It is to be sited outside so needs be in an outdoor cabinet which are heated and lit. The installation will include a community training course. It has been brought up in Community Council meetings that we have no defibrillator accessible to the village. We felt that this should be addressed as the village population, as everywhere else, has more older residents. We will get it installed and arrange a training session for local business owners and members of the community council. We will advertise the session on our facebook page and on our new website to ensure we get good attendance. Having a defibrillator available to the village residents should the need to use one arise. We are lucky that there is a resident in the village who does this as his day job so ongoing he will maintain and provide further training should it be required.
