Local Fire and Rescue Service Plan Priorities

The Local Fire and Rescue Service Plan has been developed to set out the priorities and objectives within Renfrewshire and allows our local authority partners to scrutinise the performance outcomes of these priorities. We will continue to work closely with our partners in Renfrewshire to ensure we are all **“Working Together for a Safer Scotland”** through targeting risks to our communities at a local level.

The plan has been developed to complement key partnership activity embedded across Renfrewshire Community Plan and associated Delivery and Thematic plans. Through partnership working we will seek to deliver continuous improvement in our performance and effective service delivery in our area of operations.

The Local Fire and Rescue Plan for Renfrewshire identified six areas for demand reduction and is subject to regular monitoring and reporting through the Police / Fire and Rescue Committee. A summary of the priorities and current activity is detailed below with further detail and analysis contained within this performance report.

	Accidental Dwelling Fires	Accidental Dwelling Fire Casualties	Unintentional Injury and Harm	Deliberate Fire Setting	Non-Domestic Fire Safety	Unwanted Fire Alarm Signals
Bishopton, Bridge of Weir and Langbank	4	1	2	7	0	9

About the statistics within this report

The activity totals and other statistics quoted within this report are published in the interests of transparency and openness. They are provisional in nature and subject to change as a result of ongoing quality assurance and review. Because all statistics quoted are provisional there may be a difference in the period totals quoted in our reports after local publication which result from revisions or additions to the data in our systems. The Scottish Government publishes official statistics each year which allow for comparisons to be made over longer periods of time.

Non-Fire Emergency Activity

Age / Gender Profile

Non-fire casualties show an increase of 60% (9 incidents) when compared to the same quarter last year, however the three-year average trend continues to decline. Of the 24 casualties 15 were involved in road traffic collisions. 9 casualties are recorded while assisting other agencies. 2 fatalities are recorded this quarter and of the injuries encountered 3 were considered serious.

Deliberate Fire Setting

Performance Summary

Deliberate Fires

Deliberate Fires by Ward (% share)

Deliberate fire setting shows an increase of 27% (50) incidents compared to Q1 last year. Secondary fires accounted for 91% (215 incidents) of the activity within this indicator. Other secondary (grass) fires account for the majority of incidents (120 incidents) within this matrix.

Deliberate Fires by Time of Day

Deliberate Fires by Classification

Primary Fire Ratio by Activity Type

Secondary Fire Ratio by Activity Type

Deliberate Fires Compared to Operational Activity

Definitions

Primary Fires - all fires in buildings, vehicles and outdoor structures or any fire involving casualties, rescues or fires attended by five or more appliances

Secondary Fires - fire incidents that did not occur at a primary location, was not a chimney fire in an occupied building, did not involve casualties (otherwise categorised as a primary incident) and was attended by four or fewer appliances.

Non Domestic Fire Safety

Performance Summary

Year on Year
-28%

3 Year Average
-15%

Non-Domestic Fires by Ward (% share)

Non-Domestic Fires by Time of Day

Non-Domestic Fires by Nature of Origin

Severity of Non-Domestic Fires

Non-Domestic Fires by Premises Type

A decrease of 15% (5 incidents) for the year on year measure. 4 incidents required no firefighting action and 4 incidents resulted in no fire damage. Residential care homes were the highest reporting premises type with 3 incidents.
