Local Fire and Rescue Service Plan Priorities

The Local Fire and Rescue Service Plan has been developed to set out the priorities and objectives within Renfrewshire and allows our local authority partners to scrutinise the performance outcomes of these priorities. We will continue to work closely with our partners in Renfrewshire to ensure we are all “**Working Together for a Safer Scotland**” through targeting risks to our communities at a local level.

The plan has been developed to complement key partnership activity embedded across Renfrewshire Community Plan and associated Delivery and Thematic plans. Through partnership working we will seek to deliver continuous improvement in our performance and effective service delivery in our area of operations.

The Local Fire and Rescue Plan for Renfrewshire identified six areas for demand reduction and is subject to regular monitoring and reporting through the Police / Fire and Rescue Committee. A summary of the priorities and current activity is detailed below with further detail and analysis contained within this performance report.

	Accidental Dwelling Fires	Accidental Dwelling Fire Casualties	Unintentional Injury and Harm	Deliberate Fire Setting	Non-Domestic Fire Safety	Unwanted Fire Alarm Signals
Bishopton, Bridge of Weir and Langbank	2	1	1	1	0	12

About the statistics within this report

The activity totals and other statistics quoted within this report are published in the interests of transparency and openness. They are provisional in nature and subject to change as a result of ongoing quality assurance and review. Because all statistics quoted are provisional there may be a difference in the period totals quoted in our reports after local publication which result from revisions or additions to the data in our systems. The Scottish Government publishes official statistics each year which allow for comparisons to be made over longer periods of time.

- Activity levels have reduced by more than 5%
- ▲ Activity levels have reduced by up to 5%

Renfrewshire Operational Trends

Domestic Safety - Accidental Dwelling Fires

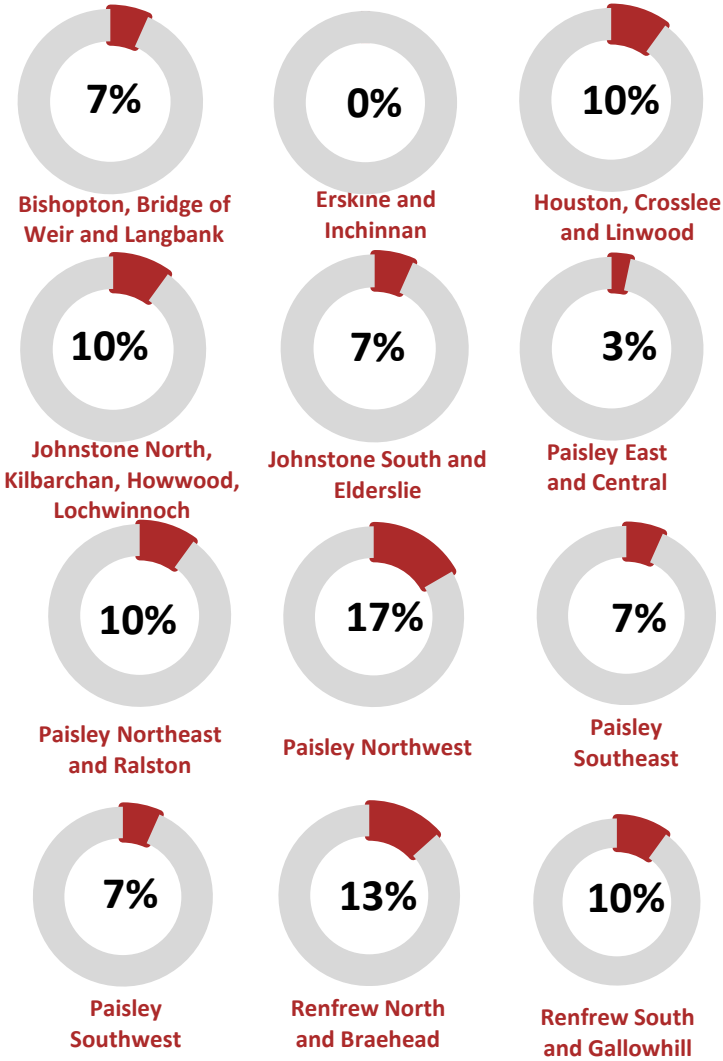

Performance Summary

Year on Year **-17%**
3 Year Average **-6%**

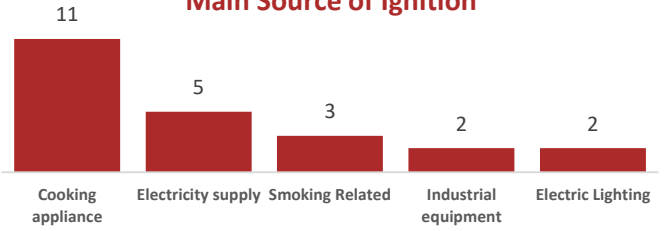

Accidental Dwelling Fires

Accidental Dwelling Fires Activity by Ward (% share)

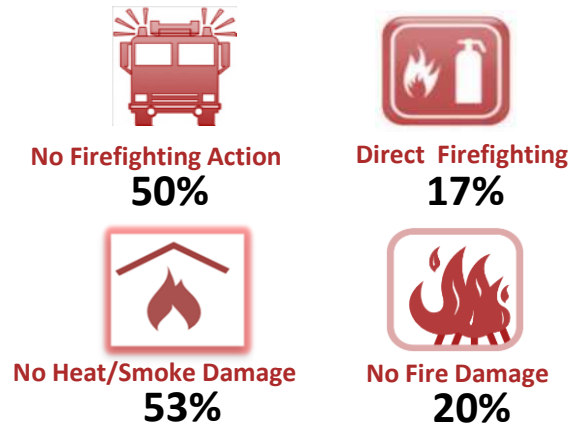

Main Source of Ignition

Accidental Dwelling Fires by Time of Day

Severity of Accidental Dwelling Fires

Human Factors

Automatic Detection & Actuation

Accidental Dwelling fires show a reduction of 17% year on year but an increase of 50% since last quarter. Cooking remains the most common source of ignition accounting for 11 of the incidents. 15 of the total incidents did not require any firefighting action. 24 of the 30 properties had detection fitted. Our operational crews and Community Action Team continue to carry out Home Fire Safety checks at incidents and fit detectors where required.

Domestic Safety - Accidental Dwelling Fire Casualties

Performance Summary

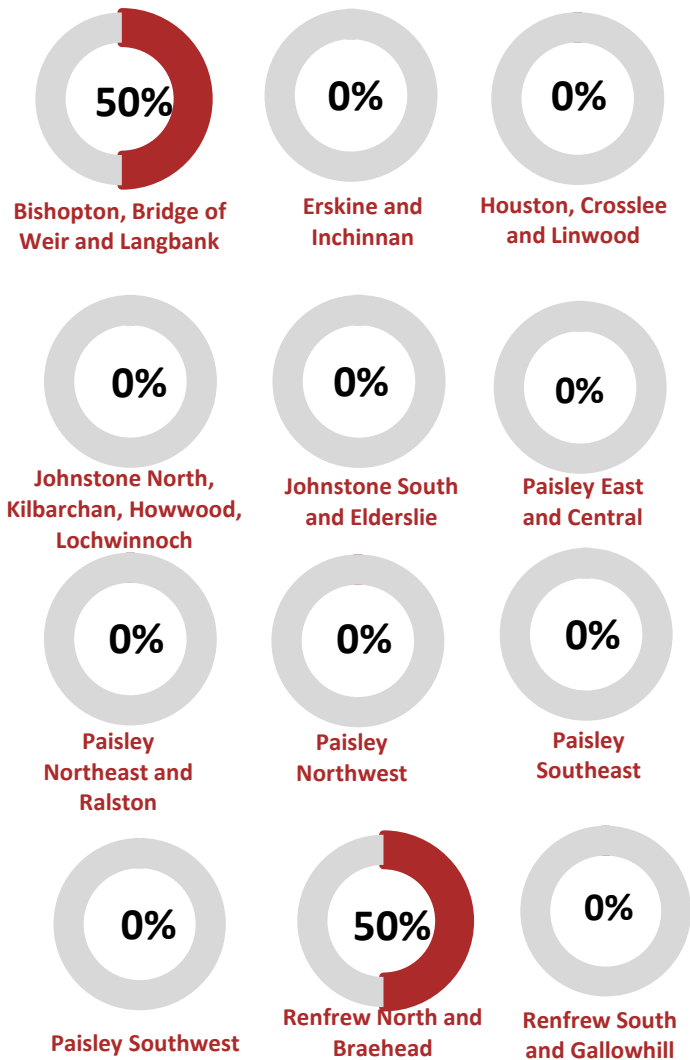

Accidental Dwelling Fires Casualties

Fire Casualties by Time of Day

Accidental Dwelling Fire Casualties by Ward (% share)

Nature of Injury

Extent of Harm

Age / Gender Profile

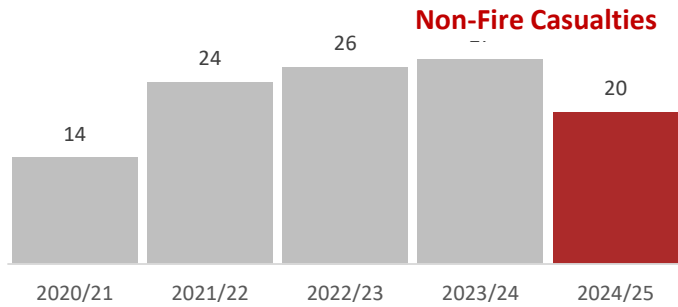

Accidental Dwelling Fire Casualties show a decrease of 60% from last year to 2. Both casualties were treated for slight smoke inhalation.

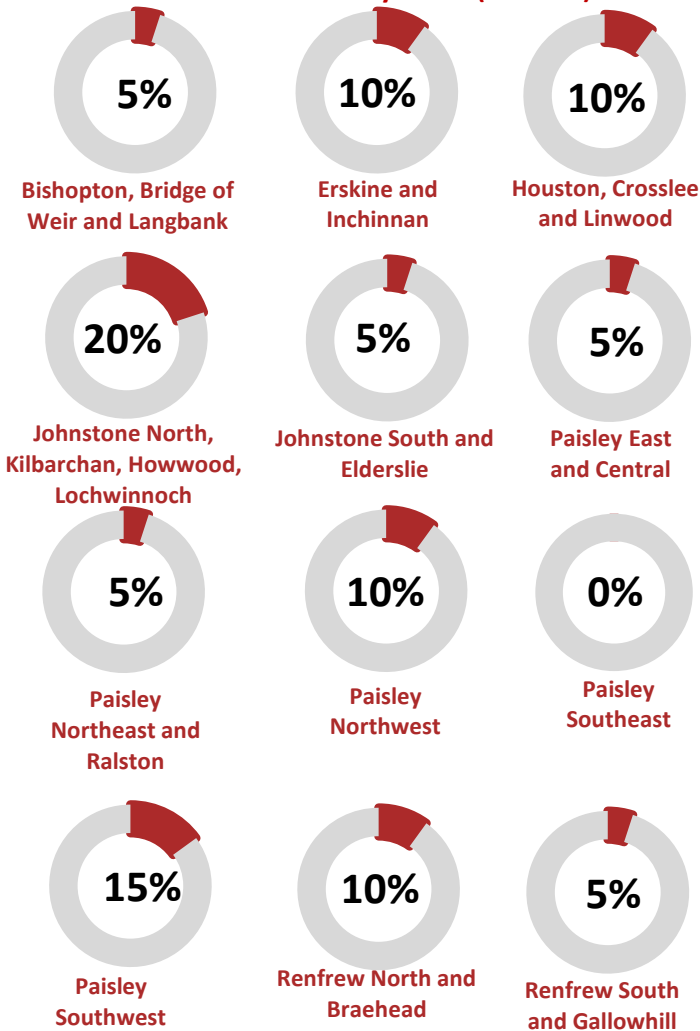

Unintentional Injury and Harm

Performance Summary

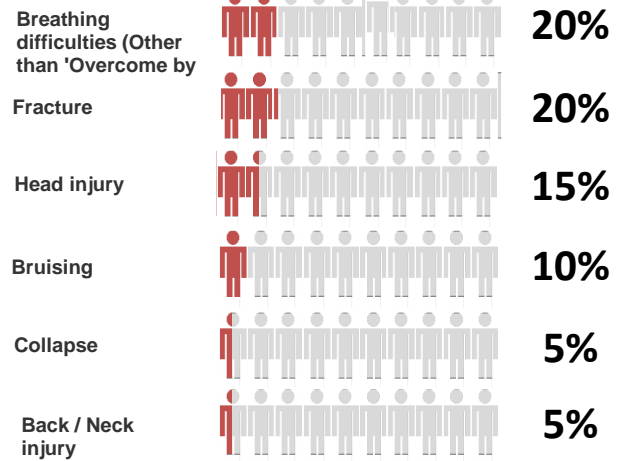

Non-Fire Casualties by Ward (% share)

Non-Fire Casualties by Time of Day

Nature of Injury

Extent of Harm

Non-Fire Emergency Activity

Age / Gender Profile

Non-Fire Casualties show a decrease of 26% from last year to 20 casualties. 10 were as a result of an RTC and 10 were while assisting other agencies. We continue to provide education to drivers through initiatives led by our Community Action Team.

Deliberate Fire Setting

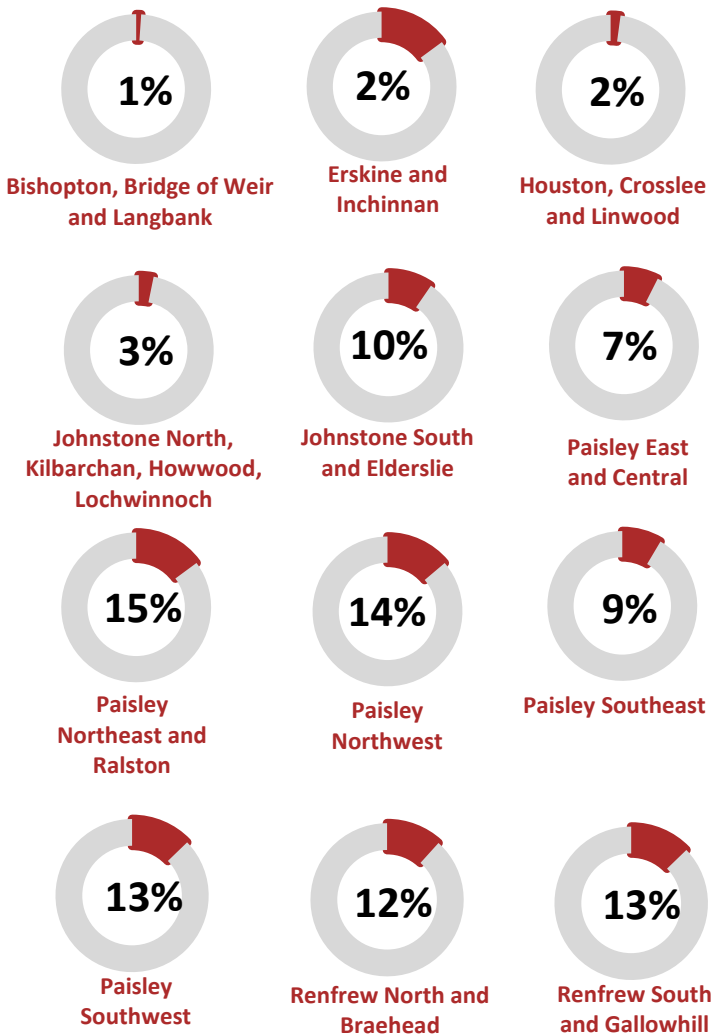

Performance Summary

Deliberate Fires

Deliberate Fires by Ward (% share)

Deliberate fire setting shows a decrease of 4% from last year and 23% from last quarter. Secondary fires accounted for 81 of the incidents. We continue to work with partners on a regular basis to identify trends that can be targeted to reduce these numbers.

Deliberate Fires by Time of Day

Deliberate Fires by Classification

Primary Fire Ratio by Activity Type

Secondary Fire Ratio by Activity Type

Deliberate Fires Compared to Operational Activity

Definitions

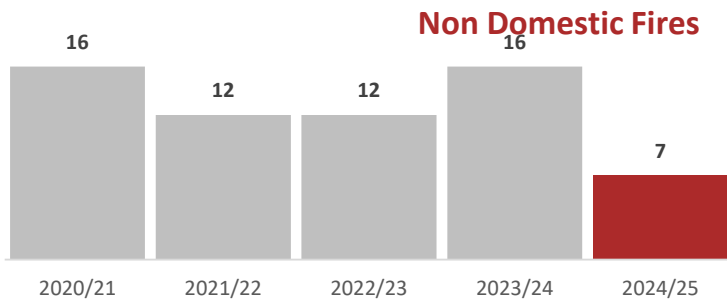

Primary Fires - all fires in buildings, vehicles and outdoor structures or any fire involving casualties, rescues or fires attended by five or more appliances

Secondary Fires - fire incidents that did not occur at a primary location, was not a chimney fire in an occupied building, did not involve casualties (otherwise categorised as a primary incident) and was attended by four or fewer appliances.

Non Domestic Fire Safety

Performance Summary

Non-Domestic Fires by Ward (% share)

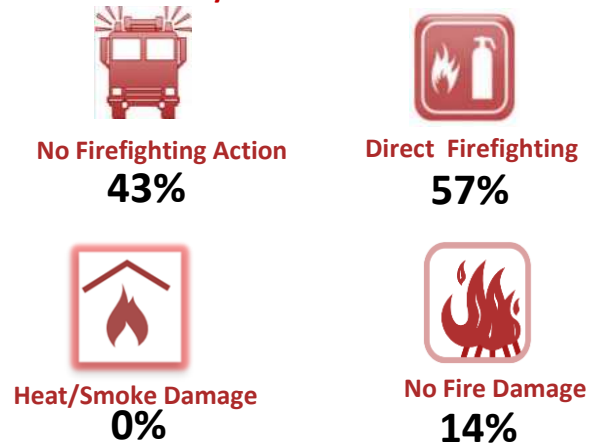

Non-Domestic Fires by Time of Day

Non-Domestic Fires by Nature of Origin

Severity of Non-Domestic Fires

Non-Domestic Fires by Premises Type

Non Domestic Fire Safety shows a decrease of 56% from last year and 42% from last quarter to 7 incidents. Our Fire Safety Enforcement Team work with business owners to ensure protection and housekeeping is of a high standard, which assists in keeping these figures low.

Unwanted Fire Alarm Signals

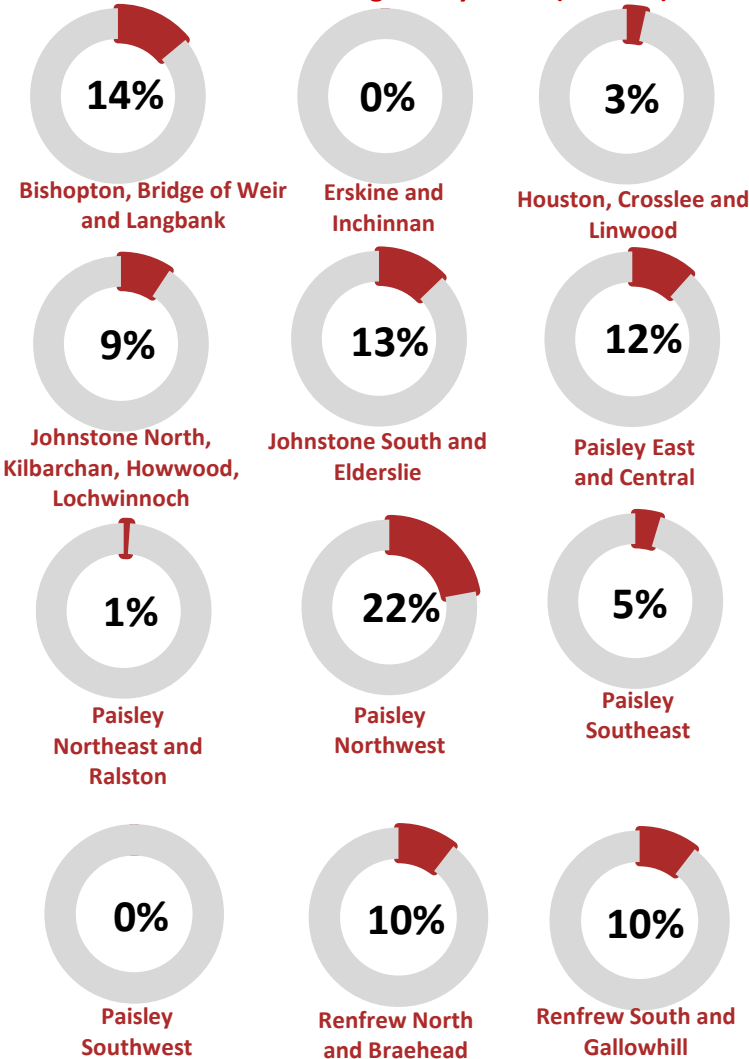

Performance Summary

Year on Year **-23%** 3 Year Average **-28%**

Unwanted Fire Alarm Signals

Unwanted Fire Alarm Signals by Ward (% share)

Unwanted Fire Alarm Signals by Time of Day

Unwanted Fire Alarm Signals - Top 5 Premises

Unwanted Fire Alarm Signals Activity Ratios

Average Unwanted Fire Alarm Signals per Day

Unwanted Fire Alarm Signals show a decrease of 23% from last year and 30% from last quarter. Care Homes accounted for 19 incidents. Medical Facilities and Hotels accounted for 16 incidents each. 35 of the total incidents were as a result of human interaction i.e. not isolating the alarm prior to testing, cooking, smoking etc.
