1 **Contract for Approval: Supply and Delivery of Education Materials**

There was submitted a report by the Director of Scotland Excel relative to the award of a second generation framework agreement for education materials which would be effective from 1 August 2017 until 31 July 2019, with an option to extend for two one year periods until 31 July 2021.

The report intimated that the framework would provide councils with a mechanism to procure a range of educational materials.

The framework had been divided into nine lots as detailed in table 1 in the report. Appendix 1 to the report detailed the participation, spend and savings summary of the 32 councils participating in the framework.

The forecast annual spend for participating councils was circa £15m per annum, however, to allow for additional expenditure from grant or attainment funding and increased spend with specialist suppliers not currently captured by the framework, the framework had been advertised at £17.5m per annum. Tender responses had been received from 36 suppliers and a summary of offers received was detailed in Appendix 2 to the report. Based on the criteria and scoring methodology set out in the tender document, a full evaluation of the compliant offers had been completed and Appendix 3 to the report detailed the scoring achieved by each bidder.

The wider public sector had benefited from significant investment and focus in procurement reform since publication of the Review of Public Procurement in Scotland - Report and Recommendations in 2006. The affordable housing sector had not been part of this national transformation programme.

Scotland Excel submitted a proposal to the Scottish Government in 2016 on the role the organisation could play in delivering the Scottish Government's aspirations within the AHSP. The estimated forecast value of the framework portfolio would be just over £1 billion by 31 March 2018.

Scotland Excel was exploring the benefits of further collaborative procurement across high spend, critical service areas of adult social care and was progressing with two stakeholder sub-groups to look at focused work streams for both care at home and adult supported living. This development activity would continue over the remainder of 2017 with a decision being made with stakeholders regarding the appropriate procurement strategy. Under reference to item 2(a) of the Minute of the meeting of the Executive Sub-committee held on 15 September 2017 there was submitted a report by the Director of Scotland Excel providing an update on the final cost incurred defending the legal challenge against the award of the framework for demolition services.

The report intimated that this legal challenge had been successfully defended at the Court of Session in September 2016. The pursuer challenged the award of costs to Scotland Excel and when this failed both parties were unable to reach agreement in the value of costs to be recovered. This resulted in proceeding to a taxation hearing following which a net payment of £29,900 was received by Scotland Excel. Scotland Excel's insurance company agreed to underwrite the claim but the policy excess was £50,000 and as such the net cost incurred was £20,100.

In terms of clause 10.3 of Scotland Excel's terms and conditions of membership, additional costs incurred would be recovered from all member councils on a pro-rata basis. However, on the basis that there was less of a draw on reserves during 2016/17, primarily due to efficiencies made, the report proposed that the net cost be covered by current reserves.

6 Adult Supported Living/Care at Home Update

There was submitted a report by the Director of Scotland Excel relative to the expansion of Scotland Excel's social care procurement shared service.

The report intimated that Scotland Excel had approached the Scottish Government for financial investment to expand its social care procurement shared service. This funding had allowed Scotland Excel to commence on an ambitious work programme that ensured procurement played its part in supporting the Scottish Government's flagship reform of health and social care. The project team was established in May 2017 with the aim of extending the benefits of collaborative procurement to two key areas of social care expenditure, Adult Supported Living and Care at Home, and the objectives of the project were detailed in the report.

Scotland Excel had now established two subgroups, one for Supported Living Services and one for Care at Home. These subgroups comprised both commissioner and provider representation. As well as co-producing requirements with providers via the subgroups, Scotland Excel planned to engage with providers via regional forums and drop-in sessions.

The report detailed the benefits that would be delivered as a result of this project.

DECIDED: That the progress made in the procurement of social care services project be noted.

There was submitted a report by the Director of Scotland Excel relative to Scotland Excel's Annual Conference and Supplier Awards which would be held as a single event on 20 and 21 February 2018 in the Radisson Blu, Glasgow.

The conference offered the opportunity to share and shape best practice in the community fostering further innovation and collaboration across stakeholder groups which would be reflected in the content over the two days.

The report detailed the project deliverables and the four key work streams, being communications; events management; supplier awards and conference; and working together to develop and deliver the conference. This ambitious project aimed to deliver an event that would meet the identified project deliverables, raise Scotland Excel's profile to new and existing suppliers and deliver a relevant, valuable experience to partners.
