Renfrewshire Joint Negotiating Committee for Teachers

To: Renfrewshire Joint Negotiating Committee for Teachers

On: 08th February 2022

Heading: **Absence Statistics – Quarter 2 and Quarter 3 of 2021/22**

1. Summary

- 1.1 The purpose of this report is to provide the committee with absence monitoring information for quarter 2 ending 30th September 2021 and for quarter 3 ending 31st December. The report highlights the continued support in place for employees in response to the Coronavirus (Covid-19) pandemic.
- 1.2 The council has continued to follow Government guidance throughout the pandemic, and this has contributed to a reduction in short term absence with fewer people circulating socially and within workplaces. Working from home continues to reduce the opportunity for transmission, particularly as a result of not having to commute as well as the vaccination programmes impact on suppressing the virus.
- 1.3 The council continues to support those employees on longer term absences, particularly where the absence has been impacted by delayed or postponed medical interventions.

2. Recommendations

- 2.1 It is recommended that the committee notes the content of this report.

3. Background

- 3.1 The Scrutiny Board agreed that absence levels will be reported on a quarterly basis. It was agreed that the report will include the following information relating to supporting attendance: -
 - Absence statistics broken down by service and category of staff.
 - Reasons for absence broken down by service and category of staff.
 - Progress made by services in relation to their supporting attendance action plans.

4. Sickness absence statistics Quarter 2, ending September 2021

- 4.1 A comparison of service and council overall absence performance for quarters ending September 2020 and September 2021 is detailed in table 1 (including covid) below and table 2 (without covid), which is on the following page. In line with the reporting requirements for Scottish Councils, absence is expressed as a number of work days lost per full time equivalent (FTE) employee.

10. Sickness absence reasons and related support measures during quarters 2 and 3.

- 10.1 The main sickness absence reasons presented and their percentage contribution by quarter are:

- 10.2 Psychological (non-work related), Musculoskeletal and Joint Disorders and Respiratory remain the top presenting reasons.
- 10.3 To support employees with psychological absences, the council provides a range of support services that employees can be referred to at an early stage for assistance, such as the council's Occupational Health Service and the Time for Talking employee counselling service.
- 10.4 Through the Occupational Health Service, employees can access Cognitive Behavioural Therapy (CBT) for more complex psychological issues.
- 10.5 The Time for Talking counselling service provides confidential support to employees with a range of personal health and well-being issues. It operates a flexible approach to appointments offering telephone consultations in the early mornings or evenings as well as throughout the day. As part of the Covid-19 control measures, the face-to-face service was temporarily

suspended in line with UK Government's guidance and is currently operated through secure video conferencing and telephone consultations.

- 10.6 For quarters 2 and 3 there were a **total of 519** appointments supported by the Time for Talking counselling service. The 3 main presenting reasons are **personal, work, and personal** and **work**. (which are expressed below as a % of all overall referrals):

- 10.7 Stress risk assessments are undertaken to support employees who have identified stress as having an impact on their wellbeing. An action plan is agreed and undertaken at a local level with the specialist support from HR and OD.
- 10.8 HR and OD work in collaboration with the NHS Choose Life Team, who offer safeTalk and ASIST on suicide awareness and prevention. Additionally, work continues with NHS colleagues to promote the “Doing Well” service which supports employees with depression and low moods.
- 10.9 The Physiotherapy service supports employees with Muscoskeletal and joint disorder conditions through the Council's Occupational Health Service. As part of the coronavirus (Covid-19) control measures, the face to face service was temporarily suspended until September in line with UK Government's coronavirus (Covid-19) guidance. However, the service has continued to be provided throughout the period using secure video conferencing and telephone consultations.
- 10.10 For quarters 2 and 3 there were a **total of 1,479** appointments arranged through the Occupational Health Service, this includes management referrals and wellbeing referrals. The graphics below detail the referrals per quarter:

11. Coronavirus (Covid 19)

- 11.1 Covid19 sickness absence continues to be monitored through a dedicated team within HR and OD and reported to the Corporate Management Team daily. The team work closely with our colleagues in public health and monitor the impact of test and protect within our schools and workplaces.
- 11.2 The HR and OD team have been working collaboratively with all key stakeholders, including the Trades Unions, across the council to ensure that any activities being undertaken, especially by key workers, are in line with any changes to the guidance or legislation as it has emerged.
- 11.3 A key continued priority for the council is protecting the mental health and wellbeing of the workforce. The HR and OD team, working closely with the communications and marketing service, regularly engage with the workforce to provide access to a wide range of mental health and wellbeing support and services.
- 11.4 The corporate personal protective equipment group continues to ensure that stocks of PPE are maintained at a reasonable level and are available for all those who require it. The group monitors new and emerging guidance to manage impact and ensure resilience.
- 11.5 The team continue to implement updated Government guidance, reflecting changes to local policy where necessary. This includes the ways in which those who are currently working from home can apply practical solutions to ensure they are working safely, including display screen equipment or the type of office equipment they require. The health and safety team continue to offer virtual assessments and advice to support everyone with their set up. Employees with existing medical conditions are offered additional support from Occupational Health.

12. Measures to support attendance at work

- 12.1 A number of measures being progressed to support attendance at work, include the following: -
 - HR and OD, working closely with Occupational Health, embarked upon the employee seasonal flu vaccination programme. This will continue until the end of January 2022.
 - The corporate absence review group, which consists of senior managers, are currently reviewing all of the current supporting attendance policies and processes.
 - We are in the process of renewing the Occupational Health and Employee Counselling contracts with a view to developing a robust employee assistance

programme. This involves collaboration with the key stakeholders across the council and trades unions.

- HR and OD and the Business World Team are working to improve the absence information available to managers, and to streamline supporting attendance related processes to facilitate prompt absence reporting, recording and updating of relevant systems.
- Increased frequency of reporting sickness absence information to the Corporate Management Team and Absence champions. This will assist to help develop supportive strategies and interventions that will enable employees to be supported back to work.
- In collaboration with the communications and marketing service, regular information and guidance continues to be issued, particularly around well-being issues as we move through the stages of the Scottish Government's recovery route map.
