Recording of Meeting

Prior to the commencement of the meeting, the Chair intimated that this meeting of the Local Partnership would be recorded and that the recording would be available on the Council's website.

Declarations of Interest

There were no declarations of interest intimated prior to commencement of the meeting.

1. Minute of Previous Meeting

There was submitted the Minute of the meeting of the Local Partnership held on 15 June 2021.

DECIDED: That the Minute be approved.

2. #YOUDECIDE

G Hannah delivered a presentation relative to #YouDecide, a participatory budgeting exercise that gave communities a key role in deciding their priorities for environmental and physical infrastructure improvements to be undertaken throughout Renfrewshire over the next three years via a Community Investment Fund of £1.2m.

The presentation explained the #YouDecide concept and highlighted the marketing and promotional work already undertaken as a first phase to encourage communities, groups and individuals to submit their ideas for environmental improvements. A video was shown, featuring local groups and individuals, which explained how to get involved and inspired the submission of ideas. As a result of engagement initiatives, over 2700 proposals/ideals had been submitted, with over 330 ideas/proposals for improvements for the Paisley North, West & Central area.

The second phase of #YouDecide was underway and would conclude at the end of January 2022 with a shortlist of projects that were suitable and feasible having undergone technical assessment against set criteria. During the third and final phase of #YouDecide communities would be invited to vote on which shortlisted project they wished to see proceed. It was anticipated that the winning projects would be announced in early March 2022.

DECIDED: That the presentation be noted.

3. COMMUNITIES MENTAL HEALTH & WELLBEING FUND

There was submitted a presentation by I Cunningham, Engage Renfrewshire, relative to the national Communities Mental Health & Wellbeing Fund (the Fund). The Fund aimed to promote and develop good mental health and wellbeing and to protect against the impact of distress and mental ill health in adults.

Engage Renfrewshire announced that Renfrewshire had secured an award of £509,542 from the Fund and small “grass roots” community groups and organisations with a strong community focus could apply for funding towards projects that tackled issues such as: suicide prevention; social isolation; loneliness prevention and early intervention; and/or addressed any mental health inequalities exacerbated by the pandemic and the needs of a range of “at risk” groups locally.

More information, including application forms and project examples, was available online:

I Cunningham advised that applications were now live on Engage Renfrewshire's website and the deadline for applications was 7 January 2022. It was noted that the funds required to be allocated by end of March 2022. Multiple applications would be accepted provided that there were submitted for different projects.

DECIDED:

(a) That the presentation be noted; and

(b) That as Engage Renfrewshire was the contact point for enquiries, applications, delivery of funds and monitoring compliance, members should contact Stuart Miller at stuart.miller@engagerenfrewshire.org to suggest suitable projects.

4. PAISLEY NORTH WEST AND CENTRAL LOCAL PRIORITIES WORKSHOP

There was submitted a report by the Chief Executive relative to Paisley North West and Central local priorities.

The report advised that the Local Partnership had previously agreed a set of local priorities for the area on which it wished to see progress made. Details of the four priorities were outlined in an appendix to the report. The Partnership Planning and Development Manager invited the Partnership to discuss specific points under each of the priorities in a workshop format.

Issues raised included providing information to local groups, Community Councils etc. when redundant council assets became available; difficulties experienced by local charitable organisations in accessing a secure, sustainable funding base and premises to enable them to carry out the aims of their constitutions; community wealth building; the possibility of groups which were delivering successful projects supporting and mentoring newer groups; accessing the Community Health & Wellbeing fund; and an outdoor sports facility for the racecourse area at St James' Park.

Following discussion, the Partnership Planning and Development Manager undertook to submit a report to the next meeting of the Partnership formalising the ideas and comments submitted.

DECIDED:

(a) That the Partnership Planning and Development Manager undertook to submit a report to the next meeting of the Partnership formalising the ideas and comments submitted; and

(b) That the report be otherwise noted.

5. PAISLEY NORTH, CENTRAL AND WEST LOCAL PARTNERSHIP BUDGET MONITORING REPORT

There was submitted a report by the Chief Executive relative to the status of the budget allocated to this Partnership for disbursement to local voluntary groups and

organisations from the General Fund and Celebrating Renfrewshire. A table setting out the funds allocated by Paisley North, West and Central Local Partnership at its meeting on 15 June was appended to the report, together with details of funds allocated through the 2021 Celebrating Renfrewshire exercise to projects focussed on young people aged 12-25.

DECIDED: That the report be noted.

6. DATE OF NEXT MEETING

DECIDED: It was noted that the next meeting of the Partnership was scheduled for Tuesday 15 February 2022 at 6.00 pm.

To: Paisley North West and Central Local Partnership

On: 21 June 2022

TITLE:
**Applications for Local Partnership Funding To Paisley
North West and Central Local Partnership 2022/23**

1. Summary

- 1.1 Applications for grant funding from the seven Local Partnership areas were invited to be submitted during March and April 2022, to be considered at the Local Partnership meetings due to be held in June 2022.
- 1.2 The available allocation for Paisley North West and Central Local Partnership for 2022/23 is £56,202 made up of £45,822 from the General Fund and £10,380 from Paisley Common Good Fund.
- 1.3 From this total budget, a sum of £50 per community representative requires to be ringfenced for potential claim of expenses. These expenses are deducted from the available allocation for the Local Partnership. Paisley North West and Central Local Partnership has space for ten community members, so the total ringfenced for expenses is £500. **The total budget available for allocation by Paisley North, West and Central Local Partnership is therefore £55,702.**
- 1.4 The Youth Challenge Fund component of Paisley North West and Central Local Partnership Funding for 2022/23 is £21,133. This funding will be allocated by young people through a Participatory Budgeting exercise that will take place during autumn 2022.

2. Recommendations

- 2.1 It is recommended that members of Paisley North West and Central Local Partnership consider the applications for Local Partnership grant funding, as set out below in Appendix 1 and 2.

3. Background

- 3.1 Applicants for funding in 2022/23 have been provided with guidance, as well as a description of the Local Priorities identified by Paisley North West and Central Local Partnership.
- 3.2 Local Partnership members are asked to consider the applications for funding summarised at Appendix 1 and 2 of this report, and to assess these against the Local Priorities agreed by Paisley North West and Central.
- 3.3 An initial assessment has been carried out by officers to support Local Partnership members in their decision-making. Where applications have made clear reference to the Local Priorities identified by the Local Partnership, this is identified in the first table at Appendix 1. Applications that make a partial or no reference to Paisley North West and Central Local Priorities are summarised in the second table – for example, the project may tackle social isolation (and therefore meet the Local Priority around social isolation) but not deliver this directly in the Local Partnership area or make reference to how many people from the area would be engaged in the project.
- 3.4 The priorities of Paisley North West and Central Local Partnership are:

Community Empowerment

The Local Partnership want more people to get involved in their community. They want to activate new community groups, and explore the sustainability of the local groups that already exist. This includes succession planning for groups and exploring the availability and sustainability of funding for groups in the area.

Tackling social isolation to promote health

The Local Partnership want to help connect people to each other and see this as key to promoting health and wellbeing in the area. They think a key barrier is people being able to physically get to Paisley town centre to access services and groups.

Green spaces

The Local Partnership want to see the development and maintenance of high-quality green spaces in the area, and the use of these spaces to promote physical and mental health. They particularly want address safety and lighting in order to safely access these spaces at night.

Community safety

The Local Partnership want to help people to feel safe in their community. This includes being able to move around the area safely, by tackling issues with pavements and pathways, dog fouling and litter. They also think it is important that there are activities available for young people to avoid them becoming involved in anti-social behaviour and crime.

APPENDIX 1 – GRANT APPLICATIONS RECEIVED BY PRIORITY THEME

Project Name: Artworks Community Workshops	Amount applied for: £ 5448
<p>Purpose of the project</p> <p>An autumn programme of FREE Creative Learning workshops to develop the creativity and skills of community participants. To encourage people to be more open minded, inquisitive, to harness imagination, identify & solve problems, & develop creative approaches to learning. To engage people in new social activity that boosts that their mental health and well-being and aids positive engagement with other people. The Workshops will be delivered by professional artists in a dedicated gallery setting in the Paisley Centre.</p> <p>We have been running a successful series workshop since Feb/Mar, Jul/Aug & Oct/Nov 2021 and again in Feb/Mar 2022. These four-hour FREE workshops have been running at least twice weekly and have been fully booked by mainly local participants. They cover painting, drawing, print making, pottery, film, photography, animation, and mixed media. Participants were given FREE art materials to overcome any financial barriers to participation. We advertise the events via Facebook, twitter and Eventbrite. They have filled a vital gap for many people.</p>	
<p>What will the project do?</p> <p>The programme would be a series of twice weekly daytime workshops in Autumn 2022, 24 workshops in total. They would take place in The Art Department, a new large-scale exhibition venue at the former Alders Store in the Paisley Centre. Workshops would focus on a particular theme, skill, medium or practice. Groups of up to 30 participants will work together to produce a piece 'work'. Each workshop will be delivered by an experienced artist who is versed in a particular practice. The primary objective is for people to improve social connections</p>

Project Name: Buddy Food	Amount applied for: £ 2000
Purpose of the project Like everyone the last 2 years have not been the best, however due to the isolation we have noticed that a good number of our members have deteriorated due to loneliness. Buddy Food we felt would be a great way of getting people back together and sharing a nutritious meal this would be in the form of a lunch. This project will tackle food poverty, reduce loneliness and isolation, strengthen partnership working with the wider community, increase health and wellbeing. This was identified as we slowly started to meet back up we noticed that a good number of our members had lost weight. We as a group have many contacts with other older groups and have been told to look out for Malnutrition 1 in 10 older adults aged 65+ are malnourished and this is where we would like to do something about this.	
What will the project do? Our project is to create weekly lunch clubs within our 10 complexes that will provide a nutritious lunch that will combat malnutrition. We plan to have valuable information available and also want to create a recipe book with simple nutritional meals on a budget that we can share with the wider community including schools. Introducing them back to basic with information on healthy eating and why its so important to have plenty of fruit and veg in our diet as we age. Even if it is a good plate of soup and fruit salad it all helps.

- ☐ Partial fit with priorities
☐ Does not fit with priorities

Anticipated Outcomes

Our project meets the local priorities as we are bringing people that are socially isolated and focusing on their health. Once we tackle the healthy eating, they will feel physically fitter within themselves and be able to get back out and about accessing services and groups in the wider community.

<p>Purpose of the project</p> <p>To provide a sprung floor for participants to train on - most importantly for those with physical, sensory, and emotional needs. Children with disabilities require a softer environment to ensure they are safe at all times whilst participating in this this physical activity.</p> <p>As our ASN programme grows we want to ensure our volunteer coaches are up to date with the most recent training/credentialing provided by NGBs in Scotland.</p> <p>We first engaged with ParaCheer International (based in London) in 2017 with an interest to develop the sport in Scotland. We have regularly engaged with them over the years who advised the sprung floor was an imperative safety aspect to develop the sport in this country.</p> <p>In addition to this - as a new sport there is no mainstream opportunities for our volunteer coaches. With ASN groups you need an in depth understanding of their individual needs to support them in class. Therefor we have to provide training through NGBs to achieve this.</p>	
<p>What will the project do?</p> <p>Permanent sprung floor in our facility which can be used by a wide range of groups (with ASN groups having priority).</p> <p>All our volunteer coaches attending relevant ASN training/credentialing.</p>

Project Name: REEM Drop-in Centre	Amount applied for: £ 3365
<p>Purpose of the project</p> <p>Community as an impartial access point. A place people feel comfortable approaching for advice and advocacy. We see a wide range of people from different cultures with their own unique barriers, situations and needs. The centre is already helping a lot of people and the demand of the project has been overwhelming. There is a need to keep the centre 5 days a week due to demand.</p> <p>We are looking for funding to cover basic running costs.</p> <p>When various minorities leave their home countries they are faced with new customs and ways of doing things. They struggle to cope with life changing events without the support of family and friends and with no one to speak to within their new community. They do not interact for several reasons, including trust issues, language difficulties or religious belief.</p> <p>The project was initiated by a group of people who themselves went through a similar phase and are aware of the need.</p>	
<p>What will the project do?</p> <p>The centre serves as a first point of contact for people from immigrant communities. It is used by a variety of people including families, students, workers, asylum seekers and refugees; some of whom have little grasp of English while others need a translator to communicate at all. We provide some much-needed training; including ESOL, job matters, & awareness on other issues, helping with housing, tackling racism, giving advice with Brexit, tackling isolation.</p>

Project Name: Spuds for Buddies (Phase 5)	Amount applied for: £2000
Purpose of the project To expand community gardening activities enabling local nursery children, school pupil groups and community groups to enhance their social skills, self-confidence and work experience. We plan to run 15 x 3 hour workshops with practical gardening tasks using potato growing in schools/community venues. This will share understanding of where food comes from and how to care for their local environment.	
What will the project do? In the last 5 years, the Spuds for Buddies Phase has been successful in working with local schools (St. James' Primary, Mossvale Primary); local nurseries (e.g. Rainbow Nursery, Mossvale Nursery, Douglas Street Nursery); Shortroods After School Care and several community groups to raise awareness of healthy eating and improve gardening skills in the Paisley North area. Potatoes have been grown, harvested and taken by children for use in healthy eating cookery activities or for their family meals. The project will assist in tackling community safety, social isolation, and health issues within the Paisley North area by providing workshops and resources targeted at inequalities. The project will be coordinated by a sessional worker and local volunteers with gardening skills. New learning opportunities will be developed in horticulture, the food cycle, food production, and healthy eating through gardening activity. It improves access to a safe outdoor learning environment in local greenspace.

Project Name: Storm Trampoline & ASN	Amount applied for: £10,000
Purpose of the project We aim to enhance our facilities to offer extra trampoline classes within our gymnastics facilities. We would also like to add in specialised equipment to offer classes to accommodate ASN children. We would like our club to be fully inclusive to promote safe physical and mental wellbeing for all children.	
What will the project do? We have identified this need through parents' enquiries which lead us to look in to trampoline / ASN classes available and there are very few. This project will offer more variety of classes to more children and open up to a wider range of children with additional special needs.

Project Name:	Amount applied for:

Bridging Digital	£9600
Purpose of the project We want to deepen our thinking about the potential of up-scalability of the apprenticeship model work experience we deliver for long-term unemployed people, particularly in light of the past 2 years. During lockdown, we learned that with good digital access, equipment and skills, we can reach many more people than in person working practices allow. Our aim now is to develop those practices further and 'upscale' our digital reach so that we can move forward and deliver services to many more people with long term conditions or barriers to work.	
What will the project do? Physical and mental wellbeing have been hit hard by the isolation of the pandemic. For some people, it is their day to day lived experience to be locked down due to physical or mental health issues which can also lead to destructive coping mechanisms in the long term. Involvement in projects with Fablevision has improved lives: the feeling of self worth and being part of a community, of learning and progressing towards taking charge of our own future is priceless and cannot be restricted by lockdown or, indeed, a mobility or other health issue. With Voluntary and Community funding we could buy new, up to date and adapted equipment, new materials and widen our outreach with access to the platforms and subscriptions that we need to train, involve and employ people with barriers to work remotely. By opening up online training courses there will be more ways than ever to become part of the Fablevision community via remote skills workshops and professional contracts as well as coming in physically to work alongside our professional artists in the apprenticeship style of the current model.

This partnership would mean a supported film delivery process, from concept to screening, that allows groups and/or individuals to create a work remotely/in person and be able to showcase their work or services in shared, accessible, community events and online.

Project Name: Advancing Renfrewshire Tours	Amount applied for: £3737
Purpose of the project Purchase start-up resources to operate and market ourselves. Functional laptop, broadband, software, coloured printer/ scanner. We will launch by organising an event, at the same time use this opportunity to gather insightful feedback plus proactively forward plan historical tours for a full calendar year, create new booklet via a local professional marketing company. Upgrade our logo, business cards, and improve our website, facebook, with our new brand, sharing with partners/local businesses.	
What will the project do? By way of statistical feedback which we gathered, i.e. surveying our customers, using social media to bolster our membership. 75% of members asked us to provide more tours so there is a clear need. But, we need to have adequate resources to be able to operate in a professional manner. Currently we are using a personal mobile phone to conduct our business which is not sustainable given our growth in a short space of time. We forecast this growth will continue and want to ensure we have right equipment. Enable us to purchase a laptop, broadband, software, coloured printer and scanner. Marketing materials from local providers. Help with branding and maximisation of reach via social media channels. We will create a budget spreadsheet which our treasurer will monitor all income and expenditure and see professional advice from experts on most appropriate software and set up of equipment. This will enable us to reach the widest possible catchment areas and ultimately encourage all age groups to join as volunteers.

Project Name: Fair Trade Education and Promotion	Amount applied for: £2000
Purpose of the project To build on Rainbow Turtle's education work, creating local, informed and active global citizens, particularly our young people and their teachers. This will include the facilitation of workshops and activities on Fair Trade and its environmental impact, to connect not only with the Fairtrade Schools awards system but also the Eco Schools. With a focus on this local partnership's interest in supporting social connections, Rainbow Turtle facilitates the sharing of resources and skills with our regular schools and adult conferences.	
What will the project do? Rainbow Turtle came out a global movement and a need to implement something locally in Renfrewshire. This need was identified by Renfrewshire Councils and local activists in churches and voluntary groups. Schools also wanted more information about Fair Trade	

and the education officer post grew out of that need.

Our specific aims are:

- * to meet increased demand to host schools conferences during the year, enabling young people to engage actively with issues of social justice, the environment, Global Citizenship and Fair Trade;
- * to host and facilitate at least 1 producer visit, combining with one of the above conferences as we have in 2021 and in previous years;
- * to work directly with the young people on school Fair Trade and Eco committees to embed Fair Trade issues deeper into the curriculum.

<p>Purpose of the project</p> <p>The purpose of the project is to provide transport to and from the Friendly Hour for members. We provide an afternoon of friendship and fellowship that allows the members to meet and develop their friendships. Entertainment and social activities are provided on a weekly basis from October to May. Children and Adults provide the Entertainment. Members also have a much-appreciated cup of tea or coffee and goodies. The programme includes a Christmas lunch and an annual outing.</p>	
<p>What will the project do?</p> <p>The Committee identified many members would be unable to attend our weekly meeting without provision of transport. Many of our members live alone and the Friendly Hour is the only time they may see other people. It gives them some entertainment which avoids an afternoon of loneliness and isolation. Our average age is over 85 and many are quite infirm. There is a greater need for these people to be transported to a happy and lively environment for a few hours on a weekly basis.</p> <p>If we are successful in securing the grant, it will assist us to continue to provide much needed transport to bring these people to and from the Friendly Hour, thus giving them much needed company and socialisation.</p>

Reference: FR1073	Organisation Name: The New Tannahill Centre Ltd
Project Name: Community Kitchen Refurbishment	Amount applied for: £10,000
Purpose of the project: We will refurbish the small community kitchen which makes up part of our community room. The community room hosts a range of services run by the Tannahill Centre and other organisations such as the Darkwood Crew's Community Meal, St. Ninians's Church Drop-In for vulnerable people and Quarriers Head Injury Group who all make use of the kitchen space. Following lockdown, we've also established a regular lunch club for older people, providing a meal and other activities that tackle social isolation and loneliness.	
What will the project do? During lockdown we identified and supported a wide range of people who previously didn't access any services as they were stuck at home. Following lockdown we established a lunch club, including an option to pick people up from home so they could not only access the lunch club, but other services that are delivered from within the Tannahill Centre. The kitchen in the community room is now over 26 years old. It's age and condition are limiting the support that volunteers can provide to older people. The kitchen will be replaced, this includes worktops, flooring, tiling and equipment. Whilst we currently comply with all legislation, this improvement will enable us to work to higher standards. It will also enable us to increase the provisions we currently deliver and enable us to do so in a safe way too.

<p>What will the project do?</p> <p>We have been approached by local primary schools in the areas in which we currently work with older young people, expressing an interest in us running similar primary school age programmes. Young people we currently work with have retrospectively expressed their disappointment in not having anything like CREATE for them during their time at Primary school. Parents of young people who already engage with us have asked about programmes for younger siblings of primary age.</p> <p>Our programme will bring together children from primary schools in Shortroods, to engage in creative activities which will allow them to mix with children from other schools in their community. We will do this through the delivery of weekly sessions open to all P6/P7s in the area where they will be given opportunities to experience various creative workshops and drop-in sessions. FR1084	Bungalow Enterprises CIC
Project Name: Older Adults Music Club	Amount applied for: £3000
Purpose of the project Thanks to a grant from the Local Partnership last year The Bungalow has successfully started and sustained a youth music programme. Now young acts, many of them first timers have an opportunity to play at our Open Stage Session every Sunday. We want to do something similar, this time we want to do more for older adults in Renfrewshire. Our project is to kick-start an Older Adult Session will be an opportunity for older adults to meet people, socialise and laugh whilst investing in their physical and mental health through this wellbeing project.	
What will the project do? We organise a subgroup comprising of older regulars and the question we asked them was 'how can we do more for older adults' The feedback from that group has shaped this application to reflect what they wanted. the message from the group was that they wanted a social aspect to the Bungalow and the feeling of being a part of that community. We will work with older adults to support their emotional, psychological and social wellbeing. For a person with the onset of dementia, this might mean helping them to connect with their family through shared music making, helping them to feel valued and heard. We will provide ways to connect and share feelings, memories and moments with others, and offer stimulation and encourage expression. Activities will include: Name That Tune Pictogram Finish the Song Title Exercise and Sing-along Down Memory Lane Music Bingo

Development Trust and Paisley Darkside Historical Walking Tours	
<p>Purpose of the project</p> <p>We are working with partners on joint projects to locate mobility equipment for hire across Renfrewshire thus making it easier for those with mobility issues to hire equipment in their locality. Equipment is free for hire during the day. If hired overnight it will cost £5 for a scooter and £1 for a wheelchair. Shopmobility will own, maintain and insure equipment safe for use. We will hire local volunteers in the area to help manage this project, provide expenses for doing so and kit volunteers out with branded uniforms, training, development.</p>	
<p>What will the project do?</p> <p>Meetings: Inchinnan Development Trust have an ageing population. Many local people will benefit from getting out to do their shopping in Erskine for example. Survey being sent out to the community which will be shared with Erskine and Bishopton which will give us statistical representation of need.</p> <p>Paisley Darkside Historical Walking Tours - will locate equipment in their Paisley Centre Office due to demand opening up opportunities for those with mobility issues to participate in tours and hire from their local office. We anticipate growth.</p> <p>Essentially this project will open up opportunities for local people in their communities to be able to hire mobility scooters and wheelchairs at no or low cost. No project of this kind has ever been carried out in Renfrewshire and what a great opportunity to also offer local people robust volunteering roles with training, development thus helping their journey to another positive destination. We are well equipped within our organisation to roll out this project confidently and in partnership with local communities.</p>

Purpose of the project: The purpose of this project is to add to our equipment store vango hike tents and cooking equipment to allow the Explorer Scouts 14 yrs to 18 yrs girls and boys to take part in camping expeditions for the DOE award bronze and silver	
What will the project do? Post covid pandemic our membership of Explorer Scouts has increased from 7 members to 25 members, due to isolation and lack of participation during lockdown period. the young people decided to enrol for the duke of Edinburgh award scheme, and have progressed well in bronze and silver awards there is a desire from the young people to take part in outdoor activities offered by the group. We identified a need for new equipment to support this section of young people. This grant funding would allow the group to purchase more hike tents and cooking equipment to support the young people taking part in the outdoor expedition section of the duke of Edinburgh award scheme.

Project Name: Servicing & Maintenance of Sewing Machines	Amount applied for: £950

<p>Purpose of the project:</p> <p>Integral to the success of our participatory programme is providing a stock of robust, reliable sewing machines for our participants to use. Servicing of our machines is important to ensure they can continue to be a user friendly and accessible community resource. We would like to request funding for the servicing of our existing 10 machines and to purchase 1 additional machine to add to our stock. This essential work will support the ongoing sustainability of our project.</p>
<p>What will the project do?</p> <p>Our current stock of machines is a mix of purchased and donated machines. They are well used – with participatory workshops taking place on average 3 – 4 times per week. There is currently an unevenness in the reliability of the machines, which can impact on our capacity to deliver the same quality of programme to all those involved in what we do.</p> <p>We will engage an expert to service all machines over a period of 5 months. This programme of servicing the machines will bring all equipment up to the same standard, providing equality of opportunity to all participants. Addition of a new machine will add to the long-term sustainability of our work. Knowing the machines are robust and reliable will ensure that we can carry out all planned activities.</p>

We want to provide a new generation with opportunities to learn new skills on computer-based music using the latest sound equipment and keyboards. This would add another dimension to our programme.</p>
<p>What will the project do?</p> <p>Our Youth Committee and the young people who have taken part in recent projects have identified that Music Production is getting more popular and have suggested that young people who have an interest in IT rather than traditional instruments would benefit having access to a tutor and equipment. The format, structure and content are all suggestions that came from them and conveyed to the manager, and this is why the application is being made. In recent years more and more young people today are finding their way into music through technology.</p> <p>We will deliver workshops and lessons in Music Production. With the equipment we can help young people explore and develop new skills in music and nurture their talents using a digital multimedia studio. A professional studio with recording facilities gives young people the opportunity to develop professional skills in music and sound technology, recording and video editing. They will also gain a solid foundation in music theory and production, which allows many of them build on to develop own musical style becoming artists in their own right.</p>

Project Name: Improving Social & Physical Wellbeing for Amputees	Amount applied for: £3000
Purpose of the project: We are seeking £3,000 funding to improve the social and physical wellbeing of amputees in Renfrewshire through a partnership with OneRen. This project will provide localised physical activities and cultural opportunities.	
What will the project do? The pandemic has negatively impacted our amputees. It has increased social isolation, decreased physical activity, and worsened self-esteem and mental wellbeing. Now that restrictions are ending, we are working hard to encourage our amputees back out into society with meaningful activities to improve their wellbeing. Our Wellbeing Officer has been discussing this project with Claire and Selina at Oneren. At present, referrals from GPs are required to access the activities. We are looking to create a partnership which will provide access for small Peer groups of amputees to attend swimming, gym, and local active groups in Paisley. We currently outsource this to Glasgow Life as there has not been access to specialised disability instructors in Renfrewshire. FYF's Wellbeing Coordinator would organise booking the activities and organise transport for those that require it.

Project Name: Heritage Pop-up & Gallows Green Memorial	Amount applied for: £3000

Purpose of the project

To enhanced and encourage the community in its understanding of the roots of its heritage within Scottish history and to rejuvenate a historical site of the Gallows Green to become a memorial to those who were sacrificed during a dark time of Renfrewshire's' history by sympathetically landscaping and making the area a spot of community unity, peace and a sense of community ownership of the heritage and the land.

<p>What will the project do?</p> <p>During lockdown, people began to focus on what was in the vicinity of their home. Be it neighbours, community, walking the dog, the history of their town. Through social media they searched and engaged with community groups like ours and like minded people. At a national level a growing movement for the witch hunts & trials throughout Scotland, to be memorialised and to gain an apology (8/3/22) and pardoned from the Scottish Government. Paisley has the history and the historical site to be off interest to the community and nationally.</p> <p>Setting up a portable heritage hub. with a display board telling the story and outcome of the Witch hunt and trials. It will have information to encourage volunteering. Promoting the project of the memorial work at the Gallows Green. This will be in public areas such as libraries, school libraries, shopping centres and events. Also we will have costumes for children to adults to try on. An increase in social media to engage more people. The Gallows Green Memorial will put Paisley on the historic map and hopefully increase visitors.</p>

All ages will be involved in the planning and delivery. All ages will be involved in maintenance and all ages will be involved in using it as a recreational and educational space. The newly refurbished garden at Gallows Green is designed to contribute to the health and wellbeing of the community, as Greenspace Scotland research shows clearly, these green spaces are the lungs of any town.</p>

Project Name: Get Dancing	Amount applied for: £5600
<p>Purpose of the project:</p> <p>Get Dancing is a free project which will engage early years (age 3-7 years) in dance. We will use dance to encourage young children to socialise, collaborate, create and communicate. Children have missed out on many opportunities due to the Covid-19 pandemic, and we would like to support them to participate in the arts, enabling them to experience the benefits that this can bring. Our project will offer free workshops in schools/nurseries in the West End of Paisley and will support participants to join our community dance programme for free.</p>	
<p>What will the project do?</p> <p>Throughout the pandemic young children have been adversely affected having been isolated and spent a lot of time away from their friends. Get dancing will create a valuable opportunity for children to participate in a fun activity, where they can socialise and interact with others.</p>	

Our project will promote positive health and wellbeing, which is crucial in supporting the mental health of young children within our community. Also, the project will be free to take part in to ensure cost is not a barrier to participation.

We will deliver a short programme of dance workshops within local schools and nurseries in the West End of Paisley as that is where right2dance is based. These workshops will target young children aged 3-7 years, introducing them to creative dance and will be lively, fun and inclusive. Classes will include the opportunity for children to interact and create work together. Following on from these workshops, we will support children to take up dance through our community classes, allowing them to further benefit from long term participation.

- ☐ **Community Empowerment**
- ☒ **Tackling social isolation to promote health**
- ☐ **Green spaces**
- ☐ **Community safety**
- ☐ **Partial fit with priorities**
- ☐ **Does not fit with priorities**

Anticipated Outcomes:

- More people taking part in dance classes within the local community.
- Reduction in feelings of loneliness and isolation.
- Children feeling confident to participate and share ideas.
- Children making new friends and connecting with others in the community.
- Improved physical health and mental wellbeing.

This project meets the local priorities as it will support children to take part in a new activity where they can interact and socialise with others. We will also reduce barriers by enabling children to participate for free.

About the organisation:

Established in 1973, right2dance is a vibrant community dance company with a strong 'dance for all' ethos. Our vision is to encourage everyone to participate in dance by offering high quality, low-cost opportunities for people of all ages and abilities. We aim to break down barriers, increase access to the arts and raise aspirations through a programme of dance that is creative, inclusive and accessible to all. We also provide avenues for volunteering, work experience and employment.

Project Name: Teenage Free Counselling Scheme	Amount applied for: £1150
<p>Purpose of the project</p> <p>With a lack of counselling available for secondary school pupils in the area, we are looking to expand our counselling service to help 13-17 year olds with one-on-one free counselling.</p> <p>Unfortunately our Child Play counsellors and adult counsellors are unable to see these children as in counselling 13-17 year olds are seen as a separate category which is 'adolescent'. We have regretfully had to inform a number of parents after making an enquiry about this and several of them have commented on the lack of support for the age range in the area.</p>	
<p>What will the project do?</p> <p>Whilst running our adult counselling service as a donation-led service and our Child Play Therapy service for 5-12 year olds which is free, we noticed a gap for 13-17 year olds where we have received dozens of enquiries.</p> <p>Counselling for 13-17 year olds cannot be covered by a child counsellor or adult counsellor as the cut-off is 12 years old and 18 years old respectively. We therefore informed them we are unable to assist and there are very few options elsewhere.</p> <p>We are looking to send two counsellors on 'adolescent counselling' training.</p> <p>This will be one of the only services in the area that will facilitate secondary school children for counselling and ensure them a safe space outside of school where they can speak to a trained counsellor.</p>	

Due to the specific demand for children this age we have received in the last few months, we believe this will be a worthwhile project. We are liaising with Counselling & Psychotherapy in Scotland (COSCA) in terms of the specific counselling courses which would be best but we are looking to put two counsellors through the training.

Anticipated Outcomes (Column AN)

We are based in the centre of Paisley, and this will benefit teenagers who are needing counsellor from all areas in the town. To begin with we are looking to train two counsellors who are already fully trained in adult counselling and child play therapy. Schools are struggling to cope with the rise of pupils suffering mental health issues and the number of outside bodies which specialise in the area is small so we are looking to not only help the child but build relationships with institutions to grow the number of children we can help.

Project Name: Paisley Barbell Weightlifting Club Sessions	Amount applied for: £1000
Purpose of the project: The purpose of the project is to secure funding to set up the 1st weightlifting club in Renfrewshire which would specifically support people to allow them to learn the correct technique of the main lifts and allow them to lift in a safe environment under supervision. It will provide leadership opportunities as we will be aiming to recruit to university students to complete the British Weightlifting qualification to lead the club as well as recruiting other volunteers to support with a view to gaining qualifications as the club grows.	
What will the project do? Local interest. Currently there is no such club in Renfrewshire. We have carried out some social media marketing which has identified this as a need. It will also allow us to create a pathway from our school sessions to sign post anyone wishing to continue to join the club. We are a relatively new organisation and have built a solid base in the local community.	

Any funding provided would allow us to expand and provide opportunities to a wider group of people in Renfrewshire. The funding would allow us to purchase new equipment and training which would allow us to be more mobile and provide workshop opportunities across the local authority. This would increase the number within the club and make it more sustainable in the long term.

This project will enable all members of the community to access all the services they require and enjoy the benefits of facilities in the local partnership. Our main priority is the disabled community but ensuring that the area is suitable for them, we include other age groups such as the elderly, children learning to walk and even people with sports injuries and so many more.</p>	
<p>What will the project do?</p> <p>The need for the project has been established by the concerns of the Local Area Partnership and we will assist in any way we can to ensure safe places for children to play in the current green spaces available by ensuring accessible equipment for all children. We also provide work experience for children from mainstream and additional needs schools as well as adults returning to work by providing volunteering opportunities for them. We have also identified that a lot of the disabled community have little or no access to technology.</p> <p>We will provide access audits/surveys to ensure spaces are safe and meet the requirements for accessibility. We will also provide advice on the best accessible play equipment for unused green spaces to ensure disabled children can play safely and interact with other children</p> <p>We will provide training and work experience for both children and adults on technology along other training courses we provide and offer volunteering opportunities for anyone in the community and offer training to the Local Area Partnership on reading/interpreting plans.</p>

Project Name: TIME TO TACKLE	Amount applied for: £10000
<p>Purpose of the project:</p> <p>Time to Tackle is a community programme set up to improve the physical, emotional and mental wellbeing of children and young people, challenge stigmas around mental health, raise awareness of mental health issues and combat loneliness. The programme has won awards nationally and is at the forefront of the fight against poor mental health and suicide. We offer participants free football and the opportunity to share experiences, listen and learn from each other as well as the experience of our qualified coaches and youth workers.</p>	
<p>What will the project do?</p> <p>There is huge need for any work which supports the mental health of young people. Indeed, suicide is the number one killer of young males and there are known links between death by suicide and deprivation, it is estimated that you are 3 times more likely to die by suicide if you live in an area of deprivation. COVID-19 has made the situation even worse, and we are requesting funding to sustain the impact of our Time to Tackle project, supporting young people in deprived areas of Paisley.</p> <p>We will deliver our Time to Tackle programme on a weekly basis at St Mirren Park on a Friday evening, providing 100 young people with the opportunity to play football and other physical activities, take part in healthy lifestyle and skills development workshops and also have the opportunity to talk openly with their peers and trusted adults about issues affecting them and their mental health and wellbeing. Young people also benefit from food and time to relax with their friends in a safe and inclusive environment.</p>

Reference: FR1165	Organisation Name: Paisley and District Battalion – The Boys’ Brigade
Project Name: Development Project	Amount applied for: £2500
Purpose of the project: We are currently looking to grow the number of boys under our stewardship following a steeply trending reduction in boy numbers in recent years. We need to attract boys back into the Boys’ Brigade with a pro-active and modern approach to recruiting and also retention. We have received partial funding for this project already but hope to be able to secure additional funding to allow this resource to be able to prepare, present and send out recruitment materials.	
What will the project do? It has become evident in recent years that the reduction in boy numbers is extremely worrying. Our job in the Battalion is to support these local companies of boys to re-grow and to achieve our mission and objectives as mentioned above. We have 18 companies across Renfrewshire, some of which have single digit membership which we need to develop and grow within their local communities. The project will focus totally on development of membership to attempt to recruit boys back into the organisation. This is not an easy task so needs specific focus. There are so many other things which exist to attract boys away from a uniformed organisation, so we are in no doubt that our objectives are challenging.

Anticipated Outcomes:

We hope to generate interest in the Boys' Brigade all areas within Renfrewshire. By growing some or all of our companies, we are bringing more boys and their families into our organisation and churches which helps all communities flourish while allowing those in less well-off areas of any background an equal chance to join us. Our Christian mission also hopes to teach boys and leaders good morals and values which we hope will serve them well in their future well-being and stature in the community. This meets the Community Empowerment priority.

<p>Purpose of the project</p> <p>We would like to develop a drop in aimed at capacity building hard to reach minority ethnic (in particular African) communities in and around Renfrewshire which encounter multiple barriers, such as communication and those of a cultural nature, which prevent them from becoming resilient communities.</p> <p>The project will provide weekly 40 weekly drop-in sessions for 8-10 individuals around volunteering job search and application support, volunteering opportunities, general and mental health support and information on entitlements, The project will also aim to improve awareness via providing access to literature and media through the development of information packs on hot topic subjects to share with 600 - 800 people. The proposed information packs would also be written using simple English and translated into several common languages that are prevalent within the community, making them accessible to a wide range of audiences. The project would also deliver 6 workshops targeting 5 participants per workshop around areas that our client base feel they need more help within order to become more resilient and independent. These areas could include budgeting, recycling, how to buy online (using comparison websites and freebies) cooking (how to make healthy meals utilising leftovers), confidence building, CV writing and developing interview skills. The project will also organise one massive cultural celebration event bringing the whole community together to allow community integration.</p>			
<p>What will the project do?</p> <p>The project has been developed as a result of a combination of factors such as an increasing number of diverse groups in and around the Renfrewshire area; gaps in service provision for hard-to-reach communities; consultations held with target communities in order to assess their needs; anecdotal evidence; evidence from research; and government and local council community development priorities. Anticipated Outcomes

The project will actively encourage us to work with individuals and communities to build on existing and create new social networks and relationships

We will do this by encouraging communities to be more:

- **Connected:** The delivery of our interactive sessions will result in diverse communities with the same barriers coming together to share their barriers, concerns on general health and wellbeing whilst also understanding the need to improve themselves through good nutrition and exercise.
- **Strengthen trust and shared understanding:** As individuals supported will be from diverse community groups, they will have increased knowledge and understanding of cultural and religious barriers and will strengthen trust through shared understanding.
- **Build skills:** We will build our own project delivery skills and those of people we support through the development of local people from local communities, empowering them by providing opportunities for self-development and self-improvement.

Participants will be able to improve in self-confidence and add to their skills set. The areas of support have been identified as areas of need from previous project work done with target groups.

Project Name: Respite Trip	Amount applied for: £1600
Purpose of the project <p>The purpose of the project is to provide a respite trip to Jericho House in Girvan for 20 members of the Ferguslie Seniors Lunch Club. The trip will provide an opportunity to comprehensively tackle isolation & loneliness whilst also assisting this newly formed group to further develop the organic support networks which have emerged and proved vital for many throughout the pandemic.</p> <p>The Ferguslie Seniors Lunch Club launched in February 2022 and offers those aged 55+ a 2-course meal and social activity every Monday and Thursday between 11am and 2pm in the Tannahill Centre. Over the last 3 months it has been identified that isolation & loneliness plays a significant part in the lives of this demographic with the cost-of-living crisis detrimentally impacting this further.</p>	
What will the project do? <p>The project aims to provide 20 residents the chance to have a week of respite with meals provided at Jericho House in Ayrshire helping tackle isolation & loneliness and providing a much-needed opportunity for group members to further develop their own personal development as well as their organisational aims and aspirations. The group are very much in the polite phase of their development and could benefit greatly from a period away from Ferguslie after such a protracted period of isolation helping create the organic support networks which proved vital throughout this period.</p>

Purpose of the project: To provide fully inclusive grassroots rugby in Paisley. To extend the availability of PRFC's resources. To remove barriers and create opportunities for women to play rugby, get fit, socialise, be part of a team and experience club culture. To create volunteer roles for women, making use of their skills & developing new ones. Raise awareness of how team sport & outdoor fitness positively impacts health & wellbeing. To serve as a graduation for girls leaving youth teams to enable them to continue playing rugby in a safe and tailored environment.	
What will the project do? PRFC have provided rugby in Paisley since 1982 and has traditionally been a male environment. Women's rugby has gathered momentum in recent years and is globally one of the fastest growing team sports with almost a third of all rugby players being female. Now is an ideal time for Paisley to extend its reach and utilise their experience & resources to develop a women's team & a youth girls' team. Initial response has been positive and with some initial support these new sections could quickly thrive and benefit the local community. Raise the profile of women's rugby. Project Name: Community Cricket Coaching	Amount applied for: £2500
Purpose of the project <p>Our project aims to increase the number of people participating in regular sport within Renfrewshire and aims to address the reduction in people participating regularly in sport and active activity sessions, by providing regular cricket sessions throughout the year. Led by a qualified cricket coach our cricket sessions will increase the activity levels all participants and help to promote an active and healthy lifestyle throughout the local communities where our project will work.</p>	
What will the project do? <p>The need for this project was identified by liaising with local groups and local people. We have become aware of the declining number of people of all ages participating regularly in sport, especially cricket. Football teams cater for a high number of people however our project seeks to cater for those who do not play football and indeed cater for people regardless of ability. We seek to promote participation in sport, through cricket for people of all ages and abilities.</p>	

<p>Our project will provide cricket sessions for people of all ages and will focus on the following:</p> <ul style="list-style-type: none"> - in or after school cricket coaching sessions (primary schools) - in or after school cricket coaching sessions (secondary schools) - university and college cricket coaching sessions - weekly, open cricket coaching sessions for all aged under 18 - weekly, open cricket coaching sessions for all aged 18 and above - winter cricket coaching sessions for people all ages and abilities

Project Name: Make It Your Own (MIYO) Renfrewshire	Amount applied for: £7500
Purpose of the project: MIYO is a highly successful 12-month tenancy sustainment programme which aims to help the most vulnerable tenants in Renfrewshire (those effected by homelessness/housing insecurity); turn their house into a home in which they love to live. Those referred by Renfrewshire Council Housing Support are supported by both a professional artist and pastoral worker. They receive weekly workshops, a starter pack containing basic materials (e.g., paint brushes, masking tape, pencils), as well as a budget of £100, to carry out their home improvement ideas.	
What will the project do? MIYO Renfrewshire has been co-designed in partnership with Renfrewshire Council's Communities, Housing and Planning Services and Blue Triangle, based on an ongoing demand for those affected or at risk of homelessness in the local authority, as well as with past MIYO participants. From extensive consultation with past participants, we have identified that where tenants were supported by MIYO incidents of anti-social behaviour, unpaid rent, isolation, and homelessness were significantly reduced.	
Workshops will be tailored to the needs of each individual and our Creative Tutor will lead	

on teaching skills in the following:

- Initial design plan/mood board
- Small wall-based artworks
- Soft furnishings - cushions/throws
- Accessories - mirrors, vases, clocks
- Furniture upcycling/refurbishment
- Participants shop for materials using individual budget and focus on how to budget and maximise value for money

Each participant is engaged with half-day support sessions each week, with the opportunity to engage in weekly group sessions as well

- ☒ **Community Empowerment**
- ☒ **Tackling social isolation to promote health**
- ☐ **Green spaces**
- ☒ **Community safety**
- ☐ **Partial fit with priorities**

Anticipated Outcomes:

Tenants will:

- feel increased ownership of their tenancy
- have developed life skills
- have increased confidence in their abilities
- feel less isolated and form better social connections
- have a more positive and aspirational attitude towards the future
- feel proud of and safe in their homes

The project will also have wider impact on local services and communities, reducing the pressure and demand on housing support services and registered social landlords, and promoting behaviours that demonstrate citizenship and community cohesion.

Project Name: Expansion of community coaching programme	Amount applied for: £1280
<p>Purpose of the project</p> <p>In 2022 we are looking to expand our community coaching programme, offering regular and outreach/school coaching free of charge. The base project began in 2021 and we are looking to build on the good introductory work completed both the club and the local community, continue to recover from the pandemic and the challenges of lockdowns and resulting issues of isolation.</p> <p>This year we have recruited an overseas coach from South Africa with First Class experience to lead our coaching programme.</p>	
<p>What will the project do?</p> <p>The club still believes that we and the wider community is in the process of recovering from the pandemic and we feel that sport in general is pivotal to this. The club is already a community orientated organisation is well placed to act as a community hub. In the post pandemic atmosphere, cricket offers a safe, outdoor and sociable way for people to participate in sport and there is plenty of opportunity for those who don't play, to use the club as place to meet and enjoy the social aspects and atmosphere of club life.</p> <p>The core part of the project will remain offering our senior and junior training nights free of charge to the local community and will also include a summer camp or individual open days, again free of charge. These sessions would run without funding support but would have to be charged events, which would affect participation. Finally, we will be looking to attend 6 local primary schools to offer introductory cricket taster sessions during curriculum time PE and we would look to run an interschools tournament on the back of these sessions.</p>	
<p>PNWC Local Priorities: <i>please tick the relevant box(es)</i></p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Community Empowerment <input checked="" type="checkbox"/> Tackling social isolation to promote health <input type="checkbox"/> Green spaces <input type="checkbox"/> Community safety <input type="checkbox"/> Partial fit with priorities <input type="checkbox"/> Does not fit with priorities <p>Anticipated Outcomes (Column AN)</p> <p>By providing our regular junior and senior coaching free of charge, this project will allow the club to attract new participants to the sport and ultimately convert this to membership which will help our sustainability in the long run. We saw some good growth last year and are running two new teams at under 11 this year. We would like to attract more participants so that we can ensure there are several teams moving through the age groups together.</p>	

Although the club is based within Whitehaugh area, we are proud to be one of Paisley's oldest sports clubs and view ourselves as a Paisley wide organisation. The project would open up our services to the entire Renfrewshire area free of charge and allow isolated individuals throughout the wider community the option of taking part in sport, or to spectate, or simply to have a place to meet and make social connections.

Project Name: Ground Equipment Investment	Amount applied for: £2000
<p>Purpose of the project</p> <p>The purpose of our project is to allow invest in our ground equipment with the purchase of a modern outfield cutter. Such a machine would cut the amount of time required to prepare our ground thus helping to reduce costs elsewhere.</p> <p>Our ground is used to play cricket and is also used by the local community as a place to regular walk/run etc. During lockdown our facility was regularly used as a result of local parks not being maintained.</p>	
<p>What will the project do?</p> <p>The need for the project was identified following a review of costs and a review of ground maintenance tasks and time requirements.</p> <p>We currently spend 8+ hours twice per week cutting grass - a new machine would cut this down to 2 hours twice a week - a significant saving in terms of man hours and fuel.</p> <p>We will purchase a modern machine which will reduce time required to cut the grass. In addition, the machine will also reduce fuel consumption thus reducing costs.</p> <p>The purchase of the machine would leave a lasting legacy given it will be used for many years to come.</p>

Project Name: POP UP BOOT CAMP	Amount applied for: £3370.27
<p>Purpose of the project:</p> <p>The purpose of this project is to be able to provide affordable boot camps to individuals throughout Renfrewshire wide. Each boot camp day would take part in a different areas of the community. This will allow for accessibility and affordability for those who cannot travel far due to logistics or monetary difficulties. The multi sports fitness boot camps will be alternated between all ages and abilities too so that absolutely no one is missing out.</p>	
<p>What will the project do?</p> <p>The need for the project was identified through research and analysis of feedback. There is a great desire for participation but individuals struggle to do so because of accessibility and affordability issues. As a mobile hub we are able to travel to clients, we decided in order to reach more individuals and increase participation we can pop up at any suitable location within the community to provide our services and in turn we increase our chances of curbing social isolation and exclusion as well as helping improve mental health and wellbeing.</p> <p>The project will improve mental health and wellbeing within individuals, it will decrease social isolation and exclusion. All this will be done through providing affordable and accessible multiple sports and fitness services. Physical activity and not having to worry about cost is known to improve one's mental state as well as their physical and emotional wellbeing. With sessions happening in groups many will be able to socialise, network and even make new friends through team activities, this will encourage further participation.</p>

Purpose of the project To help promote health and fitness amongst the Foxbar community and to make exercise more accessible to people within Foxbar.	
What will the project do? Due to COVID and poverty within our community, our aims and objectives are to provide environmental opportunities and support, with cues to help people within the foxbar community to become fit, develop character, learn skills and become knowledgeable about sport. Which in return we aim to help increase physical exercise within the community that will help create healthier behaviours. Last year, I provided exercise for the people in the Foxbar Community which was a great success, due to this and poverty communities need physical exercise to pull them together and create a balance. Meet twice a week providing exercise for the people of Foxbar and help with recommendations on a healthier diet.

Sculpture House Pilot Year	£9000
<p>Purpose of the project:</p> <p>We are relocating our studios to Craigielea House, a Victorian town house in Ferguslie Park formerly used as council offices, initially as a yearlong pilot project. Our aim during this pilot years, using creative arts and crafts workshops and activities, is to work with the local community (engaging isolated individuals as well as existing groups such as The Darkwood Crew, Pals of the Privies) to research and develop a future for Craigielea House as a long-term centre of excellence for visual arts and creative community activity.</p>	
<p>What will the project do?</p> <p>In 2020 Laura was invited by Collective Architecture Create to contribute to The Making of Ferguslie Park. This major consultation exercise set out the local community's vision for the future of the Ferguslie Park neighbourhood over the next five to ten years. The resulting plan builds upon Ferguslie Parks strong community spirit to imagine a neighbourhood that is vibrant and flourishing. During this consultation the community identified as a priority the establishment of a social space for arts, craft and community events.</p> <p>Using the house as a base from which to meet local communities, we will use our pilot year to develop possible responses to the needs or wishes they identify. We will provide; series of arts and craft workshops, several social public forums and open studio events - allowing our conversations around these possible responses to develop organically. The local community are at the heart of Sculpture House Collective's vision for the future. Communal creative activity brings many benefits to individual and social health and wellbeing.</p>

About the organisation:
 Sculpture House Collective are a group of three visual artists, Laura Aldridge, Nick Evans and James Rigler, operating out of The Workspace Lochwinnoch. As artists with careers spanning several decades, we believe in sculpture's power to transform all our lived environments. Using sculptural objects, techniques, materials and thinking as catalysts, we work alongside a range of artistic and non- artistic collaborators to develop the space and time needed to bring creative activity to all.

Reference: FR1116	Organisation Name: Renfrewshire Model Railway Club
Project Name: Re-rendering exterior of club hall	Amount applied for: £2900
<p>Purpose of the project</p> <p>The club building has suffered from significant dampness due to loose and broken rendering allowing water saturation. New windows installed last year have helped, but problems of cold and damp cannot be cured until the render is replaced, as it is almost entirely blown across the whole building. This will make the building watertight to prevent further damage to the structure and contents and improve thermal efficiency thereby helping to cut heating costs and energy usage.</p>	
<p>What will the project do?</p> <p>Dampness has been an issue for several years, but resources had been focussed on piecemeal roof repairs. A damaging woodworm outbreak in 2019 highlighted the need to eliminate other sources of dampness. After several pieces of render fell off, we obtained quotations for its repair, which brought to light the fact that the condition of the render was a major source of the dampness and the whole building required re-rendering. Renewal of the windows was also urgently needed and was done last year, resulting in further damage to the loose render.</p> <p>The entire building (or as much as can be afforded if grant is partial) would be re-rendered.</p>

The club has members of all ages, and part of our purpose is to facilitate the transfer of knowledge about our hobby between generations. Many of our members are elderly, and for a number of them the club's regular meetings are their primary social outlet. Other members and visitors including children, have autism or related conditions, and the club also provides an opportunity for them to socialise with like-minded people.</p>

Reference: FR1141	Organisation Name: Lamont Farm Project
Project Name: Lamont Farm Project	Amount applied for: £4000

<p>Purpose of the project</p> <p>To educate and provide hands on animal care and welfare facilities to the local community and surrounding areas. Lamont Farm offers a wide variety of services to various groups and organisations within the local area and further a field, work experience placements are provided to jobcentres, high schools, community service, kibble project and many more. The farm provides hands on experience for over 40 children who wish to pursue a career in animal care and veterinary practice, educational workshops are ran throughout the year for primary school</p>
<p>What will the project do?</p> <p>Lamont farm was founded by a group of individuals in March 1977 with a strong desire to establish a local education and community facility. We were the first City Farm in Scotland, and the farm is very popular with families, nurseries and disabled groups as well as local schools. Around 10,000 people visit Lamont Farm annually. We aim to educate people from all walks of life in animal care, welfare and husbandry. The farm has many social connections to help promote mental health, wellbeing and to help lessen isolation. Animals are a great source...</p> <p>The grant will help towards running costs to ensure the project can continue to provide a variety of services and continue to work with a number of local educational establishments within the community.</p>

Project Name: Holland Easter Open International Youth Football Tournament 2023	Amount applied for: £5000
Purpose of the project The purpose of our project is to provide a trip to Amsterdam for all our players to participate in the Holland Easter Open International Football Tournament in 2023.	
What will the project do? We recognise that many of our players have not had the opportunity of international travel. Most of our players live in single parent households with many of our families unable to afford the £600 required for the trip.	

Some of our boys have never been outside the UK and don't hold a passport. The impact of this experience on their physical, mental, and emotional wellbeing would be significant.

The impact of football on the physical and mental wellbeing of young people is widely acknowledged. Football also provides a positive social context for developing skills for life and work including teamwork and effective communication as well as developing emotional resilience and a sense of belonging.

We have planned a range of events and activities to fundraise for the project, but we would benefit greatly from the added support of the General Grant Fund to ensure the inclusion of all players.

Anticipated Outcomes

Our project aims to provide all our members with the opportunity to take part in the Holland Easter Open International Youth Tournament in April 2023. We are committed to ensuring that all our boys are able to attend regardless of their individual family circumstances. Many of our families live in the most deprived areas within Renfrewshire and have financial barriers which would impact on their ability to attend this event.
