Additional In-Service Days

Report by
Joint Secretary (Teachers' Side)

Background

As part of the recent teachers' pay award, tackling workload was written in to the agreement. The Education Secretary has approved two extra in-service days to address this issue amongst others. The agreement states that 'issues and activities for such days should be decided at school level and by collegiate process.'

Action

Agreement is being sought by the Teachers' Side for school plans for the additional in-service days to be submitted to the Joint Secretaries for information as a means to ensuring best practice.
