4 CODE OF CONDUCT

The Head of Corporate Governance provided information about the adoption of a Code of Conduct for Devolved Public Bodies that set out standards of behaviour that could be applied to members, given that their role would include the allocation of public funds. The Code of Conduct would require community representatives to register their interests and to declare those interests at meetings. In this way, business conducted by the Local Partnership, which was not part of the formal Board structure of Renfrewshire Council, would be open and transparent. It was noted that Councillors held a statutory duty to adhere to the Code of Conduct for Councillors and already had a Register of Interests in place.

It was proposed that Members do not complete the formal Register of Interest but ensure that if they have an interest (whether financial or non-financial) in any item of business at future local partnership meetings then they declare the interest accordingly. This was agreed unanimously.

DECIDED: That it be agreed that Members to not complete the formal Register of Interest but ensure that if they have an interest (whether financial or non-financial) in any item of business at future local partnership meetings then they declare the interest accordingly.

6 KEY LOCAL PRIORITIES

A presentation was delivered by the Strategic Partnerships and Inequalities Manager, the Development Plans and Housing Strategy Team Leader and the Community Capacity Development Officer, Engage Renfrewshire, relative to identifying common matters that were important to people in the area and setting local priorities for improvement. It was envisaged that, once identified, these local priorities would be used to target resources and improvement actions.

The presentation, together with a Local Profile providing background information, detailed key facts about the population; children in low income families; access, health and crime deprivation; children and education; parks and play areas; health resources; care homes, extra care and sheltered housing specific to this Local Partnership area.

Based on the information provided, members worked in groups to identify and set local priorities for the area. After discussion, the following key themes and priorities were identified (in no order of importance):

- Renfrew Town Centre - improvements to economy, communal spaces and town centre events;
- Making Use of Public Resources - improving community buildings, making use of green space;
- Connectivity – improving roads infrastructure, public transport, cycle routes and any form of active travel
- Health & Wellbeing - social isolation (inter-generational), improve drug and alcohol misuse; and access economic opportunities.

Based on these key themes and discussion at the meeting, the Strategic Partnerships and Inequalities Manager advised that a draft copy of the key themes and local priorities would be circulated to members of the Local Partnership.

DECIDED:

- (a) That the key themes and local priorities identified for this Local Partnership be approved; and
- (b) That a draft copy of the key themes and local priorities be circulated to members of the Local Partnership prior to the next meeting.

There was submitted a report by the Chief Executive relative to the name of this Local Partnership and arrangements to be put in place for future meetings. It was noted that community representatives could claim expenses of £50 per annum, from Local Partnership funds, for attendance at meetings.

- 1.3 A community conference event for Renfrew will take place during September/October 2019. The next meeting of the Local Partnership will take place in November 2019. The date and venue of the conference and the Local Partnership will be notified to members in June 2019.
- 1.4 Renfrew Local Partnership agreed that members do not complete the formal Register of Interest. Where members have an interest in any item of business at future meetings, they will declare this accordingly.

2. Recommendations

- 2.1 It is recommended that Renfrew Local Partnership:
 - (a) Note that the agreed name of the partnership is Renfrew Local Partnership.
 - (b) Note the arrangements for the Youth Participatory Budgeting exercise and informing local members of Renfrew conference and Local Partnership arrangements for autumn 2019.

3. **Key Issues For Consideration**

Name of Local Partnership

- 3.1 Members of Renfrew Local Partnership discussed and agreed at the meeting on 26 March 2019 that the name of the Local Partnership remain the same going forward.

Schedule of Meetings

- 3.2 Renfrew Local Partnership agreed at its meeting in March 2019 that a conference event would be held in the area in order to engage with community groups, voluntary organisations and members of the public who are not represented formally on the Partnership, to take place during autumn 2019. The next meeting of the Local Partnership will take place in November 2019.

Youth Challenge Funding

- 3.3 Each Local Partnership receives a proportionate share of the Youth Challenge budget, which funds projects and activities benefiting young people up to age 25. The Youth Challenge element of the Renfrew Local Partnership budget will be allocated through a Youth Participatory budgeting exercise, where young people in the area vote for the applications that they want to see funded. This will be the same for all Local Partnership areas.
- 3.4 Participatory Budgeting means that the people who are intended to benefit from the projects vote on which projects are funded. Young people from each of the Local Partnership areas will be involved in developing the process for conducting the Participatory Budgetary exercise before a voting exercise is opened up to the wider community of young people in each Local Partnership area.

Code of Conduct/Register of Interest

- 3.4 A presentation was made at the March 2019 meeting of Renfrew Local Partnership regarding members signing up to a Code of Conduct and Register of Interest. This presented information for consideration by each Local Partnership on the issue of members of the Local Partnership signing up to a Code of Conduct and completion of a Register of Interest. It was decided at the meeting that Renfrew Local Partnership members would not be required to complete the formal Register of Interest, but would declare interests where these arise at future meetings.

- 1.2 At the last meeting of the Renfrew Local Partnership on 26 March 2019, members agreed a draft set of priorities for the Local Partnership. The priorities identified for Renfrew were:
- ❖ Bringing Renfrew Town Centre to life
 - ❖ Moving around and connectivity
 - ❖ Making the most of public assets
 - ❖ Strengthening social connections
 - ❖ Maximising economic impact – Key Theme
- 2.2 Applications for funding from Renfrew Local Partnership have been invited to reflect these priorities. A description of the priorities is set out at paragraph 4.1.
- 2.3 The available allocation for Renfrew Local Partnership is £107,813. This is made up of £40,453 General Grant Fund and £67,360 Renfrew Common Good Fund. The total value of applications received is £131,308.52. In addition a sum of £50 per community representative requires to be ringfenced for potential claim of expenses, as agreed at the March 2019 meeting.
- 2.4 The Youth Challenge Fund component of Renfrew Local Partnership Funding is £18,657. This funding will be allocated by young people through a Participatory Budgeting process to take place later in 2019.

3. Recommendations

- 3.1 It is recommended that members of Renfrew Local Partnership consider the applications for Local Partnership grant funding, as set out below in Appendix 1 and Appendix 2.

4. Background

- 4.1 The priorities of the Renfrew Local Partnership are:

Bringing Renfrew Town Centre to life

The Local partnership want to see more things to do in the town centre, particularly encouraging local events and seeing more happening in the evenings. They want to do this by making best use of community assets and spaces, including working with the town centre business community.

Moving around and connectivity

The Local Partnership wants the economic investment in Renfrew to benefit the local community, particularly making it easier for people to get around the town, and to travel to and from Renfrew.

Making the most of public assets

The Local partnership want to see the maximum use of public resources, such as parks and outdoor spaces, as well as maximising the use of buildings in the community.

Strengthening social connections

Improving social connections and tackling social isolation is a key theme for the Local Partnership, and the Partnership recognise this affects all ages, including younger and older people. Community events and activities are important, as will be a focus on improving health and wellbeing locally.

Key Theme – Maximising Economic Impact

The Local Partnership want to see a focus on boosting the economic outcomes for people in Renfrew and how this can support their Local Priorities.

- 4.2 Guidance and Criteria for funding

To assist all interested groups and organisations with the application process, guidance was produced and promoted across a variety of communication channels.

Potential applicants were also invited to attend drop in sessions to receive advice on making an application and to ask questions about the guidance. More than 70 groups participated in the drop-in sessions.

The guidance set out criteria against which applications should be made. For example, guidance was provided on applications made to more than one partnership, indicating that Local Partnerships would require applications to evidence how an application would meet identified local priorities, and would anticipate that funded activity was being delivered locally. The guidance also includes criteria relating to maximum levels of investment, applications from partner organisations and what funding should and should not be used to support amongst other issues.

Further support and information will be made available to those applicants who are not successful in gaining funding, and in particular to signpost applicants to other sources of funding. For reference, the guidance can be accessed [here](#).

We are currently creating a modernised facility at Lapwing Lodge Activity Centre, at a cost of £70,000. To support the existing facilities at the Hobbit houses, which provide accomodation for 40 people complete with kitchen and dining facilities. Our new LEADER funded activity hall and outdoor learning centre is due to commence construction May 2019, supporting the hobbit houses with activities and indoor space, complete with toilets and showers. The refurbishment, modernisation, and adaptation to the existing games hall will provide campstaff accommodation, and an indoor space for training, meetings, group activities and indoor learning opportunities. This project will provide a central point at the site to operate our watersports, archery, climbing, moutain biking etc. This new reception and staff area will offer us a centreal meeting point for our visitors and users.	

		<p>This Scoutreach Community Partnership Project was identified by the Management Board and young people on the campstuff, and our active support unit as a desirable addition to our existing facilities at Lapwing Lodge. The creation of the Hobbit houses in 2017 offered us a new opportunity to expand the facilities and activities available on site to smaller Community Groups, linked with outdoor activities currently on offer. The construction of a new activity hall and outdoor learning centre has opened up a wet weather facility complete with showers and toilets, to support groups taking part in our activities and outdoor learning. New facilities are needed for our growing voluntary campstaff team and active support unit, this project will provide training opportunities and outdoor learning skills for new community groups, from the local partnership within Renfrewshire council areas.</p> <p>This upgraded facility will achieve 4 main aims 1. It will provide small local groups with accommodation and indoor space for learning and activities. 2. It will open the centre to a complete range of people within the local community tackling isolation, poverty, inclusion with new groups. 3. It will help centralise the centre management, offering a meeting point for groups undertaking activities at the centre. 4. This enhanced facility will open new learning and training facilities for a variety of current and future users. We propose in partnership with the newly formed Community Partnerships to identify suitable groups within each area who may benefit from this project, and offer them the opportunity of a 4 day residential experience, complete with activities to support their work within their communities. Our anticipated outcomes are varied and form part of the strategy for development at the Lapwing Lodge Activity Centre. Going forward we will offer out Scoutreach Community partnership project to existing and new users within the local community partnerships being developed within Renfrewshire council. Outcome 1 - To encourage new user groups from local partnerships to facilitate the hobbit houses Mon - Thur 40 people, accommodation and activities, suggested groups, vulnerable families, carers, people experiencing isolation, families recovering from addiction. What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3	Over the past 4 years we have been doing a lot of work in Renfrew working in partnership with Newmains Primary and The Forget Me Not Cafe. Our sining group Singing through the Ages certainly is working towards the Local Partnership Priorities. First strengtheneing social connections with our singing group creating ain intergeneration choir and singing at out community event Soopir Day (Strengthening Opportunities for Older People in Renfrewshire) as well as singing to the Forget me not Cafe in the Renfrew North Church quarterly. This really does improve health and wellbeing locally. Our tenants are wanting to improve their health and wellbeing and lead a healthy lifestyle. With this project they can have the best of both. Many of our tenants get lonely and depressed when they don't engage with many people. But bringing people together to sing as a group is a great benefit to their health especially when they get to join up with a variety of ages. What we are doing just now is giving the tenants the opportunity to socialise and come together to listen or join in. We also welcome partnership working, just now it is only Newmains Primary and Forget Me Not Café but perhaps in the future we can get other similar choir or singing base groups that may help us out on a volunteer basis or they get funding to work within the community and that will keep the expenditure of grants down.

		<p>One of the things we have been fortunate to be able to use is our very own Soopir bus that makes it easier for us to get the singing group out to other venues so maximising another priority for Renfrew Moving around and connectivity.</p> <p>For our tenants to be able to engage socially and be more confident within themselves. The barriers that working with other organisations old and young break down will be incredible for not only us but for the whole community. One of the things we have been fortunate to be able to use is our very own Soopir bus that makes it easier for us to get the singing group out to other venues so maximising another priority for Renfrew Moving around and connectivity. Although we are not wanting any money for the Paisley Puffins, we have many walkers in the Renfrew area that are making use of the parks and outdoor spaces for our walks. What does your Organisation/Group do?	1.10	To develop/maintain; A locally based community community run ice hockey team, A focus for local & junior ice hockey players to enable them to develop their skill levels, A focus for local volunteers to enable them to develop their skills in areas such as literacy, numeracy & oral skills, An affordable facility for locally based ice hockey supporters & parents of young players, An interest in the sport at a local, Renfrewshire based level from an early age onwards.	
Local Partnership applied to for funding and Local Partnership area(s) covered activity	1.13	Renfrew (all LP areas applied to) Children & Young People	
How much grant funding are you seeking?	2.10	£8000.00 which is <33% of the total ice costs. NB the total operational costs per season are just short of £39,000.00	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.9	To provide part funding re hiring of ice to permit ice related activities for adults/young persons to take place at Braehead Arena, the only such facility available within a 30 mile radius of Paisley. That part of funding required & not included within the application (& indeed, all other costs) will be met from club fundraising. It should be noted that Renfrewshire Council approved a motion seeking to assist the club in developing an ice facility within the Paisley area which would allow PPIHC & other clubs generated to develop base premises which would preclude the need to apply annually for grant assistance to rent premises elsewhere (ie Braehead Arena, currently the most expensive such facility in Scotland). To encourage more people to watch/play ice hockey to encourage a healthier lifestyle. The club seeks only to ask for assistance re ice rental, which accounts for approximately 70% of the total costs likely to be incurred, and seeks assistance to meet 30% of that total cost within a ring fence for ice rental costs. All other expenditure will be met from within its own resources.	

Paisley Pirates were first formed in 1946 & from then until the 1960's played at East Lane. In 1992 they were resurrected at the Lagoon Leisure Centre & from then until 2006, when Renfrewshire Leisure Ltd withdrew ice facilities there. While Pirates were successful in relocating to Braehead Arena, the cost there is prohibitive, currently standing at almost £200 per hour with an 8% increase pending. The various other activities such as junior development fell due to the high cost. Due to the paucity of ice facilities Pirates have on occasions gone as far as Dundee & Dumfries to secure ice.

Because of rising demand for a skills based approach the club has appointed a second volunteer coach for the senior team & intends to appoint commensurate numbers of volunteer coaches in respect of the planned re-introduction of junior ice hockey for players under the age of 20.

NB - The club are actively working in conjunction with Renfrewshire Council to establish an ice facility within Renfrewshire for all ice sports It will enable

- 1 The club to continue providing a local focus for the sport given that no other suitable venue is currently available at either senior or junior level.
- 2 The continued development of on-ice skills at senior/junior level.
- 3 The continued & enhanced development of off-ice skills for volunteers & adults with learning difficulties able to carry out duties on match nights requiring numeracy/organisational/interpersonal skills.
- 4 The club to publicise the existence of an ice hockey team in Paisley through local media outlets & maintain a significant profile in the area eg the club has featured regularly in an annual project run by a Canadian tourist agency (circulation 0.25m) which promotes Paisley as an ice hockey town for potential tourists.
- 6 The club continues to promote itself & its volunteers through various local competitions publicising the work done by such volunteers &, indeed, has won a number of them.
- 7 The high profile enjoyed by the club will help it attract young people

Outcomes:

- 1 Development of enhanced on-ice skills through regular practice/game situations.
2. Enhanced off-ice skills through use of volunteers referred to above in various activities/learning situations.
3. Continued success in local/national awards.eg in last few years, player/volunteers have achieved success in award competitions & head coach has been included in national under 17 squad as coach.
4. Continuing iconic name of ""Paisley Pirates"" throughout Scotland & beyond. E.G. former fan flew in from Hong Kong to show his young sons what Paisley Pirates & ice hockey were in September 2018. Club continues to have special status in eyes of past/present residents.
- 5 . Growth of Junior Development section through establishing of under 20's branch. "to its youth development programme.

Supplementary Information submitted for RENFREW

Bringing Renfrew Town Centre to Life

The club train and play their games in Renfrew, staging approximately 16-18 local events each year in the form September to April each year. Visiting supporters thus come to the area prior to matches and go into shops, visit the Town Centre, etc. The club is participating in this year's Renfrew Gala Day, demonstrating its desire to be regarded as part of the local community.

The club's mascot, a seven foot tall cartoon figure known as Timbers, will be on display at the Gala Day walking around the site, having his picture taken with small children and other adults, and generally making a positive contribution to the day's proceedings.

Moving Around & Connectivity/Strengthening Local Connections

As indicated, visiting supporters have the opportunity to visit the local town. On a local basis, residents of Renfrew can attend ice hockey on their doorstep and identify with 'their' local team, as well as form friendships and relationships with other supporters from neighbouring communities.

The club has helped make it possible to move around the locality in safety by promoting campaigns such as the Paisley Daily Express project which sought to remove knives from the streets. Players from the club were featured holding car stickers displaying that message, which were thereafter distributed to supporters and members of the local community.

As well as weekly features in the Paisley Express during the season, we have our own website, 2184 Facebook Followers with 2179 Likes, 2180 Twitter Followers, 483 Instagram Followers and various other digital outlets within Renfrewshire such as Whats on Renfrewshire etc

Maximising Economic Impact

With approximately 16-18 home matches per year, (typically attracting 200 to 420 people per game) the club helps generate more visitors to the local area (eg Braehead and Renfrew Town Centre), thus increasing footfall on those occasions.

The creation of our Junior Development programme would ultimately lead to visiting teams attending the local area to fulfil fixtures, and further boost the economy of the local area.

NB - The club are actively working in conjunction with Renfrewshire Council to establish an ice facility within Renfrewshire for all ice sports

Local Partnership applied to for funding and Local Partnership area(s) covered activity	1.13	Renfrew Children & Young People	
How much grant funding are you seeking?	2.10	£8,275.00 (Applications totalling £56,725 made across the 7 Local Partnerships)	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.6	<p>The purpose of this project is to get kids active within the Renfrew area. At present there are over 334 pupils that have either self identified or been identified by their parents as being inactive. This data was found using an Active Schools survey that was conducted across all schools in Renfrewshire. This programme will help to improve activity levels by offering a variety of free activity sessions whilst tackling the barriers to participation. This programme will also aim to up skill local high school senior pupils to enable them to provide sport sessions within their community as volunteers. This will help to increase the future sustainability of this project and continue to improve activity levels.</p> <p>This project was identified using the data collected from the 2018-19 Active Schools activity survey. This survey was issued to all high school and primary school pupils within Renfrewshire. The survey received over 19,000 returns from a possible 23,544 pupils. The survey highlighted that 334 pupils from the Renfrew area are currently completing less than 3 hours of activity per week.</p>	

		<p>This programme will help to improve activity levels by offering a variety of free activity sessions whilst tackling the barriers to participation.</p> <p>This project will work with the families to encourage participation in free activity sessions within the local primary schools. These sessions will focus on the sports requested by the pupils through the activity survey.</p> <p>The project will also provide training opportunities such as level 1 sports courses and first aid training for 25 senior pupils from the local high school. Once their training is completed the pupils will be provided with placement opportunities within the local primary schools. This will allow them to provide volunteer led sessions at zero cost to the participants and wider community.</p> <p>The anticipated outcome of this programme is that the number of inactive pupils within the Renfrew area will decrease during the 19-20 school year.</p> <p>This project will also train 25 new young leaders who will hold the appropriate qualifications to enable them to volunteer within their own community of Renfrew.</p>

Local Partnership applied to for funding and Local Partnership area(s) covered activity	1.13	Renfrew	
How much grant funding are you seeking?	2.10	£14,202.00	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.4 2.5 2.6	<p>The purpose of our project is to improve the mental/physical health and well being in the Renfrewshire area, we do this through a variety activities which include the following: Drop in, Footcare, Cooking classes, Sport and Play and CV/Employment services.</p> <p>The project was identified and developed for the people by the community of the people.</p> <p>Sport and play is a very important part of OPOF and teaches children to develop valuable social skills in a structured environment while also getting them into routine exercise that they will need throughout their life's. Unfortunately there are several barriers that stop kids to interact with other kids and who are unable to come along to the same groups/activities as one another due to cost. This is one of the reasons there is so much deprivation amongst different areas which has a social effect on young people especially with families who have multiple children. Not only does this let kids attend the play scheme but it gets kids interacting with kids from different areas which decreases social isolation and breaks down territory barriers. As a whole we believe that all kids should have a voice and be able to voice how they feel wither be good or bad and to know that they can speak out to staff/volunteers or anyone whom they deem to trust. By achieving this Our Place Our Families encourages the kids to communicate by working together in groups and reminding the kids they are able to say how they feel and if they would like to offer any ideas within the group.</p>	

		<p>We give them the chance to reflect and evaluate on their day and let them voice if they would like anything different while at the play scheme. By supporting the kids to be outspoken and confident we hope that this benefits them in their future through different aspects of their life as referring to the third difference they are the next generation.</p> <p>The anticipated outcomes by running the play scheme is to give our young people a safe, fun and structured environment place to play, socialise, break down territory barriers and lessen isolation and show that everyone is entitled to equal opportunities.</p>

The children will work in groups (team building) will follow instructions of build (problem solving), once basic build can add motors (engineering, technology) and learn how this process works and then start to create their own builds (confidence). The classes will be once a week over summer holidays (6 weeks). Volunteers will be able to be trained up on how to deliver these classes after the 6 weeks so that we will be able to continue with classes after school when the school returns. Resources - with the help of the STEM teaching purchase kits for a class of 20 and this will give us an excellent start. Enclosed Training Area. We have football training/sports coaching through the summer but have to stop in August due to the Training Area being too dark. Generated lights would mean that the evening activities would be able to continue past August.	

		<p>Generated Lights would mean that the evening activities would be able to continue past August, this would make an immense difference to the football group being able to stay at the park instead of moving to expensive places for training, the sports coach would also be able to stay, thus with both groups no moving will encourage other park users from August - December. Not all children are into sports and this is why the STEM Class in the hub would create a totally different learning experience. We held a taster class during the Spring holidays and the attendance and interest was extremely high and identified that this would be a very beneficial class to continue with.</p> <p>The benefit of the project will bring children, families, volunteers, community together and through the classes form confidence, skills, friendships and fun Education in the process. With improvement on social connections in the community this will improve on the Health and Well being of the people ibnvolved in the park.</p> <p>The outcomes of the activities is more people will be involved especially the darker nights in the park and this will encourage others to use the park. We provide an afternoon of friendship and fellowship that allows the members to meet and develop their friendships. Entertainment and social activities are provided on a weekly basis from October to May. The entertainment includes children from Ferguslie Park Community Nursery, Mossvale Primary School and Castlehead High School as well as entertainment provided by Adults. Members also have a much appreciated cup of tea or coffee and goodies. The programme includes a Christmas Lunch and an Annual Outing.</p> <p>The Committee identified that many members would be unable to attend our weekly meetings without the provision of transport. A vast number of our members live alone and the Friendly Hour is the only time that they may see other people. It gives them the opportunity of mixing socially, allowing them to chat and at the same time give them some entertainment thus avoiding an afternoon of loneliness and isolation. With an average of over 85 and many who are quite infirm, there is a stronger need for these people to be transported to a happy and lively environment for a few hours on a weekly basis.</p>	

		<p>If we are successful in securing the grant, it will assist us to continue to provide much needed transport to bring these people to and from the Friendly Hour, thus giving the much needed company. We ensure that transport is booked on a weekly basis.</p> <p>By providing transport we are reaching out to people in the communities who may not be able to get out - in some cases this is the only outing of the week. We are able to bring them into a group where they get friendship and fellowship. We must remember that many people experience loneliness and isolation and many don't have many opportunities for conversation. What about the joy of sharing a story or a sing-a-long and hearing news from the communities?</p>

How much grant funding are you seeking?	2.10	£1,012 (Applications totalling £5,172 made across 5 Local Partnerships)	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 to 2.6	<p>This project involves working with young people aged 5-18 years who are classed as 'At Risk' by the Social Work Department. A number of these children are living with grandparent carers (Kinship) . The purpose of this project is to encourage youngsters to speak about their feelings through play and education where the youngsters are taught about illegal / and legal drug taking, healthy eating, keeping themselves safe and learning to make meaningful connections with each other and the wider community. Additionally, the project will seek to up skill and empower parents/carers with the prerequisite skills to raise healthy, thriving children through training programmes and support.</p> <p>The need for the project was identified due to grandparent carers identifying barriers to explaining to the children they are caring for about why they can't stay at home. Grandparents stated they felt ill equipped with proper tools or skills to explain about illegal and legal substances and additionally the role of authority figures such as social work and police. Research has demonstrated the stigma experienced by children classed as 'at risk' and shows that kinship carers can experience high levels of social isolation. This project seeks to address this by offering a nurturing, caring and empowering environment where families can come together and become part of the community.</p>	

		<p>We will continue to address the needs of our local community and offer education through play around drink and drugs, healthy eating and mindfulness sessions.</p> <p>We will continue to address the needs of our local community and offer education through play around drink and drugs, healthy eating and mindfulness sessions.</p> <p>The grant will develop our mindfulness programme along with fitness, healthy eating and education around substance misuse teaching families that recovery is possible in any addiction and teaching young adults they can break the cycle by healthy life choices. We already work closely with the Star Project, Carer Centers, Families Outside (a charity that works solely on behalf of families affected by imprisonment.), local libraries, Our Place, Our Families (a charity with the aim of improving the quality of life of people who live in the Renfrew community) and Renfrewshire Support Group. We intend to expand and run workshops in employability and disclosures to increase the employability of parents/carers. We anticipate 24 children and 16 carers will attend our summer program which will run 2 days a week for the duration of the summer school holidays.</p> <p>This programme will allow for a platform to discuss issues that would not be addressed in a home environment, such as why children are not been looked after at home, the difference between illegal and legal substances, it will encourage community members to get involved in the local community and work their way out of poverty, which would also break the cycle and lead to healthier life. This project will offer community members the opportunity to engage in more activities in Renfrew. The project will utilise public resources, such as parks and outdoor spaces, as well as maximising the use of buildings in the community. Primarily, the project will strengthen social connections and tackle social isolation on an intergenerational level by focusing on improving health and wellbeing in the Renfrew area. We anticipate, as a result of this project, that there will be a reduction in stigma associated with kinship care, a reduction in the social isolation experienced by individuals (young and old) with social work involvement and we anticipate an increase in community members being involved with local activities and groups. Saliently, we anticipate an increase in confidence and community connectedness in all individuals engaging with this project.</p>

What does your Organisation/Group do?	1.10	We are a voluntary constituted group that seeks way to enhance the health and wellbeing of all residents living in Renfrew Care Home. We do this by organising fundraising events and we apply for grant funding to help support specific projects that aim to reduce social isolation.	
Local Partnership applied to for funding and Local Partnership area(s) covered activity	1.13	Renfrew	
How much grant funding are you seeking?	2.10	£10,000.00 (general grant & common good ticked)	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.4 2.5 2.6	<p>Namaste Care refers to being respectful to the spirit within each person, which is one of the main purposes of this application.</p> <p>Renfrew Care Home has it's own Namaste Care room that has been in use for years although it is not as fit for purpose as it once was. There is real need to make this Namaste room usable again because people are coming to live at the care home who are much frailer, less mobile and there are increasingly higher levels of dementia among all individuals living there overall. The other part of this project focuses on the individuals who are living well with dementia both in the care home and in the wider community which is the other focus and main purpose of this application as we want to promote the care home as a community asset and to offer a variety of activity options for older people living in Renfrew Care Home locality. We want to create a programme of activity that will tackle loneliness and isolation, promote positive mental health as well as strengthen social connections. We want to promote positive mental health for people living with dementia, we want everyone involved to feel like they can express themselves no matter their physical ability with a programme of activity that main aim and purpose is to make people feel like themselves again.</p> <p>This project is strongly linked to a document released by the Care Inspectorate called "Arts in Care", something we will develop aspects of as it shares some of the same outcomes as the Local Partnership in terms of tackling loneliness and isolation.</p>	

As above, people are living longer due to medical advances and there are much higher levels of dementia than there was a decade ago. There is a real need support a wide range of activity in the care home to help individuals transition from living at home to living in the care home and, equally, we want families, friends and staff to get involved in any process we can facilitate because feedback and evaluations have shown time and time again that there is more interaction at group activities or planned events where a person feels relaxed doing something they love, whether that is singing, dancing, drawing or petting animals, and for a split second they're no longer a person with dementia but they're simply just mum or dad. Renfrew Care Home Activity Group realises that there is a need to increase activity levels in the local community because many older people are on our doorsteps although very much isolated and lonely. We will develop this project with the local community in mind and we will encourage participation in the project with our younger partners from Arkleston Primary to ensure the younger generation are educated and have experience of some of the issues people living with dementia face, which in turn will help to improve the overall intergenerational connections across the community too. We know that there is a real need to strengthening the care home social connections and there is a growing demand for Namaste services for people who are nearing the end of their life, both of which have been recognised through feedback from residents, staff and relatives of residents who live, visitor or work there.

We will transform the existing Namaste room making it more inclusive to all residents who will benefit from this type of care service. We'll do this by purchasing two new specialised reclining chairs designed to get older people in and out with ease and care. The room itself is quite feminine at the moment although we will decorated in a way that is calming, natural and homely. We will introduce sensory equipment to enhance the ambiance of the room too. This room will be used by the residents who are unable to attend social activities because they are with limited mobility and nearing end of life. The Namaste room will act as a place that a person can be taken to indulge in various one to one activities, such as gentle massage and aromatherapy. The other part of this application focuses on "Arts in Care" involving the other residents who are more able and living well with various forms of dementia. For this part of the application we will introduce a programme of activity that will take place in the care home however it will be open for the wider community to participate in. We will book singing groups, tap fit and exercise classes that will run fortnightly along with monthly art classes and pet therapy sessions, all of which are dementia focused activities.

		<p>We'll advertise all the visits we books and in turn we hope to see new relationships and social connections build and develop over the course of the project term. We plan to invite along other care homes, sheltered housing tenants, people who attend Renfrew day centre and we'll advertise dates on websites to try and encourage as much participation as possible. We will include the school we work with weekly to ensure that the younger generation are educated on health issues such as dementia and the impact that has on a person, whether the person is living well with an illness or nearing the end of their life. We want to try and include as many people in this project as possible and to promote the care home as a community asset.</p> <p>We anticipate that residents nearing the end of life living in the care home will feel more valuable and feel at ease with the change to the Namaste Care room. Equally, we want to promote the care home as a community asset by arranging a varied activity programme that aims to increase community participation by many people of all ages. We think younger people will learn about dementia and Namaste Care which will have a positive impact on the wider community too. Overall, we anticipate that health and wellbeing levels will increase among everyone involved, no matter the persons ability, age or gender.</p>

So we have plenty of opportunities to chat and talk about the different types of things or members would like us to arrange. We have also run a variety of different activities for the members. These have included, card making, gift making for Christmas, blanket knitting and other types of things. From this we have put together a kind of wish list that our members would like to take part in when we all return from summer and look towards what will bring us out of the house during the worst of autumn and winter. These lists always have trying out more and more arts & craft styles.</p> <p>This project is about offering a way for our members to get involved in something they really enjoy. How much grant funding are you seeking?	2.10	£6,585.20	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3	<p>The purpose is to strengthen social connections in Renfrew by bringing play sessions to the community. The plan is to reach as many children as possible in the Renfrew area by bringing the play facilities to places where children congregate each day. We aim to improve the health, fitness and wellbeing of the engaged children by delivering nine play-sessions to seven centres. There are 1800-2100 children to engage with in Renfrew. By using the Playbus, the children will burn approximately 357,000 calories with our project. This improves health, wellbeing and the social interaction of our children of Renfrew.</p> <p>The need was identified from the working relationship with the Pre-five hubs and Primary Schools in Renfrew. We have engagement intent from seven centres who wish to use the Playbus facilities. Playbus' focus is to work with centres where children congregate. These centres find it difficult to fund play-sessions. These centres would be able to provide the benefits of using the Playbus to children if funding assistance is available to bring in the facilities at a subsidised rate. These centres often request the facilities at a subsidised rate.</p>

Across the sessions, the approximate play reach will span to 2,056 children bringing happiness to their lives in Renfrew through play. This is based on numbers provided from intent commitment. Marketing support will be provided across social media channels and the centres will promote the focus days from within the centres. Non-structured play dates will be organised with each centre. Each centre will be responsible for length of play session per child and supervision of play.</p> <p>Improvements of social connections are expected from play sessions delivered by Playbus SCIO. Playbus expects parents, caregivers and teachers to see an increase in happiness, an improvement in health and wellbeing. Regular useage of the facilities allows regular fun exercise to burn calories and help deliver the required amount of play and excercise to the children of Renfrew. The outcomes link to Renfrewshire Council Plan. Playbus can work together to tackle inequalities and ensuring opportunities for all. What does your Organisation/Group do?	1.10	<p>Our purpose is to give young potential musicians access to facilities, equipment and expertise, giving them a platform to play live music and providing them with the management skills to organise their own community based music events. The aim is to bring young people together to share ideas in a creative environment. The overall aim of Loud 'n' Proud is:- To provide young people with learning opportunities which promote the growth and development of specific life skills such as organisational, leadership, and communication skills which can enable young people to grow into motivated and responsible young adults.</p>

How much grant funding are you seeking?	2.10	<p>£2, 832 per Local Partnership (£ 11,324.99 in total across 4 Local Partnerships)</p>	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.4 2.5 2.6	<p>We have been a tradition music school providing education in Guitar, Bass Drums Keyboards and Singing. Many young people today have found their way into music through technology based equipment. Loud n Proud would like to be able to offer a place for young people to learn how to create music digitally and cater for this 'new' music. We wish to convert a small room in our studio to a Digital Media and Music Suite. It will be a place where young people can explore and develop new skills in music and nurture their talents. They also gain a solid foundation in music theory and production, which allows many of them build on to develop own musical style becoming artists in their own right.</p>	

The Suite will be a digital multimedia facility boasting a professional IT suite and recording facilities allowing young people the opportunity to develop professional skills in music and sound technology, recording and video editing. It will provide a safe and social environment for young artists to experiment, learn and realise their potential.

The need was highlighted at our Summer Music School in 2018. Many of the attendees were beginners and the format was a come and try. So, after the young people tried out various things we had on offer we asked for feedback. When the course was finished the parents and young people attended a feedback session. One of the points raised was that not all young people were not necessarily interested in learning to play an instrument but wanted to 'make' music digitally as it was found to be easier and instantly accessible.

Also our Youth Committee and the young people who have taken part in recent other projects have identified that Digital Music is getting more popular and have suggested that young people who have an interest in IT rather than traditional instruments would benefit having access to a tutor and equipment. The format, structure and content are all suggestions that came from them and conveyed to the manager and this is why the application is being made.

We will be offering a number of ways to introduce young people to digital music and recording.

A series of workshops for Bands/Musicians and local organisations.

An opportunity to work with a professional studio operator.

One to one sessions for more advanced students.

Giving access to students who are ready work on their own. "It will benefit young people who can't afford music lessons, do not have the time to learn or maybe a disadvantage such as visual impairment, learning difficulties or poor motor skills. For some learning an instrument can throw up challenges such as time, money and aptitude. Learning Digital Music Production offers those from a technical or creative mind the ability to write and produce music almost instantaneously.

Participants learn team work helping each other and working together whilst editing their tracks, sharing ideas and collaborating on projects. A large part of the sessions will give young people who usually work in isolation the chance to network with other like-minded people and to exchange their experiences and expertise.

		<p>The equipment will give the young people a lot of freedom to explore and experiment with their tunes without actually playing an instrument.</p> <p>Transferable skills: Ability to be creative and think outside the box. ... Ability to plan ahead. ... Ability to take responsibility. ... Ability to collaborate and work effectively with others to meet goals. ... Ability to think and understand in patterns. ... Ability to manage time well and handle several projects at once."</p>

Lamont Farm offers a wide variety of services to various groups and organisations within the local area and further a field, work experience placements are provided to jobcentres, high schools, community service, kibble project and many more.</p> <p>The farm provides hands on experience for over 40 children who wish to pursue a career in animal care and veterinary practice, educational workshops are ran throughout the year for primary schools, nurseries and visitors.</p> <p>Lamont farm was founded by a group of individuals with a strong desire to establish a local education and community facility. We were the first City Farm in Scotland and the farm is very popular with families, nurseries and disabled groups as well as local schools. Around 10,000 people visit Lamont Farm annually. We aim to educate people from all walks of life in animal care, welfare and husbandry.</p> <p>The farm has many social connections to help promote mental health, wellbeing and to help lessen isolation. Animals are a great source of therapy and have a great ability to bring many different people together some people prefer being round the animals as a gentle way of reintroducing them into the community.</p>	

		<p>Some of the connections we have are RAMH, spark of genius, community service, West college Scotland's adults with additional needs and kibble we believe everyone should have the chance to be involved in their community. These connections help provide placements for anyone suffering mental health issues, physical disabilities, someone who has been out of the community, anyone who is looking to get back into work or anyone who just wants to volunteer, its a placement where everyone is included in every aspect of the farm with no judgement. We offer work experience placements to many different high schools throughout Renfrewshire and beyond including Renfrew and Trinity high school, the placements are invaluable to pupils wishing to pursue a career in the animal sector as not many places allow under 16's to work so closely with such a variety of animals, in recent years our volunteers have went on to become fully qualified veterinary nurses. We are on an active bus route with buses coming from many different areas which helps make it easy to visit from many parts of Renfrewshire and the surrounding areas.</p> <p>The farm runs regular educational and fun workshops to bring the community together to learn different aspects of animal care, our parent and toddler workshops are hugely popular bringing parent and toddlers from many areas Renfrew included. These workshops offer great fun for all participants of all ages as there are no other parent and toddler events which involve animals. We have great connections with the local and beyond nurseries and child minding groups providing them with workshops and tour and handling sessions where the children have great fun with the animals.</p> <p>We have a small secure play area based within the farm which is decorated by colourful cartoon animals which is hugely popular and many happy hours are spent by children and parents.</p> <p>The grant will help towards running costs to ensure the project can continue to provide a variety of services and continue to work with a number of local educational establishments within the community.</p> <p>To continue to provide services to local educational establishments and to continue to increase the number of placements offered through these.</p> <p>To continue to provide an outreach service to the local community to allow an experience that many people can enjoy.</p>

Local Partnership applied to for funding and Local Partnership area(s) covered activity	1.13	All 7 Local Partnerships applied to Renfrew	
How much grant funding are you seeking?	2.10	£371.50 per Local Partnership (£2,600.00 in total across the Local Partnerships)	
What will this grant be used for? Please provide a breakdown of the costs to be incurred. (Please use a separate sheet if required)	2.3 2.4 2.5 2.6	<p>To be in a position to continue to offer junior ice hockey training to all who wish to participate, at an affordable cost which makes the club available to anyone who wishes to join.</p> <p>Our players range in age from 7 to 17, with both boys and girls, of different social backgrounds and nationalities, taking part. They learn the skills and drills of the game in an atmosphere of fun combined with the discipline a team sport offers. It's a great way too, to keep fit and active and make lots of new friends.</p>	

We will provide the opportunity for as many youngsters as possible (7 to 17 years of age) to participate in our sport through our "Learn to Play" initiative.

Grant funding would ensure that participation remains affordable to all, whilst providing sufficient ice time to allow our players to progress their skills, partake in twice weekly physical activity and have a positive, healthy focus.

We will also develop coaches, some of whom are our older players.

Last season's further unexpected rise in ice hire and security costs, bringing the hourly charge to £277, placed an added financial burden on our players' parents.

We have been supported by grant funding from Renfrewshire Council for a number of years, following the enforced move from the Lagoon and the financial burden that followed.

This latest increase threatened the future of what is a very successful club and grant funding, along with already instituted higher fees and continued fundraising, will help secure the future of Renfrewshire's only grass-roots, junior ice hockey club

We will provide the opportunity for as many youngsters as possible to participate in our sport through our "Learn to Play" initiative.

Grant funding would ensure that participation remains affordable to all, whilst providing sufficient ice time to allow our players to progress their skills, partake in twice weekly physical activity and have a positive, healthy focus.

We will also develop coaches, some of whom are our older players, who also enjoy the social participation and physical activity.

The funding from this LAC application would also enable the club to meet the cost of another set of goal-tending equipment to allow us to increase the number of goalies (which is beneficial to all players who have a more realistic game experience) and the provision of annual awards which is essential to the motivation and recognition of the young people's efforts and sportsmanship during the season

Involvement in team sport brings great benefits to those taking part – encouraging a healthy and active lifestyle, increasing confidence and self esteem, encouraging team work, making like-minded friends and, of course, having fun!

There are opportunities to play ice hockey, competitively and recreationally, from age 7 to 70+ and many of the original intake at the Lagoon in 1992 are still regularly playing/coaching and will continue to do so well into older age, keeping fit in body and mind.

		At present we have players in training who are playing with the Scotland and GB squads and many youngsters sitting on team benches throughout Scotland We have female players in Scotland Ladies, progressing their hockey skills and training with others from around the country.

Priorities in Renfrew

Paisley has an emerging traditional music scene with a new generation of young musicians now coming through. Through our inclusive approach to teaching, participants are able to attend classes and learn together, strengthening community involvement and benefit. The awareness of Gaelic culture and local heritage has increased significantly since the establishment of Fèis Phàislig in 2014 and has allowed those interested in traditional music and culture to participate, regardless of background or ability.

- **Bringing Renfrew Town Centre to life**

Regular showcase events, ceilidhs and concerts allow us to make use of local community spaces wherever possible. Our projects will assist the establishment of a caring, community atmosphere and as well as participants benefitting socially, families and others within the community will come together for showcase concerts and public events.

- **Making the most of public assets**

Our touring Ceilidh Trail group will focus on visiting other groups and venues within Renfrew to deliver performances to those who may otherwise not have access to traditional music and Gaelic.

- **Strengthening social connections**

The social aspect of our 2019-20 programme will provide participants with the opportunity to make new friendships in an enjoyable and safe environment, working alongside professional artists and creative adults. This will create social benefit within the local partnership area and encourage health and wellbeing through live music and dance.
