.12	Cultural participation rate for people in the most deprived 20% of Communities	Changed Indicator from: "Cultural participation rate for people in the most deprived 5% of Communities" to "Cultural participation rate for people in the most deprived 20% of Communities". as most deprived 20% of communities represent larger geographical areas.
3.18	Number of people registering to volunteer	Indicator target changed - Scottish Government and the 32 TSIs have been working together to improve the reporting tools used to record progress and achievements; Engage Renfrewshire now use a logic model to show progress against short, medium and long term goals, all of which contribute to the National Performance Framework. Therefore, there will be no longer submission of figures against targets, but rather, using case studies to capture more of the qualitative elements of contribution towards national outcomes.
3.19	Number of people placed in volunteering positions	

Our Renfrewshire is Safe

Change

4.5	Rate of Home Fire Safety Visits per 1,000 dwellings	Indicator changed from "Number of Home Fire visits" to "Rate of Home Fire Safety Visits per 1,000 dwellings" to reflect official Fire Scotland reporting indicator.
-----	---	--

Community Planning Partnership which is sustainable and connected

Change

5.3	Percentage of people with home internet access (Renfrewshire)	Indicator figures changed Last year's annual report provided figures for homes without access to the internet instead of Percentage of people with home internet access.
-----	---	--

11. Appendix 1. Our Renfrewshire Performance 2018/2019

Preface

This is the Annual Report 2018/19 of Renfrewshire Community Planning Partnership.

It describes the progress of Renfrewshire's Community Planning Partnership over 2018-19 and gives practical examples of how partners are working together to make a difference locally.

Our Renfrewshire, the Community Plan for 2017-27 is Renfrewshire Community Planning Partnership's Local Outcome Agreement and Locality Plan.

About Community Planning

What are we?

All of our Community Planning Partners (public, private, voluntary organisations and groups) are working to make Renfrewshire a better place to live. We want to work with each other, and with communities, to provide the services that people want and need locally to make them as good as we possibly can.

Who are we?

Our partnership includes some organisations you will know well – Renfrewshire Council; Police Scotland; the NHS; Scottish Fire and Rescue, West College Scotland, University of West of Scotland: as well as – Scottish Enterprise; Renfrewshire Leisure; the Third Sector Interface called Engage Renfrewshire; Skills Development Scotland; Health and Social Care Partnership and the Department of Work and Pensions.

What are we trying to achieve?

Our vision is:

“Working together to make Renfrewshire a fairer, more inclusive place where all our people, communities and businesses thrive”

Our aim is to work with communities to deliver better services locally to people and to reduce the inequalities across Renfrewshire by doing so.

How are we doing?

Below are some of the key areas where we have improved over the last couple of years. Please refer to Appendix 1 for detailed partnership performance breakdown, however a summary of key achievements is detailed in next sections.

Our Renfrewshire is Thriving

Maximising economic growth, which is inclusive and sustainable

Our priorities

- Growing our working age population by encouraging people to stay here, and attracting new people to settle here
- Identifying opportunities for economic growth across the City Region, and developing thriving and sustainable cultural, creative, digital and manufacturing sectors
- Achieving Inclusive Growth by making sure Renfrewshire's investment and opportunities deliver for all
- Equipping people with the skills and pathways to access opportunities and making sure people can access work which affords them an acceptable standard of living
- Making sure the infrastructure is in place to support growth in local economy and population (such as housing, transport and schools)
- Promoting a positive image and reputation of Paisley, and Renfrewshire as a whole, in Scotland, the UK and internationally

Key highlights:

The City Deal Team continues to make significant progress in all projects. It is anticipated that the City Deal project will create more than 2,300 jobs and inject £867 million into the regional economy. The core contracts have been awarded for the Advanced Manufacturing Innovation District Scotland and the **City Deal Glasgow Airport Investment Area** Infrastructure and construction will commence in 2019. Scottish Enterprise, Scottish Government and other key partners are working closely to ensure the benefits from Advanced Manufacturing Innovation District Scotland are maximised for Renfrewshire and its residents.

The Invest in Renfrewshire programme has supported approximately 300 new business start-ups; delivered 100 Business Gateway workshops with 287 attendees and; 14 Digital Boost workshops with over 700 attendees over 2018/19. Renfrewshire Leisure's Digiteers project provides one-to-one digital skills coaching to learners, with over 90% being job seekers. To further support economic growth, the recently approved Start-up Street initiative will see vacant Renfrewshire Council-owned units on Paisley's George Street adapted into a range of low-cost, high-quality digitally-connected workspaces. The Local Government Benchmarking Framework Indicator Profile, which rates the performance of all Scottish councils recognised that Renfrewshire Council continue to be a leading local authority for employability over the last 2 years with the best figures for getting people into employment

Work is ongoing to deliver a **Renfrewshire Economic Strategy** in Autumn 2019 – the first of its kind for Renfrewshire. The development work is being led by the Renfrewshire Economic Leadership Panel, with a particular focus on strengthening and growing the Renfrewshire economy in ways which people, businesses and places can contribute to and benefit from that growth.

A major commission, focusing on the future of **Paisley Town Centre**, was made in December 2018. This architectural/urban design-led study on the repurposing of town centre spaces is being supported by the Scottish Government and Scotland's Towns Partnership. Work has begun on the new Paisley Museum and Library and the refurbishment

of Paisley Town Hall. National Lottery Heritage Fund has called the Paisley Museum regeneration co-production and audience engagement work 'sector-leading'.

The Untold Story and the UK City of Culture bidding journey radically transformed our thinking about regenerating Paisley and Renfrewshire culturally, physically, economically and socially. With a focus on investing in our strongest assets: culture, heritage and communities, the **Future Paisley Partnership Board** brings together 23 key local and national partners determined to move forward together with shared ambitions for cultural regeneration.

132 individual creative projects have been supported through Renfrewshire Leisure's Cultural Heritage and Events Fund programme. Renfrewshire Leisure is leading partnership working to develop creative sector forums to raise artistic ambition and support development in Paisley.

Work is continuing at pace to promote Renfrewshire as a place to live, work in and visit with the opportunity to see and hear something positive about Paisley and **Renfrewshire exceeded 242 million in 2018/19**. Specific activity has included the launch last year of the paisley.is destination website and dedicated social media channels, with the website achieving 190,808 unique visitors to date. The local economic impact of our events programme was £3.2m against a target of £2.25m.

By March 2019, 312 new affordable homes were completed in the first three years of the **Affordable Newbuild Housing Programme**, involving Renfrewshire Council and housing associations. Seven further sites will take the total anticipated affordable housing completions through the programme to over 400 by 2020.

There were 783 private sector house completions in Renfrewshire during 2018/19, the highest level for over 20 years.

Renfrewshire community planning partners have worked together to develop an understanding of the implications of Brexit for services in Renfrewshire, through the **Brexit Readiness Working Group**

Case Study: Skills Development Scotland January 2019 Paisley apprenticeship event

More than 600 pupils, parents and carers braved the cold weather to find out more about apprenticeship opportunities at a special careers event held in Paisley's Lagoon Centre.

Organised by Skills Development Scotland, in partnership with West College Scotland, the event gave young people the chance to discover the benefits of Foundation, Modern and Graduate Apprenticeships.

There was also an opportunity to meet employers who offer opportunities in businesses throughout Renfrewshire.

Sophie Mackinnon a 3rd year engineering systems apprentice with Aggreko spoke positively about her own experiences and encouraged other local young people to take part. She said:

"I've really enjoyed talking to the young people who attended and sharing my own experiences with them. I hope that I've encouraged them to really consider an apprenticeship as I think it's a brilliant way to learn while you train."

More than 30 employers attended the event, including BBC, BAE Systems, Volvo, Aldi, Rolls Royce, Scottish Water, JP Morgan and Manpower. They were on hand to talk to local young people about the roles on offer and what prospective apprentices could learn while they earn.

Our Renfrewshire is Well

Supporting the wellness and resilience of our citizens and communities

Our priorities

- Promoting wellbeing and good mental health, particularly in our young people
- Promoting healthy lifestyles that support both physical and mental health
- Tackling isolation and loneliness, by connecting people to their communities, and to services
- Enable people to live healthier, for longer, by supporting our older population to stay active
- Developing strong community-based services that respond to local need
- Enabling communities to have their voice heard, and influence the places and services that affect them

Key highlights:

Tackling **isolation and loneliness** continues to be high priority across the partnership. The Strategic Planning Group (SPG) decided a short-term working group on loneliness and social isolation should be created, taking account of the Adult Health and Wellbeing Survey results. The group is made up of third sector, housing association, Health and Social Care Partnership and Council representatives. The aim of the group is to come back to the SPG with actions that can be taken forward to improve the lives of people living in social isolation in Renfrewshire.

We continue to work in partnership to expand social prescribing across Renfrewshire. **Social prescribing** is used primarily for connecting people to non-medical sources of support or resources within their community, aiming to prevent the deterioration of their health. Renfrewshire Health and Social Care Partnership working in partnership with GPs and Community Link Workers in Renfrewshire to help people **change their behaviour relating to emergency hospital admissions as a result of unintentional injury**. There is now a Link Worker in every GP surgery in Renfrewshire who can help provide information and support to connect people into the right services in their community.

In addition, people can find local groups and activities which can support their health and wellbeing online using ALISS (A Local Information System for Scotland). There are currently more than 300

entries for Renfrewshire and this will continue to increase.

Since the **Carers' Act** came into force on 1 April 2018 partners worked together to develop support packages for adult and young carers in Renfrewshire. This included development of Adult Carers Support Plan, support with Young carers statement, delivery of training and information sessions. In 2018/9, 1,435 carers received support from the HSCP and its partners, including 616 new carers.

Case study: Early Action Systems Change

Dartington Service Design Lab, Renfrewshire Council, Renfrewshire Health and Social Care Partnership and Engage Renfrewshire are working in partnership to undertake a three year System Change initiative to promote young people's emotional wellbeing and prevent coercive control in adolescent relationships.

This work forms part of the National Lottery Community Fund's Early Action System Change Fund which aims to address the root causes of inequality.

The Early Action System Change initiative in Renfrewshire was one of eight partnerships selected from over 80 applications from across Scotland.

Small grants were awarded to range of voluntary sector organisations to engage with young people and families to gain a better understanding of the priority challenges and drivers of existing service provision. The findings will inform the next phase of the initiative and will help us to understand how services could better meet the needs of young people in Renfrewshire.

Renfrewshire's young people are inactive and 6,387 (35%) are non swimmers. Findings will allow to establish a baseline on pupil physical activity in Renfrewshire and design targeted programmes to improve physical health outcomes for young people. The research will be carried out annually to track the changes on an individual basis as well as a school by school basis.

Work has begun to launch a **Macmillan Improving the Cancer Journey service in Renfrewshire**. £500,000 grant funding has been provided by Macmillan to develop the service on a partnership basis, which is centred around the provision of a holistic needs assessment for local people and their families.

Renfrewshire Leisure sports service provides an activity programme for every school in Renfrewshire, a community club programme and provides walking and health groups across Renfrewshire. A library outreach project for care establishments is being piloted and a project to develop work between artists and residents in Paisley's outlying areas has been established.

Strong partnership working was evident in **empower local communities** to shape their neighbourhoods. A pilot **Place Plan** was prepared for Foxbar, urban neighbourhood within the town of Paisley, over spring 2018. Led by Foxbar and Brediland Community Council with the support of Renfrewshire Council (Place Making and Community Planning officers) and Paisley Housing Association, the plan identifies the local community vision for the area and priority actions to achieve this. Following the Foxbar Local Place Plan consultation process Foxbar Community Garden & Environmental Projects Group has been formed to take forward Foxbar Community Garden project.

Renfrewshire Leisure, part of Active Schools programme in partnership with Children's Services conducted a research on pupil physical activity across Renfrewshire in 2018/2019. The research was carried out in all Renfrewshire schools from P1 – S6. Around 19,000 of pupils participated in the research. Research established that 4,883 (27%) of

Our Renfrewshire is Fair

Addressing the inequalities which limit life chances

Our priorities

- Ensuring our children get the best possible start in life.
- Addressing the poverty related attainment gap, and young people can achieve success after school.
- Identifying people's needs early, by sharing information and working together.
- Tackling health inequalities and narrowing the gaps in healthy life expectancy.
- Reducing drug and alcohol misuse in our communities.
- Ensure that people currently facing disadvantage get access to opportunities to improve their health, skills and income.

Key Highlights:

Scotland's **Year of Young People** in Renfrewshire has provided the perfect backdrop to showcase the talents of young people in the area through a year-long programme of events and opportunities to get involved. Renfrewshire Council Youth Services has been working with youth work partners and youth groups to deliver activities focusing on the YoYP six themes. Around 3,600 young people engaged in Renfrewshire's events throughout the year.

We have produced a **Local Child Poverty Action Report** that reflects Community Planning Partners' contribution to tackling poverty in Renfrewshire. Council agreed from April 2018 the allocation of a further £5 million support to Renfrewshire's **Tackling poverty programme** over the next 5 years. Using this funding, a programme of activity has been developed to sustain key projects which support people on low-incomes, with a focus on low-income families with children.

The **Improving Life Chances board** which is responsible for taking forward partnership work around life chances and inequalities is now established. Child poverty; skills and employability and

mental health issues caused by loneliness and isolation were agreed as key priorities by the group.

A new pilot under the **No-One Left Behind model** will be an application in the autumn to the new Parental Employment Support Fund from the Scottish Government to support the employability requirements of unemployed and low waged parents. This pilot is expected to contribute significantly to the **Child Poverty Action plan** and will act as a model for future employability developments.

Strong early evidence is now available which demonstrates that the **poverty-related attainment gap in education is closing**. This was evidenced by an inspection report by Education Scotland which acknowledged the Council's excellent progress and highlighted our

sector-leading approaches towards raising attainment. Renfrewshire Council is the first local authority in Scotland to be rated 'excellent' for its progress in improving learning, raising attainment and narrowing the poverty-related attainment gap as part of the Scottish Attainment Challenge.

The Culture, Arts and Social Care group are exploring a number of projects to improve well-being through increasing access to creative and cultural activity. The group are supporting the Open Minds Summit on culture, mental health and young people on World Mental

Health Day 10th October. It is also recognising Paisley's outstanding contribution to the Scottish Mental Health Arts Festival each May by providing consistent financial support. Proposed projects still in development are a Young Producers programme for care experienced young people and a Cultural Buddies programme to support socially isolated individuals attend or participate in cultural events.

Case study: Renfrewshire's Alcohol and Drugs Commission

During 2018/19, Renfrewshire Community Planning Partnership agreed to establish an independent commission to establish a true picture of drug and alcohol use in Renfrewshire, and to make recommendations on what partners can do together to support local people and communities adversely affected by drug and alcohol use and to improve life outcomes.

The commission agreed a programme of work which includes: supporting those with the highest needs; prevention and early intervention including engagement with children and young people and recovery.

It is envisaged that the commission will conclude and report on its recommendations early 2020.

introduced to develop employability skills and opportunities and the **Rapid Rehousing Transitions Plan** will continue to support people to sustain their tenancies on release from prison.

Renfrewshire Community Planning Partnership continue to work together to empower our local communities. In early 2019, seven Local Partnerships were established across Renfrewshire bringing communities, elected members and partners to work together at a local level.

The **Paisley Museum Re-Imagined Project** has established four advisory panels regarding the development of Museum facilities, events and activities to share decision-making with communities.

Renfrewshire Leisure deliver opportunities for inter-generational and family activities and support programmes such Families First and the NHS Vitality/Live Active referral scheme.

The findings of the **Addictions Service Whole System Review** began to be implemented during 2018/19, which will introduce a fully integrated alcohol and drug recovery service model in Renfrewshire.

Criminal Justice partners are working together to address issues of employability and homelessness to support people to avoid re-offending after prison or community sentence. The **Just Learning Project** was

The launch during 2018/19 of the £1.5 million **Community Empowerment Fund** and £1.87million **Green Spaces, Parks and Play Areas and Villages Investment Fund** highlights the Council's commitment to invest in and empower local communities across Renfrewshire. Both funds have made a number of awards since they have been launched providing communities with financial support to help them achieve their aspirations to improve local assets.

Our priorities

- Protecting vulnerable adults and children, ensuring they can live safely and independently.
- Tackling domestic abuse and gender based violence.
- Managing risk of harm and offending behaviour.
- Supporting prison leavers within the community justice arrangements.
- Making sure we are ready to respond to major threats and crisis.

Our Renfrewshire is Safe

Protecting vulnerable people, and working together to manage the risk of harm

Key highlights:

Renfrewshire's Gender-Based Violence Group launched its first three-year strategy at the Reclaim the Night event in November 2019. **The Gender-Based Violence Strategy Group** has representation from senior levels of Renfrewshire Council, the NHS, Police Scotland and third sector partners. It works together to tackle all forms of gender-based violence in Renfrewshire. Partners on the group support those who are survivors of gender-based violence but also provide services which work with perpetrators to address their violence. Preventative work is in evidence and recent successes include work with schools and the growing profile of the 16 Days of Action campaign.

Expanding the **Community Safety Hub** with the Renfrewshire Wardens being based at the Hub, significantly improving partnership working with closer working relationships with partners. The Briefcam technology within the CCTV operations room is now completely operational to allow quicker analysis of CCTV footage. Work continues on expanding the Radio Link and other key priorities allowing the Hub to develop.

The Renfrewshire approach to **tackling Domestic Abuse** has championed the White Ribbon Campaign, the 16 Days of Action and Reclaim the Night to increase awareness and improve the response of all partners. The approach is now receiving recognition across Scotland and has been cited as best practice in Parliament in Holyrood and Westminster; and

Case study: Your Home, Your Street, Our Community

The Your Home, Your Street, Our Community campaign continue to strive for making Renfrewshire a safer, more attractive place to live and work. This programme is a partnership approach led by Police Scotland, and supported by Renfrewshire Council, Engage Renfrewshire, the Scottish Fire and Rescue Service and the Renfrewshire Health and Social Care Partnership, which tackles the local issues that matter to residents. Over past years this programme has been rolled out in number of areas across Renfrewshire, including Ferguslie, Gallowhill and Erskine.

In September 2018 the initiative was also launched for the Shortroods area in Fountain Gardens. Following an 8 month intervention period a follow up survey was carried out aiming to capture the attitudes and perceptions of residents of Shortroods about living in that area.

Results showed that 74.5% of residents stated that Shortroods was now either very good, good or fairly good as a place to live, compared to 57% before the actions were carried out. This is an increase of 17.5%. Furthermore, 65% of Shortroods residents felt very safe, safe or fairly safe to walk in their neighbourhood after dark, compared to 33.5% prior the intervention and 86% of Shortroods residents felt very safe, safe or fairly safe in their homes, compared to 67% before the actions were carried out. This indicate the success and visibility of the targeted approaches.

Continued, with our partners, to deliver on the priorities of the 2018-2021 **Community Justice Renfrewshire plan**. Priorities include: improve community understanding and participation; improving the employability of those with a conviction; tackling homelessness for prison leavers; and mental health and wellbeing support services.

The number of incidents of **anti-social behaviour** reported to Renfrewshire Council Community Safety Service in 2018/19 was 1,711 which is a reduction of 228 from the figure of 1,938 reported in 2017/18. These figures reflect reports ranging from noise complaints and youth disorder to drug and alcohol incidents and gang violence. This shows the excellent work undertaken by Youth Team/Wardens and partners including Police Scotland.

Community Planning Partnership which is sustainable and connected

Renfrewshire Council's **Digital Strategy** sets out a vision and approach to tackling digital exclusion in Renfrewshire. The Digital Strategy is a call to action to work in partnership to coordinate efforts, share resources, knowledge and energy to achieve maximise the benefits of digital. The **Participation Plan** was developed in partnership with over 40 different representatives from the public, private and third sector, and local academic institutions. Engage Renfrewshire, our third sector interface, has been a key partner and supporter of the digital agenda.

Partners continue to work together to enable digital participation by providing free wifi in Paisley, Renfrew and Johnstone town centres. We have also worked with partners to increase awareness of free internet access, and all Renfrewshire's libraries, community centres, leisure facilities and residential homes have free internet access. Renfrewshire Libraries' Digiteer Project provided more than 700 hours of one-to-one digital skills coaching, helping learners to acquire basic digital skills. 90% of learners were job seekers seeking support with online benefit applications and job seeking.

A key achievement to note has also been the development of a new **collaborative leadership programme** across key agencies including Scottish Ambulance Service, Scottish Fire and Rescue, NHS GGC, Police Scotland, Renfrewshire Health and Social Care Partnership, Renfrewshire Council and representatives from local third sector organisations. The pilot programme is aimed at 1st or 2nd tier line managers who show potential to advance within their relevant service. The programme which has operated as a pilot since November 2018 established that there is a clear appetite across all agencies to continue this development going forward.

Completing the draft **Renfrewshire Air Quality Action Plan** covering the three air quality management areas in Renfrewshire. The action plan has been subject to consultation with the Scottish Government, SEPA, neighbouring local authorities and the public.

Case Study: RenSafeOnline

RenSafeOnline is a Council led partnership with GetSafeOnline and community planning partners including Police Scotland working together to promote online safety within the workplace and across the Renfrewshire community by sharing learning resources and delivering training.

Partnership journey so far

Locality Plans

The Our Renfrewshire Locality Plan identified as its focus the 9,000 people in Renfrewshire who live in areas that are within the 5% most deprived in Scotland, as defined by the Scottish Index of Multiple Deprivation (SIMD). This population is located in small areas within the larger communities of Paisley Ferguslie Park, Gallowhill, Seedhill, Foxbar, Johnstone South West and Linwood South areas.

These areas have the poorest outcomes in terms of income and employment, health, education, housing and crime. Specific action that has been taken focused in these areas includes the Foxbar Place Plan, the Nine Streets project, the Street Stuff project and the Your Home, Your Street, Our Community project.

The Foxbar Place Plan is a pilot project to improve places, initially funded by the Scottish Government. The project identified priorities for the future physical development of the area that will be community-led and that will improve outcomes for residents. A template has been developed from the Foxbar Place Plan to enable other communities to take this approach to looking at priorities within their own area.

The Nine Streets project focuses on improving outcomes for people living in the area that was identified in the SIMD as the most deprived in Scotland. It includes actions to improve outcomes on income, employment, education, health, access to services, crime and housing. The project targets services to the right people by engaging with them and targeting services across partners. Positive outcomes to date include increased school attendance and employability.

Street Stuff is a multi-agency project to engage young people in physical activity, in areas with higher levels of antisocial behaviour. The project has now celebrated its tenth anniversary and has contributed to significantly reduced levels of antisocial behaviour across Renfrewshire in comparison with a decade ago.

Your Home, Your Street, Our Community is an initiative that improves the environment in areas that have been impacted by crime and environmental concerns. Communities within the most deprived areas in Renfrewshire have benefited from this multi-agency approach, with evidence of improved environment and lower incidences of crime and antisocial behaviour.

Funded by Future Paisley, engagement has begun around Renfrewshire Leisure's Artists and Residents programme in Gallowhill, East Paisley, Glenburn and Foxbar. The project aims to build capacity in communities to produce, programme and commission artists that best meet the needs of that community.

In addition to these area-specific initiatives, many of the actions contained within each of the sections of the Annual Report will impact most significantly on the communities that are the focus of the Locality Plan. The Child Poverty Action Plan and the Attainment Challenge are two examples of activity which, while operating across Renfrewshire, will have particular impact on communities experiencing deprivation.

Renfrewshire Community Planning Partnership has established seven Local Partnerships to enhance the area focus of its work. Through the Local Partnerships, communities identified in early 2019 a set of priorities for their local area. Over the coming years, these communities and their public services will work together to take action on these priorities to deliver improvements in outcomes for local people. The priorities that the communities have initially identified to be addressed are:

Paisley North, West and Central Local Partnership

Community Empowerment

The Local Partnership want more people to get involved in their community. They want to activate new community groups, and explore the sustainability of the local groups that already exist. This includes succession planning for groups and exploring the availability and sustainability of funding for groups in the area

Tackling social isolation to promote health

The Local Partnership want to help connect people to each other and see this as key to promoting health and wellbeing in the area. They think a key barrier is people being able to physically get to Paisley town centre to access services and groups.

Green spaces

The Local Partnership want to see the development and maintenance of high-quality green spaces in the area, and the use of these spaces to promote physical and mental health. They particularly want address safety and lighting in order to safely access these spaces at night.

Community safety

The Local Partnership want to help people to feel safe in their community. This includes being able to move around the area safely, by tackling issues with pavements and pathways, dog fouling and litter. They also think it is important that there are activities available for young people to avoid them becoming involved in anti-social behaviour and crime.

Gleniffer Local Partnership

Community assets

The Local Partnership want to see busy local community centres, full of activities. They also want to boost community involvement, getting more people involved in local groups and volunteering.

What's on in Gleniffer

The Local Partnership want to develop ways to share information about what is going on locally across the area, including developing community noticeboards and networks.

Public safety and road safety

The Local Partnership want to promote public safety across the area. This includes road safety and managing the speed of traffic in the area.

Isolation and loneliness

The Local Partnership want to tackle isolation and loneliness across the area. They think a key barrier for some people is transport and being able to access activities.

Play facilities

The Local Partnership want to see development of parks and play areas for children and young people.

Johnstone and Linwood Local Partnership

Taking pride in the look and feel of our towns

The Local Partnership want people in Johnstone and Linwood to take pride in the look and feel of their towns and their heritage, with vibrant and well-used town squares, fewer derelict buildings, and making sure the streets are clean.

What's on in Johnstone and Linwood?

The Local Partnership want to explore how people know what's going on across Johnstone and Linwood. They also want to see community spaces and community events which are safe and affordable, particularly in community halls and hubs.

Roads and transport

The Local Partnership want to address a range of issues related to roads and transport, including congestion, speed, parking and public transport connections.

Community safety

The Local Partnership want to see safe spaces, both safe from crime but also safe physical environments. They also want to look at how they can, along with other community leaders, promote the reporting of crime and anti-social behaviour.

Key theme: Focus on young people- The Local Partnership are particularly keen to see a focus on how young people can be engaged and involved in work around the Local Priorities.

In 2020 a 1-year review of Local Partnerships will take place which will inform the views of all stakeholders and performance of Local Partnerships. Fuller analysis of Local Partnership performance will be expected in 2019/2020 annual report.

How does it work?

Renfrewshire Community Planning Partnership revised its governance arrangements in 2016 in order to reflect the requirements of the Community Empowerment Act (Scotland) 2015 and changes that have emerged over years to partnership working structures in Renfrewshire.

The main partnership groups that drive forward the delivery of the Community Plan are:

Economic Leadership Panel - This group informs Renfrewshire's Economic Framework, with members across the private and public sector, with a strong focus on Renfrewshire's business community.

Health and Social Care Strategic Planning Group - This group is part of the Health and Social Care Partnership's governance arrangements, and reports directly to the Health and Social Care Integrated Joint Board.

Community Protection Chief Officers Group - This group brings together the Chief Officers of organisations across Renfrewshire with public protection role. Connected to this, there is also a Member Officer Group' which brings together elected members and key officers, and has a scrutiny role.

Improving Life Chances Board - This is a new group which will be established to take forward partnership work around life chances and inequalities.

Forum for Empowering Communities - This group provides a key link between the Community Planning Partnership, the third sector in Renfrewshire, and our communities.

Community Planning Partnership Executive Group, chaired by the Chief Executive of Renfrewshire Council and comprised of Chief Executive level officers across the Partnership.

Community Planning Partnership Oversight Group chaired by the Leader of Renfrewshire Council, and comprising conveners of the Council's policy boards and a member of the Opposition Group.

Our Renfrewshire Community Plan 2017 – 2027 aims to achieve its vision across 4 key priorities:

- Our Renfrewshire is thriving
- Our Renfrewshire is well
- Our Renfrewshire is fair
- Our Renfrewshire is safe

There is a section within this report on each of the priorities to highlight what we have done throughout 2018-19 to achieve these.

Appendix 1. Our Renfrewshire Performance 2018/2019

Outcome 1: Our Renfrewshire is thriving

Maximising economic growth, which is inclusive and sustainable

 Target achieved

		Value	Value	Value				
2.8	Number of people who assessed their health as good or very good	-	80%	-				Indicator to be removed - This question is no longer asked in the Health and Care Experience Survey.
2.9	Percentage of people who assess their health as good or very good. Renfrewshire average compared against SIMD 1 (the most deprived datazone)	-	73%	-				Indicator to be removed - This question is no longer asked in the Health and Care Experience Survey.
2.10	The gap between minimum and maximum male life expectancy in the communities of Renfrewshire	12.89 years (2012-2016)	14.97 years (2013-2017)	15 years	Data only			<p>There are marked difference between life expectancy in communities in Renfrewshire. Life expectancy in Houston South is 83.8 years compared to 68.8 years in Paisley North West. Male life expectancy in Renfrewshire is 0.7 years below the Scottish average.</p> <p>In order to address health inequalities the HSCP is supporting people through self-care.</p> <p>We know that the health status of our population is characterised by premature illness, associated with adverse life circumstances. We are also aware that the vast majority of our primary and secondary care is reactive, not proactive and not preventative. This is underpinned by health and health seeking-behaviours. In order to make a decisive shift towards self-care and prevention, we are working to support health literacy and inequality-sensitive care across all of our staff groups and services.</p> <p>Approaches based on care and support planning using House of Care and Inequality Sensitive Practice provide a starting point for the development of skills and planning approaches for use across the developing multidisciplinary teams throughout primary care. We continue to work collectively across the partnerships and with acute services and other planning partners such as the third sector and professional education to deliver strong, person centred self-care approaches which will explicitly take account of inequalities and differences in health literacy. This approach will support new models of care and ensure that these tackle inequalities and over-reliance on reactive</p>

3.18	Number of people registering to volunteer	905	1,508	1,148	Data only	↓		<p>Indicator target changed - Scottish Government and the 32 TSIs have been working together to improve the reporting tools used to record progress and achievements; Engage Renfrewshire now use a logic model to show progress against short, medium and long term goals, all of which contribute to the National Performance Framework. Therefore, there will be no longer submission of figures against targets, but rather, using case studies to capture more of the qualitative elements of contribution towards national outcomes.</p>
3.19	Number of people placed in volunteering positions	860	1,264	988	Data only	↓		<p>The figures for 2018/19 show a decrease from the previous year, this fluctuation is normal within volunteering because of the number and type of opportunities which are available. For example, during the Paisley 2021 City of Culture bid, there were an increased number of cultural voluntary opportunities available. There are also fluctuations among the number of young people registering for Saltire Awards.</p> <p>Engage Renfrewshire continue to strive towards promoting volunteering for the benefits which it brings all parties; particularly those around wellbeing and overcoming isolation. Social media and other promotions are used to recruit from the groups who would most benefit from volunteering, and ensure that the good news stories around the impact of volunteering continue to be shared</p> <p>Source: Engage Renfrewshire</p>

To: Renfrewshire Community Planning Partnership Oversight Group

On: 9 October 2019

Report by:

Head of Policy and Commissioning, Renfrewshire Council

TITLE:

RENFREWSHIRE ALCOHOL AND DRUGS COMMISSION

1. Summary

- 1.1 The purpose of this paper is to provide an update to the Community Planning Partnership Oversight Group on the progress of the Alcohol and Drugs Commission in Renfrewshire.

2. Recommendations

- 2.1 It is recommended that Renfrewshire Community Planning Partnership Oversight Group:
- Notes the work undertaken to date to establish the Commission
 - Notes that regular updates on the work of the Commission will be provided to members of the group, with initial recommendations being reported in early 2020.

3. Background

- 3.1 The concept of the establishment of an Alcohol and Drugs Commission was generated through the development of the Community Plan in 2017. Partners considered data relating to drug related deaths and alcohol related hospital admissions and felt that these statistics were only part of the story, as there are clearly many more individuals, families and communities impacted by alcohol and drug use in Renfrewshire on a daily basis.
- 3.2 The partnership recognised that there are a range of services and groups and organisations which support individuals and families affected by drug and alcohol use locally. However, as a community planning partnership, there is a clear commitment to establishing a true picture of the impact in Renfrewshire and to better understand implications in terms of homelessness, adverse childhood experiences, criminal justice, mental health and addiction services for example.

4. Establishment of Renfrewshire Alcohol and Drug Commission

- 4.1 Significant work has been undertaken to establish the Commission. The first and perhaps critical element has been the recruitment of Commission members, a process which has been exceptionally successful.
- 4.2 In December 2018, full Council agreed that the Commission would be chaired by Councillor Jacqueline Cameron. The Commission will also be supported by Professor Phil Hanlon as an external facilitator. Professor Hanlon is currently chair of the Accord Hospice and is a retired public health professional.
- 4.3 The wider membership of the Commission is comprised as follows:
- * Karen McCluskey Community Justice Scotland
 - * Dave Liddell OBE, Scottish Drugs Forum, Chief Executive
 - * Alison Douglas, Alcohol Focus Scotland
 - * Dr Saket Priyadarshi, NHS Greater Glasgow and Clyde, Associate Medical Director
 - * Dr Carole Hunter, NHS Greater Glasgow and Clyde, Lead Pharmacist, Addiction Services
 - * Linda de Caestecker, NHS Greater Glasgow and Clyde, Director of Public Health
 - * Catriona Mathieson, University of Stirling and Drug Research Network Scotland
 - * Neil Hunter, Scottish Children's Reporter Administration (SCRA)
 - * Jardine Simpson, Scottish Recovery Consortium
 - * Justina Murray, Scottish Families Affected by Alcohol and Drugs, Chief Executive Officer
 - * John Goldie, Retired professional
 - * Alan McNiven Engage Renfrewshire, Chief Executive
 - * Alan Murray - Police Scotland
 - * Andrew Horne, Addaction
 - * Fiona Stringfellow, Chief Executive, Blue Triangle
 - * Jennifer David, Director, CELSIS
- 4.4 At the inaugural meeting of the Alcohol and Drugs Commission, commission members heard presentations on:
- Renfrewshire, its place and its people;
 - The high level data which is currently available in terms of drug and alcohol use in Renfrewshire; and
 - An overview of local addiction services, with a particular focus on the outcome of recent review of services.

4.5 A significant element of the meeting was discussion on the work programme of the Commission. Commission members discussed the information provided and the initial aim of the Commission as agreed by Renfrewshire Community Planning Partnership - **“to assess the true impact of drug and alcohol use in Renfrewshire and to identify levers for change by which partners can improve outcomes”**.

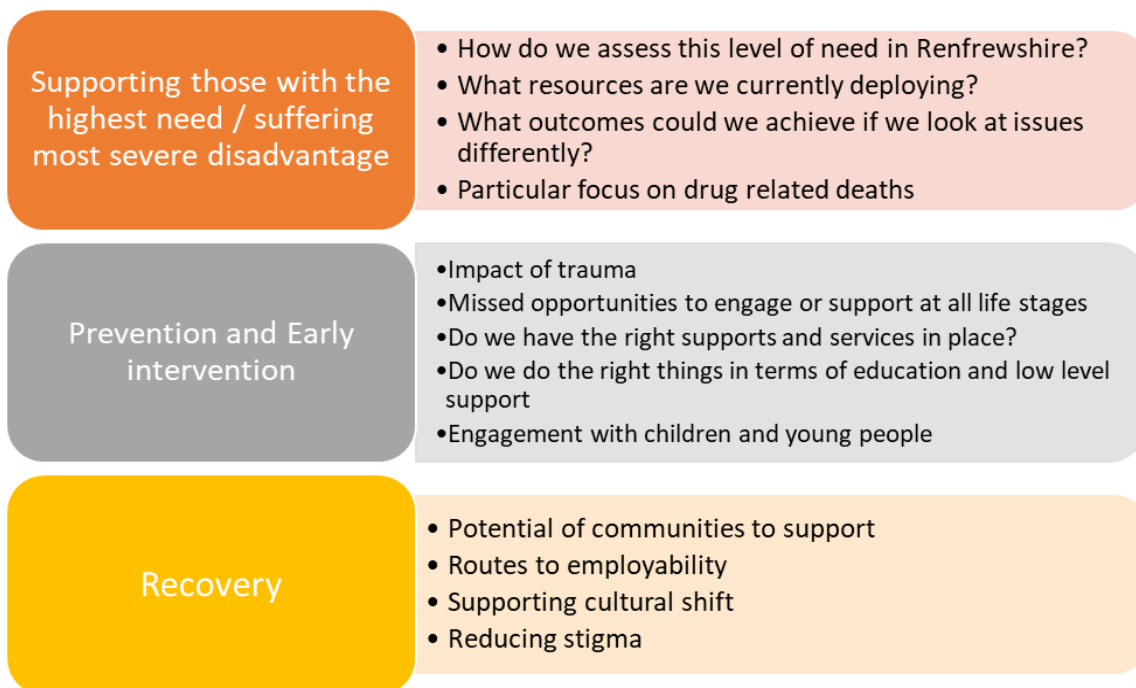

An initial work programme was proposed around the Community Plan themes: - Well, Safe, Thriving and Fair. Commission members felt the proposed scope was potentially too broad. Through positive discussion, a number of key points emerged:

- Members were enthusiastic about the opportunity the Commission presented.
- Commission members felt that the Commission should be outcome focused and think big, particularly around recovery and what community planning partners could do together. It was noted that there is a possibility of being a national leader in this regard.
- There was consensus that the Commission should not narrow its focus to consider drug related deaths alone, however this must be a key priority given rising the rising number of deaths and particular issues of local supply relating to Etizolam.
- For community planning partners, it will be important to look at what is collectively being done to support people with the highest level of needs and to consider whether resources are in right place and are available at the right time?
- Prevention and early intervention are key areas which the Commission identified for further exploration, particularly as these are key areas which partners have some locus in relation to e.g. public health, stigma, cultural views, education and learning, views of children and young people.
- There was consensus that alcohol must be a key area of focus. Particular opportunities were identified in relation to culture, public health, licensing. Through discussion it was clear that in terms of alcohol in particular, there was a need to look across all age groups and socio economic characteristics.

4.6 On 22 May 2019, the commission met for a second time and agreed the terms of reference which included a re-defined aim:

:- to establish a **true picture** of drug and alcohol use in Renfrewshire, and to make recommendations on **what partners can do together** to support local people and communities adversely affected by drug and alcohol use and **to improve life outcomes**.

Also agreed at this meeting was the following programme of work:

Commission timetable

- 25 June 2019 – Supporting those with highest need/suffering most severe disadvantage
- 23 August 2019 – Special meeting to focus on drug related deaths in Renfrewshire
- 3 September 2019 – Prevention and early intervention
- 7 November 2019 - Recovery
- 6 December 2019 – Wrap up session
- 28 January 2020 – Consolidation session

- 4.7 In advance of each meeting, careful consideration is given to: gathering and presenting further evidence; sharing examples of best practices from the UK and abroad; and considering if there are any experts who can share their knowledge and experience with the commission.
- 4.8 Laura McIntyre, Head of Policy and Commissioning, Chief Executive's Service, Renfrewshire Council, will continue to lead on the development and co-ordination of the Commission and will be supported by members of her policy team. Together, they will work closely with the Chair of the Alcohol and Drugs Partnership and with colleagues in the HSCP and other agencies to ensure there is strong ongoing communication in terms of the direction of the Commission.
- 4.9 It is intended that recommendations from the Commission's work will be reported to the Community Planning Partnership Oversight Group in early 2020.

Director of Finance & Resources

TIMETABLE OF MEETINGS FOR THE RENFREWSHIRE COMMUNITY PLANNING PARTNERSHIP OVERSIGHT GROUP - 2020

1. Summary

- 1.1 The purpose of the report is to submit for consideration the proposed calendar of meeting dates for the Renfrewshire Community Planning Partnership Oversight Group for 2020.
- 1.2 It should be noted that although the Board meetings have been scheduled to October 2020 the meetings may be subject to change or cancellation.

2. Recommendations

- 2.1 It is recommended that the Board approves the timetable of meetings to October 2020.

3. Background

- 3.1 The timetable takes account of all standard meetings of the Renfrewshire Community Planning Partnership but does not take into account any ad-hoc meetings which might be held as and when necessary.
- 3.2 The proposed dates and times are as follows:
 - Tuesday 28 April 2020, 2.00pm – 4.00pm
 - Tuesday 6 October 2020, 2.00pm – 4.00pm
