1 MINUTE OF PREVIOUS MEETING

There was submitted the Minute of the meeting of this Local Partnership held on 16 June 2021.

DECIDED: That the Minute be approved.

2 ROAR SOCIAL INCLUSION PROJECT

The Chief Executive ROAR Connections for Life provided a verbal update relative to the project being undertaken by ROAR Connections for Life /Renfrewshire Health & Social Care Partnership within the local Partnership area in respect of loneliness and social isolation.

It was highlighted that the Local Partnership had previously agreed that Social Connections was a key priority for the Partnership. During the update members were provided with definitions of loneliness and isolation, made aware of the impact of these experiences and advised of the principal reasons for establishment of the project at this time. The role and priorities of the Project Worker posts were outlined in detail. A summary of activities undertaken and planned were provided.

The opportunity was taken to to introduce the two new Connectedness Project workers, Lesley Drummond and Gillian Thomson, to members of the Local Partnership and to disseminate their contact details.

DECIDED: That the update be noted.

3 YOU DECIDE

G Hannah, Infrastructure, Transportation & Change Manager (Renfrewshire Council) gave a presentation relative to the Community Investment Fund, a participatory budgeting initiative, via which £1.2 million of Roads Capital Investment Programme funding had been made available, over a 3-year period, for local residents to suggest and then determine.

The You Decide initiative, would act as the process by which local communities would determine which potential projects would be prioritised and progressed. The process provided local communities with a key-role in the decision-making process and the Council with a better understanding of community priorities.

A summary of the scope of the Fund was provided, together with details of the next stages of the process and the anticipated timescales involved.

The presentation outlined the community engagement undertaken to date. It was highlighted that key community sites had been used, including supermarkets, libraries, leisure centres to undertake the Roadshows to ensure inclusiveness. Details of the marketing strategy undertaken in respect of the engagement process were also provided. It was noted that the creation of a specific Council webpage had also

provided an opportunity to submit ideas for projects. The Local Partnership was informed that to date 96 project ideas had been received across the Paisley East area and examples of the nature of projects proposed was provided.

DECIDED: That the presentation be noted.

4 **COMMUNITIES HEALTH AND WELLBEING FUND**

S Miller (Engage Renfrewshire) made a short presentation relative to the Communities, Health and Wellbeing Fund.

The Local Partnership was advised that nationally £15 million had been made available to provide significant investment into community support for adults, building on the children and young people's community wellbeing supports currently being rolled out across Scotland via the Communities, Mental Health and Wellbeing Fund. The Fund would be locally focused, work with local partners and strong connections with community groups. The allocation for Renfrewshire was £509,542. A summary of the Fund aims and the criteria for funding was provided. Engage Renfrewshire was the point of contact for enquiries, applications, delivery of grant monies and monitoring. It was planned that the 2021/22 funding would be fully allocated by the end of the financial year. It was highlighted during the presentation that an appropriate 'light touch' application process would be adopted to facilitate access to the fund, that proposed grant awards would range between £10,000 and under and larger grants, of around £50,000. In addition, it was noted that there was potential for the award of smaller amounts to non-constituted groups. The local application processes would be open by 30th November 2021.

DECIDED: That the content of the presentation be noted.

5 **HAWKHEAD ROAD TRAFFIC**

The Convener proposed that consideration of this matter be continued to the next meeting of the Local Partnership. This was agreed.

DECIDED: That consideration of the matter be continued to the next meeting of the Local Partnership.

6 **BUDGET MONITORING REPORT**

There was submitted a report by the Chief Executive relative to the funding allocated by the Paisley East Local Partnership to local community groups to undertake projects during 2021/22.

The report advised that the 2021/22 budget allocated from the General Fund, the Paisley Common Good Fund and monies carried forward from 2020/21 of £68,142.95 for this Local Partnership had been awarded to local groups. An appendix to the report detailed the distribution of funds made at the meeting of the Local Partnership held on 16 June 2021.

In addition, it was highlighted that funding of £24,095 had been available for projects to benefit young people through the Celebrating Renfrewshire Fund. The results of awards made through the Celebrating Renfrewshire participatory budgeting process from the Paisley East budget would be circulated to members of the Local Partnership when available.

DECIDED: That the report be noted.

7 PRE-BUDGET ALLOCATION WORKSHOP MEETING

There was submitted a report by the Chief Executive relative to the proposed adoption of an agreed process to assist the future allocation of Local Partnership budget.

The report indicated that during discussion regarding the allocation of grant funding at the meeting of this Local Partnership held on 16 June 2021, it had been proposed that, in future, a process be agreed for allocating the Local Partnership budget prior to the meeting. This proposed course of action, which involved convening a pre-budget allocation workshop, would enable members of the Local Partnership to explore options for taking budget decisions and have clear agreement on a structured process for discussion. In addition, it would enable members to agree the criteria that they wished to apply to the decision-making process and identify options for dealing with any excess in the value of applications in excess of the available funds. It was noted that in the case of other Local Partnerships, the convening of a pre-budget allocation workshop facilitated looking at options to set a maximum award to organisations and an appropriate percentage figure to apply to any approach to pro rata applications. As part of the process, Council officers also contacted applicants and discussed what impact these financial options would have on the proposed project, thereby providing the Local Partnership with better information to make decisions. It was highlighted that Paisley East Local Partnership would have flexibility to choose its own options to discuss.

DECIDED:

(a) That it be agreed that a budget workshop meeting be held, prior to the main 2022/23 grant allocation Local Partnership meeting to consider, discuss and agree a process to guide discussion at the Local Partnership meeting; and

(b) That the date and time of the budget workshop meeting be communicated to members of Paisley East Local Partnership following the receipt and processing of applications for 2022/23 funding.

TITLE:
Paisley East Local Partnership Budget Monitoring Report

1. Summary

- 1.1 Paisley East Local Partnership provides funding to community groups to undertake projects. This funding is allocated from the General Grant Fund and, through a Participating Budgeting exercise known as Celebrating Renfrewshire, the Youth Challenge Fund.
- 1.2 A table setting out the funds allocated by Paisley East Local Partnership in 2021/22 and current budget position is attached as an appendix to this report.
- 1.3 The Celebrating Renfrewshire Fund for Paisley East Local Partnership allocated £21,595 of its budget of £24,095 to nine projects. The remaining unallocated budget of £2,500 will be carried forward to 2022/23. Work is ongoing with five projects to complete the draw down of Celebrating Renfrewshire awards made in 2021/22.

2. Recommendation

- 2.1 It is recommended that the budget monitoring report be noted.

TITLE:
**Applications for Local Partnership Funding To Paisley East
Local Partnership 2022/23**

1. Summary

- 1.1 Applications for grant funding from the seven Local Partnership areas were invited to be submitted during March and April 2022, to be considered at the Local Partnership meetings due to be held in June 2022.
- 1.2 The available allocation for Paisley East Local Partnership for 2022/23 is £64,527 made up of £52,247 from the General Fund, £11,820 from Paisley Common Good Fund and £460 brought forward from the 2021/22 General Fund budget.
- 1.3 From this total budget, a sum of £50 per community representative requires to be ringfenced for potential claim of expenses. These expenses are deducted from the available allocation for the Local Partnership. Paisley East Local Partnership has space for eleven community members, so the total ringfenced for expenses is £550. **The total budget available for allocation by Paisley East Local Partnership is therefore £63,977.**
- 1.4 The total value of applications for funding received is £101,924.65.
- 1.5 The Youth Challenge Fund component of Paisley East Local Partnership Funding for 2022/23 is £24,095, with an additional £2,500 brought forward from 2021/22. The total available spend for Celebrating Renfrewshire in Paisley East for 2022/23 is therefore £26,595. This funding will be allocated by young people through a Participatory Budgeting exercise that will take place during autumn 2022.

2. Recommendations

- 2.1 It is recommended that members of Paisley East Local Partnership consider the applications for Local Partnership grant funding, as set out below in Appendix 1 and 2.

3. Background

- 3.1 Applicants for funding in 2022/23 have been provided with guidance, as well as a description of the Local Priorities identified by Paisley East Local Partnership.
- 3.2 Local Partnership members are asked to consider the applications for funding summarised at Appendix 1 and 2 of this report, and to assess these against the Local Priorities agreed by Paisley East.
- 3.3 An initial assessment has been carried out by officers to support Local Partnership members in their decision-making. Where applications have made clear reference to the Local Priorities identified by the Local Partnership, this is identified in the first table at Appendix 1. Applications that make a partial or no reference to Paisley East Local Priorities are summarised in the second table – for example, the project may tackle social isolation (and therefore meet the Local Priority around social isolation) but not deliver this directly in the Local Partnership area or make reference to how many people from the area would be engaged in the project.
- 3.4 The priorities of Paisley East Local Partnership are:

Exploring the impact of new housing developments

The Local Partnership want to explore how they influence planning decisions around new developments, and make sure that the infrastructure is in place to support these developments, for example, roads, schools and nurseries. They want to explore how community benefits might be used to support this.

Supporting social connections

The Local Partnership want to support social connections to tackle isolation and promote mental health and wellbeing. They want to see groups in the local area working together, swapping skills and sharing resources.

Community pride and safety

The Local Partnership want to see the care and maintenance of their spaces across their area, so they are clean, safe and attractive spaces. They want to see these spaces used to promote good wellbeing across the area.

Tackling food poverty

The Local Partnership wants to tackle food poverty in the area to ensure that people are able to access supplies of food where they need it. As part of this, the Local Partnership wants to see a reduction in the amount of usable surplus food wasted and the sustainable use of resources to be key features of work to tackle food poverty.

Reference: FR1040	Organisation Name: Forever Young
Project Name: Buddy Food	Amount applied for: £ 2000
Purpose of the project Like everyone the last 2 years have not been the best, however due to the isolation we have noticed that a good number of our members have deteriorated due to loneliness.	

<p>Buddy Food we felt would be a great way of getting people back together and sharing a nutritious meal this would be in the form of a lunch. This project will tackle food poverty, reduce loneliness and isolation, strengthen partnership working with the wider community, increase health and wellbeing.</p> <p>This was identified as we slowly started to meet back up we noticed that a good number of our members had lost weight. We as a group have many contacts with other older groups and have been told to look out for Malnutrition 1 in 10 older adults aged 65+ are malnourished and this is where we would like to do something about this.</p>														
<p>What will the project do?</p> <p>Our project is to create weekly lunch clubs within our 10 complexes that will provide a nutritious lunch that will combat malnutrition. We plan to have valuable information available and also want to create a recipe book with simple nutritional meals on a budget that we can share with the wider community including schools. Introducing them back to basic with information on healthy eating and why its so important to have plenty of fruit and veg in our diet as we age. Even if it is a good plate of soup and fruit salad it all helps.</p>

This has been a great asset during lockdown but as we are recovering, we would like to be able to offer more nutritional food, more fruit and veg and not as much bread.</p>

Reference: FR1042	Organisation Name: Paisley Pirates Ice Hockey Club
Project Name: Provision of ICE	Amount applied for: £ 4429.75
Purpose of the project To provide part funding of ice hire, permitting on ice activities for young persons to take place at Braehead Arena, the only facility available within a 30mile radius of Paisley. Encourage more people to watch/play a diverse sport such as ice hockey, thus promoting health from a physical & mental perspective, within the Renfrewshire wide community and surrounding areas. On ice training & games take place in Renfrew, Braehead Arena. Paisley Pirates were first formed in 1946 & from then until the 1960's played out of East Lane. In 1992 they were resurrected at the Lagoon Leisure Centre until 2006, when Renfrewshire Leisure withdrew the ice. Due to the paucity of facilities, Pirates have gone to Dundee & Dumfries for ice.	

With rising demand for a skills-based approach the club has appointed a second volunteer coach & intends to appoint commensurate numbers of volunteer coaches for players under the age of 19yrs.

What will the project do?

Continue providing a local focus for the sport given no other venue is available. Continue development of on-ice skills, including off-ice skills for volunteers & adults with learning difficulties to carry out duties on game nights requiring numeracy & organisational skills. Publicise the existence of ice hockey in Renfrewshire through local media, maintaining a significant profile (the club has featured regularly in an annual project run by a Canadian tourist agency (circulation 0.25m) which promotes Paisley as an ice hockey town for tourists)

Purpose of the project

Community as an impartial access point. A place people feel comfortable approaching for advice and advocacy. We see a wide range of people from different cultures with their own unique barriers, situations and needs. The centre is already helping a lot of people and the demand of the project has been overwhelming. There is a need to keep the centre 5 days a week due to demand.

We are looking for funding to cover basic running costs.

When various minorities leave their home countries they are faced with new customs and ways of doing things. They struggle to cope with life changing events without the support of family and

<p>friends and with no one to speak to within their new community. They do not interact for several reasons, including trust issues, language difficulties or religious belief.</p> <p>The project was initiated by a group of people who themselves went through a similar phase and are aware of the need.</p>
<p>What will the project do?</p> <p>The centre serves as a first point of contact for people from immigrant communities. It is used by a variety of people including families, students, workers, asylum seekers and refugees; some of whom have little grasp of English while others need a translator to communicate at all. We provide some much-needed training; including ESOL, job matters, & awareness on other issues, helping with housing, tackling racism, giving advice with Brexit, tackling isolation.</p>

Project Name: The Renfrewshire Toy Bank	Amount applied for: £1428
Purpose of the project To help take away financial strain from vulnerable local families by providing new and safe toys/gifts for 0 to 18-year-olds at birthdays and Christmas. Allowing children to play, learn and express themselves which is vital for wellbeing. Distribute Easter eggs to local children living in poverty as well as Halloween costumes. Creating equality within our community by removing any stigma due to the quality of gifts and costumes distributed.	
What will the project do? Previously we only ran at Christmas. It was clear to us from the level of need at the festive period that the toy bank could becoming a vital service for the Renfrewshire community all year round. We had various meetings with organisations that refer to us and the feeling was mutual. Now that we have ran for a full year we continue to grow to help as many local children as possible as we have seen a significant rise in poverty especially in working families. Continuing to identify ways to further develop the toy bank for the community's needs. Working with referring organisations such as social work, health visitors, all local schools and nurseries, the foodbank, The STAR project, EBI Unites, Pals of the Privies, who Cares? Scotland, Home Start, The SPACE project we are trying to reach as many children in need as possible. Continuing to network with local businesses we set up drop off points for gifts with volunteers collecting and making up gift packages. Spreading information about the Toy Bank via social and traditional media outlets.

Project Name: Fair Trade Education and Promotion	Amount applied for: £3000
Purpose of the project To build on Rainbow Turtle's education work, creating local, informed and active global citizens, particularly our young people and their teachers. This will include the facilitation of workshops and activities on Fair Trade and its environmental impact, to connect not only with the Fairtrade Schools awards system but also the Eco Schools. With a focus on this local partnership's interest in supporting social connections, Rainbow Turtle facilitates the sharing of resources and skills with our regular schools and adult conferences.	
What will the project do? Rainbow Turtle came out a global movement and a need to implement something locally in Renfrewshire. This need was identified by Renfrewshire Councils and local activists in churches and voluntary groups. Schools also wanted more information about Fair Trade and the education officer post grew out of that need. Our specific aims are: * to meet increased demand to host schools conferences during the year, enabling young people to engage actively with issues of social justice, the environment, Global Citizenship and Fair Trade; * to host and facilitate at least 1 producer visit, combining with one of the above conferences as we have in 2021 and in previous years; * to work directly with the young people on school Fair Trade and Eco committees to embed Fair Trade issues deeper into the curriculum.

Project Name: Oakshaw Trinity Friendly Hour Transport Fund	Amount applied for: £500
Purpose of the project The purpose of the project is to provide transport to and from the Friendly Hour for members. We provide an afternoon of friendship and fellowship that allows the members to meet and develop their friendships. Entertainment and social activities are provided on a weekly basis from October to May.	

<p>Children and Adults provide the Entertainment. Members also have a much-appreciated cup of tea or coffee and goodies. The programme includes a Christmas lunch and an annual outing.</p>										
<p>What will the project do?</p> <p>The Committee identified many members would be unable to attend our weekly meeting without provision of transport. Many of our members live alone and the Friendly Hour is the only time they may see other people. It gives them some entertainment which avoids an afternoon of loneliness and isolation. Our average age is over 85 and many are quite infirm. There is a greater need for these people to be transported to a happy and lively environment for a few hours on a weekly basis.</p> <p>If we are successful in securing the grant, it will assist us to continue to provide much needed transport to bring these people to and from the Friendly Hour, thus giving them much needed company and socialisation.</p>

We want to do something similar, this time we want to do more for older adults in Renfrewshire. Our project is to kick-start an Older Adult Session will be an opportunity for older adults to meet people, socialise and laugh whilst investing in their physical and mental health through this wellbeing project.</p>	
What will the project do? <p>We organise a subgroup comprising of older regulars and the question we asked them was 'how can we do more for older adults' The feedback from that group has shaped this application to reflect what they wanted. the message from the group was that they wanted a social aspect to the Bungalow and the feeling of being a part of that community.</p> <p>We will work with older adults to support their emotional, psychological and social wellbeing. For a person with the onset of dementia, this might mean helping them to connect with their family through shared music making, helping them to feel valued and heard. We will provide ways to connect and share feelings, memories and moments with others, and offer stimulation and encourage expression.</p> <p>Activities will include: Name That Tune Pictogram Finish the Song Title Exercise and Sing-along Down Memory Lane Music Bingo</p>

Do you remember the trams, did you take a trip on the trams? Do you remember the Bus Wars of the 80's.? Did you work for Western Scottish, Clydeside Scottish, Graham's buses, Paton's, McGill's, or Cunningham's. to name just a few. Do you want to share your experiences, while being driven around Paisley in a former Western Scottish Daimler Fleetline.	
What will the project do? During our last project, we interviewed many former Mill workers, we found that they were keen to share their experiences and enjoyed the whole process. We will use the Press and social media to advertise the project and ask for members of the public to come forward who have an interest in sharing their experiences for the project. We will use a former Western Scottish Daimler Fleetline to drive members of the public around Paisley and the surrounding areas while interviewing them. We will then compile these interviews and give them to Paisley Museum and have many added to our website and Facebook page. We may also produce a cd and offer this free to the public. This will be a fun project.

Reference: FR1089	Organisation Name: Shopmobility Paisley & District
Project Name: Partnership Working with Inchinnan Development Trust and Paisley Darkside Historical Walking Tours	Amount applied for: £645
Purpose of the project We are working with partners on joint projects to locate mobility equipment for hire across Renfrewshire thus making it easier for those with mobility issues to hire equipment in their locality. Equipment is free for hire during the day. If hired overnight it will cost £5 for a scooter and £1 for a wheelchair. Shopmobility will own, maintain and insure equipment safe for use. We will hire local volunteers in the area to help manage this project, provide expenses for doing so and kit volunteers out with branded uniforms, training, development.	
What will the project do? Meetings: Inchinnan Development Trust have an ageing population. Many local people will benefit from getting out to do their shopping in Erskine for example. Survey being sent out to the community which will be shared with Erskine and Bishopton which will give us statistical representation of need. Paisley Darkside Historical Walking Tours - will locate equipment in their Paisley Centre Office due to demand opening up opportunities for those with mobility issues to participate in tours and hire from their local office. We anticipate growth. Essentially this project will open up opportunities for local people in their communities to be able to hire mobility scooters and wheelchairs at no or low cost. No project of this kind has ever been carried out in Renfrewshire and what a great opportunity to also offer local people robust volunteering roles with training, development thus helping their journey to another positive destination. We are well equipped within our organisation to roll out this project confidently and in partnership with local communities.

Purpose of the project: The main purpose of the event is to provide an opportunity for families to come together, get active, and have fun by organising a Christmas 3K family fun run & 1K fun run in Barshaw Park. The Jingle Bell Fun Run is a unique family fun event. The event caters for all ages and all abilities and people can walk or jog. Jogging Buddies will offer a training programme and beginner classes leading up to the event. On the day we will provide information on opportunities for families and the local community to be active on a regular basis.	
What will the project do? This is an annual event which has grown in numbers every year. We identified the demand for this type of event through talking to the local community and participants in our Jogging Groups. There were no family events like this in Renfrewshire. Local community groups have also contacted us to support and be involved with the event. Many local groups all have their members take part in the event to raise funds for their own groups. -Organise a 3k and 1k family fun run at Barshaw park on the 1st Sunday in December. -Promote the event through local groups, previous participants and through social media. -Encourage other local community groups to get involved in the event by asking them along to the event to participate or to promote their groups activities. -Work with partners Renfrewshire Council, Renfrewshire Health & Social Care partnership and local partners to promote the event, Paisley and Barshaw park.

Walking Football	
<p>Purpose of the project:</p> <p>We aim to tackle intergenerational loneliness, social isolation, and mental health within the Seedhill & Whitehall area, which was already too common and has been exacerbated by the pandemic, with clear evidence of cases of isolation and loneliness growing across all ages. Being able to deliver these services at no cost to the individual will benefit those who otherwise might not have access to other support due to financial constraints. This is particularly important in Renfrewshire, where 29% of residents are in the 20% most-deprived areas.</p>	
<p>What will the project do?</p> <p>Across the UK, the gender split is roughly 49% male, 51% female. The local area around PA1 3PD is predominantly male (58%), where currently 75% of woman participate in organised group activity where only 25% of men attend. This highlights the need for inclusion of this demographic. In addition, with Seedhill having the facilities to support a walking football club the grant would allow men to participate with no financial restraints.</p> <p>Walking Football:</p> <p>Walking football can help people lose weight, help prevent loneliness and positively affect overall mental and physical health. Walking football has become increasingly popular over the last few years – and for good reason. Aimed at adults over 50, walking football has social, mental, and physical health benefits.</p> <p>It will increase usage in the Seedhill football complex within the heart of Seedhill and focus on delivering a community activity that males are more likely to participate in.</p>

<p>What will the project do?</p> <p>Roar ran a pilot photo walk from December 2021-March 2022 in partnership with RIG Arts. From the pilot, we have seen that residents have taken many photographs of parts of the local area that they feel has been neglected, e.g., dog dirt and dead rodents, and the people on the photo walks have wanted to be able to communicate their frustration at the neglected area and are looking to find ways to regularly care for it.</p> <p>A weekly Photo walk with a professional photographer for 16 wks, thereafter purchase second-hand equipment.</p> <p>During the pilot the group met weekly at WHA community flat for lunch. Lunch was a meal deal from Tesco. This has brought people from the local area together to connect and socialise with each other.</p> <p>Many of the people who live close to each other don't know each other and the lunches were a real point of connection.</p> <p>The photo walks have the potential to engage with local residents about their ideas on the regeneration of the area.</p>

Project Name: bike ability checks, public repair stations	Amount applied for: £3245.33
Purpose of the project 1. To continue to provide a service to 20 local primary schools where we come along and do free inspections and repairs on kids bikes before the attend their bike-ability course via Renfrewshire council 2. To provide public Repair stations where cyclists would have access to tools 24 hours a day on or near the cycle network within Renfrewshire, our aim is to place these at access points to the cycle paths and have signage to show people where these stations are and how to use them.	
What will the project do? The need for the school visits is to support the kids and their parents by covering the cost of the repairs required by R.C. Bike-ability scheme, we have attended 5 local schools and we have covered the costs for the repairs for these schools after talking with some parents who in their own words "can't afford to take the bike to Halfords" Cyclists are often stuck by the side of the road or having to push bikes home because they have had a mechanical fault while out cycling, the public repair stands will allow repairs to be carried out. We will attend local schools prior to Bike-ability scheme being carried out and we will carry out a full inspection of the kids bikes and do any repairs that are required. We will place 4 public repair stands along the cycle route exit/entry points including, Canal Street, Castlehead, Elderslie and Linwood. We aim to expand this in the future to cover all of Renfrewshire

Project Name: Expansion of community coaching programme	Amount applied for: £4770

<p>Purpose of the project</p> <p>In 2022 we are looking to expand our community coaching programme, offering regular and outreach/school coaching free of charge. The base project began in 2021 and we are looking to build on the good introductory work completed both the club and the local community, continue to recover from the pandemic and the challenges of lockdowns and resulting issues of isolation.</p> <p>This year we have recruited an overseas coach from South Africa with First Class experience to lead our coaching programme.</p>
<p>What will the project do?</p> <p>The club still believes that we and the wider community is in the process of recovering from the pandemic and we feel that sport in general is pivotal to this. The club is already a community orientated organisation is well placed to act as a community hub. In the post pandemic atmosphere, cricket offers a safe, outdoor and sociable way for people to participate in sport and there is plenty of opportunity for those who don't play, to use the club as place to meet and enjoy the social aspects and atmosphere of club life.</p> <p>The core part of the project will remain offering our senior and junior training nights free of charge to the local community and will also include a summer camp or individual open days, again free of charge. These sessions would run without funding support but would have to be charged events, which would affect participation. Finally, we will be looking to attend 6 local primary schools to offer introductory cricket taster sessions during curriculum time PE and we would look to run an interschools tournament on the back of these sessions.</p>
<p>PE Local Priorities: <i>please tick the relevant box(es)</i></p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Exploring the impact of new housing developments <input checked="" type="checkbox"/> Supporting social connections <input type="checkbox"/> Community pride and safety <input type="checkbox"/> Tackling food poverty <input type="checkbox"/> Partial fit with priorities <input type="checkbox"/> Does not fit with priorities <p>Anticipated Outcomes</p> <p>Exploring the impact of new housing developments - With the many new housing developments in Paisley East, there are a lot of new families moving to the area. Offering our junior and senior training free of charge will allow those new to community to have somewhere to meet and experience community life in the Paisley area. We also intend to approach the housebuilders building in the Hawkhead Road area with a viewing discussing how we could tie up with them to offer open days/taster sessions.</p> <p>Food Poverty - The club would look to arrange provision of healthy lunches for all children who participate in a free summer camp. The club has also noted is that this year we can contribute to this priority indirectly. With the current cost of living crisis driving up household bills and food prices, our provision of free activities is a great way of allowing people to offset these increased costs in some way and would also break down the cost</p>

barrier as a reason for not taking part in cricket.

Supporting Social Connections - Team sport is a driver of both physical and mental health, especially in younger age groups. Participation in our programmes can give children, young people and adults the opportunity to begin playing a new sport and the opportunity to feel part of something bigger. Extending to the wider community, developing sporting connections will give families a place to meet and interact, and the social aspects of the club helps to give a feeling of belonging amongst isolated individuals throughout the community.

We are a major contributor to the wellbeing of the area; our social membership increased as many people benefited from using the ground for recreation during the pandemic and joined us as members after experiencing club life. We have spent £2500 improving the nets & training facilities. This will give members and the local community the opportunity to take advantage of the best cricket facilities in Renfrewshire. By connecting with the wider community the club expects to become a source of community pride beyond that of just the membership.

About the organisation:

Participation and promotion of the sport of cricket across all sections of the community. Providing high level facilities for members, to allow play across all levels of the sport. By continuing to offer free sessions and outreach work we hope to build on the work completed in 2021, grow numbers to maintain the club's sustainability and promote the physical and mental health advantages of cricket and team sport as both the club and the community continue to recover post pandemic.

Project Name: Future Music	Amount applied for: £4000
<p>Purpose of the project</p> <p>We have 3 rooms which are unused. We want to create 3 Music Production Workshops for teaching and to be made available for young artists. We have been a tradition music school providing education in Guitar, Bass Drums Keyboards and Singing. We want to provide a new generation with opportunities to learn new skills on computer-based music using the latest sound equipment and keyboards. This would add another dimension to our programme.</p>	
<p>What will the project do?</p> <p>Our Youth Committee and the young people who have taken part in recent projects have identified that Music Production is getting more popular and have suggested that young people who have an interest in IT rather than traditional instruments would benefit having access to a tutor and equipment. The format, structure and content are all suggestions that came from them and conveyed to the manager, and this is why the application is being made. In recent years more and more young people today are finding their way into music through technology.</p> <p>We will deliver workshops and lessons in Music Production. With the equipment we can help young people explore and develop new skills in music and nurture their talents using a digital multimedia studio. A professional studio with recording facilities gives young people the opportunity to develop professional skills in music and sound technology, recording and video editing. They will also gain a solid foundation in music theory and production, which allows many of them build on to develop own musical style becoming artists in their own right.</p>

2021/22 LP Funding Feedback

Reference: FR1116	Organisation Name: Renfrewshire Model Railway Club
Project Name: Re-rendering exterior of club hall	Amount applied for: £2900
Purpose of the project <p>The club building has suffered from significant dampness due to loose and broken rendering allowing water saturation. New windows installed last year have helped, but problems of cold and damp cannot be cured until the render is replaced, as it is almost entirely blown across the whole building. This will make the building watertight to prevent further damage to the structure and contents and improve thermal efficiency thereby helping to cut heating costs and energy usage.</p>	
What will the project do? <p>Dampness has been an issue for several years, but resources had been focussed on piecemeal roof repairs. A damaging woodworm outbreak in 2019 highlighted the need to eliminate other sources of dampness. After several pieces of render fell off, we obtained quotations for its repair, which brought to light the fact that the condition of the render was a major source of the dampness and the whole building required re-rendering. Renewal of the windows was also urgently needed and was done last year, resulting in further damage to the loose render.</p> <p>The entire building (or as much as can be afforded if grant is partial) would be re-rendered.</p>

Anticipated Outcomes

Secure the future of a club which, amongst other benefits, strengthens social connections and tackles social isolation. The club has members of all ages, and part of our purpose is to facilitate the transfer of knowledge about our hobby between generations. Many of our members are elderly, and for a number of them the club's regular meetings are their primary social outlet. Other members and visitors including children, have autism or related conditions, and the club also provides an opportunity for them to socialise with like-minded people.

Reference: FR1123	Organisation Name: Renfrewshire Witches Hunt 1697
Project Name: Heritage Pop-up & Gallows Green Memorial	Amount applied for: £2000
Purpose of the project To enhanced and encourage the community in its understanding of the roots of its heritage within Scottish history and to rejuvenate a historical site of the Gallows Green to become a memorial to those who were sacrificed during a dark time of Renfrewshire's' history by sympathetically landscaping and making the area a spot of community unity, peace and a sense of community ownership of the heritage and the land.	
What will the project do? During lockdown, people began to focus on what was in the vicinity of their home. Be it neighbours, community, walking the dog, the history of their town. Through social media they searched and engaged with community groups like ours and like-minded people. At a national level a growing movement for the witch hunts & trials throughout Scotland, to be memorialised and to gain an apology (8/3/22) and pardoned from the Scottish Government. Paisley has the history and the historical site to be off interest to the community and nationally. Setting up a portable heritage hub. with a display board telling the story and outcome of the Witch hunt and trials. It will have information to encourage volunteering. Promoting the project of the memorial work at the Gallows Green. This will be in public areas such as libraries, school libraries, shopping centres and events. Also, we will have costumes for children to adults to try on. An increase in social media to engage more people. The Gallows Green Memorial will put Paisley on the historic map and hopefully increase visitors.

We are based in the centre of Paisley, and this will benefit teenagers who are needing counsellor from all areas in the town. To begin with we are looking to train two counsellors who are already fully trained in adult counselling and child play therapy. Schools are struggling to cope with the rise of pupils suffering mental health issues and the number of outside bodies which specialise in the area is small so we are looking to not only help the child but build relationships with institutions to grow the number of children we can help.

Reference: FR1141	Organisation Name: Lamont Farm Project
Project Name: Lamont Farm Project	Amount applied for: £4000
Purpose of the project To educate and provide hands on animal care and welfare facilities to the local community and surrounding areas. Lamont Farm offers a wide variety of services to various groups and organisations within the local area and further a field, work experience placements are provided to jobcentres, high schools, community service, kibble project and many more. The farm provides hands on experience for over 40 children who wish to pursue a career in animal care and veterinary practice, educational workshops are ran throughout the year for primary school	
What will the project do? Lamont farm was founded by a group of individuals in March 1977 with a strong desire to establish a local education and community facility. We were the first City Farm in Scotland, and the farm is very popular with families, nurseries and disabled groups as well as local schools. Around 10,000 people visit Lamont Farm annually. We aim to educate	

people from all walks of life in animal care, welfare and husbandry. The farm has many social connections to help promote mental health, wellbeing and to help lessen isolation. Animals are a great source...

The grant will help towards running costs to ensure the project can continue to provide a variety of services and continue to work with a number of local educational establishments within the community.

Anticipated Outcomes

One of the major anticipated outcomes is that we will reduce social isolation and loneliness by strengthening social connections. Through our volunteering programme we introduce people, help to build both working and social connections and often some of the friendships formed here last a lifetime. We introduce young people who will possibly be starting university, helping to make the transition that bit less scary, we introduce kids to each other through workshops during school holidays and these often lead to friendships outwith the farm.

Project Name: Renfrewshire Accessibility Project - Stage 2	Amount applied for: £1954.65
Purpose of the project <p>The purpose of the Grant is to assist the Local Partnership meet the objectives they have set out for this year. This project will enable all members of the community to access all the services they require and enjoy the benefits of facilities in the local partnership. Our main priority is the disabled community but ensuring that the area is suitable for them, we include other age groups such as the elderly, children learning to walk and even people with sports injuries and so many more.</p>	
What will the project do? <p>The need for the project has been established by the concerns of the Local Area Partnership and we will assist in any way we can to ensure safe places for children to play in the current green spaces available by ensuring accessible equipment for all children. We also provide work experience for children from mainstream and additional needs schools as well as adults returning to work by providing volunteering opportunities for them. We have also identified that a lot of the disabled community have little or no access to technology.</p> <p>We will provide access audits/surveys to ensure spaces are safe and meet the requirements for accessibility. We will also provide advice on the best accessible play equipment for unused green spaces to ensure disabled children can play safely and interact with other children</p> <p>We will provide training and work experience for both children and adults on technology along other training courses we provide and offer volunteering opportunities for anyone in the community and offer training to the Local Area Partnership on reading/interpreting plans.</p>

About the organisation: Renfrewshire Access Panel is a small charity based in Renfrewshire dealing with accessibility. Originally, we started with access to the built and natural environment and access to services although we are now delighted to be at the forefront of promoting access across its widest remit and endeavours to be fully inclusive in its approach. This means working across the private, public and third sector to remove physical and barriers to equality, and to promote all aspects of independent living.

Reference: FR1163	Organisation Name: Paisley and District Battalion – The Boys'
-----------------------------	---

	Brigade
Project Name: Development Project	Amount applied for: £1000
Purpose of the project: We are currently looking to grow the number of boys under our stewardship following a steeply trending reduction in boy numbers in recent years. We need to attract boys back into the Boys' Brigade with a pro-active and modern approach to recruiting and also retention. We have received partial funding for this project already but hope to be able to secure additional funding to allow this resource to be able to prepare, present and send out recruitment materials.	
What will the project do? It has become evident in recent years that the reduction in boy numbers is extremely worrying. Our job in the Battalion is to support these local companies of boys to re-grow and to achieve our mission and objectives as mentioned above. We have 18 companies across Renfrewshire, some of which have single digit membership which we need to develop and grow within their local communities. The project will focus totally on development of membership to attempt to recruit boys back into the organisation. This is not an easy task so needs specific focus. There are so many other things which exist to attract boys away from a uniformed organisation, so we are in no doubt that our objectives are challenging.

By growing some or all of our companies, we are bringing more boys and their families into our organisation and churches which helps all communities flourish while allowing those in less well-off areas of any background an equal chance to join us. Our Christian mission also hopes to teach boys and leaders good values which we hope will serve them well in their future well-being and stature in the community. This meets the Supporting social connections priority.
