

To: Education and Children's Services Policy Board

On: 29 October 2020

Report by: Director of Children's Services

Heading: Service Update

1. Summary

- 1.1 Following on from the previous Service Update presented to board on 20 August 2020, this report provides a further update to the Education and Children's Services Policy Board on key areas within the Board's remit. It also outlines the priorities through to Spring 2021, highlighting key areas of focus and plans for next steps to support the Council's recovery plans. Whilst developing these plans, the local and national position remains fluid and services will remain flexible and able to respond quickly in relation to changes in restrictions and local outbreaks.
- 1.2 Appended to this report is a performance update to 31 March 2020. Due to the coronavirus pandemic and the pausing of Policy Boards, the annual Service Improvement Plan 'outturn' reports were not presented to board. This appendix covers all performance indicators and actions as outlined in the Service Improvement Plan for 2019/20 and will also be reported to the Communities, Housing and Planning Board as it includes areas within that Board's remit.
- 1.3 Service Improvement Plans for 2020/21 were developed for all Council services and the Children's Services Service Improvement Plan was approved by this Board prior to the lockdown. The majority of the actions and activities did not proceed or were not undertaken in the same way due to Covid-19 and, as outlined below, new Service Improvement Plans are being drafted to be in place for the start of the new financial year.
- 1.4 Work is underway to develop Service Improvement Plans for 2021/22 - these will have a strong focus on recovery and renewal rather than solely

improvement. These will also fully reflect the social, economic and financial recovery plans being progressed.

2. Recommendations

2.1 It is recommended that members of the Education and Children's Services Policy Board:

- note the content of this report; and
 - note the performance information for 2019/20 as appended to this report.
-

3. Background

3.1 In the previous Service Update reported to this Board on 20 August 2020, the Council's response to the coronavirus from March 2020 to September 2020 was outlined - our partnership approach, our move to protect and support our employees and communities, particularly vulnerable people across the area.

3.2 Employees across the Council continue to show great commitment and resilience during this time delivering essential services, volunteering to support frontline services and helping others to remain safe at home.

3.3 The service remains acutely aware of the impact on Renfrewshire's communities of the pandemic - of those who have sadly been bereaved, who feel isolated, have concerns about their income, have had their health impacted, have supported their children and young people with home learning or have contended with other challenges made more difficult by the pandemic and consequent restrictions. Across services, and with our partners, the Council continues to support our communities and develop our operational and policy response both now and as we continue to move through the recovery route map.

3.4 Recent weeks have shown the local and national position continues to change rapidly - restrictions have been both relaxed and tightened since the previous report to Board. The situation across Scotland, the UK and globally has shown areas of progress and areas for concern and national policy has flexed to respond to this. While working towards a recovery position and hopeful of the resumption of more services to our communities, the service and the Council remain ready to respond to rapid changes in our local approach.

3.5 Alongside this, new opportunities are emerging, potential funding streams, information and learning is being shared across local government and the service will also continue to respond to this.

3.6 This report gives a broad overview of the key areas which continue to be impacted by the Covid-19 crisis, further areas the service has paused and restarted, the particular areas of focus now and in the near future, and any specific risks and priorities of relevance to this Policy Board.

4. Updates for Education and Children's Services Board

- 4.1 Schools and early years centres returned full-time in mid-August and have remained open. There have been confirmed cases of Covid-19 among pupils or staff in 18 Renfrewshire schools and where required, NHS Test and Protect measures have been put in place. This has usually resulted in a proportion of the school staff and pupil cohort having to self-isolate for a limited period; action is based on specific advice from the NHS given in each case. Schools and early years centres continue to operate rigorous hygiene procedures and risk assessments are regularly updated to reflect the latest guidance. Partnership working with colleagues from Communities, Housing and Planning has been invaluable.
- 4.2 As well as a return to learning, schools and early years centres are placing a particularly strong emphasis on emotional wellbeing and supporting children and young people to manage the impact of both lockdown and the return to school after a prolonged absence. The approach has been developed by the Educational Psychology Service and wellbeing will be a priority throughout the academic session.
- 4.3 Children and Families social work services continued throughout lockdown as noted in the service update to this board in August 2020. The recent re-imposition of restrictions within Renfrewshire and neighbouring authorities has had an impact on the extent to which face-to-face contact can be enabled. Our most vulnerable children and families are still seen regularly by social work staff, and the service has been able to resume facilitated contact between family members. Offices are now open in Paisley and Renfrew. Some key partnership work has been able to restart, including work with Barnardos as part of our 7 year strategic partnership with them. The new Eclipse case management system has gone live and training and support are being delivered to staff remotely and face-to-face.
- 4.4 Criminal Justice Social Work services, although part of Children's Services, are covered by the remit of the Communities, Housing and Planning Policy Board and an update on this area of the service has been provided to that board.
-

5. Key priorities until next Board Cycle

- 5.1 The service priorities remain the maintenance of business as usual as far as possible within whichever restrictions are in place. This means a continuation of full-time education and frontline social work services, with a particular focus on maintaining key public protection processes and supporting our most vulnerable children and families. Children's Services will continue to work in partnership with other council services, and with others in the public and third sectors to ensure vital services can continue. The service will also support the council in its wider recovery and renewal activities.

CHS/ATT/08	Average Total Tariff Score of Looked After Children (school leavers)				Not measured for Quarters				280	n/a	280	249	The average total tariff of school leavers that are looked after increased in 2018/19 to 280. Due to the small number of looked after pupils in each leavers cohort there is considerable variation in the average tariff from year to year.
CHS/ATT/09	Gap between the Average Total Tariff Score of Looked After Children (school leavers) and that of the total Renfrewshire leavers cohort				Not measured for Quarters				70%	n/a	70%	67.2%	The percentage gap between the average total tariff between looked after school leavers and the general cohort fell in 2018/19 to 70%. This was due to a rise in the average total tariff of looked after pupils. The number of looked after pupils in each leaver's cohort is small therefore a high degree of variation is expected in these figures year on year.
CHS/ATT/14	Percentage Point Gap in % Pupils Achieving Expected Level for their stage in Literacy between pupils living in 30% Most Deprived areas and those living in 70% Least Deprived Areas (SIMD)				Not measured for Quarters				12%	n/a	12	10	The percentage point gap between the attainment in literacy of pupils living in the most and least deprived areas remains in line with previous years. The size of the gap has reduced since 2015/16 however has remained around 12 percentage points over the last 3 years.
CHS/ATT/15	Percentage Point Gap in % Pupils Achieving Expected Level for their stage in Numeracy between pupils living in 30% Most Deprived areas and those living in 70% Least Deprived Areas (SIMD)				Not measured for Quarters				10%	n/a	10	9	The percentage point gap between the attainment in numeracy of pupils living in the most and least deprived areas is unchanged since 2017/18 and decreased over 4 years. While the overall gap has remained at 10%, both the level of attainment of pupils living in SIMD deciles 1 to 3 and pupils living in SIMD deciles 4 to 10 has risen in the past year.
CHS/ATT/16	Percentage Point Gap in % Pupils Achieving Expected Level for their stage in Literacy between pupils entitled to Free School Meals and pupils not entitled				Not measured for Quarters				18%	n/a	18	16	The percentage point gap between the attainment in literacy of pupils entitled to free meals and those not entitled has marginally increased since 2017/18 but remains smaller than previous years.

CHS/ATT/17	Percentage Point Gap in % Pupils Achieving Expected Level for their stage in Numeracy between pupils entitled to Free School Meals and pupils not entitled				Not measured for Quarters				14%	n/a	14	15	The percentage point gap between the attainment in numeracy of pupils entitled to free meals and those not entitled has continued to decrease. The reduction in the gap has occurred due to attainment of pupils entitled to free meals increasing at a higher rate than pupils that are not entitled. As such it represents a genuine decrease in the size of the attainment gap.
CHS/SCH/07	% of children attending school (Primary)				Not measured for Quarters				95%	95%	95%	95.5%	The average attendance rate in Renfrewshire primary schools remains in line with previous years at 95% This figure is in line with national attendance rates, which in 2018/19 were 94.5%
CHS/SCH/08	% of children attending school (Secondary)				Not measured for Quarters				90%	90.4%	90.4%	90.3%	The average attendance rate in Renfrewshire secondary schools remains in line with the previous year at 90%. Renfrewshire remains in line with the national attendance rate which in 2018/19 was 90.7%
CHS/SCH/09	% of young people choosing to stay onto S5 after January (as % of S4 roll at September previous year)				Not measured for Quarters				93%	94%	94%	92%	The percentage of pupils staying on to 5th year has continued to increase. This year's figure represents a continued positive trend over 3 years. There is no national comparator data for this specific measure, however data from Skills Development Scotland's participation measure indicates that Renfrewshire has considerably more pupils remaining in school to the end of the senior phase than the national average.
CHS/SCH/10	% of young people choosing to stay onto S6 (as % of S4 roll at September two years before)				Not measured for Quarters				69%	74%	74%	67%	The percentage of pupils staying on to 6th year has continued to increase. CHS/CJ/CPO/02	% of NEW unpaid work orders/requirement complete by the required date				76%	63%	70%	77%	72%	74%	72%	72%	Performance remained consistent and on or above target throughout 2019/20. Performance against this indicator will be adversely affected during 2020/21 by the service changes necessitated by the Covid-19 pandemic. All target end dates for orders were extended by 12 months to reflect the fact that unpaid work paused during lockdown. This will impact on the capacity of the Unpaid Work Service as they 'catch up' on work placements which didn't take place as well as manage new orders. National estimates suggest that services will operate at 30% capacity in the first stages of recovery so that physical distancing rules can be complied with; however re-establishing and providing this service, given its nature, and within current staffing levels will be challenging.

CHS/CJ/CPO/04	Percentage of NEW unpaid work clients seen within 1 working day of the order				72%	71%	79%	70%	60%	52%	59%	70%	This target remains challenging due to the number of Unpaid Work Level 1 orders (which can be handed down without the need for a social work report) and the number of service users given orders by external courts (which teams are not aware of before sentencing). In both circumstances, the teams are not aware of the new order being made on the day, and are therefore unable to provide appointments there and then. Targets need to be reconsidered in light of this growing trend.
CHS/CJ/CPO/05	Percentage of NEW unpaid work clients receiving an induction within 5 working days of the order				73%	73%	62%	66%	67%	67%	67%	75%	Service users will always be given an appointment within the required timescale as soon as the service is aware of the new order being made (as previously stated, this is impacted by cases in external courts or those where no social work report is required). Thereafter, performance is dependent on service user compliance.
CHS/CJ/CPO/06	Percentage of NEW unpaid work clients beginning work placement within 7 working days of the order				70%	69%	68%	62%	60%	63%	63%	65%	Service users will always be given an appointment within the required timescale as soon as the service is aware of the new order being made (as previously stated, this is impacted by cases in external courts or those where no social work report is required). The 7% rate in Q4 relates to two children. As such, they relate to a proportion of parents in a small number of schools. Schools included in 2019/20 are St John Bosco Primary, Riverbrae, East Fulton Primary, Langbank Primary, Heriot Primary Our Lady of Peace Primary and the Mary Russell School, . During 2019/20, 10 parents responding from these 7 schools indicated that they were not satisfied.
